

# LAE Convention Here Saturday

## Cerritos Plays Host To National Confab

By LARRY CHESHIRE

Cerritos' Pi Kappa chapter of Lambda Alpha Epsilon, national police science fraternity, will host the national convention here tomorrow.

### REGISTRATION PERIOD

A registration period and display of police equipment by the F. Morton Pitt Co. and Los Angeles County Sheriff Department will precede the 1 p.m. conference meeting. Also on the program of events is a social hour from noon to 1 p.m. in the Student Center, to which representatives of the press and television are cordially invited, according to Alex Pantaleoni, adviser.

### MEMBERSHIP UNIVERSAL

The professionalization and improvement of peace officer status is one of the prime objectives of Lambda Alpha Epsilon. Membership is open to all police science majors throughout the United States, Canada, Puerto Rico and the Philippines, Pan-

taleoni said.

Lambda Alpha Epsilon was established in 1937 and has since grown to numerous chapters throughout the country. The Fall semester of 1961 saw the origination of the Pi Kappa chapter at Cerritos College. The chapter received their charter in 1962 in ceremonies held at Long Beach State.

### GUEST SPEAKER HIGHLIGHT

One of the main highlights will be the guest speaker, Chief Deputy District Attorney of Los Angeles County Manley Bower, who will discuss the laws and techniques of search and seizure.

Capping the day's events will be a luau banquet and program at the Tahitian Village in Downey.

## Richardson In Informal Visit Here Next Week

Dr. Ralph Richardson, candidate for State Superintendent of Public Instruction, will be on the Cerritos campus next Wednesday.

The La Mirada Citizens for Richardson committee is sponsoring an informal reception for Dr. Richardson from 3 to 4 p.m. in the Student Center. All interested teachers and students are welcome, according to La Mirada Mayor James Jenkins, chairman of the committee.

Wally Cohen, Cerritos social science instructor and a member of the committee, said that Dr. Richardson's Cerritos visit is due wholly to the efforts of the La Mirada group.

"It does not imply that Cerritos faculty members are campaigning in any way for Dr. Richardson as opposed to Dr. Max Rafferty," Cohen said.

Dr. Richardson's background in education includes a life-time teaching credential from the University of Kansas, and a Ph.D. in American History and Speech from Northwestern University. He is currently a member of the Los Angeles City Board of Education, and Professor of Speech and English at UCLA.

"My sole commitment in this campaign is a desire to get the people of California constructively and positively excited about education," Dr. Richardson says.

### STUDENT OFFENDERS

## Brown Proposes Bylaw Allowing Seizure of Student Body Cards

Associated Student Body Vice-President Bob Brown will present a new and definitive bylaw to the ASB constitution on confiscation of ASB cards, during today's 1 p.m. Council session.

According to Brown, the new bylaw will specifically state:

1. Why cards can be taken.
2. What action the Student Council can take,
3. How and when students can defend themselves.
4. Who, if anyone, can aid defense.

Under present rulings, three cards have been confiscated this

year when lent to non-students. Infractions lost their ID cards for two weeks, and paid a dollar fine.

Possible changes to present practices include extending card confiscation to other ASB rule infractions that would not call for actual suspension from school, according to Brown.

Student Council action on the proposed bylaw change requires a two-thirds vote and could be passed today, Brown said.

Proposed changes have been discussed by Council representatives for several weeks.

USING HER POLICE SCIENCE TRAINING Cheri Goodwin, Lambda Alpha Epsilon secretary, assures the attendance of Jim Allen and Dick Beyl to the Luau, which will cap the day's events when LAE hosts the national convention at Cerritos tomorrow. —Talon Marks Photo

## Homecoming Plans Go Into High Gear

Homecoming Queen hopefuls Sandra Dodge, Susan Neff, Carol Morgan, Sue Kendle, and Annette Adanto were introduced yesterday at the homecoming rally in the Student Center.

### Queen Will Rule

Voting takes place October 30 to decide which of the five candidates will rule over the Homecoming festivities. The election will be held in the quad.

Homecoming festivities will include floats, the Cerritos-Long Beach City College football game, and the alumni reception in the Student Center.

General chairman for the Alumni Homecoming weekend is Donna Richardson. Judy Wherta is assisting her.

All students interested in working on committees are urged to contact Dean of Women Amy Dozier or one of the committee chairmen.

REVIEWING THE AGENDA for Wednesday's SCJCSGA conference at Redlands University are ASB president Patti Roberts, seated, and ASB Secretary Carol Morgan. Dean of Men Clive Grafton offers advice. —Talon Marks Photo

Vol. VII, No. 10      Norwalk, California      October 19, 1962

## Student Body Council Members Attend SCJCSG Conference

Associated Student Body Council members attended the Southern California Junior College Student Government Conference at Redlands University Wednesday.

### KEYNOTE SPEAKER

Thomas Braden, publisher of the Oceanside Blade-Tribune, was the keynote speaker at the conference. Braden spoke to delegates from 34 Southern

California junior colleges on The Role of The Junior College in Higher Education.

The conference consisted of a general assembly and individual workshops attended by members of the various student body governments, according to Dean of Women Amy Dozier.

### CERRITOS REPRESENTED

Representing Cerritos were Patti Roberts, ASB president; Bobbie Brown, ASB vice-president; Carol Morgan, ASB secre-

tary; Roger Hanson, ASB treasurer; Dorothy Cranston, commissioner of publications; Judy Hartsough, commissioner of assemblies and rallies, and Jim Scott, freshman class president.

Also attending the Redlands meet were Harold Raphael, sophomore class president; Ray Rosenbauer, commissioner of activities; Dave Wilson, commissioner of publicity; and Mike Ash, AMS president.

Dean of Men Clive Grafton and Dean of Women Amy Dozier accompanied the group. The purpose of the conference, according to Dean Grafton, was to make plans for the state conference at Asilomar, November 15-17.

## Falcon's Nest

**NORWALK HIGH SCHOOL GRADUATES** are invited to the third annual Norwalk High Homecoming Game and dance October 27. The game against Santa Fe will be played at the Excelsior stadium, and will be followed by a dance at the Cerritos Student Center.

**CURRENT ASB COUNCIL** minutes and agendas are now kept posted on the communications board opposite the Activities Office, according to Dorothy Cranston, commissioner of publications.

**AN ORGANIZATIONAL MEETING** of the Cerritos Spanish club will be held Tuesday at 11 a.m. in LA 26. All interested students are invited.

## EDITORIAL . . .

## Must Cerritos Remain In Cultural Vacuum?

A growing number of faculty members and students have become genuinely concerned over the contribution Cerritos has made to the cultural life of the community.

Several of these faculty members recently organized a Fine Arts committee. Their purpose is to stimulate community and student interest in a higher level of entertainment at assemblies, dances, concerts, lectures, and plays. Cerritos Band Director Dr. George Reynolds presented the committee's ideas to the Associated Student Body Council.

Dr. Reynolds told the Council that the committee is ready and willing to advise them as to how they can help stimulate some of this interest. Council took no action on the matter at that time; Talon Marks hopes they will not hesitate too long before doing so.

Cerritos has a prize-winning football team, newspaper, and forensics squad and we are justifiably proud of them. But what about a prize-winning drama group, orchestra, choir, and band? We have the talent to win prizes in these fields, but the general lack of student knowledge about and interest in anything except sports and socializing is appalling.

The Fine Arts committee was concerned enough to do something about it, and they have enough faith in our student leaders to think that they are equally concerned and interested.

Talon Marks is also interested: we are interested in seeing whether our Council members have the courage and foresight to help elevate the level of student taste above that of "The Dick Clark Set."

### RUSTLINGS

## Falcons Do-Si-Do At Home Games

Associated Student Body card holders made tradition at Cerritos recently. It was a proud evening indeed.

The square dancers were so nicely assembled, too. Who ever expected a square dance at a Falcon game?

ASB card holders were sent by the callers to the side gate where they sashayed through and met their partners half way between the front and side gates. They do-si-doed all the way to the bleachers. It was quite a sight to behold.

So remember, Falcons, the next square dance will be held at Cerritos with East Los Angeles watching. —Lorie Olsen

## INQUIRING PHOTOGRAPHER

# Could Student Apathy Be Cause Of Poor Rallies and Assemblies?

By DOROTHY CRANSTON

When asked "What ideas do you have for better rallies and assemblies?" many students gave this reporter a blank stare.

"Well, gee, I really don't know . . ."

"I haven't seen any, so I wouldn't be able to say . . ."

Those were some of the "definite" answers this reporter got.

Many times Talon Marks has attacked the Student Council, and justifiably so. There is always room for improvement and this year's is no exception.

But the blame may also lie in the hands of the student body. Could it be their apathy has something to do with the quality of entertainment we have had in the past years?

Some students believe that the rallies and assemblies could and should be improved. These students gave me their views and came up with definite suggestions. These students are to be commended for their interest in student body activities, and by all rights should reap the benefits that they, as Associated Student Body card purchasers and interested students, deserve.

Diane Maxwell: Well, I went

to Fullerton last year and they had entertainers such as Teddy Buckner and his group. Personally, I would like to see more big names on campus and also some night assemblies. But I also think an ASB sponsored speaker would also be effective during the day, for there are many students who cannot break away at night.

Sandy Wade: I personally

think we should have more adult assemblies. We aren't children. Also I think, more publicity is needed about these things. A larger and more complete selection of entertainment would really help a lot.

Linda Greene. Local high

schools are getting well known talents — why shouldn't we? We have a much bigger budget allotted for the purpose of creating spirit within the student body with rallies and assemblies. Let's use it!

David Palmer: First of all I

believe we should have a committee that would come up with a few original ideas. Instead of the same format we should have something different. Also, the rallies should have more organization and they should be shorter, full of spirit, and to the point.

F. Flabbas: The rallies need

more cooperation and originality to let the team know we have enough enthusiasm to really back them. I suggest a weekly rally to teach the students the yells so they can remember them at the games. Also, I would like to see some organization here.

Jay Jordan: I think rallies

should be held in the gym because the people in the gym will be there to yell, not be entertained with their meals. The gym seating arrangement is ideal because the bleachers are there. In the Student Center many students are just passing through and passing time waiting for their meals. I would rather yell to 100 interested students in the gym than 350 students in the Student Center that are just biding time.

G. W. Falbe: I think, given a

chance, Judy Hartsough will give Cerritos the type of rallies and assemblies which will best build Cerritos' school spirit.

### BEAKIN'S

# Annie Gets Her Gun But It Backfires

By GLORIA DAY

The Long Beach Community Music Theater's production of *Annie Get Your Gun* backfires.

It suffers from the same flaws as the group's first offering, *The Music Man*. That, however, is a better show than *Annie*, so the faults were not so noticeable; they are glaring in this production.

The direction of James Brittain is so weak and uninspired that it robs Irving Berlin's musical of any vestige of life. The musical numbers, staged by Brittain and Al Ruiz, lack spirit and originality. The chorus members were seemingly left on their own to devise stage action. The results, more often than not, are chaotic.

The absence of a firm directorial hand allows Betty Tesman to turn the character of the naive and awkward Annie Oakley into a smirking, sophisticated, "look at me, I'm acting" performance.

Miss Tesman shouts most of

her songs; her voice is most effective in *Moonshine Lullaby*, sung to her small sisters and brother. Her acting in the same scene is also more natural. Perhaps she was afraid that the naturalness of the children might upstage her and she wanted to beat them at their own game.

Byron Palmer's portrayal of Frank Butler, *Annie's* vis-a-vis in love and sharpshooting, is moderately successful. Physically, Palmer is an ideal choice for the role. His acting and singing are at least consistent, though not as forceful as the role demands.

The best performance is delivered by George Berkeley, as the bombastic press agent for Buffalo Bill's Wild West show. Berkeley has made a fine art out of putting over a punch line; as a matter of fact, he usually kicks it until it's dead.

Ron McGlynn and Karen Bate-man, the juvenile leads, are involved in a secondary romance

which hampers the plot development. McGlynn is a talented boy; he sings, dances, and acts, managing to be adroit at and appealing in all three.

Ruiz' choreography is workmanlike and keeps his dancers busy while they're on stage; they couldn't possibly handle any more movement. The Indian ceremonial dance is probably the best staged number in the show, which isn't saying much under the circumstances.

*Annie Get Your Gun* plays tonight, tomorrow night, and Sunday night in the Concert Hall of the Long Beach Municipal Auditorium. Those of you who like musical comedy, even mediocre productions, may enjoy it.

The music, at any rate, is superior to anything you'll hear at the after-game dance tomorrow night.

# Republican Party Ideals Femme Chem Instructor Offer Challenge to Youth Lightning Load in Labs

By ROBERT HATHAWAY

Representing the Republican party may not seem to be the most important item in the world to some, but to Cerritos student Lynn Joyner it is an integral part of his life.

He is majoring in International Relations and in the future will enroll at the University of Southern California to major in law or teaching. He is as serious about his studies as he is about his political views.

Joyner's early years prepared him well for seeing both sides of the coin. As a youngster he grew up in Los Angeles, where he lived in a minority neighborhood. Since his family were of the lower economic class he went to work at the age of ten, and has been working ever since. Joyner is a former active member of the AFL-CIA Teamsters Union. During his five-year membership he held the post of shop steward for two years, and was a member of the negotiating committee for two years. At the present time he holds a withdrawal card from the Teamsters, but keeps in touch with their affairs.

In politics, Joyner is the perpetual man of action. He is a member of the California Central Committee of the 19th Congressional District. He is also the Vice Chairman of the 19th Congressional District Precinct Organization. In addition to this, he is the Headquarters Coordinator for the District. The 19th District encompasses a large, sprawling area including East Los Angeles, Montebello, Pico Rivera, Whittier, La Mirada, Norwalk and the Dairy Valley, Artesia area.

Joyner is a man of strong and clear convictions. It is his feeling that the Democratic party over the last three decades has "sold us a bill of goods." This, he contends, is the trouble with the present day Kennedy administration. As he puts it, "they are leading us into the past."

Joyner feels that the Democrats "have played a tune to the emotions of the minority groups throughout the country. The result of the tune has not been for any improvement, but has simply brought larger welfare checks." But this has not changed the basic minority problems, they still exist, Joyner feels.

The Republicans have been caught in this "web of emotion" and have been unable to do anything but fight the Democrats on their home grounds. Joyner believes for America to have responsible progress in the future requires the Republican party and its ideals. In essence, Joyner regards the Democrats as accusers. "They accuse the Republicans of doing everything that they, the Democrats, are doing themselves."

I asked Joyner a question we have all asked. "What about Nixon's chances in November?" He replied that they are very good for a number of reasons. "There is at present the greatest number of unemployed in the State's recent history, and the tax condition of the state is driving the small business man into failure. To relieve this, Nixon feels that it is his duty to get private industry large and small to have confidence in the state; at present they do not."

Joyner stated that he feels the Democratic party has pictured the Republicans as "old

LYNN JOYNER

ladies in tennis shoes," when in reality the party of progress is the Republicans. Joyner is convinced that "for intellectual honesty and challenging new fers the best hope to American youth, rather than the stagnation and rot of conformity of a Democratic party philosophy born in the days of bath tub gin."

By GAY ANDERSON

Since the beginning of the semester Cerritos' chemistry teachers have been carrying an extra heavy load. Now the arrival of Mrs. Mary Alice Merrill has set them all rejoicing. She has taken over three lectures and four labs.

Mrs. Merrill got her teaching credential last year at Orange State College. She has been doing substitute teaching work since then. She obtained her Master's Degree in Chemistry several years ago at Wellesly College in Pomona. It seems that her goal was always teaching.

When Mrs. Merrill was in high school she planned on becoming an English teacher. Anxious to get her required subjects over with, she took chemistry a year early, and has never lost her interest in it. After finishing college, she found enormous opportunities open in commercial analytical research.

The years before her return to college were spent raising her two young children. She has a boy in high school, and a girl in the second grade.

Mrs. Merrill said that she finds the faculty here at Cerritos very easy to work with.

CERRITOS' NEWEST CHEMISTRY instructor, Mrs. Mary Alice Merrill, clarifies a lecture point for a student. Mrs. Merrill is a full-time instructor.

## Stunned Falcons Seek 2nd Victory; Host Huskies Here

A shocked Cerritos football team moves back on its own peaceful territory tomorrow night when they play host to the Huskies of East Los Angeles. Game time is 8 p.m.

After receiving one of junior college's biggest upsets so far this year, the Falcons will attempt to put their conference record back on the winning side. Last week unranked Santa Monica knocked Cerritos out of the number three spot in national

junior college rankings.

East LA is 2-2 on the season; their two defeats were to Metropolitan Conference foes. The two foes were the number one and two teams in the nation, however as they fell to El Camino 31-21 and were blanked by Long Beach 30-0 last week.

The Huskies have a big, fast, and powerful unit that should make it tough on Coach Don Hall's Falcons.

They have three returning

tackles that tip the scales for an average of 244 lbs, which develops the big part of the team.

The speed department is headed by Jess Willard, a former Fremont star. He's capable of a 9.7 100-yd. dash.

The power is supplied by two bruising fullbacks, Ray Chavez and Bill Koehn. Both weigh in at 205.

Two lettermen quarterbacks are on hand to guide the Huskies' attack, namely Rick Harris and Frank Alderete.

Cerritos' quarterback Rick Alvarado should be back in action for the Falcons after missing two complete games. Second year men Lou Vellone and Lynn Blouch may also be ready to return to service.

This will be the final game for Cerritos before they prepare to tackle Bakersfield and Long Beach in two successive weeks.

## Peeso Breaks Record: Harriers Travel to S.D.

"This meet will decide the conference for us." Those were the words of cross country coach Dave Kamanski as he discussed the San Diego meet with his runners.

The undefeated Harriers are battling with San Diego for first place and the conference championship. The Falcon-Bear meet was held yesterday in San Diego but took place after Talon Marks went to press.

In the meet last Friday with Long Beach City College, the Harriers extended their victories to 4, with a score of 26 to 29.

Cerritos' Jim Peeso highlighted the afternoon when he set a new course record at Recreation Park. His 16:57 time blanked out the former mark

achieved earlier this year. Peeso's record first place finish eclipsed Mit Hunt, the former record holder. Hunt bettered his old time by 8 seconds with a speedy 16:59.

Kamanski said that he was "quite pleased" with the Long Beach meet, though the Vikings did better than expected.

The first five finishers in the meet were: 1st, Jim Peeso; 2nd, Mit Hunt of Long Beach; 3rd, Bob Goodson of Long Beach; 4th, Clarence Cregar of Cerritos; 5th, Roman Perez of Cerritos.

## Kelley, Iller Top Grid Forecasters

Bill Kelley and Pepper Iller led the Cerritos grid predictors last week with 11-4 records. Kelley's mark moved him into first place in the overall standings for the first two weeks.

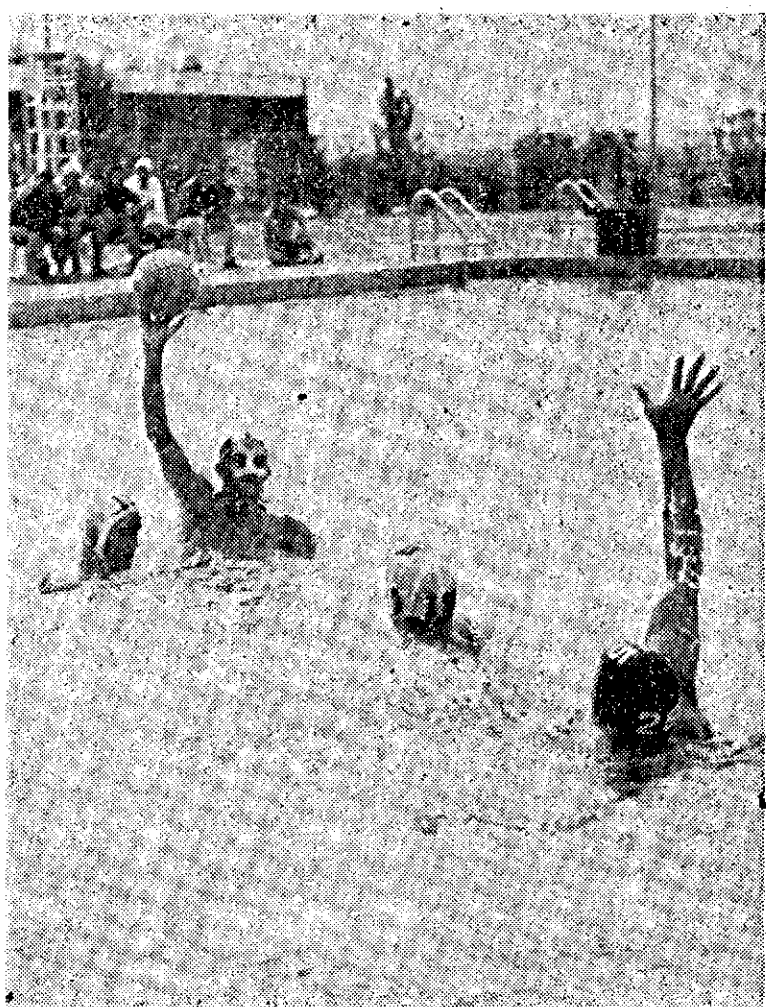

Both forecasters visualized the upset of the week by picking Miami of Ohio over the top rated Purdue team.

Don Desfor held on to second place position by achieving a 10-5 week. Last week's leader, Clive Grafton, dropped to third after an 8-7 showing.

## CONFERENCE CROWN AT STAKE

### Cerritos Polomen Battle for Top Spot With LBCC Squad Today

Tonight Cerritos polomen travel to Long Beach City College to do battle with LBCC Vikings. In junior college competition the Vikings have lost only one game and that setback was by the Falcons in the Junior College Invitational water polo tournament at Santa Ana.

The mermen from Long Beach have gained a great deal of respect from Coach Horn's Polomachine. In previous combat the Falcons nosed out the Vikings by an 8-7 count. This league game will be of special importance to the Falcons.

The journey to San Luis Obispo proved to be successful when the Falcons pushed their way by Cal Poly by the margin of 10-8.

Friday the Falcons took on Foothill College, polo power-house of the North. Even though it was raining with a 40-mile an hour wind, Cerritos squeaked by Foothill College in one of the most unusual water-polo games in Falcon history.

Foothill scored two goals

within the first minute of the game, then was held scoreless until the fourth quarter when the wind blew the ball out of the hands of a Falcon and into Cerritos goal. Cerritos still proved to be too much for mother nature, dominated the overtime period and went on to defeat Foothill College 5-3.

Saturday the Falcons suffered their second loss of the year by a 5-3 count to Stanford University.

By Bill Kelley

After staging a brilliant second half comeback, the Cerritos Falcons saw their efforts fall to the wayside in the final two seconds of their encounter with Santa Monica. Corsair catcher Russ Grossman gathered in a pass from Steve Sindell, just as the final gun sounded, to hand Cerritos its first defeat 26-20.

The game, played in Santa Monica, saw the Corsairs dominate the first half with their potent passing attack and a fine ground - gaining performance from Paul Montgomery.

After the Falcons found themselves unable to move on their first series of plays, Santa Monica drove for their first touchdown. Using all but three minutes of the first quarter, the Corsairs moved to the Cerritos one yard line before the Falcon defense stiffened and held.

#### Falcons Fumble

The goal line defense was only a momentary stall however, as the Corsairs found a Falcon fumble on the two yard line.

Once again Cerritos dug in and held until fourth down before Montgomery moved off tackle for the score. The try for two points was stopped and Santa Monica led a stunned Cerritos squad 6-0.

The colorful orangemen quickly disproved any doubts that there might have been about their touchdown being a fluke by driving for another TD the next time they got the ball. This one was cancelled out due to a penalty and the Falcons were able to punt out of danger.

Once again the mighty Corsairs passed their way towards the Cerritos goal. And once again the Falcons managed to stave off any scoring ideas by Coach Jim Powers team.

#### Corsairs Score

A short Cerritos punt gave the Corsairs the ball on the Falcon 35 with the first half drawing to a close. Santa Monica's slinging Steve Sindell put his rubber arm to good use by beaming Bob Boozell with a 14 yard scoring pass to end the second quarter scoring and provide the

Corsairs with a 12-0 lead at halftime.

Continuing to control the ball, Santa Monica took the second half kick-off and started another goal line drive which ended when Mike Stoud intercepted a pass on the 13.

Cerritos still couldn't find the right offensive combination and once again had to relinquish the ball.

This time there was no stopping the air-minded orangemen, Sindell carried the ball over from the two and then passed for the dual extra points to set the stage for the final twenty minutes of action.

#### Delvaux Goes 93 Yards

Art Delvaux supplied the much needed opening punch by receiving the following kick-off and streaking 93 yards for the Falcons' first score. Dennis Yount kicked the extra point to make the score 20-7.

A rejuvenated Cerritos defense stopped the Corsair attack cold and forced the ball back into the waiting Falcon hands.

After moving the ball with short passes to Delvaux and Bill Perry, Marshall Adair then connected with Ed Mendez on a 17 yard scoring pass. The extra

point was once again good and the third quarter ended with the score 20-14.

#### Bales Wails

Santa Monica once again had to punt and Lee Bales ran it back 40 yards to the Corsair 28 yard line. Several plays later, Louis Santiago crashed over for the touchdown. This time the all important extra point was missed and the game was deadlocked 20-20.

Both teams found the pressure tight then, as neither could develop any sort of a scoring drive.

With less than three minutes to go, Santa Monica managed to get within field goal range but the three point attempt was wide. Cerritos then took the ball for the last time on their own 20.

Unable to move, the Falcons were forced to punt with a minute and half to go in the game.

Sindell made valuable use of the time with short outside passes. His next to last pass of the night moved the Corsairs to the two yard line with ten seconds to go. A quick huddle and a quick slant pass ended in a quick defeat for the Falcons.

The loss evened the Cerritos conference record to 1-1 and an overall standing of 3-1.

**HELPING LEAD THE CERRITOS** cross country team towards a Metropolitan Conference crown are Jim Mason, Roman Perez and Clarence Creagor.

# Mears Explains Study Program

By ROBERT HATHAWAY

Perhaps some Cerritos students feel that there is no need for them to know about Institutional Studies. The title would imply that it is indeed a rather dull subject, but it is not when one understands the import behind the program.

As Dr. Jack Mears, Cerritos president, pointed out, the primary purpose for the study is to see that Cerritos College remains in the stream of constantly changing roles of higher education. Cerritos belongs to the Western Accrediting Association. Every five years a team is sent to review the entire program of the college, and there are certain standards which must be met in order to remain within the limits of good educational areas.

As Dr. Mears stated, "This program is consistent with good administration, and we are preparing for the next review which will be in about two years."

Dr. Mears and the faculty spend a great deal of time and effort striving for the betterment of Cerritos and its students. They are responsible for the academic program in meeting the criteria of higher education. It is through their efforts that students are able to transfer from Cerritos to perhaps Long Beach State, or if they did not maintain a high level of study there would be improper credits for the purpose of transfer.

## Nurse Urges Immunization From Tetanus

Mrs. Margaret Manire, Cerritos College's nurse, recently urged all students to get tetanus shots as well as polio shots.

Widespread immunization of infants and preschool children has reduced the frequency of the disease in this age group, according to Mrs. Manire. Consequently, most of the tetanus cases occur in the older age groups. Mrs. Manire stated that the college age group is the most vulnerable.

Tetanus occurs most frequently after major accidents or injuries, but minor injuries such as splinters, rose thorns, and other minor puncture wounds also cause this disease.

Since in these injuries the majority of the patients do not consult a physician, previous active immunization is the only safeguard, Mrs. Manire added.

## Falcon Data

### TODAY

Falcon Christian Fellowship to Palestine Exhibit, 7 p.m.  
Water Polo, Long Beach, 4 p.m., there.

### OCTOBER 20

Lambda Alpha Epsilon Conference, 12 to 6 p.m.  
Football, East Los Angeles, 8 p.m., stadium.  
After - game dance, 10 to 12 p.m., Student Center.

### OCTOBER 23

CRA Coed Tennis, El Camino, 3 p.m., there.

### OCTOBER 25

ICC Meeting 11 a.m., Student Activities Office.  
CRA coed archery tournament, 1 p.m., Pasadena.

Time is also spent in the study of instruction and personnel service. It might be well to add here that there is also a good deal of self evaluation in this program. At present, the study program is prepared by the members of the faculty.

However, Dr. Mears hopes to see the time when students will have a voice in choosing subjects which they themselves feel have merit. This may or may not be done through a student leader retreat. At present, this plan is merely in the thought stages.

In closing, Dr. Mears stated that he is not interested in change for change's sake, but for the improvement of Cerritos as one of the outstanding institutions of learning.

## Forensics Squad Leaves For First Practice Meet

Cerritos' Forensics squad left today for their first practice tournament of the season at San Diego State College. The tournament is sponsored by the Pacific Southwest Collegiate Forensics Association, according to Mrs. Juliette Venitsky, squad adviser.

Accompanied by Mrs. Venitsky and William Lewis, the teams representing Cerritos in extemporaneous and impromptu speaking and debating are: Patti Roberts and Al Mercer, Steve Altig and Richard Harris, Mike Shorb and Mel Dody, Nolan Coogan and John English, and David Rameriz and Berniece DeLong.

Patti Gettys, Della Kerns, Jerry Bailey and Vladimir Sukhov are entered individually in extemporaneous and impromptu speaking.

## Der Edelweiss Schedules Film, German Music, Yule Party

Der Edelweiss, Cerritos' German club, recently announced its activity plans for the coming months. Club President Gary Falbe stated that October 23, November 16, and December 12 are dates planned for club doings.

Music instructor John Feeney will discuss and play music by the German composer, Kurt Weill, on October 23. The program will begin at 11 a.m. in H-6. Everyone is invited.

On November 16 at 8 p.m., the club will sponsor a movie about Beethoven. The soundtrack is in German and is accompanied by English subtitles. The movie will be shown in the Student Center and is open to the public with no admission charge.

The Edelweiss Christmas Program is set for December 12 in the Student Center. Students, their friends, and families are cordially invited, according to Falbe. A program featuring sev-

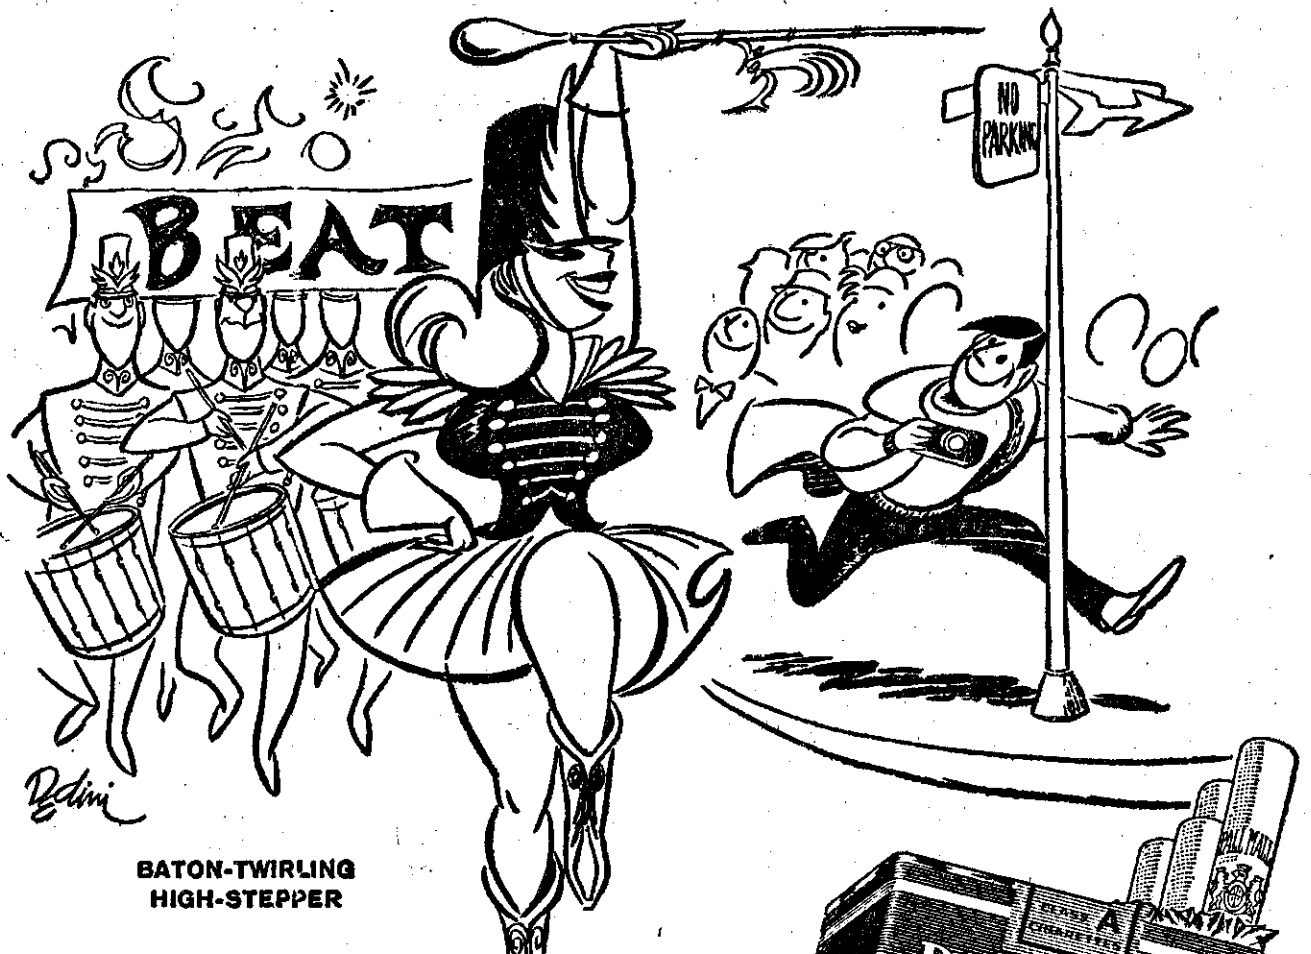

eral performers and high-lighted by several songs by the Cerritos' Women's Ensemble has been arranged. Refreshments and dancing will follow the program.

All Cerritos students are invited to attend the Edelweiss meeting, stated Falbe. The meetings are "dedicated to fun and singing in German," he added. The club meets the second and fourth Tuesday of each month at 11 a.m. in H-6.

## Circle K Will Wash Cars Today

HAVE YOU GOT A DIRTY CAR? Today from 12 to 3 p.m. you can clean your car while you're in class. Circle K, men's service organization, is sponsoring a car wash, according to Jim Logan, co-chairman of the committee. The donation is 50-cents. Students may bring their cars to the Alondra Blvd. parking lot, Logan said.

## Pall Mall Presents~ GIRL WATCHER'S GUIDE

BATON-TWIRLING  
HIGH-STEPPER

## CAMPUS TYPE I

The High-Stepper is an ideal choice for Campus Type #1 for two reasons. First, she is a fairly common species—and second, she is easy to identify.

Just as the bird-watching beginner should concentrate on the Robin, Sparrow and Cardinal before moving on to more exotic species, the girl watching beginner should master the observation and identification of types such as the High-Stepper before progressing to rarer (and usually more difficult to identify) types.

As in all fine arts, the mastery of fundamentals is the key to girl watching success. This mastery of fundamentals is just as important in the art of cigarette making. Taste Pall Mall and see what we mean!

**Pall Mall's natural mildness  
is so good to your taste!**

**So smooth, so satisfying,  
so downright smokeable!**
