

HOE DOWN & UGLY CONTEST MAKE DEBUT

YIPES! ! !—A picture is worth a thousand words, although the printed word on this parking ticket will be worth a little more than than. This unidentified (the name is withheld to protect the innocent) Falcon student had the misfortune to be parking in an unauthorized space. Los Angeles County Sheriff's patrol that parking area on an around-the-clock basis . . . don't be caught like this one. (CCASB/Photo by Highfill)

Blue Hawk Staff Plans Layout For Annual Pub.

Plans for a bigger and better than ever publication are now progressing according to Blue Hawk editors, Kathie Lewis and Carol Streets and assistant Wendy Sandler. The theme and dedication for the 72-page book have been selected by the staff who are now working on the all-important job of laying out the seven various sections.

Student Council Sports Blazers

Earl L. Klapstein, Director of Student Personnel, reports that the A.S.B. has purchased 32 men and 13 women blazers. These sport coats will be used only for A.S.B. functions, including student government conferences, athletics, or any organization directly sponsored by the A.S.B. representing Cerritos College. The blazers are made by LaJolla and are dark blue with the Cerritos College crest.

Baseballers First

If the jackets arrive in time, the baseball team will be the first to use them when they go to the C.O.S. Tournament in Visalia February 26 and 27. If they don't arrive in time, the Student Council will use them at the regional junior college conference in Chaffey, March 5.

The jackets will be stored in the physical education department and handled through the Student Personnel Office.

\$2.00 Fine If Badges Not In

A number of the Big C badges have not been returned. Guilty members should turn badges in to Amy Dozier at the Physical Education Building (office L) at once. Members will be charged \$2 for badges that are not returned.

At present Dave Clarke is coordinating the divisions pertaining to the faculty and administration; Judy Zittel is planning the arrangement of graduation pictures; Kathie Lewis is working out the student government section; Carol Streets and Kay Stahl are combining their efforts on all campus life; and Jim Ennis, Dan Bales and Pat Stewart are organizing the pages devoted to all

sports. The division pages and forward pages are being created by Wendy Sandler.

Claude Newton and Mary Smith are also active, as they have the responsibility of purchasing advertisements from local merchants who wish to help sponsor the publication.

New Set of Contest Rules

On March 18, the Omega Delta Chi, Business Club, will sponsor an Hawaiian affair entitled Hoolaulea Hawaii.

To keep up with the trend of contests on campus, a Mr. Beachcomber contest will be held.

Contest Open

The contest will be open to all male students on campus. The object of the contest will be to see which student will be able to grow the best beard.

All male students interested in entering the contest must register by February 26, in the Student Personnel Office.

Candidates

Candidates will be judged by a member or members of the Administration or Faculty and Mr. Beachcomber will be announced at the dance.

In order to participate the student must be clean shaven the day of registration.

Student Center Regulations Announced

Students using the Cerritos College Student Center are advised to be aware of certain new regulations regarding the area.

Card Playing-Food

These regulations include a ban on playing of cards before 2 p.m. and that food and beverages are not to be taken into the lounge at any time at all.

The rules also state that there will no dancing or sleeping in the lounge, and that the tables and sofas will not be moved around.

Do-Nots

Other do-nots include a ban on gambling, unauthorized posters, and congregating in the passageway between the coffee shop and the main area.

Suggestions

These regulations also include suggestions that the students buss their own dishes to the container provided, and not to use the southwest and northwest doors as an entrance.

Choice of Mr. Ugly Revealed Tonight

By Georgia Oakes

Highlighting the Freshman Class Leap Year Hoe down tonight will be the selection of "Mr. Ugly" from a list of candidates submitted by various campus organizations.

Leap Year Hoe Down Set Tonight

Girls are reminded to save the night of February 26, tonight, for the Hoe Down barn dance, sponsored by the Freshman Class. This is the annual leap year dance when the gals have a chance to ask their favorite fellow. The new Student Center will be the scene of the annual event.

Casual Dress

The dress is casual and the event will start at 8:30 p.m. and will last until midnight. Tickets will be sold by the clubs before the dance for \$1.50 a couple and may also be purchased at the door for \$2.00.

Mr. Ugly

A highlight of the evening will be the coronation of Mr. Ugly, the man's answer to Miss Heartbeat. Each club will enter a male student, make him as ugly as possible and stage a campaign to get him elected as Mr. Ugly.

Voting For Mr. Ugly

Voting will take place in the Student Center every day at noon from February 23 through February 26. Each vote will cost a penny. For each ticket sold before the dance, the purchaser may vote for the candidate of his choice. Once again the gals are urged to ask a fellow, for the annual 'Hoe Down' dance. Dress casually and vote for Mr. Ugly.

KMPC's Dexter Here Wednesday

Jerry Dexter, KMPC's bright new disc jockey, will be the guest of the Associated Student Body at Cerritos College this next Wednesday. Dexter will arrive by the radio station's air-watch helicopter at noon and will be a guest of the Falcons at lunch.

Students Leaders

Student leaders who will attend the luncheon with the newest of Southern California's top record spinners, include ASB President Dallas Moon, Commissioner of Assemblies and Rallies Dorene Nunley, Commissioner of Publicity Bill Axline, Talon Marks News Editor Kathie Lewis, Commissioner of Public Relations Carol Streets, Talon Marks Organization Editor Georgia Oakes, plus ASB photographers Ray Highfill and Dave Sonnenburg.

Dexter will be accompanied by John Dickson, publicity director for KMPC.

Marines Land

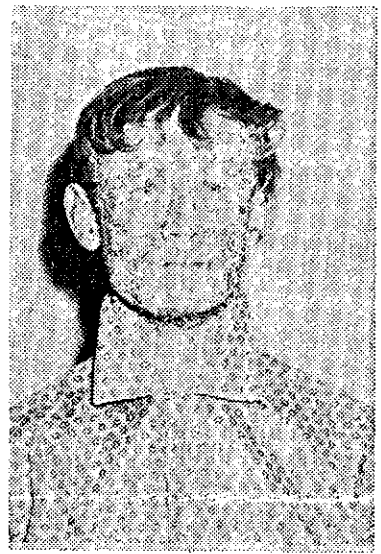

Captain W. E. Hutchison of the United States Marine Corps will be on campus next Tuesday and Wednesday, to meet with Cerritos students interested in the officer candidate program. The Marine representatives will be located in the Student Center from 9 a.m. until 3 p.m. each day.

Candidates for "Mr. Ugly" include Steve Mehnke, sponsored by Sigma Phi; Ernie Chadbourne, sponsored by Omega Delta Chi; and Richard Herbin, Delta Phi Omega, Theta Phi entered a surprise candidate.

Last week, each candidate was made as ugly as possible by his sponsoring organization, and photographs were taken of the men. These photographs were placed in the Student Center, and students voted for the man that they thought was the ugliest.

Last Day

Today is the last day to vote in this contest, which ends this afternoon. Selection began Wednesday, when the polls were set

Chadbourne (ugh!)

up in the Student Center. Votes for "Mr. Ugly" are a penny apiece, and each couple purchasing a ticket to the dance will be given 25 votes for the candidate of their choice.

The winner, "Mr. Ugly," will be announced at tonight's Hoe-down, and a nice prize will be awarded to the candidate selected by the student body. The election is expected to be a close one, due to the brisk balloting, and lobbying by the organizations involved.

Girl-Ask-Boy

Tonight's dance is the first girl-ask-boy affair to be held at

Mendez (gasp!)

Cerritos. There will be no stag tickets available for the event, but a large turnout is expected as the women become the aggressors.

Working hard to make the Hoe-down a "pea-pickin' success" are the Freshman Class officers, under the leadership of president Earl Ferguson. These young planners are: Maureen Piggott, vice-president; Roberta Armstrong, secretary; Leon Dodge, treasurer; Barry Adams, activity chairman; Bill Axline, publicity chairman; and Yvonne Brower, decorations chairman.

Around the U.S.

East Lansing, Mich.—(I.P.)—A new waiver program, starting with the winter term, at Michigan State University was recently approved allowing exceptional students to take exams to waive the Basic College courses: communication skills, natural science, social science and humanities.

Princeton, N.J.—(I.P.)—An experimental summer study program in Europe for undergraduate students interested in international affairs at Colgate, Princeton, Columbia, Rutgers and Swarthmore is being inaugurated with the aid of a grant from the Carnegie Corporation. The grant is for a three year program starting next summer.

Washington, D.C.—(I.P.)—The National Science Foundation recently announced a grant of \$1,750,000 to Yale University to continue the support of a special program to improve the teaching of mathematics in the nation's secondary schools.

The School Mathematics Study Group, headed by Edwards G. Begle, Associate Professor of Mathematics at Yale, was initiated in the spring of 1958 by a grant from the National Science Foundation. This new grant of \$1,750,000 is in addition to \$1,350,000 already given.

Briefly, the plan means that the student teachers will be spending more of their required education credits in practice teaching and observation in the classrooms of nearby schools. A "block" of time in high school classrooms and then, back again to the University courses at the close of the term for evaluation sessions. Textbook techniques and actual teaching experiences are thus tied more closely together.

Madison, Wis.—(I.P.)—To combat the practice of secondary school teachers being assigned to teach subjects for which they are not adequately prepared, the University of Wisconsin School of Education has altered its curriculum so that students can get a more thorough background in the fields or subjects they will teach.

Appleton, Wis.—(I.P.)—Lawrence College has received a second major grant from the Carnegie Corporation to underwrite its academic work. The new grant, for \$66,500 to be used over five years in the field of Asian studies, will allow for one new staff member, library support, a certain number of staff leaves and travel in allied fields and a conference in the third or fourth year to assess the results.

The earlier grant was to support the sophomore divisional reading program, now in its third year on the Lawrence campus.

Alma, Mich.—(I.P.)—Under Alma College's newly-instituted curriculum activity credits have been abolished and the total number of hours required for graduation, starting with the Class of 1963, has been increased to 121. In its report to the faculty, the Curriculum Committee recommended the adoption of general and comprehensive examinations at the end of the sophomore and senior years.

Cambridge, Mass.—(I.P.)—Leading scholars and scientists of Harvard are joining with selected freshmen this year in an experiment in "colleagueship." Freshmen of Harvard and Radcliffe College are doing laboratory research, field work and reading beyond the conventional limits of the first college year; and discussing their progress and findings with senior faculty members in small seminar groups and laboratory workshops. For instance:

Atlanta, Ga.—(I.P.)—The Georgia Institute of Technology carried out \$2,650,000 in engineering and scientific research last year, which ranks it as the South's largest and the Nation's 10th largest research organization among the 116 universities and colleges who are members of the Engineering College Research Council.

A FALCON FEATURETTE

Counseling Office Has Good Guide To Future

by Tom Cavanaugh, Feature Editor

One of the most important segments of college life is the counseling and guidance service. This semester ten counselors, each representing a major field of study, were present during registrations to assist students in planning their college programs.

Personal Approach

To encourage students to approach and contact the counselors, a personal letter is mailed or presented to each student carrying 10 units or more. If the student has any problems pertaining to their study program, social or even personal matters the counselors are willing to assist in any way possible.

John R. Blakemore, Dean of Counseling and Guidance stated, "The students don't seem to realize the importance of the counseling and guidance service we readily offer them. They have many problems that could easily be corrected if they would only contact one of the counselors for a private audience. The counseling service is strictly for their benefit!"

Many Services

The counseling service covers many other areas of activities pertaining to educational benefits.

The principals of local high schools are contacted and arrangements are made for the counselors to appear at the schools in speaking engagements and personal interviews with the seniors seeking higher education. The counselors stress the importance of attending higher institutes of learning and attaining broader educational benefits, sorely needed these days to succeed in life.

The orientation classes for freshmen are also conducted by the counselors. These classes aid the new students in a selection of a major area of study to follow.

Placement Tests

Also, the placement tests are part of their duties. These tests measure the students aptitude in competing at a college level. Also their proficiency in English and math.

During the month of May, two "Open Houses" are held on the campus. One is directed towards

the seniors attending the local high schools in the Cerritos College District. The counselors conduct a guided tour through the class rooms pointing out the many facilities available at Cerritos and are quite proud in showing the guests the award winning campus.

Open House

The second open house, is held for the public in general. The counselors point out the many opportunities and facilities afforded by the college for public use. In particular, they stress the part the college plays in providing cultural and community enrichment through its plays, forums, sports and other activities.

Overall the counselors are the roots of the school and through these roots Cerritos will continue to expand and grow.

Racing . . .

(Continued from page 2)

sion, hot rods and claimers.

Modification Difference

According to Dave, the difference between a hot rod and a claimer lies in modification. A hot rod may be modified or "souped up" in any way the owner wishes. A claimer must be completely stock in bot engine and body.

The lanky journalism major also drives in the Destruction Derby, a type of race in which a driver tries to wreck other cars on the track. In the Derby, the last car able to move under its own power is the winner.

Family Matter

Dave feels that hot rod racing is ideal for the racing enthusiast who does not have the time or money to go into sports car or special car racing. Two other Clarke brothers are also engaged in racing, and the trio can be seen in races at Gardena and Ascot Stadiums.

COUNSELING A STUDENT—John Caine, counselor, talks to a Falcon student about his program for the coming semester. Constant and close contact with Cerritos students, allows every person to have every opportunity to be aware of all of the advantages of a college program. (CCASB photo by Highfill)

ritos beat the Vikes two out of three times and Tuesday's win was the third in a row, all of them coming with near-astronomical scores, 12-3, 11-10 and 12-3.

The Vikings picked up three of their seven hits in the first inning, then saw four scattered safeties during the remaining eight innings.

This is the B-52. Advanced as it may be, this airplane has one thing in common with the first war-galleys of ancient Egypt...and with the air and space vehicles of the future. Someone must chart its course. Someone must navigate it.

For certain young men this presents a career of real executive opportunity. Here, perhaps you will have the chance to master a profession full of meaning, excitement and rewards...as a Navigator in the U. S. Air Force.

To qualify for Navigator training as an Aviation Cadet you must be an American citizen between 19 and 26½—single, healthy and intelligent. A high school diploma is required, but some college is highly desirable. Successful completion of the training program leads to a commission as a Second Lieutenant...and your Navigator wings.

If you think you have what it takes to measure up to the Aviation Cadet Program for Navigator training, see your local Air Force Recruiter. Or clip and mail this coupon.

There's a place for tomorrow's leaders on the Aerospace Team.

Falcon Baseballers Stun LBCC; Trip Next

Cerritos College's baseball team swept to its fifth straight win of the season on Tuesday, stunning Long Beach City College, 12-3, in a game played at Falcon Field.

As lopsided as the score was, it still represented a come from behind win for the Falcons. Long Beach picked up all three runs in the first inning off Cerritos starter Dick Wantz, but relief work of Al Petrushkin and Barney Sims shut the door in the face of the Vikes for the rest of the contest.

Disaster for Long Beach was

spelled out in full in a nightmarish seventh inning that produced 10 runs for Cerritos. Trailing 3-1 going into the inning, the Falcons hopped on Vike reliever Buck Michaels for the first group of runs to insure the win . . . then treated two other pitchers just as roughly.

Big Inning

Mike Kettle, pinch-hitting for Petrushkin, started off the big inning with a walk. Shortstop Lou Sanchez followed with another walk, which in turn was followed by Sim's long single into left center, scoring Kettle. A

wild pitch advanced both runners, and a walk to Centerfielder Dallas Moon loaded the bases. Rightfielder Boyd Trimble walked to force in Sanchez and Third Baseman Jim Wolfsberger did the same to force in Sims. First Baseman Dan Bales was safe on a fielder's choice, with Moon scoring. Second Baseman Ken Roberts singled into left center and Trimble scored with the fifth run of the inning. Catcher Bob Olson was hit by a pitch and the bases were loaded again. Kettle, the man that had started the inning, made the second out with

an infield pop, but Sanchez cleaned the bases with a long triple off of the left field fence. Sanchez scored a moment later on a wild pitch. Sims came back to line a single into left, which in turn was followed by Moon's drag bunt single past the Viking third baseman. Trimble singled into left, Sims scoring, but Moon was thrown out at third trying for an extra base. For Long Beach, the nightmare was over.

Other Runs

Previous Cerritos runs had come in the fourth and fifth frames. In the fourth inning,

Wolfsberger walked, advanced to second on an infield out, then scored on Robert's single to center. In the fifth inning, Sanchez walked, went to second on a wild pitch, then advanced to score on an infield out.

The game's winner was Petrushkin, the portly righthander coming in at the third inning and retiring for a pinch batsman in the big inning.

Cerritos Dominates

Cerritos continues to dominate the series between the Falcons and Long Beach. Last year, Cerritos won the series 4-1.

(Continued on page 6)

SCENE FROM THE STADIUM—In this panoramic shot taken at last Friday's game against Mt. San Antonio College, Falcon Field takes on a new dimension. In this second inning action, Cerritos Third Baseman Bob Beckner has just fielded a bouncing ball and prepares to throw the Mountie runner (arrow) out. Shortstop Lou Sanchez has rushed in to back up the play, while starting Pitcher Al Petrushkin kneels in the center of the diamond. First Baseman

Jim Wolfsberger moves in to take the throw (dotted line), while Falcon Second Baseman Ken Roberts also moves in. Catcher Bob Olson jogs at almost the same pace as the Mt. SAC runner, while both hurry down the line. In this game, Cerritos won its fourth straight of the season and topped the Mounties, 4-3, with a ninth inning score.

(CCASBFoto by Highfill)

Sportraits

by Jim Ennis

DIAMOND DIGGINGS: Did you know the home of our baseballers, Falcon Field, ranks near the top with major league ball parks in total size?

Following is a break-down of the average distances to the fence of all major league parks as compared with that of Cerritos:

A. L.	N. L.
Chicago 373 ft.	Pittsburgh 374 ft.
Cerritos 370 ft.	San Francisco 372 ft.
Detroit 368 ft.	Cerritos 370 ft.
Kansas City 368 ft.	Philadelphia 370 ft.
Washington 357 ft.	Chicago 369 ft.
New York 353 ft.	St. Louis 362 ft.
Cleveland 346 ft.	Cincinnati 360 ft.
Boston 346 ft.	Milwaukee 357 ft.
Baltimore 343 ft.	Los Angeles 318 ft.

Bellflower and Downey High are well represented on this year's Falcon nine, with each school placing five members . . . Cerritos players should feel second to no one regarding their uniforms—each has a suede-covered protective helmet, two uniforms (home and away games), two pair of shoes (practice and game), and a warm-up jacket . . . And I thought equipping a football team was expensive!

Dave Worsham became the first Falcon to turn pro, signing with Baltimore for a substantial bonus . . . He starts his first campaign this year in the Three I League . . . Bill Prout, who played with Dallas Moon at Downey High a couple of years ago, gave Falcon Field quite a compliment . . . After playing a year with Memphis of the Double A, Southern Association League, he told Moon that none of the playing surfaces of the league's parks could compare with that of Cerritos' . . . Prout, by the way, was quite a pitcher while at Downey, having thrown three no-hitters in consecutive years . . . Signed by Boston, the southpaw was 11-10, mostly in relief, last year with the Chicks . . . The quality of Falcon Field's grounds could possibly be attributed to an imported bean soil that adorns the infield . . . The greenness of the outfield is due to a mixture of several types of grass . . . Only three home runs have ever been hit in Falcon Field . . . One was a fluke, inside-the-park line-drive hit by Cerritos Catcher Eddie Rybold. The ball struck the deep, right-center field wall and eluded the grasp of the opposing team's center fielder . . . The other four-baser was a towering drive that barely dropped over the left fence at the foul line. It was hit by a Citrus player in the first game ever played at Cerritos. The third was hit last Friday by a Mt. San Antonio College player. The ball crept over the left field fence, near the foul line, a drive that hit the top of the fence and caromed over.

Modesto on Tap for Falcons In Sequoias Baseball Tournament

Cerritos College's baseball team left yesterday for its first invasion of the Central California area. The Falcon marks in the Southland, will compete in the College of Sequoias Tournament at Visalia, today and Saturday.

Modesto First

Coach Wally Kincaid will take a squad of 20 players to the tourney. The Falcons are scheduled to meet Modesto College of the Big Eight Conference in an opening round game at 12:30 p.m. on Friday. If Cerritos wins, they will play at 3 p.m. on Friday, meeting the winner of the Mt. San Antonio College-San Jose City College contest. A third game would be played on Saturday. If the Falcons lose the opener, they go against the loser of the above contest, playing at 10 a.m. on Saturday, with a final game later in the afternoon. Cerritos will play three games, regardless.

Other teams entered in the event include Los Angeles Valley College, College of Sequoias, Citrus College, Fresno City College. Six of the state's eight jaycee athletic loops are represented in the event.

Two Victories

Last season, Cerritos nabbed two championships in the three tournaments that they entered. The Falcons won the Pierce Invitational event and the Fullerton Easter tourney.

The Falcons will return from their barnstorming trip to meet El Camino College on March 1. That game will be played at the Warrior park in Lawndale. El Camino was a co-champion in the Metropolitan Conference last year, while the Falcons had a similar role in the Western States loop. Cerritos took two games from the Warriors last season.

Another Big Week on Tap

Next week's sports calendar will be another active one for Cerritos sports fans.

The week will start off with a pair of events on Tuesday, the Falcon tennis team hosting Glendale College in a Western States Conference tennis match at 2:30 p.m., while Cerritos' baseball team travels to El Camino. Last swept two games from the Warriors, the Falcon baseballers riors, 11-0 and 1-0.

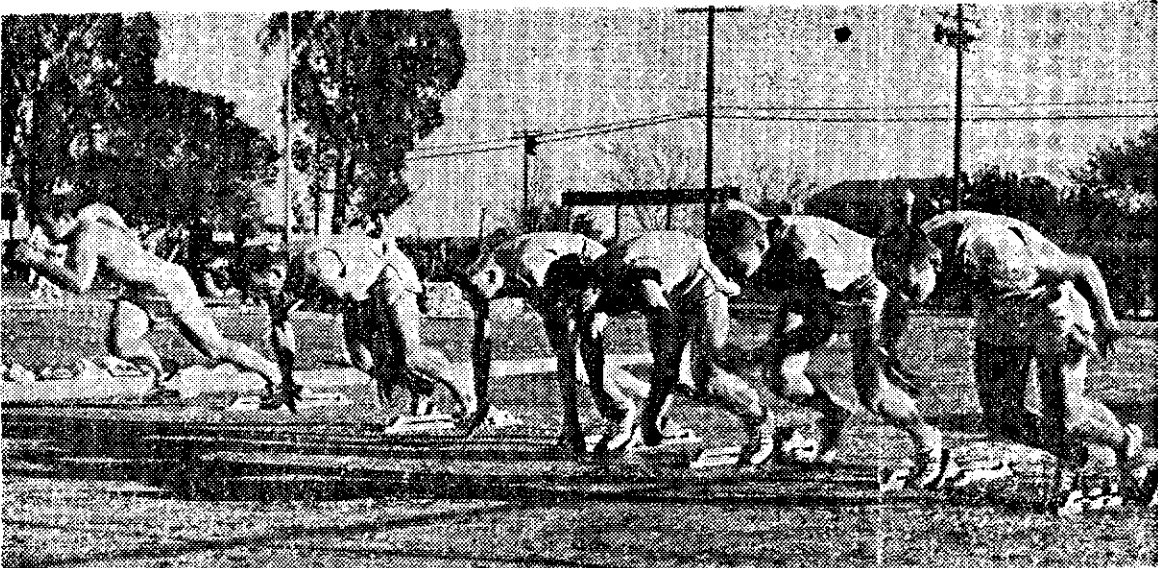

Baseball Thursday

The baseball team will be in action again on Thursday, with Santa Ana College playing the Falcons at Falcon Field. The game is scheduled to get underway at 2:30 p.m.

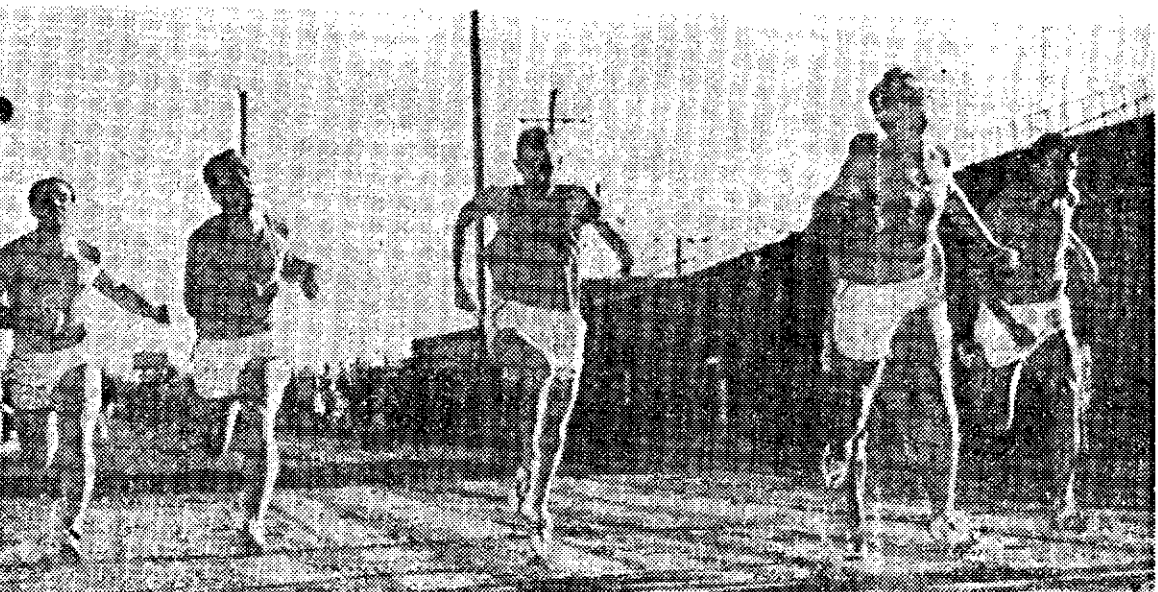

On Friday, the Cerritos tennis team continues its play in the WSC race, again hosting an opponent. Compton College's Tartars will play on the Falcon courts at 2:30 p.m. That same night, the Falcon wrestlers will go up against tough El Camino at the Warrior gym. The first match is set for 7:30 p.m.

Relays on Saturday

On Saturday, Cerritos' track teams will go in the annual SPAAU Relays at East Los Angeles. The trackfest will see athletes from major colleges and universities all across the Southland competing. Some events will get underway as early as 10 a.m.

THEY'RE OFF—The start of last Friday's inter-class meet saw this action in the 100 yard dash. From left to right, Jack Eddy, Bob Stowe, Larry Jones, Gary Gaudet, Gary Lindstrom and Bob Melton take off for the finish line. For the scene at the other end of the jaunt, see below. (CCASBFoto by Sonnenburg)

NEAR THE END—The finish of the 100 yard dash shows Gaudet (second from the right) winning in a swift 10.1. Other finishers and their times include Melton (10.3), Lindstrom (10.3), Jones (10.3) and Stowe (10.4). Gaudet will be the key Falcon challenger against Long Beach City College's swift sprint stars today. (CCASBFoto by Highfill)

Cerritos Cinder Team Battles Long Beach At Veteran's Stadium

A star-studded track meet will kick off the first major collegiate competition in the Southland today. Cerritos College's cinder squad, the unknown quality in what promises to be one of the greatest seasons ever, goes up against Long Beach City College, the unknown quality that is already being tabbed as a good bet for state honors. The meet will be staged at Veteran's Memorial Stadium in Long Beach at 3 p.m.

Falcon Loss?

Falcon Coach Dave Kamanski, starting his first season as head track mentor, has tabbed the meet as a 20-30 point loss for the Falcons. Kamanski, the ex-Bellflower High Coach, who built that prep school into a state power, indicates that Long Beach strength in the sprints, hurdles and broad jump, will overpower Cerritos hopes.

The meet will highlight a great number of former CIF stars, plus renewing a few rivalries that went all the way to the state finals last year.

440 Duel

Figured to be involved in a great duel, is Falcon 440 ace, Mike Colegrove. Colegrove will be pitted against the athlete that beat him out in the quarter-mile championship race last season.

Viking Dee Andrews, a transfer from UCLA, after a one-semester jaunt from Long Beach Poly, will be tabbed to repeat state CIF wins in the hurdles and will probably assist in a figured Long Beach sweep of the broad jump.

Canova Featured

The half mile race, featuring Cerritos' Larry Canova, is also tabbed as one of the highlights of the meet. A sure Falcon point-winner is High Jump ace Paul Stuber.

Cerritos underwent time trials last week, the final major preparations for the meet.

Cerritos Entries

Falcon entries in the meet are:

100 yard dash—Gary Gaudet, Robert Stowe, Larry Jones, Gary Lindstrom.

220 yard dash—Robert Stowe, Larry Jones, Gary Lindstrom, John Roberts.

440-yard dash—Mike Colegrove, John Roberts.

880 yard run—Larry Canova, Darryl Taylor, Delare Mannie.

One Mile Run—Chonito Perez, Ernie Chadbourne.

Two Mile Run—Chonito Perez, Ernie Chadbourne, John Kosarich, James Miller, Al Aragon.

Pole Vault—Norm McMillen, Wes Faith, Matt Bowcutt, Ron Throgmorton, Gary Stein, Gary Van der Berge.

High Jump—Paul Stuber, Herb Lee, Matt Bowcutt.

Shot Put—Kenny Reed, Bruce Salmonsens, Paul Sallinger.

Discus Throw—Paul Stuber, Jack Eddy, Paul Sallinger, Bruce Salmonsens, Kenny Reed.

Broad Jump—Dave Rodda, Fred Cranholm, Bob Melton, Jerry Conn, Pete Cherney.

One Mile Relay—John Roberts, Delare Mannie, Darryl Taylor, Larry Canova, Mike Colegrove.

Falcons Drop Compton For Best Season Ever

For the third straight time this season, Cerritos College's basketball team dropped Compton College. This time, in a game played last Tuesday, the Falcons did it with a 67-51 score at Paramount High's gymnasium.

Sparkling the Cerritos team to its tremendous season wind up was Guard Tony Rosales with 17 points. Compton's Tony Burr nabbed second honors with 15 points.

Top Finish

For Cerritos, the win gave the Falcons a 7.5 Western States Conference finish and a 16-11 season mark. Both set new records for the local cage team.

Tuesday's game was no contest after the first five minutes. Baffled by a Tartar defense that held the scoring down in the early moments of the game, Cerritos uncorked a series of long shots that quickly shot the score out to a wide lead.

Lead At Half

The Falcons walked off the floor at the half with a 37-19 lead. The widest margin that Cerritos led by at any time was 24 points in the second half.

Cerritos is now tied with Compton in the all-time series between the two schools, at 4-4. The Falcons had beaten the Tartars in the Fullerton Tournament and the first WSC contest. Almost an entire year has now passed since Compton has beaten a Falcon athletic team.

GLENDALE DUMPED HARD—That could well be the story of this action, for it certainly was during the recent Western States Conference game between the Falcons and Glendale's Vaqueros. Cerritos defeated the Vaqs, 69-55, much of the Falcon points coming on close-in shots like Dick Roche is putting in above. Glendale's Dick Saunders is caught too close to the ground to help, while Falcon assistants to the right are Jerry Dotson and Scott Iverson.

Stumbling Along In Sports

By Pat Stewart

As you probably know, Phoenix College becomes the eighth member of the Western States Conference next year. This poses an interesting question. What will happen if the Bears should take the championship in a sport that is followed by the state play-offs? Can Phoenix compete for supremacy in the state of California? Now that would be rather odd if out-of-state Phoenix should become champion of California.

As of now, since I couldn't find Gene Martin, Athletic Director, I don't know the answer myself. Maybe the Bears will be allowed to compete in the state tournament. Maybe they will concede the play-off rights to the second place team. Or perhaps a WSC championship would allow the bears to transfer to the Arizona state play-offs. Or, they might remain an acting member of the NJCAA (National Junior College Athletic Association), allowing them to continue to compete for national honors. I don't know.

Although he didn't know for sure himself, Clive Grafton, head Falcon publicity man believes that Phoenix will have to sacrifice their NJCAA standing and be allowed to compete for the California play-offs. I'll find out and let you know.

Speaking the NJCAA, perhaps you will wonder why Cerritos, or for that matter any school in California does not compete in that organizations' national events. These include football, basketball, track and field, boxing, golf, gymnastics, swimming, tennis and baseball.

Since 1950 California has held state play-offs instead of entering the nationals. A few golden state schools, including Cerritos, are still members of the NJCAA but only to be eligible for insurance benefits plus the organizations' all-american teams.

Counseling Office: Guidance For Today...And Tomorrow

▲ **A CONSTANT JOB**—Above, Dr. Robert K. Bos, a member of the counseling staff, talks to a Falcon student concerning her class schedule for the semester. Practically every Cerritos student has major guidance in planning and Guidance John R. Blakemore, is shown. Blakemore directs the college's program in this area.

(CCASBFoto by Highfill)

◀ **ANOTHER PHASE**—The Job Placement Office is just another part of the college's extensive guidance program. Pictured is Mrs. Madge Coto, the office's secretary. The job placement office is headed by Joseph Incorvaia, and is responsible for of Falcon students in jobs placing a heavy number in the local area.

(CCASBFoto by Highfill)

▶ **ON HIS WAY**—A Cerritos College student makes an appointment for a counselor from Mrs. Shirley Card, office secretary. This student, like thousands of others, will be assisted in every possible way by a qualified and well trained staff.

Clubsville

SIGMA PHI

Don Dice, president of Sigma Phi, has announced his club's plans for a formal dance, to be held sometime in the spring. In charge of the planning of this affair will be social chairmen Steve Mehrke and Morty Kinklesstein.

FORENSIC CLUB

The Cerritos College Forensic Leaguers have recently elected their spring semester slate of officers. Founding the gavel is John McLaughlin, the veep is Billie Bradbury, and Carol Kuwada is Minute Maid.

SPANISH CLUB

Anyone interested in helping to form a Cerritos College Spanish Club is urged to contact Mr. Carter, Angie Magana or Marianne Linville. This new enterprise should get on its feet within the very near future.

NEWMAN CLUB

Newman Club, the on-campus Catholic organization, has elected its first slate of officers. Butch Hughes was elected president, and Ken Baird takes the vice-presidency. Pat Moriarity is the new recording secretary, while Angie Magana will take care of correspondence. Yvonne Brower will be in charge of all social events, and Liz Roman will manage the money.

STYLED FOR FALCONS—Sophomore baseball star Ken Roberts wears the jacket that is popular among Cerritos' athletes, the award jack that can be worn by all varsity lettermen. Freshman Wendy Sandler models the college's colors in a dyed wool blue skirt and sweater ensemble.

Falcons' Fashions

This week's main fashion is not unique because the model made it, or because it is the only one in existence, or because it was imported from a foreign country. There are quite a few of them, and all of them are on our campus.

It was, however, especially made for Ken Roberts and many other Cerritos athletes. This "fashion" is the new lettermen's jackets, some of which have been just received by freshmen athletes.

The blue and white jackets are of a heavy wool felt with white leather sleeves. Blue and white ribbed knit forms the shawl-like collar, cuffs, and the band around the bottom.

"Cerritos" name of the sport played, and year of season are embroidered on the left shoulder in white.

To compliment and complete the picture and the column, Wendy Sandler models a royal blue dyed-to-match (Cerritos colors) skirt and sweater. The sweater has a V-neck with a tie at the base, and three-quarter length sleeves.

Falcon Racer Trys HotRods

When the dust clears and a driver climbs out of his car to accept a trophy most people applaud and take another sip of lemonade. But Dave Clarke, Cerritos College freshman, accepts the trophy and goes home to ready his car for the next race.

A graduate of Excelsior High School and the United States Air Force, Dave has been active in racing since 1951, when he came to California from Tucson, Arizona. The tall blonde started his racing career on motorcycles, but soon turned to his current passion.

(Continued on page 6)

NEW INTER-CLUB OFFICERS—Pictured above, are the new officers of Cerritos' Inter-Club Council. The organization has just been recently established to aid the campus organizations in dealing with club problems. From left to right are Carlene Burrows, secretary; Sandy Walberg, representative to the Student Council; and Butch Hughes, new president.

Hawaiian Dance on Tap

A beard-growing contest and an election of "Mr. Beachcomber" will highlight Omega Delta Chi's Hawaiian Hop, to be held in the Student Center on March 18. "Mr. Beachcomber" will be chosen from a slate of candidates sponsored by the clubs and organizations on campus. Dance tickets will be sold by the clubs, and each ticket an organization sells counts as a vote for one of their candidates. A couple ticket will be counted as two votes.

Register Candidates

Clubs wishing to sponsor candidates must register them in the Student Personnel Office by this afternoon. One club cannot sponsor more than two candidates, and all men entered must be clean-shaven. This means that the candidates for "Mr. Beachcomber" cannot enter the beard-growing contest.

Beard Contest

The beard-growing contest is open to all men students at Cerritos. The contest will be judged on the basis of the longest and thickest beards grown by students. Men who are interested in entering the contest are asked to follow no rules or fill out any applications. The only necessity is the beard.

Winners of the two contests will be announced by an Omega Delta Chi representative on the night of the dance. Winners will receive prizes.

The Falcon's Nest

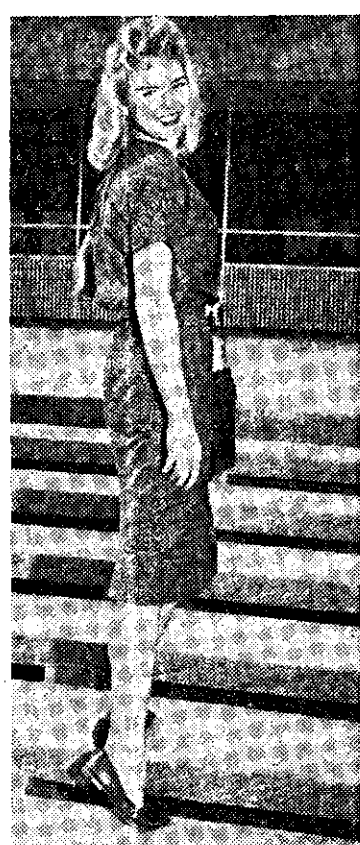

Safety-conscious Marty McClung submitted a little verse to me that I'd like to submit to you to start of this week's Falcon's Nest.

There were once two cars that were built to perfection
With safety belts for each driver's protection
The drivers were too good to take correction
So they raced each other to the intersection
They met in the center with a crashing connection
The policemen came and made an inspection
The ambulance came and made a collection
Now there are two votes less at the next election
I used to be a safe driver myself, but I got tired of driving a safe.

By the way, being a driver isn't the only hazardous occupation, neither is window washing—I once knew an editor who dropped twelve stories into a wastebasket. I close with this thought: If you think you're neglected, what about Whistler's father.

Falcons In Focus

Versatile Dorene Nunley, ASB Commissioner of Rallies and Assemblies, steps into focus this

Dorene Nunley

week. Having contributed much of her time and talents to the activity program, Dorene, 19, well deserves the honor.

Busy Blonde

An ASB commissioner and the editor of Talon Marks are only two of her many jobs. Dorene finds time to be assistant captain of the Falconettes, an active member of Theta Phi, and a member of the newly-organized Newman Club.

Blonde Dorene picked up the nickname "Tex" somewhere between Cerritos and her birthplace, San Antonio, Texas. At Excelsior High School, where she attended for three years, Dorene was active as Student Body Director of Activities, head of the drill team, vice-president of the Girls' League, and associate editor of the newspaper, Excelsior Life.

"Tex's" Plans

"Tex" lists dancing as her favorite pastime. A physical education major, her future plans include teaching modern dance and drill team. She hopes to continue her studies at San Jose State.

In her spare time, she works down on the Farm (Knotts Berry). Dorene is the daughter of Mr. and Mrs. James O. Nunley, 15202 Sylvanwood, Norwalk.

I.C.C. Elects

Club representatives to the Inter-Club Council elected officers at the first organizational meeting last week.

New Officers

Butch Hughes will be taking over the important job as president. Butch, representing the Newman Club, graduated from Pius X. He is currently on the Falcon baseball team.

Keeping the minutes for the new organization will be Carlene Burrows. A transfer from Connecticut, Carlene is president of WAA and a member of Theta Phi.

Downey graduate Sandy Walberg will be the ICC's representative and voting member to the Associate Students Council. Sandy is AWS Secretary-Treasurer, a member of Alpha Gamma Sigma, and Theta Phi.

Initiation Plans

The ICC has already set the date for pledge week, which will be March 7-11. Each representative will submit his club's plans for initiation activities to the Council.

Voting members are Judy Zittel, Falconettes; Charlene Williamson, Theta Phi; Ed Pieksma, Beta Tau; Don Dice, Sigma Phi; Priscilla Reina, Big C; Vickie Caughran, Delta Phi Omega; Marty Arebalo, Omega Delta Chi; Billie Bradbury, Forensic; Doreen Greer, Alpha Gamma Sigma; and Al Aragon, AMS.
