## Math Day Set May 12

Students from 19 high schools in the Cerritos area are busy brushing up on all forms of mathematics, as they prepare to compete in the Second Annual Cerritos Math Field Day May 12.

The Field Day offers an opportunity for outstanding math students to pit their skills against competitors from other high schools.

### Eight Events

A total of eight different events has been scheduled for the meet. In each of these events, the first and second place winners will receive individual awards, as well as accumulating points for the team trophies which will be awarded to the first and second place schools. Divisions will be broken down into Sophomore, Junior, and Senior levels.

### Chalk Talks

One of the featured events of the meet will be the chalk talks. Here each participant must give two oral talks on a subject pertaining to math while (Continued on Page 3)

## AGS Delegates Attend Modesto Convention

Two members of Alpha Gamma Sigma Honor Society and their club advisor attended a state convention last Saturday in Modesto.

Representing Cerritos were AGS resident Ken Voak and Inter-Club Council representative Tim Butler. Accompanying them was Joseph Kleinerman, Cerritos counselor and AGS sponsor.

Delegates to the state convention assembled to elect state

officers and discuss various topics in workshop form.

### Kleinerman Elected

Kleinerman was elected to the state post of AGS treasurer. An initiation tea is currently being planned for May 6, according to president Voak, when members will receive their club pins. Location and exact details of the tea will be discussed at the next general meeting of the club members.

### Eligibility

To be eligible for membership in Alpha Gamma Sigma, a statewide scholarship honor society, a student must complete a program of 12 or more units to total 42 or more grade points (exclusive of physical education) with a grade point average of 3.0 or higher and with no grade below a "C". Temporary membership for the following semester is granted on these requirements.

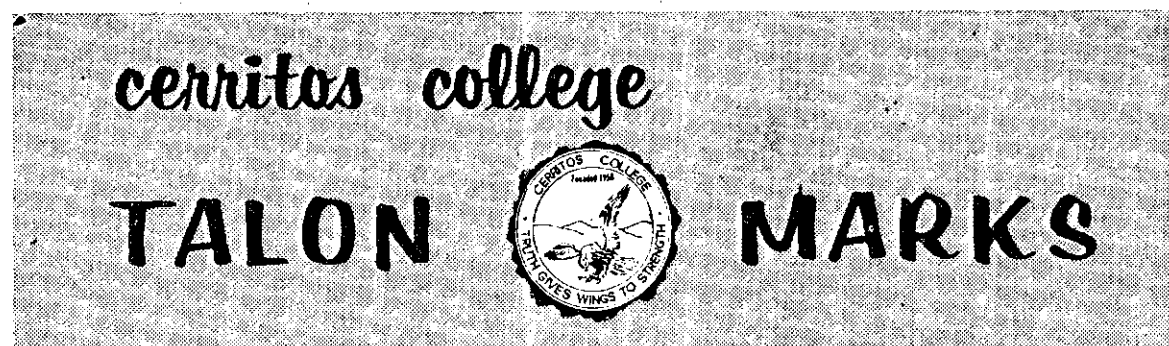

Permanent membership is given to students who complete the number of units required for graduation and maintain a 3.3 for three out of four semesters or have an overall average of 3.5.

## Pep Groups Host Party

Falcon pepsters played host to prospective members recently when the sponsored a pep party in the student center for high school seniors.

The main purpose of the party was to recruit new members for next year's Falconettes, band, and song and yell squads.

Several school songs by the band climaxed the program.

Vol. IV, No. 26

April 28, 1961

## AWS 'Fascinating Fashions' Shown In Student Center

"Fascinating Fashions" themed the fourth annual Fashion Show presented at Cerritos College by the Associated Women Students yesterday in the student center.

Training of the models was done by the courtesy of Mayme Totta, who formerly taught modeling in Whittier, in connection with her grooming classes for girls. The students displaying the garments from the contributing stores were Kathy Feys,

Carolyn Totta, Carol Thompson, Carol Johnson, Nola Kessler, Vickie Caughran, Sue Lorbeer, Pat Bagnall, Joan Casper and Muffie Buia.

Staff models wearing the clothes now in fashion were Sara Jean Jenkins, Wilma Maughan, and Florence Tilson.

Tony Boden, Sam Craig, John Groeling, Bill Axline, and Sheldon Bromberg were the male students in the show.

### Stores Contribute

The nine shops contributing fashions for the event were Hecks Men's Store, La Mirada; Campus Togs, Whittier; Villa Fashions, Villa Square; Chapel Tux Shop, Norwalk; Ohrbach's, La Mirada; Bobbie Lynn, Bellflower; Myers, Whittier; Helen's Fashions, Norwalk, and Arbor's, Huntington Park.

Scenes and parts of the show were arranged in settings to fit the outfits worn by the models. Surf and Sand was the setting for beach clothes while Casuals

## Falcon's Nest

A GRADUATE ISSUE of the Talon Marks 'Campus Illustrated' will be published in June as a tribute to graduating students. Information concerning portraits will be sent by mail to all graduates.

FALCONETTE PRACTICE will take place tomorrow, 9-11 a.m., in the P.E. building.

NEWMAN CLUB—the regional representatives meeting is scheduled for 1:30-4 p.m. Sunday in the student center.

## First Annual Festival Shows Fine Art Fields

Cerritos College will hold its first Annual Fine Arts Festival May 1 through May 12 in the student center featuring three divisions: the Music Department entrance, the Art Department's Exhibit and the Drama Play.

The purpose of the festival is to combine displays of the different art classes on campus into one show for an overall picture of the arts being taught at Cerritos.

### May 1-12

Art will open the festival on the first of May and run a continuous display until May 12. The exhibit will include painting, prints and drawings designed by the students and faculty.

An Auction of Paintings for those of the public who may wish to purchase canvases will be held on May 12 at 8 p.m.

May fifth and sixth will bring forth the entree of the Drama Class with a production of the Pulitzer prize-winning play, "JB," by Archibald MacLeish.

On the agenda for the Music Department will be the presentation of the Wind Ensemble on the ninth, the Choir, May 11 and a Jazz Concert scheduled for May 12. Martha Graham's "A Dancers' World," and "Appalachian Spring," are the scheduled films.

The Physical Education Department, as part of the Art Festival, is sponsoring an Evening of Dance Films, Monday, May 8 at 8 p.m. in the student center. Representing modern dance on the college level will be a film prepared by Smith College, "Elements of Modern Dance" and a film from our California Colleges "Dance Composition—Studies in Rhythm, Space and Content."

## Cerritos Drama Debut Scheduled Friday Evening

Opening night for the Cerritos College spring play is set for next Friday evening at 8:00 p.m.

The production of J.B. Archibald MacLeish's Pulitzer Prize winning play will take place on the stage in the student center.

J.B. is a story about a successful businessman of that name and the misfortunes that plague him. He loses his job, his home, and his wife and he is ready to give up everything, including his faith in God.

### Based on Job

Based on the book of Job in the bible, MacLeish has written an intriguing two-act play that has entertained audiences all over the country.

The Cerritos dramatists have been rehearsing for several weeks now and will continue to do so right up to curtain time.

If the fall play, "Under Milk Wood" is any guide to their ability, the audience can expect an excellent presentation from these student actors and actresses.

Tickets for the present production are now on sale in the student bookstore. Admission price is 25 cents with a student body card and \$1.00 without.

The play will run for two nights, May 5 and May 6, Friday, and Saturday nights at 8:00 p.m.

**TROPIC MASTERPIECE**—Prepared by the Falcon art club, the smiling tiki idol will be the centerpiece of a tropical setting which will be on display during the Fine Arts Festival May 1-12. Student artists Marcella Overholt and June Paller put the finishing touches on the paper machier giant, which, as rumor has it, was constructed from the supposed likeness of the artists' posing model, art advisor Rudy Augurre.

## Taking the R. A. P.

The Whittier Junior College bond issue was defeated last week showing the intelligence, depth and foresight of the voters in that area.

Those people are obviously as two faced as they come, since they admitted that they wanted a junior college several months ago but now that it comes to paying for it, they become a little timid.

**They need a junior college in that area so bad they can taste it, but voters are tight.**

Already they are paying out huge sums to other junior college districts for educating their kids, (like Cerritos) but they can't put out a little more and do it themselves, also giving them future insurance and money saving opportunities.

To all the kids from the Whittier area who attend Cerritos and the other JC's around, good luck—you haven't got a chance. Those backward voters are putting off your junior college for another six to eight months and will probably put it off longer, unless somebody can show them how they can get it free.

Assuming that everyone is entitled to his own opinion, there would naturally be some "no" votes. But who are those who would vote "yes" one time and "no" the next?

This, to me, is the peak of hypocrisy, and it's the kids, who aren't even old enough to vote, who will pay.

Fame comes in many ways, they say, but this one may be even stranger than fiction.

We got a letter from a national college magazine requesting that we set them up with a representative at Cerritos. The magazine has not yet begun to function, as they have just gotten around to organizing.

**The only drawback I can see to it is that they have decided to call it "Campus Illustrated," thereby being highly unoriginal and what's more second in their choice.**

Now, I don't mind them naming their magazine after ours—on the contrary, it's great publicity for us—it just seems rather strange that they would come up with the idea a few months after we printed our first mag.

The question comes up on every college campus of whether or not the school cafeteria is too expensive for the quality and quantity of food offered.

Like most schols, that question has come up here.

**It's up to the individual whether he is satisfied with what our cafeteria offers for the prices they charge, but as for myself, I am not satisfied.**

There's no law that says I have to eat there, I know, so that's why I frequent the place as little as possible.

The question arises whether it is the job of the school cafeteria to offer lunches at a more reasonable rate than the average restaurant.

If it is agreed that this is the case, the question now arises, does our school cafeteria offer comparable food at a reduced price from the average eating place, or is it just another business trying to make a buck?

Compared to other schools, students at Cerritos have no complaint, but compared to other places to eat, the Cerritos cafeteria is hardly adequate.

## ASB Veep Bott Predicts Record Spring Election

(This is the third in a series of articles prepared by Jerry Bott and Kirk Dolan as a preliminary to the coming student body elections.)

Jerry Bott, ASB Vice President, predicted at his last monthly report to the student council, "The coming spring election will be the biggest in the history of Cerritos College to date."

Already many petitions have been filled out for various student body offices. These petitions will be due in the Student Personnel Office on May 3, 1961 just five days from now.

For the information of interested students, here are some general facts about ASB offices.

The offices of the Associated Students shall be: President, Vice-President, Secretary, Treasurer, Commissioners of Activities, Publicity, Rallies and Assemblies, Associated Men and Associated Women Student Presidents, and Sophomore Class President and cabinet. The Sophomore cabinet consists of Vice-

President, Secretary and Treasurer.

The duties of the officers shall be: The President shall preside at all meetings of the student council; he shall be the official representative of the student council; he shall perform such other duties as pertain to the office of President, and shall be an ex-officio member of all committees appointed by the student council.

The Vice-President shall assume the duties of the President in his absence and act as Parliamentarian. He shall also act as chairman of the election committee.

The Secretary shall keep a record of all student body business transacted; and be responsible for the filing of a complete copy of all minutes in the Student Personnel Office at the end of the school year. The secretary shall also do correspondence for the student body.

The Treasurer shall counter-

## Cafeteria Manager Nelson Lists Functions and Operations of Shop

by JOHN WILLIAMS

Nelson Brown wiped off his hands, leaned his large frame against the counter and proceeded to outline the functions of the cafeteria and the coffee shop.

Brown, manager of the operation, mentioned a few interesting statistics. The one thousand-odd students who use the facilities manage to consume approximately 1600 hamburgers a week, some 2500 to 3000 cokes, and the same number of cups of coffee.

The well-designed building is a popular meeting place for students and faculty alike, a place where they can sit and talk over a cup of coffee or eat a delicious low-priced meal.

The menu ranges from rice to roast turkey in the cafeteria and from donuts to deviled egg in the coffee shop.

Some of the bargains which can be obtained here are a complete dinner for 73 cents, a hot beef sandwich for 40 cents and breakfasts, snacks and beverages at equally low prices.

These prices are regulated by the college but the catering is done by an independent food service which was selected from several companies who submitted bids to the school.

All of the food is prepared on the premises by the trained and efficient staff and served by one of the courteous and friendly waitresses.

In the cafeteria, Sharon, Judy, Bessie and Pete see that the customers are attended to. Bessie also mixes those wonderful salads while Pete Beck handles the cooking.

Coffee shop customers are greeted by the friendly faces of

Kay, Betty, Juanita, Lillian and Eloise who see that orders are filled as quickly and efficiently as possible.

Manager Brown pointed out that all baking is done on the premises. The man responsible for the delicious donuts, pies and rolls is John Wright.

Wright gained 11 years of experience in baking at Camp Curry at Yosemite Park before joining the staff at Cerritos.

If you girls find it a chore to prepare a meal for the family you can appreciate the work done in preparing a meal for a "family" of several hundred.

The kitchen is busy early in the morning preparing for the

lunchtime onslaught and the clean-up detail remains long into the afternoon.

The menu in the cafeteria is set up by Brown and consists of several variations in food to suit the individual taste.

The main dinners served are roast beef, casserole and roast turkey, with rice, salads, sandwiches, and desserts also offered.

Whether you want a meal, a coke or just an informal atmosphere you can find it in the student center.

Hours are 7:30 a.m. to 9:30 p.m. for the coffee shop and 11:00 a.m. to 1:00 p.m. for the cafeteria.

## Letter Raps Paper's 'Hot Issue' Policy

Dear Editor:

I am completely disgusted with your reply to Mrs. Rita Ramsey, whom I happen to know, in the April 14 issue of the Talon Marks. You stated that you feel the purpose of a college newspaper is not to take a stand on any hot issues. What is the purpose?

I shudder to think that you may someday be editor of a large paper.

If one newspaper makes a statement, it is the privilege of another newspaper to either support or reject that statement. If you feel such issues as Cuba, Laos, Gagain, the Congo, and Algeria are hot merely because of argument, you are as blind as a bat. The very foundation of America, for which men have fought and died, is based on this freedom of the press. Yet you feel this is just a superficial sham, not worth using!

You state that you could make any statement and support it satisfactorily. This is not the point! The point is that you should choose the stand you approve and support that, not just any point.

Another statement you make is that "students of a junior college caliber would not find an interest in our delving into such problems." If you don't want to take a stand on a problem, don't. But don't blame the students for your indecision. Have you even taken time to ask students in

the halls whether they think you should take a stand on something? These students are here for an education to prepare themselves for a profession. Not to attend an extended high school. Many older people are here also. In spite of what appears to be a heavy emphasis on social life, if you check carefully, you find 9/10 of the students want an education, not a social life. Part of their education is learning to evaluate written opinions.

I sincerely hope you will think longer and deeper about your answer before you make it your paper's policy.

Sincerely,  
Virginia Willey

Madam:

We regret that space limitations forced us to remove some of your very interesting letter. If you should ever care to address us again, kindly keep your comments under 200 words.

**WANTED:** Clean cut young man with good personality and working towards a BA or BS degree. A chance to raise your grade point average while working and excellent compensation, commensurate with your ability. Your hours to be arranged with your own schedule. Call Mr. Wolf, Saturday, April 29, between 9 a.m. and 2 p.m. RAymond 3-2082.

# An Insight To Fashion Ideas For The Future

by Jean Field

Most predictions of fashions for future living are aimed at a long look ahead—25, 50, or 100 years. Generally they feature saucer shapes, electronics, and food pills.

But let's take a short look at your future. Specifically, let's look at the house you will live in a decade from now.

Perhaps it will be a Fuller or Saarinen shape. And what will it be like indoors, where you really live? This calls for considerable crystal-balling. However, the guesses we have assembled are of the highly-educated type, as you will see. For example:

Danish designer Poul Cado-

vius thinks furniture will hang on walls, and walls will be movable panels. He feels that even refrigerators, stoves and beds will be part of this flexible system, designed to solve the problem of large families and small homes. At DuPont, they agree on the space saving concept, but have another solution. They forecast beds that will rise and either be fastened into the wall or fold into closets. (Shades of the old Murphy bed!) This means that the bedroom will become a den or study during the daytime. Further, simplified bedding—a sort of comforter filled with Dacron and covered in nylon—will be both warm and light. Launder-

ing of this futuristic sleeping bag will be as simple as washing sheets.

Outside the bedroom, the same experts predict wall-to-wall carpeting in the kitchen. It's already being used in the bathroom. The idea here is that new fibers make such floor coverings easy to clean as well as restful for the feet and effective in softening noise.

How about accessories? The smaller things we live with really establish the pattern of our lives—formal, informal, simple, elaborate. According to an expert in this field, our table accessories will be quietly elegant, simple in shape and pattern.

Nelson Ewing, who is in

charge of design for Towle, has just returned from a trip during which he talked to thousands of college women and young marrieds, so his views are keyed to the taste of future homemakers. He feels that sterling flatware is on the threshold of an era that could be called American Contemporary. "It's a blend," he says, "of clean shape and third dimensional form. It will be basically simple, with just a trace of decoration for added warmth." Because of this purity of line, Mr. Ewing considers that the new style will be the heirloom silver of the 21st Century. Which leads us a bit farther ahead than we had planned to go in this column!

That's about the story, except for a forecast we received from a decorating expert who (for good reason) chooses to be nameless. She says: "I foresee an important new trend—a style called Early American which will be accented with French Provincial and Oriental. Walls will feature baroque mirrors and Spanish wrought iron sconces. Windows will have Roman shades. Floors will be covered in Florentine marbelized vinyl with Persian area rugs, and accessories will be Victorian Tiffany glass, Scandinavian teak, and Italian ceramic. And everything will have been made in Japan."

Perhaps she was just tired!

**BUSINESS EXEC'S**—Business Club members who scored high in the recent state convention are Carol Stewart, Bob Clemons, and Frances Robles. Clemons was elected state president and will go to the national convention. (CCASBFoto by O'Donnell)

## "Genus Ridicula"

(Editor's Note—The following poem was sent to Dr. Henry Childs by a student who was in his Zoology class last semester. The author, Connie Partida R. is now attending San Diego City College. The poem tells of the woes of her Zoology class which may be familiar to a few other students on campus.)

Some men are plagued by liquor,  
Ill health or poverty;  
But I have found my nemesis  
Is called Zoology.

On Monday, Wednesday, 8 to 10  
I journey to the land,  
Of thirty million frightful terms  
I cannot understand.

I've triploblastic annelids,  
Crustaceans galore,  
And saprophytic coelenterates;  
What man could ask for more.

An embryo's is an embryo;  
Why can't they let it be?  
Those omnions and chorions  
Will be the death of me.

I see a pair of neural folds.  
And think they've hit their peaks  
But ectoderm and mesoderm  
Beget the primitive streak.

Dioecious and epiboly  
Are nice to have around;  
But what good will they do me  
When I'm six feet underground?

The frog has eighty thousand parts  
That swim within my head.  
If I were running the screwy course,  
We'd number them instead.

A tiny zygote I once was,  
And so were you, you know;  
Mitosis made us big and strong—  
Zoology blew the show.

Osmosis and diffusion  
Fall in like groom and bride;  
You can have them, Mr. Darwin,  
They've got me stupified.

With trematodes and nematodes  
This course sure packs the punch;  
I never knew much Latin,  
But to me it's out to lunch.

I curse and sweat the night away,  
For what I cannot see;  
To wrestle with a dogfish shark,  
If I live to take a "B".

I know of statocysts and pores,  
Of blastomeres and clams;  
Of polychaetes and neural plates,  
But I still flunk my exams.

Perhaps my trouble lies within  
The way I run this race;  
And maybe phylum Ignoramus  
Is where I should be placed.

But one thing's still for certain;  
When they ring the final bell;  
Lord, keep that portal open wide,  
I've served my hitch in hell.

## Active Newman Club Hosts Regional Meet

Cerritos College can boast of a club to suit almost every student's interest. Among these numerous clubs on campus is the Newman Club which holds its meetings in H2 at 11:00 Tuesday mornings.

### ★ Student Govt.

sign all vouchers for payment calling for expenditure of student body funds and shall have a responsibility for the preparation and operation of the student body budget.

The Commissioner of Activities shall serve as chairman of the social committee and have responsibility for the arrangements and execution of the activities program of the Associated Students. The Commissioner of Publicity shall handle all on-campus publicity of Associated Students activities.

The Commissioner of Rallies and Assemblies shall be responsible for the organization of all rallies and co-ordination assemblies. The Associated Men and Women Student Presidents co-ordinate all special men or women activities on campus. The Sophomore Class President and cabinet plan various activities throughout the year, including graduation.

As soon as all petitions for the Student Offices are turned into the Student Personnel Office, they will be checked and evaluated. Following evaluation, the candidates will be notified if they are eligible for running in the spring election.

Please note that all petitions must be in the Student Personnel Office no later than 4:30 p.m., May 3.

The club, which is geared to the Catholic students attending Cerritos, is headed by prexy, Dick Lorentzen.

The club, which has the distinction of being named after Cardinal Newman, was formed at the beginning of the second semester of last year.

Upcoming items on the club's agenda include a beach party and a trip to the San Juan Capistrano Mission. Dates for these two functions have not as yet been decided upon.

However, slipping back to the present, this coming Sunday, April 30, Cerritos College's Newman Club will play host to the Regional Representative Meeting in the Student Center from 1:30 until 4:00 p.m.

All interested students are invited to join and participate in the many activities which the club, advised by Harlan Stamm, has to offer.

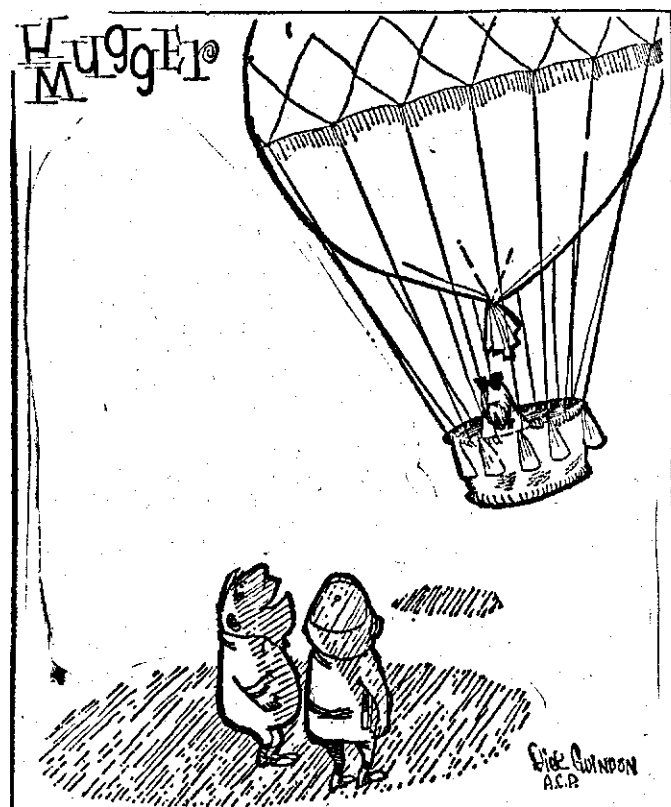

### ★ Math Day

using the blackboard for demonstration.

One of the talks may be on any topic the contestant chooses while the other must come from the following categories: Sophomore Number System; Junior-Probability; and Senior, Algebra of Sets and Related Topics.

#### Twelve Judges

Judging the Field Day will be mathematicians from industry and college instructors from several colleges.

YOU NOTICE HOW HE DOESN'T ACCEPT ANY THEORIES UNTIL HE TRIES THEM?

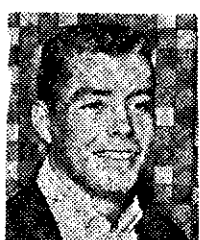

**FALCON NETTERS**—Here is Cerritos' tennis team, in action today at Los Angeles City College. Top row, left to right are Gary Carlson, Don Jenkins, Jack Harrison and Jim Barter. Kneeling are Ron Tafuri and Chuck Snyder.

(CCASBFoto by O'Donnell)

## Sportraits

by Jim Ennis

To quote a commercial, "They said it couldn't be done." But a Cerritos golfer last Friday took a major stride in displacing that theory. Lloyd Jackson, number three man on the links team, calmly stepped up to Candlewood Country Club's eighth hole and, swinging an eight-iron, promptly drove the ball straight into the cup which lay 144 yards away. Gesticulating wildly, Jackson couldn't believe his eyes. But there to lend visual support were Jerry Conn, a team member, and Coach Don Hall.

Now, we've heard of a goodly number of holes-in-ones, but never anything to compare with this. Acing a hole on the fly just isn't commonly being done.

It's too bad the Falcon golfers were just practicing and not involved in a meet. Imagine the psychological impact the shot would have had on an opponent. It might even have had so devastating an effect as to produce a Cerritos victory.

And Jackson doesn't even smoke L and M's!

**JAYCEE JOTTINGS:** Edgar Clark, who, along with teammate Leonard Guinn, paced Fullerton to the state jaycee basketball title, is also an outstanding track man. He's run a 9.6 century and a 20.6 220 . . . Incidentally, Clark and Guinn, who became the only duo in history to repeat as all-state cagers, are reportedly headed for Orange State next year to play under former Fullerton coach Alex Omalev . . . If so, they'll put OS on the basketball map . . . Speaking of the Fullerton school, three former Cerritos cagers now perform for the Titans . . . Dick Roche played the entire past season for Orange while Scott Iverson and Bill Bogdanoff transferred from BYU at the semester break . . . While on the subject of Cerritos alumnus, some former baseball players bear mentioning . . . Dick Wantz, who had a two-year record of 17-3 while here, is now throwing aspirin tablets at LA State . . . He's considered their No. 1 pitcher . . . Also at State are last year's "Mutt and Jeff" combination—shortstop Lou Sanchez and pitcher Al Petrushkin . . . Both were regulars at Cerritos. Dallas Moon is the starting shortstop for Long Beach State . . . Moon was an all-conference centerfielder two straight years here . . . Ken Roberts, last year's all-conference second baseman, now plays the keystone position for Fresno St. . . He's alternating after suffering an early-season shoulder separation . . . Jim Wolfsberger, infielder-outfielder at Cerritos, is also at FS, alternating at third base . . . Mike Kettle is playing third and left field for Cal Poly (Pomona) . . . Dan Bales is at first base for University of Arizona.

## Netmen Meet LACC Today

The Cerritos College tennis team, losing twice last week, take on tough Los Angeles City College today at 2:30 on the Los Angeles courts.

The Falcon netmen were defeated easily by Pierce College and Pasadena City College last week. Pierce dumped the Falcons by a score of 9-0 as no one could score for the Cerritos netters.

Tuesday the Pasadena netmen whipped the Falcon netters by a score of 8-1 as Bill Ruoff was able to pick up a point for the Cerritos team.

After today's match the Falcon netters will prepare for the Western States Conference tourney.

The Cerritos College golf team was defeated handily by Pasadena City College last Tuesday in a match at Candlewood Country Club. The final score was not available, but Jerry Conn picked up two points for the Falcon team.

The next match for the Falcon golfers will be against Los Angeles City College on May 1 at the Los Angeles links.

# Cerritos At Mt. Sac Today For Annual Trackfest With Nation's Top Spike Stars

Cerritos' track and field team journeys to Mt. San Antonio College today when they will participate in the annual Mt. SAC Relays. The meet will be held through today and tomorrow with the Falcons entering the competition today and tonight.

Many of the top track athletes in the nation will take part; ranging from high school prepsters to olympic champions. Mt. San Antonio JC is equipped with one of the fastest tracks in the world and several world records have been established there.

### Same Teams

Cerritos will enter approximately the same relay team and field event men that brought them a first place in the Southern California Relays.

The Falcon thinclads wound up the duel and triangular meet season with a 7-3 record. This tops last year's mark of 6-4. Their three losses came at the capable hands of Long Beach City and conference foes Pierce and Los Angeles City.

### Successful Note

They finished things up on a successful note last Friday by defeating Orange Coast and Riverside in a triangular meet on the Orange Coast oval. The Falcons flew by Riverside 110-21 and handled the Pirates 77½-52½.

Rick Alvarado was a double winner in the meet as he bettered two school records. His time of 9.9 for the 100 yd dash was nullified due to a wind advantage. However the Falcon speedster covered the 220 in 21.6 to officially take Dave Ross' record of 21.8 out of the books.

### No Record

Tom Berry scaled the high hurdles in 14.3 for second place against Orange Coast's Ron Stomp at 14.2. Berry's time was also under the school record of 14.7 held also by Ross, but the aid of the wind kept the record in tact.

Mike Johnson and Norm McMillian cleared 14 feet again to tie for the top in the pole vault. Frank Covelli was a double

winner with a win in the discus and javelin. Frank, getting a rare opportunity in his specialty, the javelin, heaved the spear 214 feet. He has a best mark of 237' which rates with strong competition anywhere.

### Other Winners

Other Falcon winners were Ed Saldana in the 440 and Darryl Taylor in the half mile. The mile relay team of John Roberts, Taylor, John Groeling and Saldana nosed out Orange

Coast with a time of 3:25.1.

Next Tuesday the Western States Conference prelims will be held here to decide just who will compete in the finals which will also be held here next Friday.

According to head coach Dave Kamanski, the Falcons must be considered a definite underdog to Los Angeles City and Pierce, but at the same time they have a good chance to take top honors and the championship.

## Falcons Wallop Compton, 20-2; Face Phoenix In Doubleheader

Trying again to dominate the WSC conference, the Cerritos College basemen take on the Phoenix Bears tomorrow in a double header on Falcon Field.

The Falcons are now in first place after wins over Glendale and Compton last week. Phoenix is in fourth slot, three games behind Cerritos. Starting time for tomorrow's contest is slated for 12:30 p.m.

This will be the second time the two squads have met. Last year in the Azusa Tournament the Bears dominated the contest winning 9-3.

### Jensen, White Picked

Jim Jensen with a record of 10-2, and Dick White with a record of 6-2 will take the mound for the Falcons in the two games. Jensens WSC record is 4-1 while White's is 1-0.

Jensen and White will be backed up by Dick Sauers, and Butch Hughes should they be needed, stated baseball coach Wally Kincaid.

### Compton Blasted

Cerritos set a new record last Tuesday as they dumped the one-time league leader, Compton 20-2 on the Falcon Field. The 20 runs scored by the Falcons marked the first time that any Cerritos team has scored 20 points or more in a single game.

Oddly enough there was only one home run in the entire game and that was made by the

littlest man on the Falcon squad, Ed Perry.

Butch Hughes was the winning hurler bringing his record to 5-0. Ted Page was the loser.

Bill Martin and Len Patinsky knocked in three runs apiece to lead the RBI race.

The Falcons bounced past league slumper Glendale last Friday at Glendale 4-2. The win combined with a Compton loss set the Falcons into first place. Jim Jensen went all the way for the win. Phares took the loss for the Vaqueros.

Compton 101 000 000 2 5 8  
Cerritos 225 046 01X 20 16 1

Cerritos: Hughes 5-0

Compton: Page, T., Ponso (4)
