# Honor Students To Be Installed In Society Tonight

One - hundred and fifty - eight top students will be installed into Cerritos' scholastic honor society, Alpha Gamma Sigma, tonight at 8 p.m. in the library.

Students being installed into he club earned a grade point average of 3.0 or better during their last semester at Cerritos.

Joseph Klinerman is faculty adviser for the honor society.

### Palcon's Nest

Mr. Robert Eberhardt, senior research scientist for Lockheed Marine Sciences Staff, will speak at the first meeting of the Cerritos Seminars in Biology, October 10 at 4 p.m. in H4.

The illustrated talk on "Offshore Fauna of Southern California," is open to all interested students.

Today is the last day to drop a class without a grade. Students wishing to drop classes must complete the proper forms in the Counseling Office.

Veterans attending Cerritos on the G.I. Bill or War Orphan Act must report attendance to the Counseling Office by 4 p.m. today.

The Newman Club will hold its first regular business meeting of the fall semester October 9, according to faculty advisers George Seeley and George Mc-Mahon.

Primarily a social club for Catholic students, the Newman Club invites all interested to attend meetings. Chaplain for the club is Father Feeney of the Artesia Holy Family church.

tesla Holy Family church.

The meeting will be held in H 6 at 11 a.m.

### Cerritos Faculty Members Meet, Discuss Bond 1-A

By GARY ANDERSON

Dr. Jack Means opened the Cerritos Association Faculty meeting last night with what one might call a "pep" talk. The purpose of this talk was to rally all faculty members together for self-evaluaton.

This evaluation is in preparation for the coming Western College Association's accreditation survey in the fall of 1963.

Another point of information was a report on the IA Bond Issue by Don Desfor, administrative assistant. The purpose of the report was to make everyone familiar with the issue.

Dr. Mears said the bond issue would seem to be the most logical approach for gaining financial support for the junior college building program. Another advantage of the 1A Issue would be an equalization of pressure on the taxpayer's dollar.

The Bakersfield BarB-Que was also discussed. The Patron's Service Club of Bakersfield has invited the ASB, faculty, and anyone else from Cerritos who wishes to attend.

The Bar-Be-Que will precede the Cerritos-Bakersfield football game on Saturday, Oct. 27.

## ICC To Hold All Club Dance

Fall is Springing Out all Over is the theme of the inter-club council all club dance next Friday.

The Dominant Five will play for the dance from 8 to 12 p.m. in the Student Center.

The dance is open to club members and their dates only. Admission will be by student body

### BULLETIN— Li.Gov.Anderson To Speak Oct. 9

Lt. Cov. Glenn Anderson will make a non-political appearance on campus next Tuesday when he visits the Cerritos under the auspices of the Omnibus Society.

According to Omnibus adviser John B. Palmer, Gov. Anderson will discuss the Master Plan for higher education. He is scheuduled to speak in the Student Center from 3 to 4 p.m.

A candidate for re-election on the Democratic ticket, the 49-year-old Anderson has spent 22 years as a public official. His Republican opponent on the November ballot is San Francisco mayor George Christopher.

In line with Gov. Anderson's apearance here, Palmer stated that invitations have gone out to local political chairmen of both parties from the Omnibus Society their candidates to meet with students and discuss issues.

## Foreign Colleges Offer Courses

The application period for students with sophomore and junior standings who wish to enroll for the spring semester study programs at the universities of Vienna and Freiburg opens Monday.

Applications will be accepted until December 10. Students will sail for Europe from New York on February 2.

#### Programs Varied

The programs at these two schools will include formal classes, lectures, seminars, and field-study in Europe. Students will be led by academic guides on field-study trips in western Europe.

FROSH PREXY RACE

## Run-Off Elections Scheduled Today

Run off elections are being held today for Freshman Class officers.

Still in the running for president are Jim Scott and Dick Smart. Scott polled 99, Smart at 40.

Other run-offs are between Dusty Brown, and Jerry Okazaki, vice president; Vicki Axline, and Pamela Bennett, secretary; Nancy Newport and Larry Jacobson, treasurer; Judy Hartsough, 104, and Susie Smith, 98, Commissioner of Rallies and Assemblies.

Mike Ash was elected AMS president on the first ballot with 102 votes.

Three-hundred and two students voted during the election. There are 2400 full time students. "I attribute this poor turn-out to a lack of interest in student government," Bob Brown, ASB vice-president, said.

Today's runoff election results will be decided by IBM machine.

Polls are located in the quad area.

### Cerritos Drop-out Average High, Wagner Says

• The problem of drop-outs is one which concerns all colleges. Here at Cerritos, however, the problem is more prevalent than at most schools, according to Dean of Admissions and Records Edward M. Wagner.

Drop Out Average High

The California State average for college students unable to handle college-level work is 18 per cent, while the average at Cerritos is 31 per cent, Wagner said.

He added that 1,806 students were placed on probation last semester; 659 of them were subsequently dismissed; of these, 469 were continuing at Cerritos, attempting to bring up their grade point average.

#### 39 Re-admitted

Wagner said that 39 probation students were readmitted, 49 transferred, and 92 were dismissed for a second time.

"Such students," Wagner says, "usually fall into two categories. Working students who cannot carry a full study load and work 40 hours a week, or students just out of high school who place more importance on their social life than on their studies."

## **Band Director Joins ASCAP**

Cerritos band director Dr. George Reynolds was recently accepted in the American Society of Composers and Publishers.

To qualify for ASCAP membership, a musician must have at least two songs or compositions published and be recommended by two members.

Deems Taylor and Don Gills sponsored Reynolds. Traveling Trumpet, a composition for trumpet and orchestra by Reynolds, will be published soon by Leeds.

Reynolds also collaborated on Korsabov-Barodin Studies for Trumpet.

#### **EDITORIAL:**

### Students Abuse Food Facilities

Cerritos' cafeteria and snack bar facilities are being abused by many students.

Students who are too lazy and inconsiderate to bus their dishes after eating.

Consequently, the busy cafeteria and snack bar employees must clean up the mess left by slovenly students.

Some of these students may not be aware that selfbusing is in order. This is understandable; the signs requesting it are few, and not conspicuously posted.

There are, however, many campus groups who are aware of it.

These groups should try to set an example for the rest of the student body; the example they are now setting is not a commendable one.

Because the members of these groups are among the worst offenders.

They occupy two or three tables daily in the cafeteria. Their trademarks are stacked glasses, greasy dishes, shredded paper, dirty ashtrays, and complete disregard of the mess their carelessness makes for others.

The members of these groups could perform a genuine service for the college.

They could clean up after themselves. And they could ask others to follow their example.

College students should not have to be reminded to clean up after themselves.

But as long as they do have to be, the ones who do the reminding can gain the respect and gratitude of those of us who are proud of Cerritos and its facilities.

Or aren't you service club members proud of them too? nition among his peers; these

## Juvenile Crime Rate Boosted By Desire for Self-Recognition

Statistics show that the United States leads the globe in juvenile crime incidents. This is partly due to the fact that the U.S. has more teenage groups today than ever before. The ratio of the teenage public to the national population is tremendous. What is seemingly a high juvenile crime rate is in effect not so high in contrast to the popula-

Violent teenage actions make news, while acts of good and decercy often go unnoted. Credit is given, but rarely, to good teenage groups, in contrast to the scourn always allotted to the scorn always allotted to

Talon Marks readers may remember the Communist-inspired riots in San Francisco last year. In almost every case the students involved had excellent backgrounds and received above average grades; yet the very nature of a juvenile is that he may be impetuous and many times unstable in a situation such as this, "He is seeking self-recog-

couraged and channelled properly," stated Alex Pantaleoni, police science instructor.

In San Francisco, the students involved in the riots were im-

motivating factors must be en- properly advised by a handful of instigators, and their conduct shamed themselves and the nation, Many just don't realize the tremendous consequences of their rash acts. This was demonstrated most recently by riots at the University of Mississippi which resulted in tragedy.

> Regardless of laws which may be disapproved of, tempers must be properly channelled with an overview of the nation's basic principles as conceived in the Constitution, Pantaleoni feels.

> If the juvenile is aware of the potential shame he can bring upon himself, his family, and community, such conduct would te avoided.

> As we welcome our team to their first home stand in the Metropolitan Conference, let each of us be aware that tensions will run high and spirit will overflow. Let each Cerritos student think of the consequences of any possible rash act that once done, cannot be

### Students Urged To Take Sabin Oral Polio Vaccine

College students were urged today by the Medical Associations of six Southern California counties to take Sabin oral vaccine in the current campaign against polio.

Tenor of the request was set by Dr. Reginald H. Smart, chairman of the public health committee of the Los Angeles County Medical Association.

Dr. Smart pointed out that the undergraduate community has a high stake in the success of the mass immunization program which is going ahead on sched-

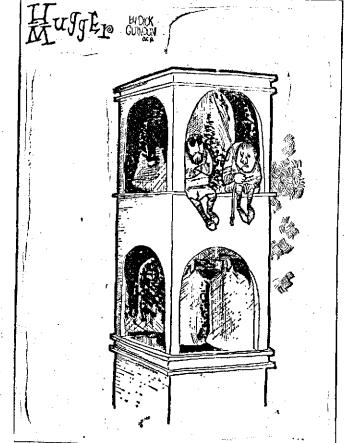

Those in the under-25 year age group are the most vulnerable to paralytic polio, he reminded.

Dr. Smart suggested that all college students take Sabine vaccine on the dates planned for public clinics which are Oct. 21 and 28, first immunization; Dec. 2 and 9, second immunization; and Feb. 3 and 10, third immu-

The Sabin On Sundays program would make it possible to eradicate polio in Southern California if the public responds in sufficient numbers.

Dr. Smart's request is for students to make a point of seeing that 10 friends take the immunization doses in addition to themselves. A donation of 25 cents for each inoculation is all that will be asked. Sabin vaccine is easily taken, either on a sugar cube or in syrup.

Virologists are agreed that those who have taken Salk shots also should take Sabin which, in addition to personal protection, prevents recipients from being unwitting carriers.

"QUIT COMPLAINING, PART-TIME WORK IS HARD TO FIND.

CC Men's Club

Edward Blondfield, a representative of the Beckman Instrumen Co., will be the guest speaker of the Math Engineering club. The topic for discussion will be "Space Instrumentation."

Bill Bruff advisor to the club, said, "It will prove to be profitable to all those attending."

According to Bruff, Cerritos is located in the center of an industrial complex, which is concentrating on the space technology, which gives us a remarkable opportunity to make direct contact with scientists.

Anyone needing information to this meeting may acquire such information by locating any of the following club officers: Danny Johnnie, President; Roger Sollee, Vice-President; Jim Shadford, Secretary; and Barry Davis, Treasurer.

The meeting will be held on October 9, 1962, in the lecture hall (H-4). The Math, Engineering Club hopes in the future to include other speakers, as well as field trips to their program, to local industries, Bruff said.

### **Student Proposes** Prexy's Column

This letter is written in protest to the lack of news given to the student body concerning student council actions.

Our daily metropolitan newspapers keep the citizen informed on local, state and national activity of governing body. Its actions are at least presented to the public. There are people who are concerned as well as those who are not. Those who do care can take actions to their senators, congressmen, and newspapers giving them support or constructive criticism.

We at Cerritos like to think we are intelligent enough to be able to look at campus activities objectively and constructively.

The reason for apathy toward student government activities is that we are not given full enough coverage of governmen t here to generate interest. We are given some news via Talon Marks, the Scoop Sheet, and other things, but this is not enough.

Until we are more informed, the student body will look upon student council as a closed social circle and will not care what they do. When this closed out feeling prevails there is no respect for the officers.

I realize that anyone is welcome to attend council meetings, but that is often times physically impossible, what with commitments, jobs, and classes.

I propose a regular column to the paper by the president of the ASB. It doesn't have to be any specific size and shouldn't be because there are often times many issues that have to be discussed.

I find that the council is in charge of spending the money that we duly pay-yet do we know about it? I feel that in this column should be included what conferences the council is attending and what actions they

> Thank you, Diane Nassir

Personality Profile

# English Prof. Returns to Fairways After Trading Putter for Degree

By DEAN McLEOD

Many college students are under the impression that an English instructor lives most of his life in a library, lost among the stacks, with his nose buried in a dusty volume of Chaucer or Shakespeare, Cerritos instructor Everett Gibbs does not. live up to this image.

Gibbs, in addition to teaching classes in freshman composition and English literature, teaches golf. Where did an English instructor pick up golf? More properly, where did a golfer pick up English? Because Gibbs was a professional golfer before he became an English teacher.

He started his golfing career at an early age as a caddy. His love for the game was immediate, and by the time he was sixteen he was an assistant professional golf teacher in Massachusetts.

Gibbs had decided that he wanted to be a pro, but he found his plans blocked, as did many of his generation, by World

After discharge from the service, he took up his golfing career again. But a year later he decided that golfing was not for him, at least not on a profes-

sional basis, and went back to college to complete his educa-

He received his BA from Lovola University, his MA in English from Long Beach State and his MA in education from the University of Minnesota, He also taught at the University of Minnesota and in Germany before coming to Cerritos.

And it was at Cerritos that Gibbs was given the opportunity to put his golfing background

He is coaching the Cerritos golf team, and is looking for-ward to the conference matches. "The team will be competing against some fine players and will be playing on some good courses.

Gibbs says he is content teaching English, and that his own golf game is only mediocre now. "My English," he says, "is perhaps better."

"I am not about to quit teaching and go on the tour . . . unless Palmer or Nicklaus needs a caddy."

Many Cerritos students hope that never happens Good English instructors are rare, and Everett Gibbs has no handicap in a classroom.

Teeing OFF on a text instead of browsing in the library, is English instructor Everett Gibbs. Gibbs coaches Cerritos' golf team in addition to teaching literature and composition,

### FALCON DEFENSE

## Cerritos Gridders Begin Metro Play

## Hancock Game Honors

Falcon Art Devaux and Lou on the JJunior College All-Am-Vellone were chosen players of the game as they led their team to an impressive 33-12 victory

ART DELVAUX

over Allan Hancock last Saturday night.

Delvuax scored two of the Falcons touchdowns on a four yard scamper and an explosive 74 yard punt return. He also had another

LOU VELL

brilliant punt return called back because of a penaltiy.

Art is a sophomore halfback known mainly for his defensive ability. Last year this talent gained him national recognition erican team.

Lou Vellone received the defensive honors last week, how-ever. The 6' 1" sophomore turn. ed in a fine performance from his right end position.

#### Game Info

Cerritos College students are requested to use the Gridley street entrance to the stadium which is located directly under the press box. Falcon fans will once again occupy the west side of the stands.

Tickets for tomorrow night's game against San Diego can still be purchased in the physical education building.

Tickets for next week's game in Santa Monica will be on sale until next Friday in the campus bookstore. They will also be available at the stadium tomorrow night.

#### **Prognosticators** Pontificate On Weekly Grid Menu With the 1962 season already

underway, Cerritos College now feels capable of placing its front line forecasters to the task of predicting the week's top foct ball games.

Back from last season are defending champion Bill Kelley. Administrative Assistant Don Desfor and Talon Marks Adviser John Dowden. Putting their untried talents on the line are Dean of Men Clive Grafton and staff reporters Pepper Iller and Red Dutremble.

## Delvaux, Vellone Share Falcons Chosen As Slight Underdogs Against SDCC

With their two non-league opponents victoriously tucked away, the Falcon footballers begin their competition for what could be the top marbles in junior college football.

The opening event will be staged tomorrow night at 8 p.m. when San Diego JC comes to town to kickoff the Metropolitan Conference with the Falcons.

The Knights, under the direction of Coach John Kovac, also remain on the un-defeated list with decisive victories over LA Harbor and Compton.

The winner of this game will place itself on the inside track to challenge Long Beach, El Camino, and Bakersfield for the loop crown and a possible trip to the Junior Rose Bowl.

San Diego has gained experience and added speed to their squad which recorded a 3-5-1 standing last year.

The Knights have a much improved line which is anchored by big Lemmon Williams and Dennis Wise weighing in at 240 and 230, respectively.

Their backfield is headed by George

Barnes at half, Danny Helzer at quarterback, and fullback Preston Davis. San Diego is also equipped with the services of all-CIF backs James McCorquadale and Vernus Ragsdale.

Three of Cerritos' starting Falcons sustained injuries in the game with Hancock. Guard Allan Asam received a broken arm and should be out for four weeks. Ricky Alvarado and center Lynn Blouch were victims of knee injuries but neither was too serious.

Tony Andre will fill in at Asam's spot and JoJe Andrews has taken over at center. Alvarado is expected to start against the Knights, with Marshall Adair ready to back him up.

Both teams display a dazzling array of offensive plays and stubbord defenses.

San Diego City has notched their victories over Western States Conference teams, namely Harbor 28-6 and Compton

With these two impressive showings, the Knights emerge as a slight favorite to dampen the Falcons' Metropolitan opener.

## USC Invades Falcon Pool To Battle Cerritos Poloists

the upset-minded Falcons; for the University of Southern Callfornia Trojans will invade the Falcon's nest here at 10:00 a.m.

Cerritos' water polo team recently handed Occidental and Pomona College two pre-season losses of 12-7 and 14-12.

October 3 Cerritos traveled to Santa Ana to play in the annual Junior College Water Polo tournament sponsored by Santa

This tournament will be a preview of what to expect in the Metropolitan League this year. Teams that will be representing the Metropolitan League will be: Long Beach City, Los Angeels Valley, El Camino, and Cerritos.

Other teams in the tournament will be San Bernardino, Chaffey, Los Angeles City, Riverside, Santa Ana, Orange Coast, Fullerton, Santa Monica, Pierce, Glendale, Mt. San Antonio, and Pasadena.

Coach Bob Horn isn't worried about the spirit of his team but is concerned about the turnout of the student body for tomorrow's encounter with the Trojans. "The more support the better chance we have in beating SC," Horn hinted.

Other four-year schools Cerritos will be playing this year will be Cal Poly (SLO) and Stanford University Coach Bob Horn says that in playing against 1-year schools will give his poloists a taste of the fu-

#### Harriers Top Valley 25-31

The Falcon Harriers reigned victorious for the second time last Friday as they stopped Los Angeles Valley 25 to 31. The victory gives the team a perfect 2 and 0 record in their Metro politan League debut.

Leading the losing Monarch team, Dick Krenzer coped first with a fast time of 18 minutes and 3 seconds, and was followed quickly by four Falcons. Freshman Roman Perez shone for the Cerritos squad with a second place 18:18. Perez was the ace at Norwalk in 1961 in cross country, and ran the 1320 in track.

Jim Mason knocked 22 seconds off his season best to place third, just ahead of Jim Peeso at 18 minutes and 43 seconds, and Clarence Cregar with an effort of 18 minutes 40 seconds.

Valley then brought 4 men in within 16 seconds of each other. Monarchs Jacobson, Delacruz, Murry, Olson and Silver led an improving Jack Ward who finished 11th in 19 minutes and 18 seconds. The remanting 12 runners added points which prob-: ably determined the victory for Cerritos.

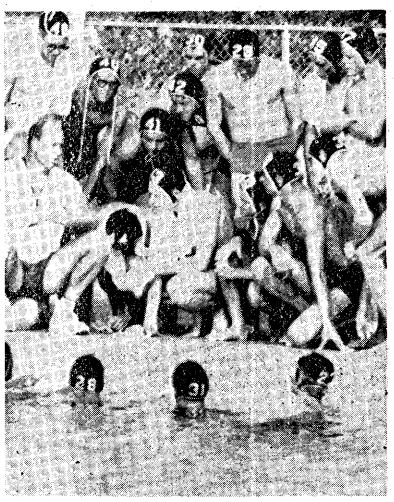

The Falcons meet their next test today at 3:00 p.m. with El Camino, who has also had two victories and no losses. If the Falcons succeed today they will be in possession of first place along with San Diego.

After winning the Metropolitan Conference last year, the El-Camino Dons went on to win the Southern California Championship. Cerritos took second place in that championship.

Below are the standings as of September 28th.

Wins Cerritos 2 .. El Camino 2 ...... 0 San Diego 2 ...... 0 Long Beach 1 ..... 1 

Santa Monica 0 .....

WATER POLO COACH BOB HORN (kneeling at left) outlines second quarter strategy for his poloists at last week's scrimmage against Occidental here. The Hornmen scored seven points to Oxy's one in the first quarter and substituting freely, went on to win 12-7. -Talon Marks Photo

#### Starters Against USC Mermen

Probable starting line up forthe Falcon's tomorrow will be as follows:

## Falcon Footballers Handle Hancock 33-12

Cerritos needed only eight offensive plays to score 14 points in the first quarter of their encounter with Hancock, a total which proved to be enough for a victory as the Falcons held on to their early lead to defeat the Bulldogs 33-12.

In the game played at Santa Maria, Cerritos hit pay dirt first with a 26 yard pass from Rick Alvarado to halfback Joe Badillo. When Hancock failed to move the ball, Art Delvaux received their punt and raced 74 yards for the second Falcon touchdown. Dennis Yount made both conversions good and Cerritos had their victory intact,

#### 14-6 at Half

The powder-blue Bulldogs managed their first score of the game, and first of the young season, just before the half ended. With less than 10 seconds to go Billy Pierce hit Pat Daily in the end zone to end the half with the score 14-6,

Fullback Louie Santiago cap ped an 80 yard drive in the third quarter by plunging across the goal to extend the Falcons' lead 20-6.

Bulldog Tony Martinez took the following kickoff and scampered 82 yards before being brought down on the three by

time, however, as he skirted left end for the touchdown which brought the favored Hancock team within eight points of the Falcons.

#### Zaby Scores

With the warning served, Cerritos set up another drive which ended when Baigio Zaby ran 35 yards and Yount again kicked the extra point to make the score 27-12.

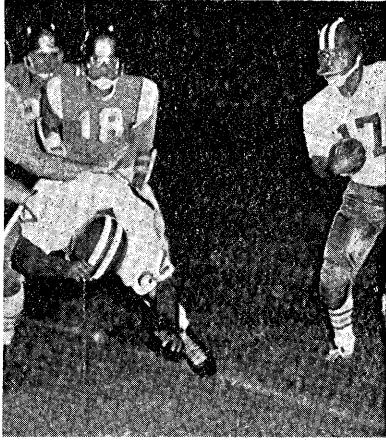

Midway through the final period, Art Delvaux climaxed another drive by running the last four yards, ending the scoring for the night and leaving the Cerritos grid team with a perfect 2-0 record for non-league

#### Alvarado Sharp

Although he received a knee injury, Alvarado sharpened his completion percentage with four completes out of seven attempts. His overall mark now stands at a respectable 15 for 27 with no interceptions.

Marshall Adair proved a capable assistant by averaging better than five yards a carry.

Both of the Falcons' opening games were marred by penalties which slowed down the Cerritos attack and held down their already impressive performances.

FALCON QUARTERBACK RICK ALVARADO turns left end bebind the fine blocking of Louis Santiago No. 34, for valuable yardage against Hancock. Cerritos won the game 33-12. -Photo by Merlin Vakoc

#### Library Displays Varied Art Work

Art work of Cerritos students and faculty members is now on display in the library.

The exhibit features the work of Walter Leather Jones, the newest member of Cerritos' art department. Jones, a graduate of Claremount College, was added to the faculty because of the rapid growth of the art program at Cerritos, according to art instructor Rudy Aguire.

Works on display range from realistic objective work to interpretive abstract, Aguirre said.

Members of Tau Phi art club planned the exhibit to display the top level work of instructors and students, and to create student interest in the art club, according to Aguirre.

He said that the entire art department is looking forward to the completion of the Arts and Crafts building next year.

"We will have a permanent art gallery then," he said.

Tells All Star

WALTER JONES, new Cerritos art instructor, stands alongside one of his paintings in the Library, part of the Tau Phi Art Club exhibition. Various works by other instructors and students are also on display. —Talon Marks Photo by Stan Morill

#### Dental Group Tested Saturday

The Southern California State Dental Assistants Association will conduct a national certification test tomorrow in the Cerritos Dental Assistants Department.

Forty-five examiners from Bakersfield to San Diego will be on campus for this examination.

Twenty dentists and 25 dental assistants will conduct the four hour written and practical test

### Metro Transit Authority Offers All Students Reduced Fare Rates

Cerritos students may purchase student identification cards from the Los Angeles Metropolitan Transit Authority, according to Dean of Women Amy Dozier.

The cards sell for 50 cents and will apply for the periods of June 1 to February 15, and January 15 to June 30.

The identification card will allow students to ride MTA busses during the hours of 6 a.m. and

4:30 p.m., Mondays through Friday.

Cash fare for individual school rides when the card is displayed will be 15 cents instead of the regular 25 cent fare, and 5 cents instead of 8 cents for each additional zone, Miss Dozier said.

Cerritos students may obtain an application form from the Student Activities office and then purchase an identification card at any MTA agency, she added
