## Baccalaureate, Reception On Commencement Agenda

1961 graduation, for which Bishop Kennedy will be the guest speaker, will be held June 16, Friday, 10:00 a.m. in the new gym. Various events are scheduled to precede this commencement.

Baccalaureate services will begin the exercises, Sunday, June 11, at 4:00 p.m. in the Student Center. This is the church service which is held before all graduations and is traditional throughout the country.

### Reception

Following the service at 5:00 p.m. the coffee shop will host a reception for the sophomores and their friends and families.

The last time the full sophomore class will be gathered in one place together to talk and

eat with each other will be marked by the annual Sophomore Breakfast, Thursday, June 15 at 7:00 a.m. is the time and date set for this event. The place set for the gathering will be the student center.

### Two Rehearsals

Two Commencement rehearsals, one for the faculty and another for the students will be held Thursday, June 15 in the gym. Instructors will meet at 9:00 a.m. and the grads at 8:00 a.m.

Then on the following day the graduates of Cerritos College will receive their Associated in Arts Degree June 16 at 10:00 a.m.

As a special tribute to the graduating class at Cerritos College, a special Graduate Issue of

Campus Illustrated is now being planned. The issue will be distributed sometime in early June.

For this issue, we would like to include cap and gown photos in the magazine supplement. Here are the important details:

All photographs will be taken by Marcia and Ramsey Photo Studio in Norwalk (13929 S. San Antonio Drive). Appointments must be made for individual settings. You can call UNUniversity 4-3477 for an appointment. THE DEADLINE FOR HAVING PICTURES TAKEN IS WEDNESDAY, MAY 17.

A special offer has been arranged, never before offered to a Falcon graduate. For the sitting (includes our poses) and retouching, plus delivery of a single copy to the Talon Marks office... the price is \$2.50. The photography studio has announced, however, that for those graduates that wish additional orders... the full amount of \$2.50 will be applied to the order price.

## Talon Marks Judged 'First Class' By ACP

Talon Marks was awarded a First Class Rating by Associated Collegiate Press, it was announced this week. The rating was for the fall semester.

The contest rates four-year and two-year college papers across the entire nation.

Particularly praised by ACP,

## Return Badges, Says Pep Club

DO YOU HAVE A BIG C BADGE? If so, you're not supposed to! John Jackson, advisor of the Big C, has issued a request that all students who have not turned the badges in do so immediately to either him or the student personnel office.

The badges are the property of Cerritos College and will cost Cerritos \$2.00 to replace them.

Anyone interested in becoming a member of the Big C for next year is urged to contact the advisor or to leave his name with Mrs. Woods in Student Personnel.

was the newly innovated supplement, Campus Illustrated, which made its first appearance in December.

### Sports Excellent

Sports coverage was also selected as outstanding, while features were awarded high points.

The overall rating gave Marks its largest national honor to date.

Editor of the paper for the fall semester was Pat Stewart. Other editors included Rita Watt, Bob Pollock, Chris Van Houten, Jim Ennis and Gary Tyner.

### Good Features

Pollock, feature editor in the fall, now editor of Marks, received high praise for many well-planned features and investigative journalism.

Individually praised for sports work was editor Jim Ennis and writer John LaRoche. LaRoche's feature on Amos Alonzo Stagg drew a very high score.

Judging for the ACP contest is done at the University of Minnesota, twice yearly.

## Choral Group Prepares For 'Meet The Choir'

As part of the Cerritos' Fine Arts program, the Falcon choir will present "Meet the Choir," featuring several selections by the choral group, May 11.

Performing in the student center, the choir will be under the direction of John Feeney, instructor of vocal music at Cerritos. The show will feature individual performances by choir members as well as several numbers by the entire ensemble.

### "Vignettes"

"Musical Comedy Vignettes," a variety of familiar and novelty songs from Broadway musical productions will be given by the group, along with small groups and soloists featuring songs from "The King and I," "Kiss Me Kate," "Guys and Dolls," "Allegro," "South Pacific," "Call Me Madam" and "Carousel."

The men's glee club will sing "Nothing Like a Dame" and the women's ensemble will present, "Money Isn't Everything."

A trio, consisting of Don Baker, Bill Blake and Steve Menke will sing the comical "Fugue for Tinhorns" and "Brush up on your Shakespeare" will feature Brad Lantz and Mike Cahoon.

Joan McCown and Barbara Peterson will dance and sing "A Couple of Swells" and Marsha Heusenveld and Marvin Brightup will be joined in "You're Just in Love."

## Honor Club To Get Pins

Alpha Gamma Sigma Honor Society here at Cerritos College will initiate members and present them with their club pins Saturday night, May 6, 7:00 p.m. in the new library.

These initiates and their guests will be the guests of the drama club for their presentation of the play "J.B." at 8:00 in the student center.

Punch and cookies will be the refreshments of the group as the AGS presents its members with the insignia of the organization. Ken Voak, president, and Mr. Joseph Kleiner, sponsor of the honor society have helped to plan this and many other club activities, such as cake sales, in which the participants in the club may work.

## 'Atoms in Action' Now On Display in Library

"Atoms in Action," one of the U.S. Atomic Energy Commission's newest traveling exhibits, is currently on display in the library and will be shown until May 11.

The display consists of colorful panels and models designed to provide explanation of the many peaceful uses of atomic energy in a graphic, easy-to-understand manner. One panel describes the principal components of the atom, the building blocks of the universe.

### Atom Fission

Another explains how useful energy is obtained by atomic fission—the splitting of atoms of heavy elements such as uranium and plutonium. Other panels show how radioactive materials are used in agriculture, medicines and industry.

Visitors will also see three "Island" exhibits: an animated model of an atomic power plant; an illuminated explanation of the fusion process, where power is produced by uniting atoms of light elements at extremely high temperatures and pressures.

A three-foot model of the U.S. Savannah—the nation's

first nuclear-propelled merchant ship will also be shown.

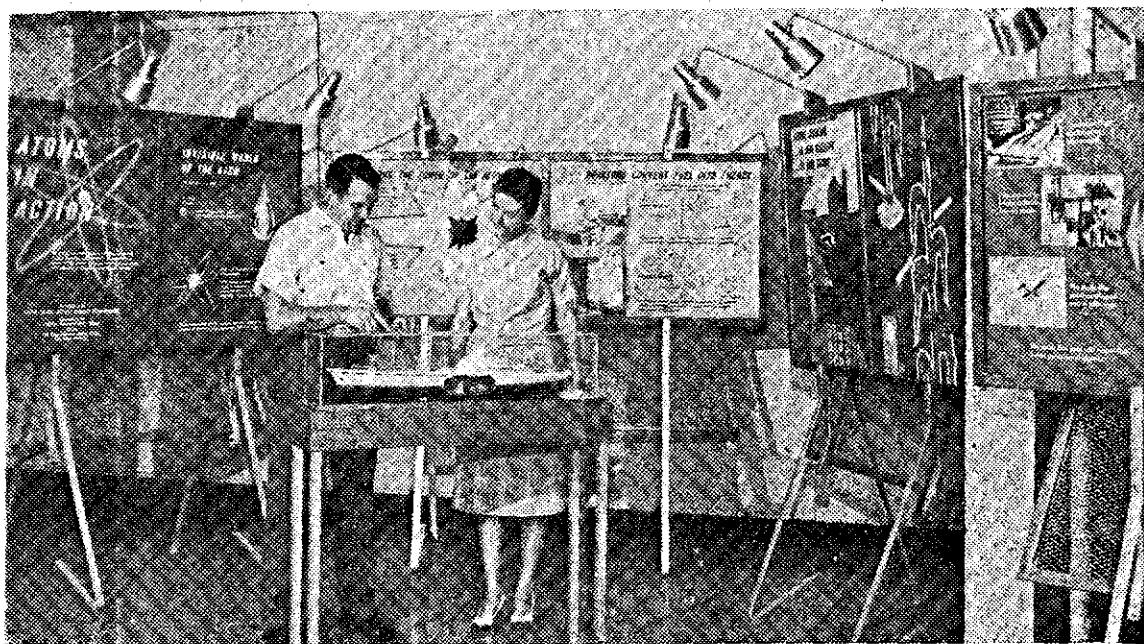

Like all of the Atomic Energy Commission's free traveling exhibits, "Atoms in Action" is operated for the Commission of museum division of the Oak Ridge Institute of Nuclear Studies, Oak Ridge, Tennessee—a non-profit educational corporation of southern universities and colleges.

## Forensic Team Set For Final Tourney

Falcon speech students will compete in their final tourney of the year tomorrow, the Spring Novice Forensic Tournament, held at Loyola University.

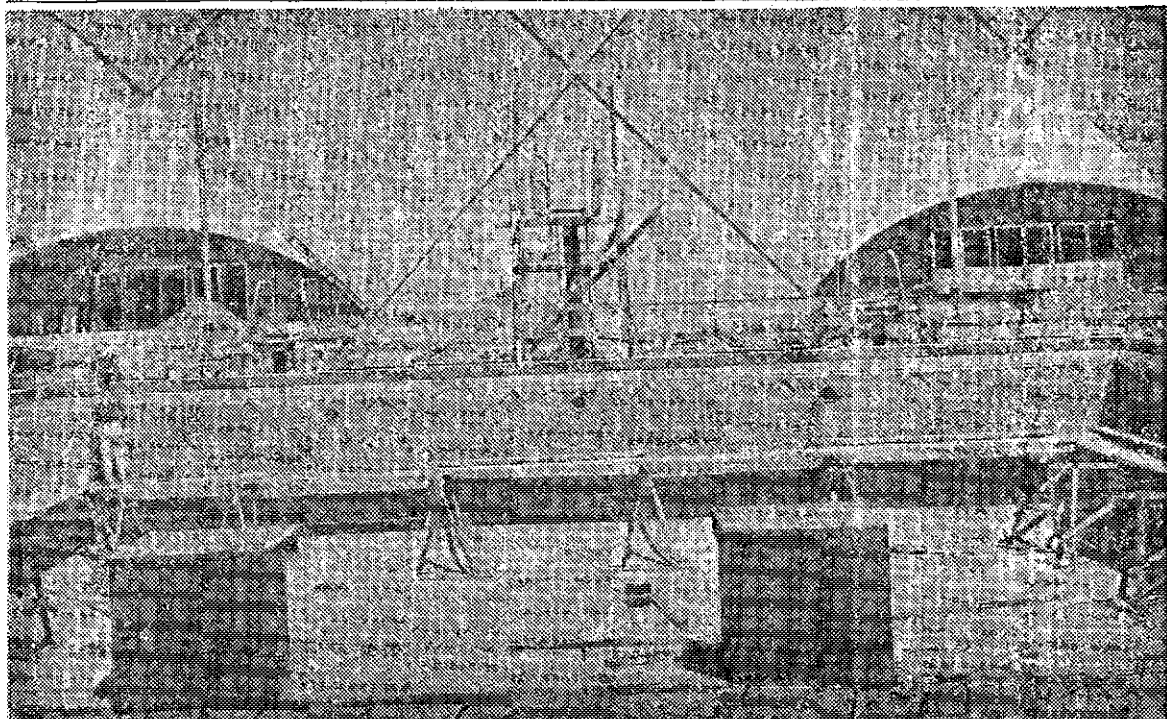

Categories will include persuasive and extemporaneous speaking, oral interpretation, impromptu and debate.

Cerritos students entering the meet will be Rita Ramsey, Tom Preece, John Frazier, Della Kearns, Tom Carey, Bob Woolery, Bill Boysen, John Turner, Beverly Culbertson, Bernice DeLeon, Arnold Albers, Veralene Hill and Janet Muller.

**ATOM EXHIBIT**—Currently on display in the library, the Atomic Energy Commission's "Atoms in Action" features illustrated charts and diagrams on atomic and nuclear development. A three-foot model on the United States "Savannah," the first nuclear propelled ship, is also on exhibit.

**SWIMMING POOLS**—Looking north into one of the two Cerritos swimming pools the nearly completed gym is set off in the background. The pools, which will be completed very shortly, are progressing quite well. The pool pictured is 75 feet long on each side. It was designed for competitive meets and events. (CCASBPhoto by Willhoff)

## Elections Begin Over Seas Peace Corps With Assembly Recruits Men, Women

Election procedures to determine the student body officers for the 1961-62 school year will get under way Thursday when an all-school assembly will be presented with the candidates and campaign managers giving their initial pleas for votes.

The assembly will be from 11 a.m. to 1 p.m. in the student center and will also feature entertainment to spell the candidates.

Polls will be located at the lecture hall and the student center.

**FIVE STUDENT** council members will journey to the Disneyland Hotel next week for a three-day state conference on student government. They are President Al Peppers, Vice-President Jerry Blott, Freshman President Kirk Dolan, Commissioner of Rallies and Assemblies Vickie Caughren and AWS President Marilyn Ryan.

Would you like to be a credit to the United States, to your family and most of all to yourself? Then join the PEACE CORPS. The PEACE CORPS has been established by Executive Order of the President and legislation has been requested to continue this organization.

The activities of the Peace Corps have been covered rather completely by radio and television but here are some of the things the corps is looking for. Teachers, farmers, government and political science majors, people with construction talents, electrical abilities, civil engineering skills and many other varied types of jobs and abilities.

Men and women over 18, in good physical condition, with a grasp of the nation's language to which he is going, must understand the strength of democracy, that the volunteer will learn as much as those he teaches, he must be adaptable enough to un-

dertake the difficult and sometimes frustrating assignment and he must understand that he is not trying to remake the world in our image. He must sincerely appreciate the values, modes and traditions of the society in which he works.

Should you have any questions about the Peace Corps please get in touch with the journalism department.

## Cerritos Faculty Names New Heads

The Cerritos College Faculty Association has announced the results of the April 27-28 election.

New president is Paul Henry, with Harlan Stamm as Vice-President.

Other faculty members elected are Recording Secretary, Margaret Bluske; Corresponding Secretary, Evelyn Bibb; and Treasurer, Paul Skaggs.

## Taking the R. A. P.

It looks like I may have been somewhat off base when I picked the baseball team to finish second in the Western States Conference race.

So far off, as a matter of fact, that the athletic department is already making plans to attend the state playoffs somewhere in the north country.

If their two game lead of a few days ago holds up, the baseballers will put sports editor Jim Ennis at the head of the class for predicting a championship.

But I have confidence that Jim, naive as he is, will not make the same mistake again.

Did you ever have one of those semesters when nothing seems to go right?

A friend of mine was telling me of one of his bad times that he is thankful is almost over.

It seems that he is the editor of the school paper at a new junior college in the area. He was having some trouble with a couple of women who kept writing in and asking him to print news of what Mickey Mantle is doing in his spare time.

Now this fellow was interested himself in what "The Mick" was doing with all of that time he has between games, etc., but, on the other hand, was that the sort of things he wanted in his paper?

Well, he wrote replies to these two women explaining his position, but they came right back and wanted more explanation.

While busily trying to rid himself of what

had become a nuisance, this fella told me, a faculty member jumped in and joined the two women in attacking this fella's point of view.

"When will it all end?" he asked me. "We're using up more space running the letters than we would be to run a daily schedule of what Mantle does."

"At least you're building up some interest," I told him. "Maybe that's just what your paper has needed—a good fight."

I suggested to him that he just disregard the letters and act as though nothing had happened.

"No," he said, "I couldn't do that. The students and faculty have a right to their space in the paper in the form of letters and what they say in that space is their business. If it's directed at me, I'll just have to take some space for a reply."

I wished him good luck and hurried on my way—I had a few problems of my own to iron out.

It's too late now, but you should have run for an office.

Participants in student government are tearing their hair out because some of the offices will be run unopposed in the coming election.

There's someone for each office, but without competition, what's the sense of holding an election? They might as well be appointed.

Sure ain't much interest around here.

# Ramsey, Roy Tab Editor As Gutless

Editor Rebuffed

Sir:

Your reply to my letter of April 15 (Letter Raps Marks' Policy) left me in doubt and unsatisfied in several instances. In assuming that you as well as I have a dislike for muddled and confused thinking, will you please endeavor to clarify the following points?

- (1) You stated that my comments were "slightly out of line" with the function of a junior college newspaper. Will you then explain just what the function of the newspaper is?
- (2) You stated that my letter could easily be attacked. In the belief that criticism can be enlightening, will you attempt to support your statement?
- (3) What do you mean by the terms "meaningless evaluations" and "value judgments"?
- (4) You stated that you could "make any point of view seem logical, but that would not be our purpose." Once again just what is your purpose?
- (5) Do you infer that issues exist only because newspapers create them?

It would seem to me that the purpose of a newspaper would be to include pertinent articles of interest and significance to college men and women, and allow us to make an issue controversial and take stands if we so desire. We would then be the ones who would make issues "hot" and you would just report the news as it happened. Thus the purpose of a newspaper would be twofold:

- (1) engendering interest by printing worthwhile articles and
- (2) reporting the news as it occurs.

In your closing words you state that you did not feel that "students of a junior college caliber would find an interest in our delving into such problems." Your inference here is both insulting and offensive. I challenge you to present some thought provoking articles to the Cerritos student body before assuming that we would not be interested. At least be fair and give us a chance to decide for ourselves before you make such broad generalizations.

Rita Ramsey

Miss(?) Ramsey:

It seems that a statement of our policy concerning reporting world affairs would satisfy your burning pen. The responsibility of a college newspaper is to the students—to first report what is current news on campus. Any off campus happening must be secondary, including any world affairs.

We do not wish to be a copy of the Los Angeles Times, the Associated Press, or Time Magazine, which we would surely become if we were to comment on world crises such as Laos, Algeria and Cuba.

Students who are writing for this publication are not close enough to the situations that they would have any information not included in the large publications.

Everything we know of world affairs is what is read in the same newspapers and magazines that are available to you.

You state that the purpose of a college newspaper is to engender interest by printing worthwhile articles and to report the news as it occurs. We believe that we do this, regardless of national and world happenings.

As a "thought provoking" challenge to you, do you feel that all Cerritos students are "college men and women"?

—Editor

Editor "Gutless"

Dear Sir:

The unwillingness of Talon Marks ("The Cream Puff Gazette") to handle "hot issues" editorially is fake and incredible. The editors seem firmly committed to limiting the horizons of the Cerritos student body. That is, we may read about junior college conventions, honors won by our students, and what our sports editor so beautifully thinks about it all. In other words, how can our students best be protected from reality?

It is time that we recognize the maturity and good sense of our students. Many are married, a large group are adult in any sense of the word, and most are tolerant of the most fumbling editorial attempts to discuss the great issues of our time. The timidity of our editor ("Big Brother") is no fault of the students: these inhibitions are firmly built in. What is needed in our future writers is not only the superficial glibness which our classes in journalism cultivate so charmingly. We need more "guts," the ingredient Hemingway calls "grace under fire." We have heard of various elites: money, power, sports, and Harvard. What I suggest is a "gutty elite," a group of talented people with knowledgeability and the courage to express their convictions. We have them here, but the "organ" of expression has mostly atrophied, it seems.

Sincerely,  
Emil Roy, Ph.D.  
English Department

Sir:

Glad to hear that the faculty is willing to take a part in this ridiculous discussion of Talon Marks' policy. We did not expect to hear from a faculty member on this subject—particularly in this vein.

One major point about our paper is that we don't represent extreme liberal factions or conservative groups. Instead, we are moderates.

You have to realize what our primary purpose is. It is campus news and views. I note some disappointment in your letter, indicating that perhaps this should not be so. Unfortunately, at least in this instance, the role does not please everyone. Our campus is made up of much college life that we do our best to report. We do not have the daily's high number of pages to accomplish this and are otherwise limited also.

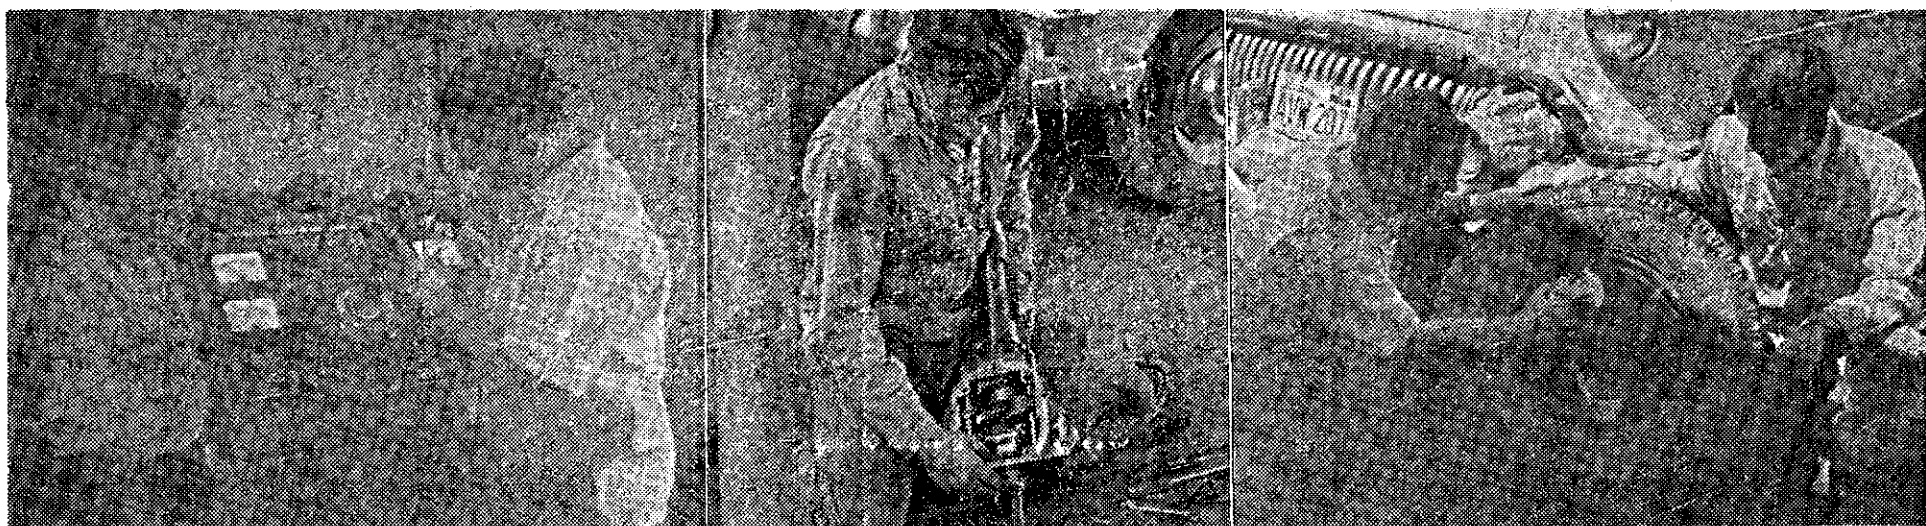

We feel that we do a good job on campus news, and evidently the Collegiate Press feels also (see page one). Until we are 100% sure of the accuracy of our reporting and the complete coverage of the campus... this will remain our major purpose.

If we are not carrying news of international and major domestic significance, I would feel that perhaps your daily newspaper has fallen down in its task. Let me, however, summarize some events of magnitude that will bring you up-to-date.

Communism is in Cuba, either because of the U.S., or in spite of it, depending upon your viewpoint; Laos is all loused up, either because of the U.S., or in spite of it, depending on your viewpoint; China is still Red China (except for Formosa); a recent revolt failed in Algeria (and we are glad); the John Birch Society has left the front pages of most newspapers (and we are glad); the Kennedy New Frontier is advancing, or in violent retreat, depending upon your viewpoint; the U.S. plans to launch a man in space (and we are foremost in rooting for his success).

Sincerely,  
Bob Pollock, A.A. (in process)

Talon Marks

## Post at Scripts Stewart

I must have reached the top! By saying that, I mean that I have received a nice letter like all the metropolitan columnists do all the time. It reads in part like this:

"Mr. Stewart,

There is no word in the English language that can adequately describe the utter and complete sense of disgust, shame, and disappointment I felt upon reading your column in the April 21 issue of *Talon Marks*." (I'm glad you find me so pleasing, but let's go on) "At the first of the semester your column was quite good and I enjoyed reading it. It has steadily degenerated to this debauchery (quite a gasp you've got there on the English language, m'dear) of a college newspaper. I fail to see how on earth this thing was ever allowed to reach the publisher." (midnight street races to the printer with the advisor in hot pursuit. I happened to win that one. You should see some of them that he's intercepted!)

"... Anyone who read this column would be perfectly justified in assuming that the author was a sadistic gook who delighted in stories of pain and sadism." (Well, doesn't everyone?) "The article was in extremely bad taste. To think that tax money is going to a teacher who is 'teaching' people to write trash that is fit only for a garbage disposal!" (Aw, shucks may'm, he don't really teach me, just sorta comes natural-like) "After talking to several people I find I am not alone in my criticism. (Nice to know I'm getting around) One girl read two paragraphs and refused to read further." (Eyestrain, huh?? Poor girl should see an optometrist) "I suggest that if you want to have your writing approved you send it to one of the movie studios. Surely they could use it." (Well, they did find a spot for "Thriller")

"... If there is so little to write about and so much space to fill up, why don't you cut down the size of the paper? Or write your own opinions about things like the Kennedy administration or Cuba?" (I understand that little Caroline likes life in the White House real well, and that the other's an island off of Florida.)

"At least that would be better than these perverted ravings that could just as easily have been written by an incorrigible in an insane asylum." (Well, I have gotten some pretty good ideas down there)

"I would like to be able to enjoy your column again in the future. I hope I will be able to."

Sincerely,  
Virginia Willey  
10435 Arthurdale  
Bellflower, California

Dear Virginia:

Nice to hear from you. We simply **must** get together some noon and enjoy lunch together, at which time we could possibly discuss the chartering of a "Pat Stewart Fan Club."

Believe it or not, I also received one or two compliments on that particular column from students (notwithstanding the rants and raves of my many asylum followers) who said they liked it. Who's right? You or they? To tell you the truth, if I were a student (which by a quirk of fate, I am) and picked up the student newspaper and some numbskull were voicing political opinions, I'd scream loud and long, not unlike a rebel soldier at Gettysburg. I can read about those things in 32 periodicals a week, and 27 newspapers a day. I don't need it in the student newspaper.

Another truth is that I'm a pervert of sort, and when pecking out a column (the sort depends on the mood I'm in) don't try to please any group or groups. If they like it, good. If not, who's being forced to read it? Hope you don't find me too nauseating in the future, I'm not that way on purpose.

"J.B." will be presented by the Falcon dramatists Friday evening in the student center at eight p.m.

A BUDGET HEARING will be held at Tuesday's meeting of the student council. Anyone interested is invited to attend.

## Auto Mechanics Division Covers Varied Interests

Cerritos' division of technical arts and auto mechanics offers many opportunities to the Falcon student—from the selection and maintenance of the modern automobile to how to tune up and lubricate a car.

John Jackson, instructor, estimates that there are about 17 boys enrolled in the day classes, while approximately 34 are entered in the evening portion of the auto shops. The

classes are all boys; while they are not restricted to the male half, there have been no women in the course.

### Orientation Course

For the women, however, there may be an "orientation" course which will serve to teach the fundamentals of operation in the automobile. Jackson has been considering the possibility of starting such a class which will probably be offered twice a week and which will familiarize the women with the workings of the various parts of the auto.

This current year is the fourth year that the Cerritos College auto shops have been operating. Back in the year 1957, the auto shops were running at Artesia High School.

### Cars Serviced

The students enrolled in this course have the opportunity to service their own cars and those of their friends. This, however, does not mean that anyone desiring to have his car serviced can bring it into the shops; the car must be in the educational program in order to entitle its owner to this service.

ART FESTIVAL DANCE is planned for Monday in the student center at eight p.m.

## Service Clubs Sponsor Area Clothing Drive

Under the supervision of Cerritos College, Beta Tau, with the aid of other Service Clubs on the campus, is sponsoring a campus, community clothing drive May 1-5.

The drive is part of the World Clothing Week. The clothes, shoes, blankets, etc. will be used for the depressed and disaster areas of the United States.

Also, clothing will be sent to Indian Reservations in the United States. A portion of the clothing collected will be distributed by the World Clothing Fund Inc. to orphans in forty foreign countries.

On Saturday, May 6, from 10 a.m. to 4 p.m., volunteer students will meet in front of the Student Center for a Community clothing drive. We will split up into teams of four (two boys and two girls). At the end of the drive the group collecting the largest amount of clothing, shoes, blankets, etc. will receive a trophy for each member of that group.

That Saturday evening there will be an appreciation of service rendered party and dinner. This will be held at the home of Bill Axline, President of Beta Tau. This party will be held for those students who donated their time for the drive.

If you are unable to attend the drive and wish to come to the party and dinner, the admission at the door will be a 10 lb. bag of clothing for each person.

The dinner will start at 7:00. Bill's house is in La Mirada at 15024 Tricia Lane.

## Edelweiss Offers Schweitzer Film

Activities of the Cerritos College German Club, Edelweiss, are highlighted by the showing of the film "Albert Schweitzer" in H1 at 11 a.m. and 1 p.m., Tuesday.

This film is in English and depicts the life of the great philosopher, musician, humanitarian, and Nobel Prize winner. The last half of the film portrays the settlement in Lambarene, Africa, where Dr. Schweitzer established his hospital for the care of the natives.

Everyone is urged to see this excellent and interesting film. Faculty and students of all departments are cordially invited.

According to Gloria Hack, president, Marcella Fisk, vice-president, and Rheta Bangma, secretary-treasurer, the club is planning some interesting activities in the near future. On May 21, a theater party at the Tosca Theater will be followed by dancing at the Switzerland Restaurant. On June 10, an awards banquet is scheduled at which German students who have won awards in essay contests, achieved recognition for high scholarship and perfect attendance will be honored.

A PLACEMENT TEST is scheduled for 9-12 a.m. tomorrow in the student center.

# Stadium Scene For Conference Finals Tonight

By Bill Kelley

Winding up league competition tonight, the teams of the Western States Conference meet for the all important finals to decide the championship. The field events get under way at 6:30 p.m. and the running events a half hour later.

In the preliminaries held on the Falcon oval Tuesday night, Los Angeles City led the league with 24 qualifiers for tonight's 14 event program.

Close behind were Pierce and Cerritos with 21 and 20 respectively. Following the big three were Glendale with 18, Compton 16, Pasadena 15, Phoenix 13 and Ventura eight.

Cerritos and Pierce came through with top performances with City relying on its depth for strength. This should present and bring about an interesting outcome of the grand finale tonight.

## Falcons Could Win

Figuring on a strictly bias basis, the Falcons could cop top honors. Going by performances of the prelims and the past season, the meet might wind up in this fashion:

Cerritos 94, Pierce 90, LACC 74, Phoenix 51, Glendale 50, Pasadena 37, Compton 23 and Ventura 15.

Cerritos should score close to half of its total points in the pole vault and both high and low hurdles. Pierce is very strong in the field events and LACC has its talent spread out over the program. Glendale has a strong distance group while Pasadena monopolizes the sprints.

The mile should go to Glendale's Muller with Gene Gurule of Cerritos running for second with Marin of City and Massey of Pierce. Gene could turn things around in the two-mile

**BIG THREE**—Shown wielding their potent poles are Falcon vaulters (left to right) Norm McMillan, Jim Harris and Mike Johnson. McMillan and Johnson have both gone over 14 feet, while Harris has soared 13' 6". All will be in action tonight in WSC meet at Stadium.

(CCASBFoto by O'Donnell)

however and let the other three scramble for second.

## Saldana Hits 49.2

Comer of Pierce is an easy pick for the 440 with a qualifying time of 48.2. He is also a top selection for the 220 where he ran 21.0. Ed Saldana ran and impressive 49.2 but took second to Sims of Pasadena at 49.1 in their heat.

In the 100 yard dash watch for Morris of Pasadena, Green of Pierce, and Tucker of LACC in a tight race. Rick Alvarado and Gary Gaudet give the Falcons a strong duo here. Rick also qualified for the 220.

Darryl Taylor will have his work cut out for him in the 880 with Glendale and City each sending three half milers to the finals.

## Top Hurdlers

The Falcon squad is equipped with top high hurdler in Tom Berry and low hurdler with John Groeling. Haywood of Phoenix should provide Groeling with ample competition though. John will also be in highs along with Frank Sparks.

Cerritos failed to qualify anyone for the shot put and broad jump, Frank Covelli will go in discus against a strong Phoenix and Pierce aggregation. Covelli will also be the high jump with Herb Lee and Chuck Leavelle.

In the pole vault, the Falcons have Norm McMillan, Mike Johnson, Jim Harris and Leavelle.

If the meet is decided by the final event, the mile relay, it could go to almost any one of the teams. All but Compton are equipped with strong foursomes.

## Sportraits

by Jim Ennis

The inconsistency of junior college sports is pointedly brought out by the present edition of Cerritos' track squad. At this time last year the team, predominantly freshman, was enjoying a prosperous season and no doubt casting anticipating eyes toward this year. We envision Coach Dave Kamanski dry washing his hands with delight last summer at the prospect of all those returnees he would have in the fold.

But, it turns out, Mr. K was to be denied the services of half a dozen top-notch trackmen who failed to return for reasons ranging from ineligibility to transferring.

The six we had in mind are Paul Stuber, Larry Canova, Kenny Reed, Paul Sallinger, Ernie Chadbourne and Mike Colegrove.

A simple lack of competition, not to mention Paul's great jumping ability, could have carried Stuber to the state meet this year. Undoubtedly Reed, and possibly Sallinger, would have shot-put their way into state. Canova, Chadbourne and Colegrove, also, on the basis of last year's performances, stood good chances of making it into the elite circle of the state's best athletes.

To conjecture, say the above mentioned men all made it to the state meet. Add to these the list of other Falcons who will make it to state this year and you have an imposing array of talent that, in our opinion, would have swept state honors this year.

Instead, it looks like Los Angeles will again pick up all the marbles as repeaters.

Cerritos can wrap up its second Western States Conference baseball championship this afternoon against the team they shared the league title with in 1959—Pasadena. The worse the Falcons can now wind up is in tie for first place. To do so, Cerritos would have to blow both its remaining games while Pasadena would have to win all its remaining contests.

What has recently happened to Compton should happen only to one's worst enemy. Only a couple of weeks ago, the Tartars were reposing in first place, a lofty height that, of late, isn't often attained by them. Compton then trekked to Phoenix and dropped a pair of games to the Bears to remove them from the first place scene.

Udaunted, the Tartars returned home, visited Cerritos—and promptly got pounded, 20-2.

At that game, a Compton fan might well have summed up the entire Cerritos season. A Tartar batter sent a fly ball deep to left field which the Falcon outfielder at first misjudged. At the last moment, the flyhawk backpedalled quickly, leaped, and made a beautiful stab of the ball. As cheers of "great catch!" "sensational!" and "nice going!" arose from the stands, the disgruntled fan bellowed, "the lucky bum"

## WSC Standings

BASEBALL				
	W	L	Pct.	GBL
Cerritos	11	1	.917	-
Pasadena	6	3	.667	3½
Compton	7	4	.636	3½
Phoenix	6	4	.600	4
Pierce	5	5	.500	5
Los Angeles	4	8	.333	7
Ventura	3	8	.273	7½
Glendale	2	11	.154	9½

**Tuesday Results**  
Pasadena 16; Compton 3  
Cerritos 7; Pierce 5  
Los Angeles 12; Glendale 7

**Games This Weekend**  
Friday—Pasadena at Cerritos; Ventura at Glendale; Compton at Los Angeles; Pierce at Phoenix; Saturday—Pierce at Phoenix.

## Golf, Tennis Teams Lose

The Cerritos College golf and tennis teams were defeated again this week, but the Falcon tennis team put forth a great effort in defeat.

The Falcon netters played Los Angeles City College to a tight finish, but Los Angeles won out by a score of 5½-3½. Jack Harrison, Don Jenkins, and Ron Tafari were winners for Cerritos with Harrison and Dave Carlson splitting in a doubles match.

The Falcon golf team was beaten soundly by Los Angeles City College by a score of 46-8. Ray Fernandez was low man for the Falcon team with a score of 85.

The Cerritos golf and tennis team will be idle until next week when both enter their respective tournaments in the Western States Conference. The golf tourney will be held at Pasadena City College on May 9 while the tennis tourney will be held at Glendale City College starting May 8.

**PETITIONS** are now available in the student center for man and woman of the year. All students interested in applying for this highest honor should submit their petition at once.

**THE FIRST** annual Fine Arts Festival is continuing this week and next in the student center.

**SUMMER BOOKS**—For those Falcons attending the summer sessions, in the book store is the complete list of the books that will be offered this summer. Some of the books are in the bookstore already. However, most of the books will not arrive until a week before the session actually starts.

## First Place Falcons Host Lancers In Next-To-Last Conference Tilt

Pasadena City College, holding down second slot in the conference, invades Falcon Field today to meet the league leading Falcons.

If Cerritos can defeat the Lancers they will win the WSC title. As it stands now, should Cerritos lose their last two contests and Pasadena win their remaining games, the two teams will be tied.

The game is scheduled to get under way at 2:30 p.m.

Jim Jensen (11-2, 5-1 league) or Dick White (7-2, 2-0 league) were picked to take the hill for the Falcons by coach Wally Kincaid.

Pasadena has already stunned the Falcons once this year to the tune of 4-0, on the Pasadena diamond.

## Pierce Swamped

Len Patinsky with a triple and a double, which accounted for two RBI's, led Cerritos to its eleventh WSC victory last Tuesday afternoon against

played at Pierce.

Butch Hughes (6-0) was the winning hurler for the Falcons. Sherman took the loss for Pierce.

## Falcons Snag Doubleheader

Last Saturday Cerritos romped to a double win over the Phoenix College diamondmen, 11-1 and 6-4.

Bob Beckner led the Cerritos 13 hit attack with two home runs and a single to drive in three runs. Jim Jensen was the winning pitcher in the first game.

Phoenix led in the second game, 3-2 until the bottom half of the fifth, when the Falcons cleaned the nest with three runs and another one in the sixth.

White got credit for the win although he had to be relieved by Hughes.

	R	H	E
Cerritos	001	401	010
Pierce	002	000	120
Cerritos Hughes (6-0); Pierce: Sherman, McCusker, 4th, Folder, 9th.	5	8	1

**HOLE-IN-ONE**—Lloyd Jackson shows Mike Critelli ball with which he aced No. 8 hole at Candlewood Country Club two weeks ago. Critelli is No. 1 man on links team.
