## Tryouts for Fall Play Begin Soon

Lee Korf, Cerritos theatre arts instructor, announced today that tryouts will begin this week for the fall play.

"A provocative and politically challenging comedy will be featured for the fall production," Mr. Korf stated, "but the name of the play is being withheld until royalty arrangements can be completed with the publisher."

The tryouts are open to all interested students attending Cerritos. Tryouts will be held on Thursday, October 5, 1961 and Tuesday, October 10, 1961 from 7 p.m. to 9:15 p.m. in the Transistor Theater.

Students not able to try out at these times may contact Mr. Korf in the Electronics Building, Office G. He also stated that he intends to have a large cast production. The play will be staged in the Student Center near the end of November.

## Falcon's Nest

EXCHANGE RALLY will take place tomorrow at 11 a.m. in the center.

SHERIFF'S DEPARTMENT—warns that the registration certificate on vehicles must be in plain sight, to avoid a citation for improper location.

WITHDRAWAL from classes, warns the admissions office, should be done properly to avoid to getting an "F" grade. Students should secure a formal withdrawal petition from the counseling office.

REGISTRATION FIGURES from the admissions office show 6,714 students at the latest tally. A machine count will set the official count total soon.

COUNSELING OFFICE reminds students to take advantage of the services available to them. Counselors are making an effort to aid students in course selection.

We Want OUR Cannon! Falcons' cannon was 'stolen' at Saturday night's game—reportedly by Fullerton. Why? Due to Falcon carelessness. How about getting it back, huh, Group??

By CHRIS VAN HOUTEN

For the first time in the history of Cerritos College's Freshman Class, the students will have a field of 32 from which to choose their officers.

Fresh elections will be held next Monday, during which time the approximately 1600 freshman students will poll votes for president, vice president, secretary, and treasurer.

The polling booths, which were obtained from the Los Angeles County Registrar of Voters, will remain open from 8:30 a.m. until 2 p.m. They will re-open again at 6 p.m. and close at 7 p.m. This is the first time

that the polls have been open in the evening for full-time students.

### Hopefuls Vie

Eyeing the office of president are Jim Adams, John Noland, Oscar Parra, Monte Rathbun, Raymond Rosenbauer, Tom White, and Roger Woods.

Anne Aycox, Joe Donta, Don Greenfield, Paul Hunt, Jim Janikowski, Danny Mullen and Vicki Millins are hopefuls for the office of vice president.

More vice president candidates are Maureen Pollock, Barbara Press, Kathi Rafferty, Rita Thomas, Henry Wallinga, and Dave Wilson.

Running for the position of Frosh Secretary are Elizabeth Beltz, Gerilyn Bock, Shirley Frey, Carole Koeneke, Rose Marsolini, Evelyn Shimakara, Peggy Stock, and Pat Newland.

Marie De Meis, Ronald Harris, Don Silphart, and Keith White are the aspirants for treasurer.

The elections are under the direction of ASB Vice President, Bill Axline. Willis Powers is the freshman advisor.

### Booth Locations Given

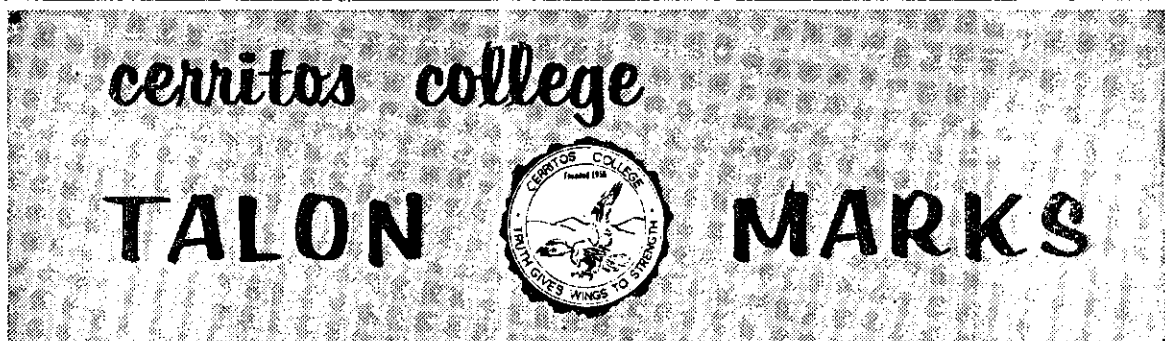

Voting booths will be placed at various points around the campus, with two being stationed in the vicinity of the Lecture Hall, and three in the student center.

In order to vote, you must be a freshman and hold a full-time ASB Card. Cards will be presented and checked at the entrance to the booths.

### IBM Initiated

Also, something new is the use of IBM in counting the ballots. This will enable the results to be known much earlier than in previous elections. Instructions will be posted inside the booths for the benefit of the voters.

Last year, the freshmen had three presidents during the two semesters. They were Stan Ross, John La Roach, and Kirk Dolan.

# Questions of Academic Rank Under Close Consideration

A system of awarding academic rank to Junior College instructors as is done in the four year schools, has been intro-

duced for consideration to the Cerritos faculty.

John Palmer, instructor at Cerritos, is Chairman of a com-

mittee of the California Junior College Faculty Association which has introduced the plan to the Cerritos faculty. The Association hopes for eventual acceptance of the plan at Cerritos and all Junior Colleges in California.

Under this system the instructor will be granted a title according to his experience and academic work. One example would be in degrees of professorship. A master's degree and four years of teaching in the same college would entitle an instructor to become an assistant professor. The title, professor, would be granted to an instructor holding a Ph.D., or 56 units above the bachelor's degree, or earned doctorate and 12 years of teaching.

When an instructor fulfills these requirements the members of his division may recommend school and the school board for the school and the school board for the final decision. Each Jr. College will handle it separately, although it is hoped the titles will eventually be transferrable.

The plan is based on the idea that academic rank titles will provide increased status, greater community prestige and im-

## Service Clubs Open Rosters To New Members

Next week, Monday through Friday has been designated by the Student Personnel Office as the time for service clubs to take in new members and become acquainted with them — commonly known as Service Club Week.

New members which have been accepted by the service clubs on campus will have an opportunity to perform various tasks that will be a requirement for membership in the club. Service clubs participating in this activity are Theta Phi and Delta Phi Omega, both women's club; and Beta Tau and Sigma Phi, the men's organization.

### Identified by Outfits

Theta Phi pledges can be identified as girls wearing blue and white outfits; while Delta Phi Omega pledges are required to wear green and white clothes. Dress for the new members of Beta Tau and Sigma Phi will be white shirts, ties, and dark slacks.

EDITORIAL . . .

# ASB Card Abuser Must Pay Penalty

Cerritos' recent howdy hop was attended by many students, anxious to get acquainted and renew past friendships.

There were a few who were very anxious, indeed.

So anxious they passed their student body cards to friends who were non-Cerritos students.

These card-loaners were obviously in the wrong, whether their actions were or were not purposely defiant.

This incident and any like abuse of a college student body card is subject to college judgement.

Strengthening the precedent set by previous council action, the current student cabinet has as its right a review of the offense.

First-time card abusers are subject to suspension of their card for two weeks and must pay the admission price of the activity at which the card was illegally used.

Violating the use of the card more than once can result in its permanent loss.

It only seems reasonable that a student who spends \$15 on a card would respect the rules. (It states "non-transferable" on the card.)

For the full-time price, the holder has access to games and other activities as a member of the Associated Students.

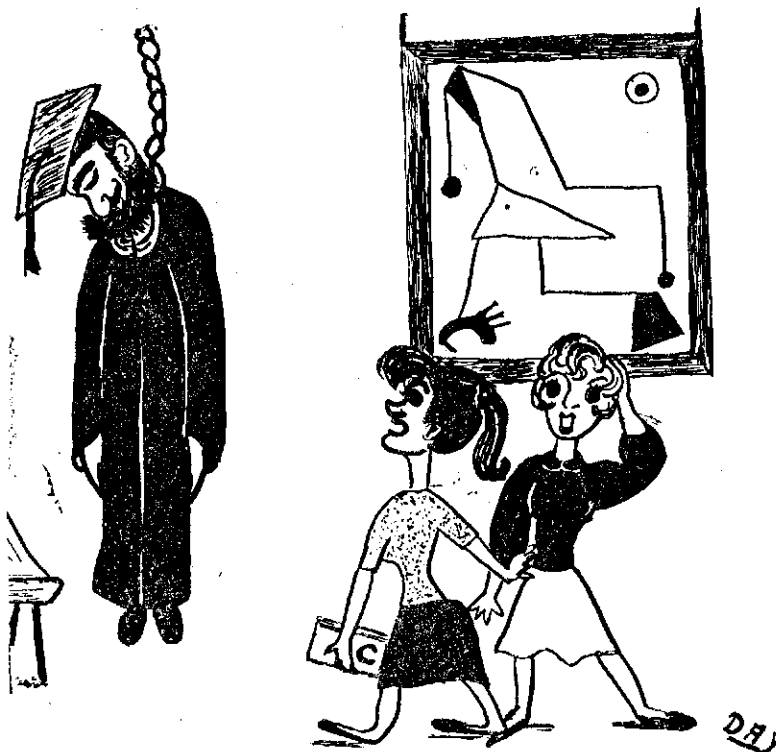

It would seem foolish to be voluntarily deprived of these advantages.

More students may lose the use of their cards this year because they do not take this offense seriously. Doing a friend a "favor" by loaning him a card can result in the loaner's embarrassment and suspension of the card.

Everyone thinks, "This couldn't happen to me," or "No one will ever know." Several others thought that, too, and were caught.

Saturday night at the game they'll be laughing it off all the way up to the ticket window to pay the regular price.

## Personnel Office Lists Dance Rules

For the benefit of Cerritos College students wishing to attend the various dances scheduled throughout the school year, the following rules have been released by the Student Personnel Office regarding these activities:

Admission: Full time Cerritos College ASB card holders admitted free. Dates of full time Cerritos College card holders will also be admitted free of charge. Part time Cerritos College ASB card holders will have to pay 25c admission charge as will their dates. All guests will be charged 50c and only one guest permitted per ASB card. Once you leave the dance, you may not re-enter.

Any student who uses alcohol for beverage purposes on school premises shall be liable to dismissal. No student that has been drinking an alcoholic beverage shall be permitted to enter a school activity.

MADGE COTO interviews Terry Bales as part of her work as secretary in the job placement office. Bales is one of the 700 students expected to take advantage of the placement service this year. (CCASBFoto by Frank King)

# Placement Service Helps Students Find Employment

An opportunity to work is both an educational experience and necessity for many college students, according to Cerritos College Director Robert C. Rockwell.

With this in mind, the college placement office placed 596 students in jobs last year. Job referrals were made to 715 students.

openings in the immediate area, and information is available on employment opportunities in private industry as well as government. Many job opportunities are called in to the placement office by local businessmen.

**Assist Students**  
According to job placement secretary Madge Coto, the purpose of the job placement office is to assist students and graduates who desire part-time, temporary, or full-time work.

This year the placement office, under the direction of Jack Blakemore, Dean of Counseling and Guidance, hopes to place over 700 students in jobs. Assisting Mr. Blakemore are Joseph Incorvaia, job placement officer; and Mrs. Coto.

"You name a job and I bet we have had calls from employers wanting students to fill them," stated Mrs. Coto. Job requests have come in for clerk typists, box boys, bus boys, bookkeepers, recreation assistants and service station attendants to name just a few.

**Marionette Show**  
"One of the most unusual jobs we have filled was filled by a music major to assist a lady in putting on a marionette show," injected Mrs. Coto. "We like to place students in jobs relating in some way to their major," concluded Mrs. Coto. Listings are maintained of job

"Any faculty member or student who knows of a job opening somewhere, we would appreciate it if you would inform us as soon as possible so that we might place a student in the job," commented Mrs. Coto.

**Public Service**  
According to Mrs. Coto the placement program is a public service, and there is no charge to either the student or employer. The office is open daily Monday thru Friday 8 a.m. to 12:30 p.m. and 1:30 p.m. to 4:30 p.m.

Mr. Coto says that students entering her office to fill out an application for a job referral should remember that they are not only filling out an application for a job but that they are also being screened by her as to the way they are dressed, their manners and ability to follow instructions.

Students applying for a job in the Falcon placement office should act the same way as they would if they were to go to a firm and apply for a job.

## Falcon Asks for Barbershop Group

Dear Editor:

I have only been here a couple of weeks. During this time I have noticed that Cerritos College has a very fine music department. But, I have also noticed that there is no Barbershop Quartet.

From what I have been told Cerritos has had very fine quartets in past years. This year we don't plan to change. Right now I am trying to find men who like TO SING good close harmony and would like to be of service to their school.

By now you have probably noticed the outlandish posters advertising for male singers. These posters weren't made just to give us finger cramps. They were made to find out how many men are interested enough to help organize a Barbershop Quartet to represent Cerritos College, on or off campus.

As the posters say, if you are interested in Barbershop Quartet singing please contact me, Tom Woods, through John Feeney or Jack Wheaton in the Music Department office. Thank You.

A SAMPLE OF THE IBM cards that will be used in the upcoming Freshman Elections is given above. The card was designed by Bill Axline, Bill Hamilton, and Coordinator of Activities Clive Grafton. For further information see story below.

## Cerritos 'Makes History' In '61 Freshman Elections

Freshman students of Cerritos J.C. are invited to take part in history-making action by voting

with IBM in the coming frosh election.

This is the first collegiate effort toward IBM in a student election, according to Coordinator of Activities Clive Grafton.

The voting card, seen on this page, was designed by Student Body Vice President Bill Axline; head of tabulating in admissions and records office, Bill Hamilton; and Mr. Grafton. The cards are being printed by the Inter-

national Business Machine Company.

### Assigned by Letter

Letters A to L extend across the top of the card, while numbers 1 to 5 run down the left side. Each candidate will be assigned a letter and number (for example A-2, or B-5). The blank in the proper letter column opposite the proper number should be blackened in with the IBM pencils provided. The blank space at the right of the card is for write-in candidates.

Posters identifying the candidates with their names and numbers will be posted at each voting booth.

### Voting Booths

The voting booths, open from 8:30 a.m. to 2 p.m., will be at the student center and lecture hall.

The election will take place on Monday, October 9, with any necessary run-offs on Wednesday, October 11. The newly elected cabinet will meet with Mr. Grafton on Friday, October 13.

"This election will be the true test of the IBM election card for it will be put through all the difficulties that could possibly arise," stated Bill Axline in a recent interview.

"It is hoped that the card will be successful, however," added Mr. Grafton, "as it will cut election costs 90 per cent."

## Dr. Meyer Speaks At Club Luncheon

International Relations Club held the fifth in a series of "International Affairs Luncheons" yesterday in the student center.

Guest speaker was Dr. Milton W. Meyer, Assistant Professor of History at L.A.S.C.

Dr. Meyer, who is a specialist in Asian international relations, spoke on "Misunderstanding Asia", dealing with common Western misconceptions of the Far East.

His extreme knowledge of the Far East is based on first hand

experience, having been born and raised by missionary parents, in the Philippines. He remained in the East until World War II when he became an active member of the armed forces. On completion of his tour of duty, he resumed his studies, receiving degrees at Yale, Columbia, and Stanford.

Then entering foreign service, he was stationed in China, India, and Burma for a total of five years. He is presently teaching classes on the history of China, India, Japan and Pakistan.

## "Cerritos Goes International" 1961 Falcon Homecoming Theme

"Cerritos Goes International" will be the theme of the 1961 Homecoming Week, October 23 through 28th.

Election of the homecoming queen will be Wednesday, October 25. Friday, October 27th there will be a rally in the student center at eight o'clock. The selection of the homecoming queen will be announced during the Ball.

Saturday, Cerritos will be host to Pasadena College for the football game. Following the game there will be an alumni reception for past graduates at the student center.

Truck-floats which have been used in the past will be replaced by a series of displays which will be set up in front of the stadium. Each organization will be allotted a section, and booth

areas will be assigned on a first-come, first-serve basis. Petitions for displays are available in the Activities office.

### Falcon Data

- October 4  
Beta Tau — Surfing Films, Student Center, 7 p.m.
- October 5

### ★ Questions

(Continued from page 1)  
provement in the personal welfare of the faculty.

Mr. Palmer has stated, "If the plan is adopted at Cerritos, quite a few teachers will be eligible to be recommended as associate professors immediately. L.A. City Colleges have adopted the plan and Cerritos has considered rank but not taken any action."

### Big 'C' Badges

PEP CLUB will sell badges today, tomorrow and Friday in the student center coast room, 11 a.m. to 1 p.m. Only those who have previously signed up can obtain the badges today and tomorrow. Friday is open to all other students. The "Big C" has a membership limit of 250.

*Kelley  
to  
Kellogg*

KELLEY

Referring to my first column, I would like to say that any statement I made concerning the football players as speech makers, was in no way connected with their ability to play football. The team has proven itself to be well conditioned and coached to go along with its natural talents, which does not include oratory.

I'd also like to say that Coach Kamanski's runners were never in need of pep pills, and the polo team stayed above water but it still appears the football team is headed well above water.

Getting away from the campus scene, which seems like the safest thing I can do, I feel deep regret for those who planned a World Series party this year and were sent 2,000 miles out of their way. There is still the color TV in the lounge. I hope.

The series this year appears fitting to the world political situation. In referring to the slang name for each team, Yanks vs. Reds. Being highly patriotic, I'm taking the Yanks to win in five.

Of course if the Dodgers would have won the pennant it might still be appropriate to current times. Taking the Yankees as Uncle Sam and the Dodgers as the boys who avoid the draft.

#### CROSS COUNTRY WINS

Our cross country team opened the season successfully by nabbing top honors at the annual Long Beach State Invitational. The Falcon harriers defeated a tough Santa Ana squad 27-32. Long Beach finished far back in third spot and Fullerton was fourth.

Gene Gurule established a new course record with a time of 17:45.3 only to see it erased in the four year college division of the meet. Gregg Spillman of San Francisco State covered the 3.5 mile course in 17:41.5

Close behind Gurule was Art Pittman to give the Falcons the top two spots. The Cerritos scoring was completed with Stirling St. Clair taking fifth, Jim Mason and Jim Miller was eleventh.

This Friday the squad tries out their new course with a dual meet against Ventura.

## Mermen Host Vikings

Cerritos water polo team, growing with experience, meet Long Beach State College Friday at 3:30 p.m. in the Falcon's home pool. The aqua men also play host on Saturday when they match snorkels with Pomona at 2 p.m.

Gaining experience with each tilt, Cerritos managed to take one of three skirmishes last week. Against highly touted University of Southern California, the Falcons fell 17-5. Head Coach Bob Horn stated "The score isn't indictive in how well the team played. The team

scored freely towards the end of the game and was in much better condition than S.C."

Cerritos took a defeat at the hands of Long Beach City College, 10-3. Six of the seven starters fouled out of the game for the Falcons. Victory came when the splashers drowned Santa Monica College 17-5. Coach Horn used his first team sparingly and everyone saw action.

Yesterday, the polo team played in the Southern California Tournament, meeting Chaffey in the opener.

# Tartars Invade Falcon Field for League Opener

The Cerritos College Falcons go into their third game of the current season Saturday night against a much improved Compton College squad under new head coach Charles Williams. The Falcons lost to a powerful Long Beach City College eleven 44-30, and then traveled to Fullerton Saturday to face an explosive Hornet squad.

## Fullerton Foils Falcons Future

With several Cerritos starters sidelined for one reason or another, the hustling Fullerton Hornets scored one of the biggest upsets of the year, downing the Falcons 20-14, at Fullerton.

Leading the Hornets was freshman quarterback Brig Owens, who several times slipped through pursuing Falcons for large gains, while also passing for a touchdown.

Ronnie Hales, freshman halfback for the Falcons, gave the visiting rooters something to yell about, when he returned the opening kickoff 32 yards to the Falcon 47 yard line.

#### Hornets Score First

There the Falcons were stopped, and the Hornets marched to their first score, with the tally coming on a one yard smash by fullback Jim Miller. Owens kicked the conversion.

After intercepting a Falcon pass late in the first period, the Hornets once again marched for another score, with Owens sweeping his own right end for the tally early in the second quarter. Falcon tackle John Farris blocked Owen's conversion attempt.

Quarterback Jerry Otterson put the sputtering Falcons on the scoreboard late in the second period, when he threw a 52 yard pass to left end Gary Taylor.

Otterson's pass on the conversion attempt was dropped, and the Hornets left the field at halftime with a 13-6 lead.

#### Cerritos Takes Lead

The Falcons pulled ahead in the game late in the third stanza, on a 12 yard pass from Otterson to halfback Art Delvaux.

While seeing only limited action during the game due to an infected hand, fullback Dick Degen was called on by Coach Hall to run the conversion over, to give the Falcons a 14-13 lead.

Midway through the fourth quarter, the Hornets intercepted another Falcon pass, and five plays later, Owens pitched a 23

yard aerial to left end Ron Ottmayer in the end zone for the score.

Owens kicked the conversion, to shut the door on the Falcons, who lacked the punch they had in the Long Beach City College game.

#### Falcon of the Week

## Poloman Top Athlete

Falcon of the Week falls into the skillful hands of Dennis Luttrell, varsity goalie for Cerritos water polo team. Luttrell, 6'2" 152 lb. freshman, comes from Whittier High School where he was chosen honorable mention on the All CIF water polo team.

Luttrell, last week against Long Beach City College, made a 'million saves' at his goalie position. Head Coach Bob Horn stated, "Luttrell held the score down by his presence." Six of the seven starters fouled out and Luttrell was the seventh man. Long Beach defeated Cerritos, 10-9.

Santa Monica had trouble with Luttrell too. The goalie held them to only three goals while his teammates scored nine times. The score ended at a 17-5 count favor of the Falcons.

Dave Ashleigh, General of the team, also played well. Coach Horn said, "When the opponents have a key into guard Ashleigh usually guards him." When the team needs points Ashleigh is around also. Against Southern California, he led all teammates in scoring with two of the five goals registered by Cerritos. SC won 17-5.

#### First Home Game

This will be the first home game of the season for the Falcons, who hold a 3-1 series lead over the once powerful Tartars. Last year the Falcons bounced their cross-town rival 42-20, and the year before they bombed them 40-6.

Compton has 10 returning lettermen, headed by fullback Dale Plasch, who averaged 4.69 yards a carry, and tackle Tom Williams, a 6-1, 235 pound bruiser.

Also returning is guard Bob Miller (5-8, 195), halfbacks Mike Taylor and Woody Prude, quarterback Roger Lenberg, and end Dick Nolan.

Quarterbacks Jerry Otterson and Rich Alvarado will lead the Falcon attack, with the former being an outstanding passer, as was exhibited during the Falcons' first two games.

#### Standout

Alvarado, a 9.8 sprinter in track, is a standout on defense, as is teammate Dick Degen, who will return to action this week, after missing the Fullerton contest with an infected hand.

Both squads will have a number of big linemen, with the Falcon line being anchored by 6-3, 225 pound John Farris, 6-3, 235 pound Sheldon Moomaw and 5-11, 215 pound Ken Mize.

The Falcons will go with their same starting line-up as in the previous encounters with the exception of left end Jack Daniels, who will be replaced by freshman Eldon Taylor.
