

(W)HOOPIN' IT UP — Members of Phi Beta Lambda, business fraternity, "practice" in preparation for their annual Hawaiian dance, to be held in the student center, September 29. (CCASBFoto by Frank King)

'Blue Hawaii' Set For Friday Night

Phi Beta Lambda Business Club will present its third annual "Blue Hawaii" dance, September 29, from 8 until 12 p.m. in the student center. Dress for the occasion will be strictly Hawaiian, which means anything casual for the Falcons from bermudas and sweatshirts, to muumuu, or, grass skirts. Tickets may be purchased from any Phi Beta Lambda members, at the student center cloak room or at the dance.

Refreshments will be served—compliments of the sponsor, and will consist of cookies and cokes. A 14-piece band has been secured for the evening, according to President Linda Peterson. Admission for couples is \$1.50, and stags \$1. Hawaiian leis will be sold at the door for 25 cents.

Hula Hoop

The highlight of the evening will be the hula hoop contest. A cash prize award goes to the best hula hooper. The campus club which has the most members at the dance will also receive a prize.

Members of the dance committee are chairman Betty Fendler, Bill Dister, and Shirley Wilson.

In a candlelight ceremony held last Thursday at 7 p.m. in the lecture hall, new members of Phi Beta Lambda were installed.

The new members, ushered to the front of the room, took the club pledge before the table holding the candles; a typewriter, symbolizing business; and a statue, symbolizing education. Administering the ritual were Linda Peterson, club president and corresponding secretary of the California state organization; Bob Clemens, club vice president and California state president; and Ernest Chadbourne, past president of the Cerritos Phi Beta Lambda chapter.

After installation, a short business meeting was conducted and refreshments served.

All interested business students may obtain an application in the office of the business building.

Prexy Tilt Draws Four Candidates

The Freshman Student Body will have their election October fourth and fifth. The candidates for the Freshman Offices will be introduced during the football rally September 28th.

Eligible candidates for the election for President are Oscar Parra, Tom White, Raymond Rosenbauer, and Roger Woods; for vice president nominees are Rita Thomas, Kathi Rafferty, Ron Greenfield and Vicki Mullins; for treasurer nominees are Keith White, and Ronald M. Marris; for secretary, nominees are Carole Koeneke, Rose Marsalina, and Elizabeth Beltz.

College Adds Art Prints To Collection

Forty-one copies of well-known paintings were recently mounted in the library, student center, and administration buildings.

Climaxing a six month drive, led by CC President Ralph Burnight and Mr. Rudolph Aguirre of the art department, the reproductions add a new and cultural aspect to the Falcon campus.

Ranging from Egyptian frescoes to modern abstracts, the prints are worth \$1000. They are full-size lithographic reproductions, produced by a new process on a special type of paper. The reproductions, done in Germany, are said by many to be very authentic looking.

Reknowned Art

Among the reknowned artists and paintings represented are "The Music Lesson," by Thomas Benton; "By the Seashore," by Auguste Renoir; "Spring Landscape," by Grant Wood; "Two Children," by Pablo Picasso.

Others are "Boating," by Raoul Dufy; "Still Life With Apples," by Paul Gauguin; "Landscape with Cypress," by Vincent Van Gogh; "Allegory of Springtime," by Sandro Botticelli; "Mona Lisa," by Leonardo da Vinci; "Self Portrait," by Harmensz Rembrandt; "Bridge at Argenteuil," by Claude Monet. In the future, Mr. Aguirre hopes that the budget will allow students to "check out" paintings and take them to their homes to enjoy. "It will be a while before this is possible, however," he stated.

IBM Balloting Promises 'New Look' for Elections

Future student body elections will have a new look, according to Clive Grafton, coordinator of activities. Beginning with '62 elections, Cerritos balloting will be done on IBM cards.

The ballots will be standard IBM card size (the size of class

admission cards) and will be blue, distinguishing them from other college forms.

"Utilizing IBM will have several advantages," Mr. Grafton commented. "They will take away the problem of counting, due to the fact that IBM ballots can be tabulated in 35 minutes. The process will also eliminate the need for a bulky committee."

Two Locations

Two balloting places have been suggested as vantage points on the campus. At the booths in front of the lecture hall, and in the student center, students will present their ASB card, sign a roster and be given a ballot. Electrographic pencils, needed to mark the ballots, will be furnished in the voting booths.

"The only disadvantage to the IBM methods of college elections is that voting students must un-

derstand the relationship of the ballot card to the candidate, for the marks must be placed on the card properly in order to be counted on the machine," he said. "However, clear directions will be printed on the cards."

Space will also be provided on the ballot for special issues and write-in candidates.

Late Count Shows 6695 Enrolled

Latest unofficial count from the Admissions Office reports 6695 registered students. Official figures should be known soon, according to Dean M. Edward Wagner.

Full-time students number 2246 while 4449 attend part time. Just four years ago Cerritos first opened its doors to 217 full time and 152 part time students.

Cerritos' current 165 and part time faculty is larger than the first part time enrollment in 1957-58.

ASPIRANT Tom White, running for freshman class president, persuades a reluctant Falcon to sign his petition. Tom is among the four presidential candidates. Elections will be held in October.

Falcon's Nest

VETERANS are reminded to report to the Counseling Office after their last class of this month to sign attendance certifications. Also any veterans who have transferred from another school should make certain that their transcripts are on file at the Admissions Office. Transferring veterans will not receive subsistence until transcripts have arrived.

SCHOLARSHIPS in the amount of \$50 are available to Falcons whose grade average and financial need meet the requirements. Inquiries can be made at the Counseling Office regarding applications.

INTERNATIONAL RELATIONS club will hold their first luncheon of the semester next Monday on the Student Center stage.

EXCHANGE RALLY with Compton Junior College is scheduled October fifth at 11 a.m. in the Student Center. A luncheon is also planned.

BETA TAU will show surfing films next Wednesday in the Student Center, beginning at 7 p.m.

WARNING from college officials: keep your car locked to avoid having your books stolen.

Dean To Attend Youth Conference

John Blakemore, Dean of Counseling and Guidance, has recently been invited to take part in the Governor's Conference on Youth for Community Service to be held in Long Beach.

Mr. Blakemore was appointed by President Ralph Burnight as a Community Consultant. Sixty of these representatives have now been appointed over the state and will be involved in the Long Beach meet as well as in a follow-up program.

The conference is expected to stimulate local community services by young people in what may well be a local or California version of the Peace Corps idea.

AN EDITORIAL:

Is Our Spirit Lacking?

What has happened to that wonderful Cerritos school spirit? Have the students who did have some school spirit transfer to a four year institution or possibly have they quit school all together?

It matters not what happened in the past. The thing that is important is what happens in the future.

There has been talk among students that Cerritos will not have a very good football or basketball season this year. How do you know so much? Have you been out to see them practice or even to try out for the squad?

More than ninety men tried out for football this year. Of these ninety only about a third will make the squad. They have worked hard and long to get where they are and we should not let them down with our inaccurate im-

plications. They have worked for us. Now we should work for them by attending the games.

Any students who would like to join the pep squad, better known as the big C, can contact Adviser John Jackson, in the Auto Mechanics building. His office is M-2A.

—DAVE McFARLAND

White-Uniformed Class Enables Girls to Pass Cosmetology Exam

Just what does the cosmetology course entail at Cerritos college? Very few students realize what these white-uniformed girls do to pass this course, and receive their certificate from the State Board of Cosmetology.

This course does not consist of simply cutting and washing hair, which is the misconstrued concept of many people. These girls are highly trained and specialized in their work. Along with their cosmeology class they study academic courses such as chemistry, biology, bacteriology, and electricity. Each

of these courses is taken in relationship to cosmetology.

Artistic Ability

These girls also must have an artistic ability. This is needed for the hair styling. They also take a course in human relations. This course is a must, for an important factor in their business is the ability to get along with people.

The course schedule is 35 hours a week. Five hours of this time is spent in lecture and the remaining 30 hours is spent working in the laboratory.

On Thursdays guest artists are brought in to speak to the classes. Speakers from special clinics for hair dying and such fields are also asked to appear for the classes. These special speakers help give the students a better outlook on what is ahead of them in the world of cosmetology.

The state law requires that 60 per cent of the hairdressing be done on live models, and so patrons are brought in. The only requirement for the patrons is that they be 18 years of age and are not enrolled in a local high school because of the fact that they are in school all day. Students of Cerritos may patronize the cosmetology classes which are located in the technical building. A specially authorized parking lot is provided for the patrons of cosmetology and a permit is given to park there. The hours for patrons are Tuesdays, Wednesdays, and Fridays from 10 a.m. to 3:30 p.m.

RUSTLINGS

First Letter Asks For Political IQ

Dear Editor;

1. Who is your student-body president?

2. What team does Lynden Johnson pitch for?

3. What is the number of your congressional district?

4. Where is Berlin?

5. What promises to become one of the most stimulating clubs on campus?

6. What distinguished, witty, moustached man about campus is the advisor of this new club?

If you are unable to answer any one of the questions above you are way below par. To relieve this unfortunate, unforgivable, un-Cerritos ignorance of what's happening in the world today, simply drop in to the next meeting of the newly organized, non-partisan, as yet unnamed political club.

Should you have any questions concerning this club, please contact instructor John Palmer or myself.

Respectfully,
Rita Ramsey

Weighted Flags Make Falconettes Unique in U.S.

Ever try managing two flags, with the combined weight of 5 lbs., in a high wind, chilling weather and wet grass, and still keep smiling? Hard, isn't it?

This is a sample of what the Cerritos Falconettes go through at football games. With 25 members, the Falconettes can boast of being the only double weighted flag twirling drill team in the United States.

Sporting new uniforms this year, they will perform at all football games, Norwalk Pioneer Days parade, Jr. Rose Bowl parade, and some pep rallies. The uniforms are blue corduroy dresses with turtle neck and rick rack trim. Capes have the traditional falcon on back.

Tryouts were held last Thursday and new members are Anita Jimenez, from Norwalk high; Laura Sanchez, Bellflower; Patty Roberts, Excelsior; Bonnie Bromberg, Long Beach State; Karen Mallet, from a high school in Iowa; Sandra Dodge, Norwalk; Marcia de Pue, Excelsior; Anna Marie Canas, Bellflower and Luann McCold, South Gate.

Other members include Jackie Widener, Jackie Weber, Sandy Pernick, Chris Van Houten, Verne Gades, Charlene Carter, Helen Monroe, Pat Coehlo, Pat Boylan, Connie Pizzo, Joene Golob, Margaret Handiwerk, Sue Hammer, Bobbie Thompson, Leah Walker, and Carol Rosenbloom.

WORK CONTINUES on the new \$44,000 Quad project. The quad will feature an attractive fountain and provide a leisure time area for students. (CCASBPhoto by Ralph Peppers)

Cerritos Awaits Completion Of \$44,000 Quad Project

By SHERRY LACKEY

Now under construction in the area between the library and student center is the Quad, a 100,000 square foot area devoted to the leisure time of students.

Fifty thousand square feet of concrete and approximately the same amount of grassy area with scattered planters will make up these grounds. Five thousands

dollars of lighting, \$7,000 of sprinkling, \$1,000 for an elaborate fountain, \$1,000 for benches, \$5,000 for lawns and planting, together with \$25,000 for the patio make the Quad a \$44,000 project. The money for this comes from the taxpayers in the district comprised mainly of Norwalk, Bellflower, Artesia, Dairy Valley, and La Mirada.

The pouring of concrete should be finished around the middle of October. Then planting should begin right away, and the Quad will be finished in November or December.

The contractor for the Quad is the Fryar Construction Company, who also built Cerritos' gym, library, and metal arts building.

Students can look forward to the completion of the Quad, for it represents a peaceful place for eating lunch, studying, or resting on the lawn in relaxed conversation. Outside rallies and other activities may take place here also.

See Berlin Films

The Cerritos "Der Edelweiss" (German Club), invites all students and faculty to attend the showing of three films on Berlin tomorrow in H-1 at 11 a.m. The first film will run 30 minutes, the second, 15 minutes, and the third 15 minutes.

The German Club has planned an active semester which began with a luncheon meeting in the student center yesterday at 11 a.m.

Literary Club Forming Here

Are you interested in good literature? If so, the Literary Club is the club for you.

A new club on campus, the Literary Club is sponsored by James Dighera. The club is open to anyone who is interested in reading and analyzing the literary masterpieces of famous authors.

The discussion topic for the first meeting, held in the Library Conference Room, will be Ernest Hemingway's *A Farewell To Arms*. A definite date for this meeting has not been set. Future discussions will be on Eugene O'Neill, Thomas Wolfe, and "Beat Literature."

"We want our college to be more than stone walks and brick walls," stated Mr. Zimmerman Superintendent of Maintenance recently. "The students should have a meeting place, and this will provide a very lovely one. We should all feel very lucky."

Frosh Tell Views In First of Series

By TOM RIPPEE and RAY STORIE

This week we're introducing a new column to Cerritos, the Inquiring Photographer. The purpose of this column is to poll the students about various questions pertinent to campus life.

After racking our collective brains in search of a question of interest to our readers, the too obvious answer came through the query of one of the new members of the "Talon Marks." After only two weeks of school what question could be more fitting than, "What are your first impressions of Cerritos?"

Pretty coed Wendy MacLaren was sitting in the coffee shop when we first approached her, and seemed rather surprised when asked the question, but quickly rallied to the cause.

"I think that the campus is just beautiful," she said, "And it's really wonderful to be going here. I've noticed that everyone seems so friendly too." When asked what she thought of the first day rush, she replied, "It was horrible. I think that more people should register early." (She registered last May). She was impressed by the interest in school activities, and has signed up for Big "C", Phi Beta Lambda, and Theta Phi. "I don't know whether I'll make them all or not though," she added.

Scoliosis, Apathy Not Contagious, But Cause Thefts

by Dorothy Cranston

Books seem to be the main cause of concern to Falcons this year because of the numerous thefts that have been occurring and the threat of scoliosis, lordosis, and kyphosis.

Don't be shocked! These three ailments are not contagious, but they will become epidemic if students continue to carry an unnecessary load of books in the cumbersome positions that one has to take to handle them.

"Don't be a stoop shouldered Sam, with rounded back and caved in chest from hunching over," Miss Edith Pine, physical education teacher warned. "Don't be a scoliosis Sue (which, for the 'uninformed,' is a curvature of the spine) with books balanced on the side of your hips," she further stated.

Students think they can combat this problem by leaving their books in their cars, which are unlocked, or on the shelves in the student center. They find that this is an excellent way to rid themselves of books, not only for the day or the hour, but forever, for these unguarded books are often stolen.

Many cars have been vandalized this semester, and this will continue, if students persist in leaving their cars unlocked.

Books are heavy, cumbersome, necessary, and expensive. It seems funny that a student will spend money that may have taken hours to earn, and then throw it away by his own carelessness.

"I think it is very well planned," was freshman Larry Stogspill's immediate reaction. "It looks like Cerritos will be one of the better colleges." When asked how he liked his classes he smiled, but then said, "So far my classes are fun, and I expect to learn a lot." He also added that the school has "Good atmosphere for studying."

Bonnie Angotti, a first-timer here at Cerritos, thought that it was "A lot different from high school. I like the casualness," she said, "and the way the classes are conducted." When asked about the various school activities she replied, "I'm more concerned about my academic work right now, but I plan to look into the various campus organization."

Steve Price, engineering student, remarked on the efficiency of the campus design. "When the present construction is finished, I think that Cerritos will have one of the best-looking campuses in the nation. I hope that this year will be a good one for both myself and Cerritos."

CURSES! FOILED AGAIN! . . . The culprit cries as he is trapped by a trusted member of the Lambda Alpha Epsilon, new police fraternity on Cerritos campus. These two characters were first seen on Club Booth Day to draw attention to the national police science fraternity (CCASBPhoto by Ray Storie)

Poloists Open New Season At Coliseum

Cerritos College's water polo team will open their first season today in the Los Angeles Memorial Coliseum Olympic pool. Coach Bob Horn will send his team against the University of Southern California Trojans. Game time is set for 4:30 p.m.

Next Tuesday the Falcons will host a water polo tournament with both preliminaries and finals taking place on the same day starting at 3:30 p.m.

The following is the Falcon poloist's schedule for their first season:

SEPTEMBER	
27 USC	4:30 p.m.
OCTOBER	
3 Tournament Prelims *	
4 Tournament Finals *	
6 L.B. City College	3:30 p.m.
10 Fullerton College	3:30 p.m.
11 L.B. State *	3:30 p.m.
13 Los Angeles *	3:30 p.m.
20 Pasadena *	3:30 p.m.
24 Fullerton *	3:30 p.m.
25 Glendale	3:30 p.m.
27 Cal Poly	4:00 p.m.
28 Bakersfield	1:00 p.m.
NOVEMBER	
1 Pierce *	3:30 p.m.
3 Los Angeles	3:30 p.m.
7 USC *	4:30 p.m.
8 Pasadena	3:30 p.m.
17 Pierce	3:30 p.m.

* Games played at home.

Harriers Open Season Saturday

Cerritos College's cross country team opens the 1961 season next Saturday with the all important Long Beach Invitational. The Falcon squad is the returning champion after taking top honors there last year.

The meet brings together all the top talent in the area and gives the teams an idea of what they will be up against in the coming season. Last year Cerritos placed first with Fullerton JC taking second. This proved to be order of finish at the end of the season in the Southern California championship meet.

Gene Gurule captured second place individually last year in the Long Beach meet just two seconds behind Fullerton's Le-Roy Neal. Neal's time for the 3.5 course was 17:33.8.

Art Pittman took sixth and Jim Miller seventh place in the meet. Both boys will again be in action for the Falcons this year.

TYPICAL OF RUGGED ACTION in the Cerritos and Long Beach game, players clash head on with each other in a hard fought struggle which brought defeat to the Falcons. The score read 44-30 when the gun sounded to end the game. Cerritos failed to make any of its conversions while the Vikings made four out of six. (CCASBFoto by Ralph Peppers)

Falcon Gridmen Drop Tilt To Tough Viking Eleven

By BILL HAMPTON

The Cerritos College Falcons lost its second heartbreaker in as many seasons to a highly touted Long Beach City College eleven 4-30, Friday, before a near capacity crowd of 8,848, at Veterans Memorial Stadium.

Cerritos put on a tremendous fourth quarter rally, spearheaded by the fine passing of Jerry Otterson and the speedy running of Ricky Alvarado.

Otterson's main target, left end Jack Daniels, gathered in several key passes in the final period, when the Falcons came back from a 38-12 deficit to within eight points of the Vikings.

Otterson Clicks

Otterson clicked to Daniels for the first score of the game. The play covered 24 yards as the Falcon end faked Dee Andrews, star Viking flash, completely out of his shoes.

The Falcons then proceeded to miss their first of five conversion attempts.

Lonzo Irvin scored on runs of 4 and 1 yards, and Andrews tallied on a 3-yard scamper to give the Vikings a 22-6 halftime lead. During this period the

Falcons fumbled three times, to set up the scores.

Midway through the third period, Long Beach put on their only sustained drive of the game, marching from the Falcon 35 yard line, with the slippery Andrews scoring on a 17 yard run and jump play. The Viking speedster also converted, catching a pass from quarterback Ed Reddick.

Falcons Move

After taking the kickoff, the Falcons marched down the field almost at will with Otterson tossing to right end Lynn Blouch for the score from the three yard line.

Trailing going into the fourth quarter 38-12, the Falcons almost did the impossible as they scored three times, twice on runs

by Ricky Alvarado and the final coming on a 24 yard pass to Art Delvaux from Alvarado.

With only seconds remaining in the game, Andrews raced around his own right end for 40 yards and a touchdown, to put the brakes to the Falcons' come from behind hopes.

Daniels, Degen Star

Daniels caught 12 passes good for 266 yards, while teammate Dick Degen played a tremendous game on defense for the Falcons, as well as gaining 38 yards in seven carries for a (5.5) yard average.

The Falcons were ahead on total offense, with 433 yards, compared to the Viking's 377. The Vikings held the edge in first downs, 20 to 19.

Kelley
to
Kellogg

KELLOGG

by DAVE KELLOGG

First thing I want to say is Dave Kellogg is writing this column and not Bill Kelley. It will be an informative column this time and not an opinionated one. The reason why is because of my weak heart and facing that mass of beef on the football team would surely put me six feet under.

Intramural activities at Cerritos began this week when the men's football league held its first session on Monday. The league will be held every Monday and Wednesday. Tuesday, men interested in handball held a singles tournament and they will compete every Tuesday and Thursday. The time for these events are scheduled from 12 p.m. to 1 p.m. and is open to all students of Cerritos College.

Compton College is thinking big this season and have been sending out propaganda that its gridiron squad will take the Western State Conference title from Cerritos. Compton will be the first home game for the Falcon plus being the first conference tilt. October 7 is the date of the clash and Cerritos will be out there to change the Tartars' attitude.

Cerritos Buzzes Hornets Saturday

by Bill Hampton

This Saturday the Cerritos College Falcons will try to make it three straight wins over Fullerton, on the Hornet's gridiron at 8 p.m.

The Falcons will be two touchdown favorites in the contest that will display a new Hornet offense, similar to the much talked about "shot gun" formation that the San Francisco 49ers have been displaying in the National Football League for the past two seasons.

At the helm of the Falcon's much talked about passing game will be Jerry Otterson, considered to be one of the top college passers in the nation this season by many of the country's top newspapermen.

Backing up the tosses of teammate Otterson, will be sophomore Ricky Alvarado, who is being used this season mainly on defense.

The favorite target of both quarterbacks is left end Jack Daniels. The 6-1, 195 pound pass catcher has tremendous speed as well as a tremendous pair of hands, which he uses so amply to catch onto passes.

In the middle of the Falcon line are lettermen Ken Mize (6-0, 215), John Farris (6-3, 226), Leo Austin (6-2, 212), and newcomer Sheldon Moomaw (6-2, 238).

Also slated to see considerable amount of action is Gary Meissner (5-11, 185), a transfer from Los Angeles State, where he lettered last season on the freshman squad.

Although the Falcons will have to contend with the speedy Fullerton squad, the Falcons have some speed burners of their own, in halfbacks Art Delvaux, Ronnie Hales, Ronnie Chronister, Joe Badillo, Vernon Brock, and fullback Dick Degen.

Dick Degen Top Athlete

Heading the list for Falcon of the Week honors was Dick Degen, 6', 200 lb. Cerritos Fullback. Degen, against Long Beach City College, played mostly the entire game and was a tiger on defense.

Head Coach Don Hall said "Degen was one of the best players on the field against Long Beach." Hall also added, "What makes Degen effective is that he likes to hit." Statistics show that Degen likes to hit too.

He led all defensive men in tackles and assists by downing nine men and aiding with three others. Degen, on offense, carried the ball seven times and rambled for 38 yards and an average of 5.5 yards per carry. On defense he played at the right end position.

Hall also gave a nod to Jerry Otterson and Jack Daniels for their fine play. Otterson, who is Cerritos signal caller, did a good job of passing and Daniels backed him up by catching 12 of his rifle shots for 266 yards.
