# FALCON'S 'HOWDY WEEK'

# Handbook Out On September 18 The Cerritos College Student

Handbook, planned for distribution at registration time, will be delayed this year.

Dr. Elizabeth Hengsteler, Falcon dean of women, announced that the handbook will probably be ready for students on Septem-

#### Top Handbook

The student guide is a popular publication for all students. The handbook will introduce a number of the important staff members that students will be working with; also the guide lists the faculty and will have have a complete calendar of events for the college year.

Also included is information on student body financial operation, the many services furnished by the college, scholastic and attendance requirements, description of activities, a look at the Falcon's extensive athletic program, student government and social regulations, the college's constitution, election rules and a map of the campus.

This year's handbook is designed so that students can keep it in their notebooks for easy reference.

New Year College officials indicate that one of the most interesting things about this college year, is the fact that everyone will be new to the campus. Faculty and students each form a part of the campus that is as new as if everyone was an incoming fresh-

## Job Placement Office Open Now

Cerritos College is helping students to help themselves through its job placement bureau operated by the business education division of the college.

Part time work applications are available in Room 6 of the Business Education building between 8 a.m. and 4:30 p.m. daily. A limited number of full time jobs are also available for students who indicate they can handle a full work chunk and maintain scholastic standards at the same time.

The Distributive Education department will also offer Earn and Learn While You Work programs this fall for men and women who are interested in retailing as a career.

College credit towards an Associate in Arts degree at Cerritos is offered for a minimum of 15 hours a week on the job trainng combined with 7 classroom hours a week of instruction.

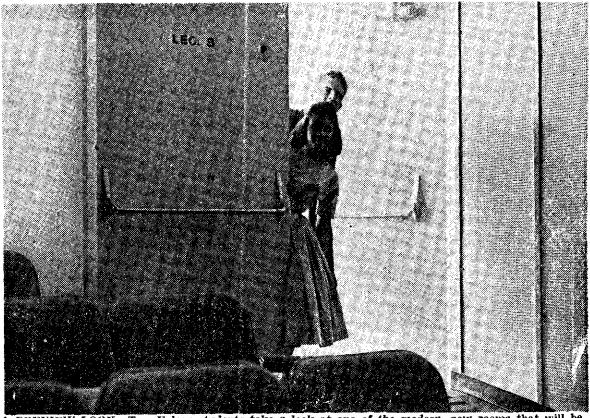

Classroom instruction includes 3 hours of lecture and 4 hours of laboratory in merchandising problems, according to Joseph Incorvaia, distributive education coordinator.

The business education building is located at the front of the college campus facing Studebaker Rd. just south of Alondra Blvd. Parking is available in front and south of the building on Studebaker.

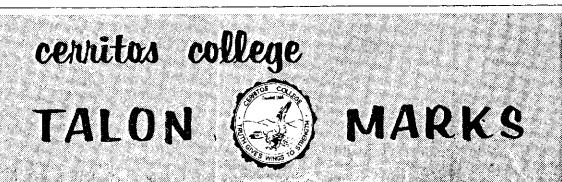

### **Falconette Tryouts**

All interested women students are urged to try out for the Falconettes, Cerritos' precision flagtwirling drill team. Tryouts are slated for noon on Tuesday, September 22, behind the Physical Education Building.

There are a number of positions open for the group and experience is not needed.

A PREVIEW LOOK-Two Falcon students take a look at one of the modern, new rooms that will be used for the first time in a day program this fall. These two Cerritos freshmen are looking at the inside of one of the Lecture Hall rooms, one of the college's most unique buildings. Although the new campus was inaugurated during the summer, classes on a full-time day basis are being held for the first time and represents another landmark in the college's development and history.

Volume III, Number 1

CERRITOS COLLEGE TALON MARKS

Monday, September 14, 1958

# Top Falcons Give The Word - - "Howdy!"

The three top Falcons at Cerritos College are Dr. Ralph F. Burnight, president of the college; Dr. Robert C. Rockwell, director of the college, and Dallas Moon, associated student body president. Here are their personal messages of welcome:

#### From Dr. Burnight

We are glad to welcome you to our new campus. Years of hard work have gone into the planning and the construction of the campus as you find it now. It is obviously quite incomplete but as various buildings or facilities or bits of landscaping are added each student should have a feeling of pride in seeing the campus

But college is more than just buildings. The faculty who are here to help you and the courses of study which have been developed to stimulate your thinking all have only one purposeto aid you so that you may take your place as a citizen of our great country and may achieve success in your chosen field of

Dallas Moon

endeavor and in your private lives. How well you are able to achieve your goals is almost entirely up to you.

We are all eager to get acquainted with you and to help you in any way we can. That is what each of us is here for. Please, come to us whenever you feel the need of counsel.

Best wishes for a most profitable year at Cerritos.

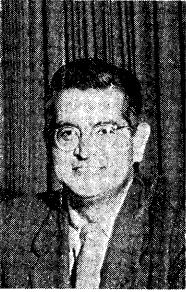

#### From Dr. Rockwell

The faculty and administration at Cerritos join with the student leaders in greeting you at the beginning of this school

You will find countless opportunities here for experiences that will invigorate your mind and your spirit. We hope you take advantage of the varied classroom program and of the many activities that are available to

#### From Dallas Moon

On behalf of the Associated Students of Cerritos College, I would like to welcome all new and returning students. You new

Dr. Rockwell

students will share with the returning ones the pleasure and comfort of being on a new cam-

We sincerely hope you enjoy the excellent teaching and instruction as well as the fine activity and athletic programs.

Naturally, you are going to have to make adjustments as junior college is much different from high school. You will face some hardships but remember to work hard. Have confidence and adapt yourself to the new school and you will never have trouble in college.

Please accept my invitation to attend any of the Associated Students Council meetings to see how your student government functions.

We would like everyone to take part in one of our activity programs - social, athletic, student government, etc. It is up to each of you individually to be proud of your fine school.

# Full Week Of Events

all Cerritos College students, both freshmen and sophomores alike. The week of activities will highlight the first week of college campus plans and are designed to help orient each student to the new campus.

A student planning group consisting of Helen Larrabee, commissioner of activities; Dorene Nunley, commissioner of rallies; Polly Olivas, AWS president, and Allan Roman, AMS president, have scheduled at least one activity each day of the college's iritial week.

Monday
Today is Howdy Day and Howdy ags will be handed out by students on the campus, A feature of the activity will include a special Howdy card which will be handed out to students who happen to say "howdy" to one of the bearers of these special tags. Different students will be carrying them and will pres ent them only if given the proper greeting. The person who comes up with the largest number of Howdy cards, will receive a prize at the Friday night dance.

Tuesday On Tuesday, a rally has been planned in the vicinity of the Physical Education Building at 11 a.m. The rally will consist of songs, yells and a brief look at "do's" and "don'ts" of campus fashion wear.

Wednesday

The AMS-AWS join hands on Wednesday, to host a Coke Party wednesday, to nost a coke Parry just outside of the Lecture Hall. The party will be continuous from 1 p.m. to 3 pian Packground music will be supplied by the Falcon dance band under the direction of Jack Wheaton, faculty advisor. Students and faculty are both invited to the affair,

Cerritos College students are warned that regular campus wear does not include Bermudas, peddle pushers or other clothing of that nature. Some special days have been sea aside for such at-tire and will be publicized for everyone's information.

That night, on the college's tennis courts, a sports night has been planned between 6 p.m. and 8 p.m. Activities will include volleyball, ping pong, basketball and other recreation.

Thursday

Thursday is Club Day and will see all of the clubs on campus sponsor booths around the Lecture Hall. Officers and members of Cerritos' clubs will be on hand to welcome students and to give information about their activities and plans, Information on how to form new clubs and organizations will also be available. This activity will last from 11 a.m. until 1 p.m.

Friday

On Friday, "Howdy Week" comes to a close. The day has been officially designated as Slave Day and will last from 8 a.m. until 4 p.m. Men students will be able to purchase "slave tickets" at a booth near the Lecture Hall which entitles them to the services of a 'slave" (woman student) for the purpose of carrying books. Campus clothing rules will relax for this day and students will be able to wear Bermudas, peddle pushers and clothing of that type, but are warned not to wear regular shorts.

From 8 p.m. until 10 p.m., Falcon students will have the opportunity of taking part in an informal dance to be held in the parking lot just west of the Lecture Hall. Refreshments will be available and clothing will be the same as worn during the earlier

part of the day.

# Two - Part Cerritos Story Starts Today

This is the first part of a two-part article concerning the general development of Cerritos College. The first part is devoted to the college's history and the district. The second part, to be published next week, will concern what the college's objectives are.

Cerritos College is a two-year public junior college, operating under the jurisdiction of the Cerritos Junior College District, which is a separate junior college district. A five member Board of Trustees serves as the governing board of the college.

The district includes the Bellflower Unified District and the Excelsior Union High School District which is compoed of the Artesia, Bloomfield, Carmenita, and Norwalk-La Mirada elementary school districts.

The Cerritos Junior College District was established on June 10, 1955 when citizens comprising the Bellflower, Norwalk, Artesia, Carmenita, and Bloomfield elementary districts voted four to one in favor of forming a junior college district.

On September 27, 1955 an election, calling for a six million dollar bond issue with which to build the college, again passed by a four to one margin.

The next step, that of acquiring a suitable site for the new college became a difficult one beset with many legal difficulties involving first, gaining ownership of the land and, second, securing proper zoning for the westerly portion of the site which amounted to about forty acres of a total of ninety-five. On December 5, 1956, title to the proposed college site was finally acquired. It was not until July 22, 1957 that the city of Dairy Valley re-zoned that portion of the site in question so that construction could proceed.

Meanwhile, the Board of Trustees, realizing the long delays ahead, authorized the college to begin operation. A limited number of classes was offered and they began on September 11, 1956. Some two hundred students enrolled in the regular college classes which were held in the evening at Excelsior High School. In the 1957-58 school year, as well as the current year, most of the academic classes have been conducted at the Artesia High School. Beginning with this year, almost all of the technical and industrial courses have been held on the Alondra campus in converted

cottages and buildings on the site.
On January 14, 1958, the Board of Trustees changed the name of the college from Cerritos Junior College to

On October 21, 1958, the people of the Cerritos Junior College District approved a second bond issue amounting to eight million dollars by a four to one margin. These funds are to be used for the completion of the campus and the purchase of necessary instructional equipment. The college plant, when completed, should accommodate about thirty-five hundred full-time day students and some five thousand in the extended day.

## "Talon Marks" In First Year As A Full-Sized Publication

Cerritos College's official newspaper, "Talon Marks," will be in its first full year as a regular sized college newspaper.

Up to this time, the paper had been in the form of a weekly bulletin notice that was distributed to students attending night classes at Artesia High School who were part of the Falcon pro-

This year's edition, actually the third volume for the paper, will be a five-column size paper, exactly as you see in this issue. The paper will be published weekly and will be distributed to ASB card holders free of

"Talon Marks" is an official publication of the Associated Student Body of Cerritos College. It is supported by the ASB funds and is edited by the Journalism classes at Cerritos.

Although most editions will be in the form of four pages, as in this opening school day issue, some special eight-page issues have been planned.

Paper Has Grown

The first bulletin issue of the "Marks" came out in the fall of 1957, the first relatively big year for Cerritos College academic work. The paper got its name almost as a joke, when Dean of Men Earl Klapstein threw the name out for comment. Without change, the name stuck and the Falcons are now proud of a little more tradition with their name.

Some history was made last fall, when Cerritos published a special homecoming edition, also in the form of a five-column, iour-page issue. The edition was very popular and was distributed to students not only on the makeshift campus, but also to fans who attended the first Cerritos homecoming game.

Policies To Be Set

Students in the Falcon journalsm program will have an opportunity to formulate the policies for the "Marks." Projects in the future will include organizational charts, style books, news policies and other material.

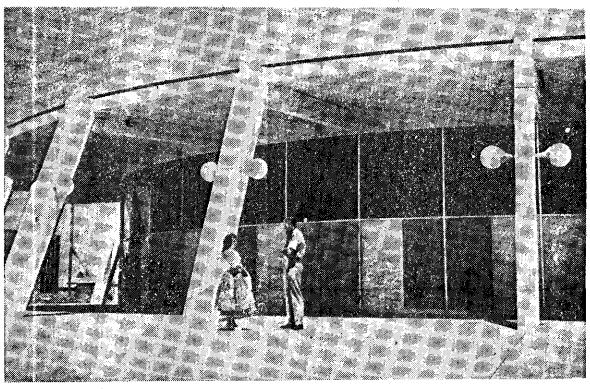

### **Book Store Hours Announced**

Cerritos' campus book store is located in the Business Education Building, Room 12. Quarters will be moved upon completion of the new Student Center.

The store will be operated in most areas on a self-service basis, with clerks available to assist. The store will be open daily during the school year, between 8 a.m. and 3:30 p.m., 6 p.m. and 9 p.m.

Students are warned that they should read their book lists very carefully in order to avoid any delays. Book lists are available at the Counseling Office, registration line and the student book

Text books for all classes, plus basic supplies for classroom use are available. The store is managed by Bob Beauchamp.

NEW LECTURE HALL-Two Cerritos College students talk in front of the college's modern lecture hall. One of the most unique buildings ever designed for collegiate use, the circular-shaped building houses six large lecture halls and will be in use for Falcon studies this semester. The interesting campus design has already won a national award for its architect and has become a show case for educational leaders throughout the nation.

# ASB Constitution Announced

two articles on the ASB Constitution.

We, the students of Cerritos College, in order to form an organization for the transaction of business and for the promotion and government of student activities, do ordain and establish this Constitution, and assume the powers of self-government as delegated to us by the Board of Trustees.

ARTICLE I The name of this organization shall be The Associated Students of Cerritos College.

> ARTICLE II MEMBERSHIP

All registered students of Cerritos College who hold full-time associated student body cards shall be members in full of this

All registered students of Cerritos College who hold part-time student body cards shall be nonvoting members of this organization and shall be entitled to the rights and privileges as set forth in the By-laws of this Constitu-

> ARTICLE III **OFFICERS**

Section L The officers of the Associated Students shall be: President, Vice-President, Secretary, Treasurer, Commissioners of Activities, Athletics, Publications, Publicity, and Rallies and Assemblies.

Section II. The duties of the officers shall be:

Clause A: The President shall preside at etings of this organization; be shall be the official representative of the student body; he shall perform such other duties as pertain to the office of the president, and shall be an ex officio member of all committees appointed by student council. Clause B:

The Vice-President shall assume the duties of the President in his absence and act as Parliamentarian. He shall also act as chairman of the election committee.

Clause C:

The Secretary shall keep a record of all student body business transacted; shall preserve all information of interest to the student body; and be responsible for the filing of a complete copy of all minutes in the Student Personnel Office at the end of the school year. The secretary shall also do correspondence for the student body. Clause D;

The Treasurer shall countersign all requests for purchase orstudent body funds and shall have a responsibility for the prcparation and operation of the student body budget. Clause E:

The Commissioner of Activities shall serve as chairman of the social committee and have responsibility for the arrangements and execution of the activities program of the Associated Students.

Clause F:

The Commissioner of Athletics shall work with the Director of Athletics of Cerritos College and the Associated Student Body in all matters pertaining to the athletic program.

Clause G:

The Commissioner of Publications shall work with the journalism department, the administrative assistant in charge of publicity of Associated Students' acritos College and the Associated Student Body in all matters pertaining to student publications, publicity of student activities and public relations.

The Commissioner of Publicity shall handle all on-campus publiicty of Associated Students' acfivities.

Clause I:

Clause H:

The Commissioner of Rallies and Assemblies shall be responsible for the organization of all rallies and coordinating assem-

Section III. Nomination of officers: Clause A:

All full members in good standing of the Associated Students are eligible for office. Clause B:

Nominations will be made by petitions in a manner designated in the Election Code. Clause C:

In case a person receives a nomination against his or her wishes, he or she may withdraw from the elections by filing a written notice of withdrawal with the President of the student body not later than four days after the

nominations have taken place. Section IV. Election of officers. Clause A:

The officers of the student body shall be elected no later than three weeks following their nomination, and shall hold office for the duration of the school year for which they are elected. Clause B:

The names of the official nominces shall be published or posted in suitable places immediately following the nomination until the date of the election. Clause C:

Election shall be by secret bal-

This the first of a series of ders calling for expenditure of lot. In case more than two candidates for a certain office are running, there must be a primary election to choose the highest two for the final election. In the final election, the candidate receiving the highest number of votes will be elected. In case of a tie, a new election shall be called to take place one week from the day on which the election is called.

Clause D: An elective office may be removed by a two-thirds vote of members of the Associated Students provided that a recall election be called upon the signed petition of at least 15 per cent (15%) of the student body.

Clause E: All other regulations pertaining to elections shall be contained in an Election Code.

Section V. Elective officers: The elective officers of this organization shall be: President, Vice-President, Secretary, Treasurer, Commissioner of Activities, Commissioner of Publicity and Commissioner of Rallies and Assemblies.

Section VI. Appointive officers:

The appointive officers of this organization shall be: Commissioners of Athletics and Publications.

Clause B: Method of appointment shall be set forth in the By-laws of this Constitution.

Section VII. Newly elected or appointed officers shall assume their respective duties immediately following their installation. They shall hold office for one year or until their successors are

duly installed. Section VIII. Vacancy in offices:

Clause A:

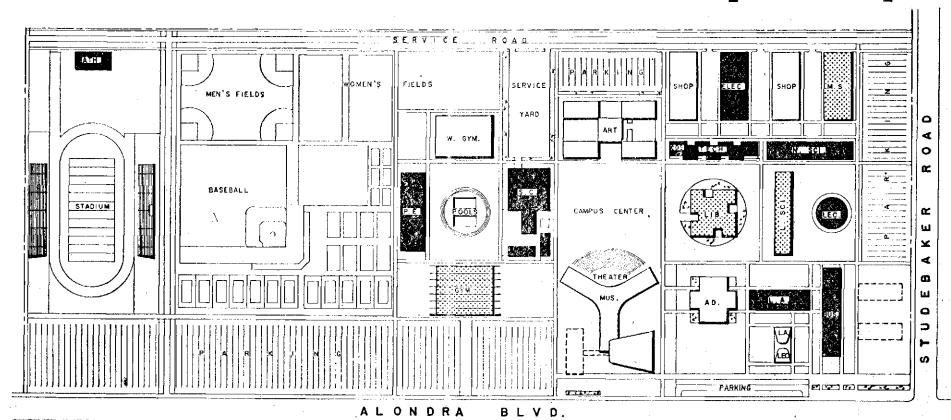

In case of the resignation of an Associated Student Body officer or in case an office is made vacant for any other reason than the expiration of the term of office or recall, the vacancy shall be filled by an appointment, such appointment to be made through a majority vote of the remaining members of student council, or a general election called by the student council.

Clause B:

In case the office of Freshman or Sophomore class president is made vacant other than by recall or expiration of term. the vice-president of the respective class shall take over the office of president. Clause C:

If there is no vice-president, the vacancy shall be filled by student council appointment.

# Are You Lost? -- Here's Falcon Campus Map

CERRITOS CAMPUS MAP-The 95-acre Falcon campus

is shown above, with buildings presently in use shown in black. Shaded buildings are ones that will be under construction during the fall semester, while areas outlined in white, indicate buildings that are in planning stages and will be constructed in the immediate future. This map shows the campus with the southside at the top. At the extreme upper left of the map is the college's Field House, labeled Ath. The new 12,000 seat Cerritos College Stadium is right below it. Men's and Women's physical education fields are to the west, just above Falcon Field, home of Cerritos' baseball team, and the tennis, volleyball and basketball courts. The P.E. Building on the map, houses shower and locker rooms for both men and women students. The building also has faculty offices for physical education instructors. The shaded gymnasium just to the right of the P.E. Building, is the Men's Gymnasium, a building that will be under construction very soon. The building to the direct west of the P.E. Building, is the Student Center, which will house food services, lounge, snack bar, book store, patio, dean's offices and student government offices. The Student Center is

currently undergoing construction and will be ready early in the fall semester. At the upper part of the map at the right is the Electronics Building, Room numbers in that building are designated as EL and run from 1 to 15. The Technology Building under that, is designated as Tech and runs in numbers from 1 to 12. Technical and Industrial Arts offices are located here. Cosmetology, added to the Cerritos curriculum this fall, is housed in the left side of the wing, The Natural Science Building is directly to the west of the Technology Building and is designated NS, with rooms ranning from 1 to 16A. Below that is the round Lecture Hall Building, with lecture halls running from 1 to 6 and the designation of H. Both the Life Science and Library buildings, directly to the left of the Lecture Hall, are planned for construction soon. Below the Lecture Hall is the Business Education Building, which houses counseling offices and the campus book store. Building numbers run from 1 to 16 and are labeled Bus. To the immediate left and east of the Business Education Building, stands the only multi-storied construction on campus. The twostory Liberal Arts Building will house the Humanities, Social Science, and fragments of other divisions. District administrative offices are located in the lower floor of this building. First floor numbers for the LA building run from 2 to 5, with upper floor numbers going from 20 to 35. In addition to these permanent buildings, the college is using some temporary units for classrooms this fall. Building 6 is the Admissions and Registration Building and is located to the right of the Nafural Science Building (shown as parking on map). Building 10 is right next door (also shown as narking) and will house the Art classes, Building 20 is located at the corner of Alondra and Studebaker and will be used by the Home Economics classes. Building 30 is directly below the Business Education Building and will be used for Machine Shop. Building 40 is to the immediate left on Alondra, and will be a Faculty Lounge. Building 50, the next unit to the left, will be used for Welding. Building 60, next in line to the left, will house Journalism and Photography classes. The last few buildings are shown as parking area on the map.

that appeared in the Los Angeles Times during the summer.

Students at Cerritos College in Norwalk will have to pull out all stops if they are to equal the brightness of the buildings on their new campus.

Colorfully decorated in yellows, greens and blues that reach a deep purple, the Modern design of Cerritos College has captured one national award for excellence.

Designed by Jen Lew of the Los Angeles architectural and engineering firm of Kistner, Wright & Wright, the design took the top award for 1959 made by School Executive magazine in New York. The selection jury hailed the architecture as "a simple, gay and energizing environment for higher education."

There can be little doubt that design and colors break with tradition. The first building to be seen upon arrival at the campus is Lecture Hall, a circular edifice looking not unlike a drive-in restaurant, but which actually houses six lecture rooms. Four of the rooms will each seat 67 students, while the other two will each hold 100.

Dr. Robert C. Rockwell, vicepresident and director of Cerritos College, said the building will eventually be used only for science lectures. But this will not be until all of the 20 buildings on the \$14 million campus have cen completed.

Cerritos College, located on 95 cres at the intersection of Alon-

This is a re-print of an article dra Blvd. and Studebaker Rd., opened its new campus last Wednesday to about 1,000 students for summer school. And, according to Dr. Rockwell, it is expected that 1,500 day and 2,000 evening students will attend when the fall semester opens in September.

#### Peak in 1962

expect eventually to handle 4,000 day and 7,000 evening students," Dr. Rockwell declared. "But our readiness date for all construction is not until

Cerritos College was first opened two years ago. Classes were held at night in three high schools: Artesia, Excelsior and

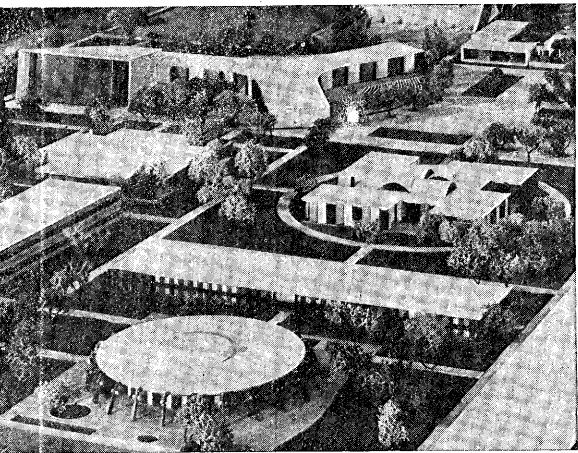

Norwalk. Dr. Rockwell said the most expensive construction for any of the buildings to date is about \$15 a qs. ft. for the science laboratory. Other costs are generally between \$12 and \$14 a sq. ft., he reported.

"Twenty-five acres will be blacktopped by the opening of school in September," Dr. Rockwell added, "which should pro-vide ample parking for our needs."

Cerritos College is headed by Dr. Ralph F. Burnight.

#### Colors Told

Blue and white are the colors of the new school, which has already made a name in football by winning its conference championship. Nomenclature of Falcons has been adopted by the college.

THE FUTURE CERRITOS-The above picture of the Cerritos College campus shows how the plant will look when it is completed. This view is looking from the southwest toward Alondra and the western portion of the campus. In the foreground is the Lecture Hall, while directly behind that are the Life Science and Library Buildings that are soon to be under construction. The Eusiness Education Building appears on the extreme left at the lower corner, while the twostory Liberal Arts Building is at the middle left of the picture. The Y-shaped building will eventually house the theater and music section of the college. The rolled-roofed building at the top is the Men's Gymnasium, soon to be started.

# Falcons Prep for 1959 Grid Season

## Stadium Rushes Ahead; Opener Slated in October

Cerritos College's new 12,000 seat stadium will be ready for the opening game on October 10, according to the latest word from building officials.

Accompanying this word, came a report from Falcon Athletic Director Gene Martin, who announced that the October 10 inaugural game will be played in the afternoon against Pasadena City College. A 2 p.m. kickoff has been slated for the game.

#### Historical Event

The game will mark the first major afternoon grid contest in the area's history. The game will also mark an ideal time for the stadium's initial tilt. Both UCLA and USC draw byes on that weekend, with the only other competition coming from the nationally televised game of the week. Martin added, "We have always felt that the public prefers a 'live' game to the television contest."

The historical opening of the 12,000 seat Cerritos College Stadium will also be broadcast by a San Gabriel Valley station, according to some reports. Interest has been shown in purchasing the broadcast rights and Falcon officials are working on the arrangements at the present time.

Martin expects that the lights will be available for the other four Cerritos home games. Following the Pasadena meeting, the Falcons are scheduled to meet Eastern Arizona College and Compton College on consecutive Saturday rights.

Fop Facility

The stadium now under construction, is located at the authorn end of the new Cerritos campus. The stadium will give the area the finest facility of its type and is expected to house a number of top athletic events.

Cerritos' stadium will utilize two equal sides of about 6,000 seats each. A two-deck press box will provide the most outstanding press services of any small college in the nation.

# Cross Country Hopes Bright for First Season

Fifteen cross country runners will be on hand for the Falcon's first official harrier team. Coach Dave Kamanski, generally pleased with the outlook, still voiced concern over the tough road ahead.

Kamanski said, "The traditional cross country powers will all be strong again. Mt. San Antonio, Glendale, Compton and Santa Ana are all with good teams again this season."

Cerritos opens its season on October 2, against Santa Ana at the Don's course.

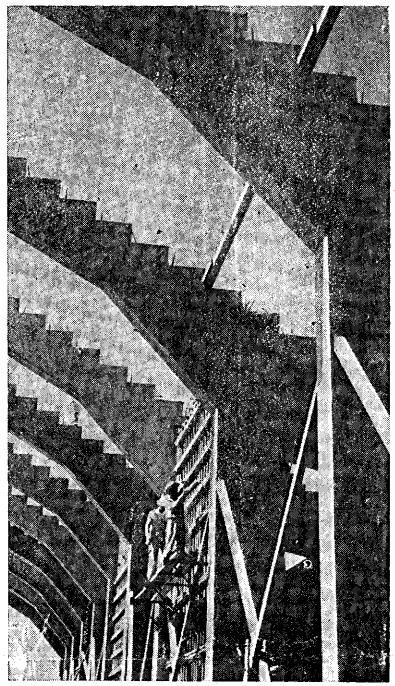

urse. Building

Kamanski, one-time Occidental star, built Bellflower High into a national track symbol, with a series of record-smashing performances from his training.

The freshman mentor is expected to spend most of this year building the Falcons into a similar power.

Prospects

Among the cross country prospects for the coming season are:
Al Aragon (Pius X), Ernie-Chradlourne (Excelsior), Jon Kosanit (Excelsior), Delare Mainie (Santa Fe), Calranito Perez (Excelsior), Tony Parra (Montebello), John Roberts (Bellflower), Darryl Taylor (Excelsior), Ron Willett (Earl Warren), Mike Colegrove (Bellflower), Elbe Lamb (Bellflower), Jim Ballou (Downey) and Larry Canova (Bellflower).

FALCON STADIUM CONSTRUCTION—Workmen continue construction on 12,000 seat Cerritos College Stadium. Plans call for the Falcons to play their first Western States Conference game in the new facility, meeting Pasadena City College on Saturday afternoon, October 10. The modern structure will have a two-deck press box, concession facilities and rest rooms, providing the area with the best stadium of its kind.

# Cerritos Staff Greets 75 Candidates; Opener Looms With Long Beach

Cerritos College's football team has been undergoing two weeks of steady drills, preparing for a nine-game campaign that will see them try to defend the Western States Conference championship.

Coach Don Hall, assuming the reins as head football mentor for the first time at Cerritos, greeted 75 grid candidates during the first week. Only five lettermen, how-

## Nine Game Slate For '59 Falcons

A full nine-game schedule has been announced for the 1959 Cerritos College football season by Falcon athletic director Gene Martin. The slate includes three top non-conference contests in addition to six Western States Conference tilts.

The Falcons will open their third season of football on September 25, when they meet Long Beach City College at Long Beach Veterans Memorial Stadium. This game initiates a three-year contract between the Vikings and Cerritos and will mark the two schools first meeting on the gridiron.

Cerritos will open its third conference schedule as the defending champion.

Fri., Sept. 25—Long Beach there Fri., Oct. 2—Fullerton there

\*Sat., Oct. 10 — Pasadena City College here Sat., Oct. 27—Eastern Arizona

here Sat., Oct. 24—Compton College

\*Fri., Oct. 30 — Pierce College

\*Sat., Nov. 7—LA City Col. here \*Sat., Nov. 14—Glendale College

\*Sat., Nov. 21—Ventura College

\* WSC games.

#### ever, were on hand.

The lettermen included Guard Harold Gray, 215-pound All-Western States Conference in 1958; Guard Lou Valdespino, starter off of the 1957 Falcon Junior Rose Bowl team; Halfback Allan Roman, sixth highest ground gainer in 1958; End Ken Ariail, fine pass catcher; Fullback Bob Lyons, WSC honorable mention in 1958, and Dallas Moon, a halfback last season who is being switched to quarterback this fall. The quintet of sophomores was a far cry from the 17 that were on hand in the 1958 season.

Top Freshmen

With all freshmen at one end spot, both tackles, center, quarterback and one halfback spot, the Falcon staff plans to depend on a top group of incoming high school players. The 75 candidates set a new Cerritos high in that respect and it is hoped that many of the prep reputations will continue to live up to college standards.

A smattering of sophomore transfer talent was sprinkled through the Cerritos hopefuls, adding a little more experience.

Rebailding

The problem for Cerritos this year, has been one of rebuilding a team that was almost entirely lost after the fine 1958 season. Hall and his four assistants, have been toiling on the host of problems that have plagued planning stages.

Players on hand for practice sessions with their high schools are: Barry Adams (Excelsior), Ken Ariail (Santa Fe), Warren Blossom (Earl Warren), Tom Berry (Montebello), Bruce Clausen (Sierra), Earl Coleman (Bellflower), Jerry Conn (Bellflower), Larry Coor (California), Andy Cuccio (El Rancho), Jerald Daniels (Artesia), Don Dorkowski (Pius X), Jack Eddy (Beaverton, Michigan),

Mike Farrier (California), Earl Ferguson (Excelsior), Jm Gabbard (Excelsior), Ed Gentry (Excelsior), Joe Gibbs (Santa Fe), Harold Gray (Excelsior), John Haddock (Sierra), Bob Hicks (Earl Warren), Jinn Hombs (Paramount), Larry Jansen (California), Tom Jones (Santa Fe), Darryl Kester (Earl Warren), Nifo Lilii (Covina), David Limon (Downey), Bob Lyons (Excelsior),

Bill Martin (Downey), Dick Mosely (Excelsior), Jim Morgan (Excelsior), Dallas Moon (Downey), Jim McCann (Excelsior), Dick McKnight (Anaheim), Bob McPhillips (Anaheim), Dave Norman (Excelsior), Tom Ortiz (Pius X), Grant Owen (Earl Warren), Gene Pico (El Rancho). Ed Pieksma (Bellflower), Kenny Reed (Earl Warren), Larry Reed (Earl Warren), Jim Ritchie (El Rancho), Allan Roman (St. Anthony's), Jim Rosencranz (California), Paul Sallinger (Earl Warren), Warren Simmons (Santa Fe), Ron Smith (Bellflower), David Stenson (Santa Fe), Pat Stewart (Artesia), Phil Sweeney (California), John Tjaarda (Bellflower), Lou Valdespino (Excelsior), Don Vanderham (Valley Christian), Dwain Whittaker (Phillips, Colorado), Aubrey Woodroof (Hume Fogg, Tennessee) and Steve Woodroof (Anahem).

# Cerritos Grid Coaches Plan Coming Season

QUINTET OF COACHES—Falcon coaches review opponent films while analyzing play potential. The Cerritos coaching staff has been on duty all summer, preparing for the 1959 campaign that will see the Falcons trying to defend their Western States Conference title. Seated, from left to right, are Assistant Line Coach Wally Kincaid, Backfield Coach Charles Hall and Line Coach Smokey Cates. Standing, are End Coach Gene Martin and Head Coach Don Hall. The headman Hall, is a veteran of nine years of jaysee coaching experience, picking up four league titles in the past four years, plus three consecutive bowl wins. Holdovers from last year's staff are Kincaid, Charles Hall and Martin. The staff expects to review over a mile of film before the season
