CERRITOS COLLEGE

Reumont - Bernstein Support Status Quo

BRUCE REUMONT

Presy Hopeful

After conducting an efficient, attention getting campaign, the ticket of Bruce Reumont and Richard Bernstein, like their opponents, are confident of victory in today's Associated Students elections.

Reumont, the current Senate majority leader, and his running mate, another freshman senator, were the first of the two tickets to announce their intentions and launch their campaign.

During the past month and a half, they have held a student forum and have spoken before numerous clubs and classes. The message has been the same throughout their campaign. Cerritos student government is in great shape. By voting for us, you keep Cerritos organized.

They are satisfied with the status quo and intend to continue it. This week the ticket announced that AS President Sandy Brunette has given her support to their cause and that she will be appointed to a Cabinet post if they are elected. Commissioner of Public Relations Trish Walden is also expected to remain in her present capacity if they win.

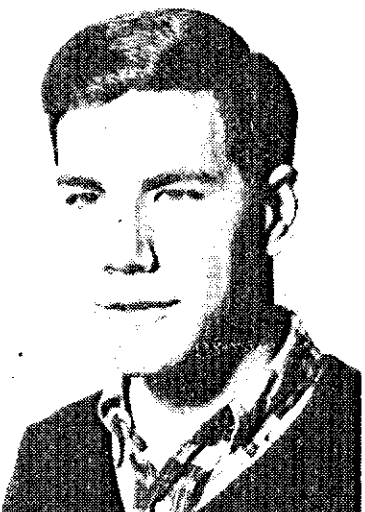

Reumont stated that the key to his campaign was the fact that "We tried to appeal to the majority of students while Heid-

ner and Welch contacts have been with student government and older people."

The ticket has made an issue of both Heidner and Welch being in their twenties and their coming back for a third year at the college. However, the attack along these lines has been rather mild. While making their speaking rounds, Reumont and Bernstein seldom mention their opponents. They explain their statement of philosophy and expound on parts of the platform, as time allows. This has brought them into contact with every type of student and has given them wide exposure.

Reumont feels that because of this wide range of support, a large election day turnout would help their effort.

If Reumont and Bernstein win this election, much of the credit belongs to Ralph de Velde their campaign manager. "De Velde has done a tremendous job," said Reumont. Under his direction, the camp has put out Reumont-Bernstein pens, matches, ribbons and calendars. This past week they had a dunk booth on campus and lined up an assortment of lovelies willing to take a dip for the cause. It was a vote-getter and a financial success as well.

Senate Votes To Bounce Excessively Absent Solon

In an unprecedented move this year, the AS Senate went into closed session to discuss the absences of senators during their last meeting. Following the closed session, two resolutions were introduced and passed one to warn Senator Gary Smith about excessive absences and one to expel Senator Frank Anderson from the Senate.

Discussion of senators' absences arose as a result of a letter from Smith which stated that he could not attend the meeting to discuss reasons for his absences. Senator Linda DuLac had introduced, in a previous session, resolutions to invite them to explain their absences.

Miss DuLac brought up a stipulation in the Government Organization's Code which stated that the Senate must approve or disapprove the letter by Smith. The letter was approved and prompted further discussion of absences. Senator Carol Atkinson

then moved for a closed executive session.

In other legislation, a move to appropriate \$750 for Phi Beta Lambda's (business fraternity) national convention trip was ruled out of order. Chairman Richard Price ruled that since there was no maker of the motion, discussion of the measure was out of order. AS treasurer Ken Welch, who was at the meeting to speak for the legislation, stalked out of the senate session in anger.

Earlier, Welch had explained the motion under suspension of the rules. He pointed out that this appropriation was approved by the AS president before introduction into the Senate. A similar measure to finance a Lambda Alpha Epsilon (police science fraternity) trip was vetoed by President Sandy Brunette because she felt that the resolution for the police science fraternity failed on this point.

AS Leaders To Be Honored

The annual Spring Honors Dinner-Dance will be held next week at the Embassy Room of the Ambassador Hotel. The evening will be devoted to recognizing outstanding students in various phases of campus life, according to Dean of Men Richard Robinson. The Friday evening affair will include a dinner of meat or fish and dancing to music provided by the Cerritos College Dance Band.

A reception will start the evening off at 6. The dinner will follow at 6:30. From 7:30 10:00 p.m. the various departmental, division and man and women awards will be presented. The dance will follow immediately and last till 1 a.m.

Gold and Silver Falcon awards are presented to Sophomore Men and Women of the year and

Freshman Men and Women of the year, respectively. There will also be an outstanding man and woman of the year, as well as awards to the outstanding students of each division and department in the school.

In addition, Falcon Feather Awards will be given. Falcon Feather Awards are given in recognition of students who have contributed service to various clubs and organizations on campus, according to Robinson.

Tickets for the affair cost \$3.50 per full-time AS member and \$4.50 for part-time AS members. The cost to non-members is \$7. Robinson explained that the tickets are for the individual only. If a full-time AS member takes a non-member to the affair it will cost the full-time member \$11.50.

Students Ballot For 29 Senators, AS President, VP

Voters will go to the polls today to elect 29 senators and a president-vice president ticket to represent them in student government next year.

Polls will open at 8:30 a.m. and close at 2:30 p.m., and will be located by the Lecture Hall and in front of the Student Center.

In the senate election there will be 39 candidates running for the 29 seats.

Over 500 persons are expected to cast ballots in the election. In order to be eligible to vote one must hold full time membership in the Associated Students during the present semester.

In today's election only 13 incumbents are seeking re-election. Voters will be asked to vote for no more than five senate candidates.

The names of those running will be placed on the ballot in order that the hopefuls returned their petitions to the Student Affairs Office.

First on the ballot will be Rob Schmid, a 17 year-old freshman. Schmid is vice-president elect of Circle K service club and is the youngest candidate in the election.

Others seeking Senate seats are:

Bill Halsey, an 18 year-old, will be second on the ballot representing athletics; Russ Barnings, 19, who will be a sophomore; Paul Colman, a 19 year-old sophomore incumbent; Emmie St. Pierre, 19, newly elected treasurer of Tau Rho Beta sorority also running as a sophomore incumbent.

Seeking her fifth term as AS senator, Linda DuLac, the present chairman of the senate rules committee, is 19 and will be a sophomore next year; Janet Spillman, also from Tau Rho Beta, is an 18 year-old sophomore; George Baxter, 19, is an incumbent sophomore; Carol Atkinson, 23, is also a sophomore incumbent.

Martha "Marty" Gilles, 22, sophomore; Bob Phelps, campaign manager for Gary Heidner and Ken Welch, is an 18 year-old freshman incumbent from Sigma Phi fraternity; John Tagg, 18, representing speech is also running as an incumbent; Seyrl Van Duren, 18, is a candidate for a sophomore seat.

Other senate hopefuls are: Victor T. Bernstein, 18, seeking a sophomore seat; Ofelia (Faye) Ungar, at 29, is the oldest candidate in the election. She also is vying for a sophomore position in Senate.

Louis Banas Jr., 19, presently an associate editor of "Talon Marks", is running for his second term in the senate; Trish Walden, 20, present commissioner of public relations representing both the Dorian Society and the campus women's service club Sinawik; Don Sinclair, 18, a sophomore representing Delta Chi Omega fraternity.

Also seeking senate seats are: Randy Ajax, 18, freshman Circle K member; Pamela Pall, 19, the current Miss Norwalk running for her second term in office; Walter S. Maybury, 19; James F. Flack, 18, running for a freshman seat; Mary Sinn, 18, representing Phi Kappa Zeta; Marilyn Barker, 19, seeking his first term as a freshman representing Delta Chi Omega fraternity.

Janet Parker, 18, is also a freshman hopeful; Jerry Slaby, 18, representing Circle K; Narola Kindness, a 19 year-old sophomore representing Phi Kappa Zeta; Bruce Johnson, an 18 year-old freshman from Lambda Alpha Epsilon, the college police science club; Fred Adams, 19, also from Circle K.

Nancy Vander Hulst, 19; Virginia Romero, 19, Linda Welch, 18, presently the senate Ideas and Discussion committee chairman and representing Delta Phi Omega; Peter Hoagsma, 22; Mike Kane, 19; Wayne Wainer, 18.

Rounding out the ballot will be: Loretta Toler, 19, a sophomore representing Tau Rho Beta; Judy Bedwell, 19; Jerry Dexter, 18 and Carol Johnson, a 27 year-old freshman senate hopeful.

The results of the election will be posted on the Student Affairs Office window by 5 this afternoon.

All students who are on today's ballot have proven that they hold scholastic average of 2.0 or better in at least 12 units. They also have had a petition signed by 10 fulltime students supporting their candidacy. AS officials must have an AS card.

Tanner, DeLong Solo At Band Concert Tues.

Paul Tanner of the University of California at Los Angeles and Eldon DeLong of the Cerritos Music Conservatory will be the guest soloists at the Cerritos College Band Concert to be presented Tuesday at 8 p.m. in Burdick Center.

"Airs for Trombone" and "Concerto for Two Trombones" are two of Tanner's own compositions which will be featured. He will be assisted by DeLong in the latter.

Selections presented by the Cerritos Concert Band will include "Two Napoleonic Marches" by Ferdinand Paer, "Symphony For Band" by Vincent Persichetti, and "An Ellington Portrait" by Duke Ellington and Floyd E. Weale.

Other numbers will include "Overture to 'Candide'" by Leonard Bernstein, "Madame Butterfly Suite" by Puccini, Antonini Caccavas and "Victory At Sea" by Richard Rodgers and Robert Russell Bennett.

A member of the Academic Faculty of UCLA, Tanner instructs four fields of music, performance, music education, theory and musicology.

Tanner's musical education began in Wilmington, Delaware, at the Curtis Institute of Music. He received his bachelor of arts and masters degrees from UCLA and is presently working for his Ph.D.

Tanner was a member of the Glenn Miller Orchestra the entire time it was a civilian orchestra. Since 1951 he has been the first trombonist for the American Broadcasting Co.

As a composer, Tanner has worked with music for performances of many levels. From complicated double trombone concertos to solos for beginners. He has completed many arrangements for symphonic orchestras and concert.

Tanner has had two books published on tenor trombone and bass trombone. He has also written a textbook, "The Study of Jazz."

Heidner - Welch Team Stresses Experience

GARY HEIDNER

Presy Hopeful

At the start of the presidential campaign very few people had thought in terms of a Gary Heidner-Ken Welch ticket. Welch was an announced candidate for President and Heidner was intending to announce, but not with Welch as his running mate. Today they form one of the most formidable and experienced tickets ever to run for the office.

The overriding theme of their campaign is that while the situation at Cerritos looks well on the surface, there is room for improvement and they have the experience and know-how to effect the needed changes.

"Looking at Cerritos from the standpoint of an outsider, things are great. We win trophies in speech, music, athletics and other things and this looks great. But looking at it as an insider to student government, I would say there is room for improvement as there is in every organization of this type," said candidate Heidner.

"We seek to represent all of the students," commented Heidner. "Our motto is 'we want to represent you' and this is why our platform attempts to benefit every type of student," he added.

Heidner and Welch have not made as much campaign noise as have their opponents. They have reserved their energies for a big push during this final week of campaigning. "Ken and I are here, first, as students, then we

also have our positions as chief justice and treasurer, respectively, to hold up."

They feel that the abundance of qualifications is their strongest point. As one Heidner aide put it, "they stand head and shoulders above their opponents in this respect." This issue could also hurt them. There has been talk emulating from the opposite camp, although not necessarily from the candidates themselves, that Heidner and Welch are too old to hold office.

Heidner answers this charge by pointing out that he has attended Cerritos for only three semesters and will have been here for five when he graduates. This, he points out, is not at all unusual for his bio-chemistry major. "I don't know of anyone majoring in science or mathematics to finish in four semesters, he said.

He was also quick to show that he was free of any obligations to the draft, having served from 1962-64. "What happened to (former AS President Jerry) Smith could not happen to me, but could to Reumont." Smith had to resign the presidency earlier this year when he joined the service.

"One of the major differences between our respective tickets is that we have the needed experience behind us. Cerritos College will be facing, crucial times in 1966-67 and this experience will be needed to administer student government," concluded Heidner.

KEN WELCH

NO CONVENTION

Brunette Vetos L.A.E. Bill

Associated Student President Sandra Brunette vetoed the bill giving Lambda Alpha Epsilon, the police science fraternity, \$288 to send representatives to the National L.A.E. competition in Monterey May 27.

The Senate passed the legislation giving funds to the fraternity last week. It passed by a vote of 20-1.

At the time the legislation was passed it was pointed out that the Senate could not originate such an appropriation. According to the by-laws, the Dean of Student Personnel and the AS President are the only ones that can initiate such motions.

Party Whip Doug Stenson brought the above facts to the attention of senators. However, the Senate decided to not follow procedure and approved the legislation.

President Brunette, in her veto message, said that she thought the idea behind the bill was good,

but did not follow the established policy of the by-laws.

"Procedure must be regarded carefully for efficiency and proper financial controls," she said.

'Talon Marks' Folds in June

With no News Production class offered during summer school, no summer editions of "Talon Marks" will be printed this year.

Harlan Stamm, Dean of Academic Affairs - Extended Day, reports that all news items to students will be handled through the Monday Faculty Bulletin. A section in the weekly bulletin is read to students. No provision has been made for students not attending classes on Monday.

The usual college information releases will be handled through the Public Information office for distribution to local papers.

News Briefs

FALCONETTE DRILL TEAM PRACTICE SESSIONS are still open to interested coeds. Sessions are from 3:30 to 5 p.m. daily behind the Girls PE Building. Final tryouts will be held May 24.

REGISTRATION APPOINTMENT CARDS for priority registration are available through May 25 in the Admissions Office between 10 a.m. and 4 p.m. and from 6 to 9 p.m.

AN ALL-CLUB PICNIC, sponsored by Phi Beta Lambda, will be held Saturday beginning at 10 a.m. at Irvine Park. Members of all clubs, fraternities and sororities are invited.

CERRITOS COLLEGE

EDITORIAL

Will It Be 40-0?

Will Cerritos College's superlative baseball team finish the year with a 40-0 record? The Falcons will have to knock off Pierce twice this weekend and eliminate the northern finalist in two meetings to accomplish this incredible feat.

There seems to be little doubt in the mind of Cerritos fans that their team can go all the way. Over 300 fans were confident of this when they came out to see Wally's Wonders eliminate two-time state champion Mt. Sac.

However, the Falcon nine did not win 36 consecutive games because of the overwhelming support of its fans. Most of us are johnnie-come-latelies. The credit belongs to Coach Wally Kincaid and his dedicated group.

During his nine years as head baseball coach Kincaid has compiled an astonishing 268-69 record. He has also guided Falcon squads to back-to-back unbeaten years in Metro conference play.

The players have put team effort above individual glory to accomplish this feat.

Both coach and team are a credit to this institution. Let's give them our support in these final four games.

— Louis Banas, Jr.

RANDY GRATER

Abolish Student Government?

Should student government be abolished?

Today students are asked to go to the polls to pick a new AS president, vice president and 29 senators.

And will these students, when endorsed by AS card holders, rule? Or is there a power behind the student government throne?

Who Sells?

Who sells student body cards for the AS? There is a "Deans' Clearance" at Cerritos, but no "Associated Student Clearance," asserting that "All students are expected to buy an AS card." Yet one prexy team opposes the "Deans' Clearance" in their platform.

Who really decides what programs will be offered by the Associated Students? A "Controversial Speakers" program envisioning Communists, Nazis, Black Muslims et al. was enthusiastically proposed last year. This year we heard controversial Allan Drury and Simeon Booker.

Students?

Who really makes the big decisions? The students? The students decided that they wanted their AS card to be \$10 next year. Dean Don Siriani told the AS Senate that the bill would have to be approved by the Board of Trustees. He said further that he doubted if he could recommend that bill to the trustees. The senators later rescinded the bill.

On another occasion, when some senators were seeking to

override a presidential veto, Siriani again came to speak. "I am not here to influence you, but..." he began. What was he there for?

Siriani has stated that the Senate does not have the power to legislate. It only has the power to recommend, and all items must be approved by the trustees.

Why?

But why didn't the original bill raising the price of the AS card to \$10 go to the trustees? Why hasn't the constitutional amendment reducing the requirements for full time status from 12 to 10 units gone to the trustees? Has any student government action gone to the trustees for approval this year?

Our student officials are lagging behind the deans. They only recently decided to classify a student carrying 10 units as "full time." The deans were directing the sale of full time AS cards at 10 units last semester.

Deans Effective

The deans are already doing an effective job without the students. Student government appears to be only a hindrance to the deans, an unnecessary duplication of efforts and a waste of a considerable sum of money (now spent on leadership conferences and awards banquets for AS leaders).

Should student government be abolished?

Or has student government already been abolished?

We feel that Cerritos College is the best Junior College in the nation! A big goal of our administration will be to prove our proposition conclusively to everyone, both on and off our campus. We have concluded that the best possible way to achieve our goal is to improve our ASCC program to such a point that no one can deny our Number 1 ranking.

Clubs, performing arts and athletics are areas which we feel are in major need of attention, as evidenced by the lack of attendance at most sporting events, drama performances, band performances and the lack of participation in our club programs.

Our plan to improve the present situation is not a big bomb, but rather a collection of small ways to improve Cerritos, coordinated as a total program to achieve our goal.

We would first of all form an ASCC Orientation Committee whose duty it would be to prepare pamphlets on every club, depicting each club's activities and its purpose. Pamphlets would also be made showing our performing arts and athletic teams in action.

The Dean of Student Personnel would then pass these pamphlets out to the Senior Problems classes of our surrounding high schools at the time that he presents Cerritos to them. This would help to acquaint the student with what is available on our campus. With this prior knowledge, each incoming student will perhaps look forward to this commissioner, who in turn can advise the Executive Cabinet, are self evident.

The second job of the Orientation Committee would be to make a presentation to all incoming students at the time of their placement test in which they would present the ASCC program, emphasize clubs, plus athletics, and promote performances.

It seems quite conceivable that this orientation could phase out the Dean's Clearance.

At the end of the orientation session, we advocate that a student interest card be passed out which would list each club, team, band, drama, choir, student government, etc. Each

RICHARD PRICE

Some Changes Must Be Made!

Cerritos College is one of the best junior colleges in the nation, but it is by no means perfect. The school is lacking in many areas and I have compiled a short list of a few things we would like to see on the campus:

More Attendance at College Events.

It is strange indeed that a school with the best a community college can offer in nearly everything (speech, football, baseball, basketball, drama, music and the list goes on) is also tops in student apathy. The Associated Students spend a lot of money on the above mentioned activities and yet the only way most people find out about these events is afterwards through reading the newspaper, and not by participating or attending them.

A Free Speech Platform Located in the Quad.

We would like to see College President Dr. Jack W. Mears Out on the Campus once in a While. The majority of students on this campus have never seen the college president. Unless one happens to be present when we are dedicating a new building or celebrating the tenth anniversary of the school it might be hard to accept the premise that there is such a man. We feel that Dr. Mears should more closely associate himself with the students so that he might better understand their problems.

student would indicate which activities he might be interested in, while also filling in his name, address and phone number. Each organization can then acquire a list of virtually everyone who might be interested in their group and personally invite them to join. El Camino tried this two years ago in an attempt to enlarge their marching band. The size of the band more than doubled the first year.

A recommendation that came from the Marquee Committee, which I chaired my first semester at Cerritos, was to have an activities bulletin which would tell the time and place of all club meetings, plus indicate special items of interest such as movies, lectures, etc. The bulletin would also list all performances and any athletic events. We have attempted to start one in the past but have not had any money budgeted for any item such as this. I'm pleased to be able to state that Ken and I are making provisions for the funds for the coming school year.

Now that everyone has been informed of the type of activities we have at Cerritos and there is a weekly bulletin to remind everyone of scheduled events, how can we better plan programs using the talent in our performing arts departments? We feel that the Commissioner of Convocations and Fine Arts should work with a committee of representatives of every department of the performing arts. We feel that the advantages of having a committee of advisers working with this commissioner, who in turn can advise the Executive Cabinet, are self evident.

There are many other items listed in our platform to be more fully expounded upon, such as the Police Science Program, Outdoor Art Festival, and several others. Unfortunately there isn't the space in this edition, so I will content myself by saying that I am completely sure that upon comparison of the opposing ticket's qualifications

... Gary Heidner and Ken Welch will stand head and shoulders above the rest!!

—GARY HEIDNER

Certain philosophies, policies and goals guide an executive's activities in office. Richard and I present below what we think should be the goals, philosophies and policies of the next Associated Student President and Vice President and what we feel are the philosophies and objectives of the majority of Cerritos Students.

These are the tenets which will serve as guidelines during our term of office:

Statement of Philosophy

We believe the following:
1. That Cerritos College is the best because of its forward looking student body and of its progressive administration.

2. That the main goal of student government is to make the college student a more important aspect on the campus; for the nucleus of Cerritos College is the individual student.

3. That being open minded is essential for progress.

4. That the main goal of student government at Cerritos is to ensure the student of a closer relationship between him and the college in general.

5. That it is the responsibility of student government to bring out the hidden resources of the college and to continue and maintain the present policies and not let them fall by the wayside.

6. That foresight in student government is essential now to prevent any unnecessary mishaps in coming years.

7. That student government consists of dedication and hard work and is not a social activity.

8. That through education we approach our full capabilities as individuals.

9. That the education of the Cerritos student is our primary goal.

10. That as the college grows, new and different problems arise.

11. That students must act intelligently outside the classroom in order to gain faculty support.

12. That "Talon Marks" should improve communications between itself and the students.

With these basic philosophies in mind, we shall run our campaign, and if elected, use them as the guidelines for our offices.

Statement of Policy

We will support:
1. Continued support by the budget

EXCHANGE

Citrus Drops Censorship

A resolution to censor the Citrus College "Clarion" (college newspaper) failed to pass by a vote of 3-3 at their Executive Board's meeting. The resolution had initially passed in a previous meeting but was brought up for reconsideration. A board member commented that such a resolution could not stand up and that it would cause vital damage to the college if it passed.

Yarbrough Sings

Glenn Yarbrough performed at Reedley College Tuesday. The popular singer has had many hit records and has done some acting. Profits from the program will go to financing a school for underprivileged children on the grounds of a banana plantation that Yarbrough owns in Montego Bay.

Reagan 'Up', Not Right

Ronald Reagan, gubernatorial candidate, spoke recently on the campus of Palomar College at San Marcos. Reagan spoke to over 800 students.

He stated that there was no such thing as a right or left, but there is an up or down. He continued, "Up is what started this country and down is toward the deadly delusions of totalitarianism." Reagan proposed his "creative society" as an answer to the "Great Society."

'Family Candidate'

Thomas Braden, candidate for lieutenant governor, made his sec-

ond appearance at Sacramento College recently. Braden is known as the "Kennedy Family Candidate" and received a warm welcome from Sacramento students.

High School Audience Ruins Play

By RICHARD PRICE
"The Cave Dwellers" opened Tuesday night to an audience of 50 adults and 150 high school students.

Although this audience was one of the largest opening night groups ever to witness a play here, the cast and the 50 people who came to watch in earnest would much rather have been the only ones there.

In order to increase attendance at the play the Theatre Arts Department invited students from several high schools to be on hand for the opening night.

What resulted was a noisy, immature and abusive group of children who should have been home watching "Batman."

Typical of grade schoolers, the high school students engaged in

a shushing contest that continued into the second act even while the actors were on stage. Thinking this to be very cute they also conducted a prolonged clapping session after one of the acts.

Perhaps the most immature action of the night was inappropriate laughter during some of the most serious scenes of the play.

An example of this came in the second act when the Duke played by Larry Harper, exited in tears — much to the enjoyment of the kids.

Commenting on the reaction after the play Harper said, "If I'm that funny I think I'll go to Vegas and get a job as a comic." When questioned about the success of the play, director Frank Bock asked, "Is this for the paper?" He was informed that it was.

Bock then commented, "I thought it went very well. The audience reaction was good." At this point the reporter told him he could be truthful and say what he wished.

"Not if it is going to be printed, I can't," he concluded. The play, as usual, went very well from an intelligent viewers aspect.

William Saroyan, the author of the play, is a sentimentalist and his work should be judged from that aspect.

Outstanding in their parts were Harper, Vickie Letz, Denny Macoko and Jerry Williams.

Harper, playing a broken down prize fighter, did not look the part, but did a beautiful job depicting the role.

The play did suffer from several technical deficiencies. The lighting was spotty in parts due to missed cues and the sound effects, particularly music, was scratchy and inaudible.

The play is scheduled to run tonight and Saturday at 8 p.m. However, if you cannot refrain from throwing spitballs and being generally abusive, then you will do serious theater goers a favor by remaining at home.

BEAUTY AND THE BEAST remind Cerritos students to attend the current theatrical production "The Cave Dwellers." The play closes tomorrow night in Burnight Center. Cost is 75 cents for AS card holders and \$1.50 without. Curtain time is at 8 p.m. —Talon Marks Photo

Musicians Audition For Scholarships

Auditions for Cerritos College music scholarships will be conducted today, announced Music Department Chairman Jack Wheaton. They will be held at 4 p.m. in BC 53.

The auditions are open to students who will be enrolled at Cerritos next year as fulltime students. To qualify, the applicant must participate in music performing ensembles at Cerritos, and show above average ability in a specific instrument.

Wheaton said that at the present time the auditions are limited to band and orchestra instruments. The applicant must maintain a 2.5 grade average, and must be capable of performing with or without an accompanist, preferably by memory.

Day Stage Band Plays LA City Hall

Featured in today's noon Jazz Concert will be the Cerritos College Day Stage Band directed by Music Department Chairman Jack Wheaton.

He reports that the band recently performed at the Los Angeles City Hall at the request of the Los Angeles County Bureau of Music and the Mayor's Office. This performance was in conjunction with the National Music Week observance May 1-7.

The band has been invited to return next year. They have also been invited to perform next month in the Farmer's Market and on June 5 in a concert in the Venice Pavilion.

Space Show May Fold Next Year; Survey Nixes Any Future Effort

Chances of having another space show next year are growing very dim, according to a survey of the college faculty.

The survey was sent to the faculty by Wally Soper, who calls

himself ex-exhibits director of the ex-space show.

Up to May 10, Soper had received 119 replies to the questionnaire.

Troubleshooters Advance To State Championships

Fresh from capturing the Southern California division of the Plymouth Trouble Shooting Contest at the Great Western Exhibit Center in Los Angeles, the Cerritos team is now preparing for the State Championship at Fresno May 27.

The team of Steve Doty and Gary Brenner walked away with top honors at the 18th annual Plymouth Contest last Thursday, beating 15 other junior college teams.

Backed by the coaching of automotive instructor Bart Welch, who coached four first-place teams at Norwalk High, the team has high hopes and expects only Fullerton to offer any real competition. This is only the second year Cerritos has entered competition.

The competition involves solving a number of pre-arranged mechanical difficulties, representative of the problems affecting any motorist's car. The first team to discover, analyze and correct the difficulty is the winner.

The first-place winner at Fresno will be awarded a paid trip to Detroit, including a tour of Chrysler - Plymouth facilities. They will also receive a trophy.

as the winner of the California State Championship. Also, a gold-plated Torque Wrench with pearl handle.

Second place is a \$500 scholarship. Third is a \$300 scholarship.

Commenting on his team's prospects, Welch stated, "They have an excellent chance to take it all."

The major question asked in the questionnaire was, "Do you feel that there should be another space show of any kind?"

Of the answers received 91 replies or 77 per cent, felt that there should not be another show.

Only 14 per cent felt that there should be another space show with this year's format. Another 14 per cent felt that there should be another show with a different format.

Another question asked of the faculty concerned the open house that was originated as a part of this year's show. Twenty-four per cent of the answers returned felt that there should only be an open house. An additional 23 per cent felt that there should neither be a space show nor an open house.

Fifty-two per cent of those polled felt that there should be no open house at all.

Court Seeks Siriani Aid To Publicize Elections

A recommendation requesting help in stimulating interest in the Senate election was sent to Dean of Student Personnel Don Siriani by the AS Supreme Court. The request asked for help in stimulating interest in running for a Senate seat through orientation classes and the college paper.

The recommendation resulted from a discussion of the low number of students filing petitions for Senate. This discussion by the members of the AS Supreme Court was held last week.

In the opening discussion it was stated that the Senate has recently lost prestige. It was suggested that this might be a reason for the low number of candidates.

Associate Justice Richard Lo Cicero believed that "Talon Marks" could do more to publicize the fact that there are petitions and that students can pick them up and run for office.

Chief Justice Gary Heidner was of the opinion that the present Commissioner of Public Relations could be doing more to publicize the elections and make people more interested in running for office.

Jim Marshall ended the discussion with the suggestion that a recommendation be sent to

Siriani. Marshall felt that Siriani could increase interest in the Senate, especially through orientation classes.

Marshall's suggestion was passed by the Court members.

Safari Film Screens Weds.

"Safari Ya Tembo" — the final film presentation this year in co-operation with the Los Angeles County Museum — will be presented next Wednesday in the Workshop Theatre, BC 31, at 8 p.m.

In 1963 Tom Knudsen and Maurice Machris, members of the Museum Board of Governors, undertook an expedition for the primary purpose of obtaining five elephants to make up the first natural habitat grouping of African elephants to be exhibited anywhere in the world.

The film took over three months to prepare and shows rare scenes of African animals in action, how the safari operated and the immense amount of planning and work involved to make the project a success, it is reported. Over 1000 other specimens of animal and plant life were returned for study.

As an added attraction, "Thirst for Adventure" will also be shown. It is about the near extinct Elmo tribe, which inhabits the shores of Lake Rudolph in the Northern Frontier District of Kenya.

Student Nurses Participate in CD Exercise

Fifty vocational nursing students from Cerritos will participate in a Civil Defense Hospital Disaster Exercise tomorrow morning at Downey High School.

Realism and urgency are an important part of the exercise, according to vocational Nursing Director Doris Sanson. "Preparation of medical officials, allied health services and volunteer groups in problems our community would face in event of a major peace-time disaster or nuclear attack are of utmost importance," she continued.

A packaged hospital will be staffed by teams of local doctors and nurses. "Casualty Teams" are being developed through the cooperative efforts of the County Health Office and Area "E" Civil Defense and Disaster Board members.

Instructors Lois Crouse and Louise White will accompany the students.

"Our nursing students are participating in the activity to give added impetus to their studies as well as to demonstrate community responsibility," she concluded.

FASHION POST

by MARY DANIELSON

This week JOEL'S is featuring a lively new seersucker ensemble by Miss Pat. This versatile five piece suit is just the answer for those "Chilly morning - warm afternoon" days.

The light weight, blue and white stripe fabric features a "sporty" skirt. It is styled by a slightly A-line, and accented by a fabric belt.

A matching jacket is trimmed with decorative pockets and three brass buttons. This blazer styled jacket features narrow lapel and long sleeves.

When the sun shines through, you'll want to remove the jacket and wear the skirt with a dainty solid blue shell. This cotton voile is set off by several delicate front pleats.

For the more casual hours, JOEL'S will complete the outfit with the matching Miss Pat Bermudas and hip length blouse. This sleeveless blouse features a soft, barely scooped neckline.

For a "kicker" look JOEL'S also has similar ensembles by Oops and Frank Lee. The Frank Lee quarter is set off in pink with orange dots.

It features a tapered skirt, capris and two blouse styles. The vest styled top can be worn with or without an under blouse. It is accented by a V neck, and buttons down the front. The empire styled blouse also buttons down the front, and features a scooped neckline. The three-quarter sleeve is trimmed in a matching ruffle.

Don't forget to look at JOEL'S daily arrivals in summer bags, sun hats and sandals. JOEL'S carries a great line in all the fashions for your summer wardrobe.

*Basketball Mentor
"Fairly Optimistic"*

Welcoming back two starters and another near-regular, head basketball coach Jim Killingsworth is anticipating at least "a fairly good year" for next season.

"We could be a good team," says Killingsworth, "but with Long Beach in the league, we know we've got a tough job next year."

Long Beach, incidentally, will have four returning regulars next season and have recruited CIF Co-Player-of-the-Year Trent Gaines of Long Beach Poly.

Heading Killingsworth's returning lettermen are guard Dean Duistermars and forward Barry Quinn, both starters last season. Duistermars, CIF small schools Player-of-the-Year for Valley Christian in 1964, has shown flashes of brilliance at times as has Larry Crowell, a 6-5 forward who saw plenty of action last season.

Tony Smits, a 6-4 center who reported late because of football, should be a big help with a year's experience.

Heading the incoming freshmen Killingsworth has recruited so far is 6-8 Paul Ruffner of Warren High School. Ruffner, an All-Coast League selection, could fill Killingsworth's need for a good big man.

Slender at only 195 lbs., Ruffner is on a weight building program and could develop into a top notch rebounder.

Killingsworth lists one of his big needs as another top guard, and this role could be handled by Bob Legill, All-Moore League from Downey in 1964 who sat out last season.

Other freshmen who'll be wearing Falcon uniforms next season are Ron Chesebro (6-5), Bill DeVault, Kieth Parsely and Frank Spina of Mayfair; Richard Ayala and Jim Boyd of Artesia; Dave Stephens (6-6) from Downey; Lee Mansell and Bill Womack of Glenn; and Randy Foster of La Mirada.

Killingsworth is still after several top preps, but won't know until summer whether or not they'll play for Cerritos.

When it comes to making predictions this writer, like so many others, has to eat crow. Last week we predicted that Long Beach would win the Iron Man Trophy, followed by Cerritos and Valley.

It seems that El Camino, though, has won the trophy this year with 66½ points, followed by Valley (63), Long Beach (60½), and Cerritos (56½).

The Warriors pulled off high finishes in nearly every spring sport to come from behind and cop the award.

Rumors have it that Jim Gravely, star first baseman for Wally Kincaid's baseball squad of two years ago, will be the first round draft choice of the New York Mets.

A former El Rancho High standout, Gravely was drafted by the Dodgers out of high school, but chose to play college ball instead.

Gravely is currently leading his L.A. State team in batting and home runs.

Vaughn (14-0) Tosses Five Hitter As Cerritos (36-0) Nips Mounties 1-0

By BILL SALTZMAN

It took a bad hop on a near-perfect throw from right field to third base to do it, but Cerritos and Bob Vaughn won a thrilling 1-0 pitchers' duel over Mt. Sac Tuesday to earn the right to play Pierce this afternoon and tomorrow for the Southern California Championship.

Finals Today

Wally Kincaid and his club will take a 36-0 record to Pierce today for the 3 p.m. game. Either Jim York of Rod Corder will start against the Brahmas. Tomorrow, the two teams will play a doubleheader if necessary on Falcon Field. Vaughn will start the first game at noon.

Tuesday's sudden-death game was just exactly that as it ended on a heartbreaking note for the Mounties and pitcher Harry Morse. The big right-hander had only a scattered six hits charged against him and walked nary a

Falcon through the first eight innings. He struck out six and only twice allowed Cerritos runners to advance as far as third—until the ninth.

Scott Reid led off the ninth with a routine fly ball out to center field. Reid Braden followed with a sharp single to left to put a runner on first and set up the decisive play.

Ken Lohnes followed Braden with a soft line drive sliced off the end of his bat down the right field line. The ball landed six feet fair. The Mounties' slugging right fielder, Roger Freed, was shifted toward center against Lohnes but he got a great jump on the ball and cut it off cleanly as it sliced foul.

Braden was just hitting his stride rounding second and digging toward third as Freed reached the ball. The right fielder rifled a tremendous throw to third base. But then the game of

baseball became once again the game of inches.

Bad Hop

It would have been an eyelash play at third, but the ball took an erratic hop away from third sacker Collin Gibson and careened into the visitors' dugout. All three umpires waved Braden home with the winning run that ruined a great effort by Morse.

Defeat would have been no less heartbreaking for Vaughn. He matched Morse pitch for pitch, giving up but five singles, three of which were of the infield variety.

The win brings Vaughn's season record to 14-0, his season ERA to 1.27 and his career record to 27-1. Ironically, the lone loss he has suffered as a Falcon was last year against Mt. Sac. In the finals of the Southern Cal Championships of 1965. Sweet revenge!

Dunn Tosses Shot 55-10 At Fresno Meet; So Cal Next

After some rousing individual performances at the Fresno Relays last week, track coach Dave Kamanski will take his team to the Southern California finals today, after competing in the Prelims on Wednesday.

Top performance at Fresno was Brodie Dunn's titanic toss of 55' 10" in the shot put, second best in the state this year. Included in Dunn's list of victims was Roy Thurman of Long Beach, who has the top mark this year.

Dunn's performance was no fluke, though, as he also had the second best and fifth best marks of the day.

Other top marks were Rod Ferguson's 9.7 hundred, tying Bill Massey's school record, Fernando Canedo's 3:12 1320 in the distance medley relay, the 440 relay teams time of 41.3 and Paul Pargen's 14.8 in the high hurdles.

Expected to run at the So. Cal meet today is quartermiler Len Van Hofwegan. Van Hofwegan

still has not responded well to treatment for a muscle pull, but Kamanski feels that he should be able to compete.

Whether or not Van Hofwegan runs in the mile relay depends on his condition after the open 440.

Sports Awards Night Slated

Athletes in six sports will be honored at the annual Cerritos Spring Sports Banquet, to be held at 7 p.m. May 26 in the Student Center.

Tickets are on sale at \$2.25 each in the Office of Community Services here.

Teams to be honored include baseball, track, tennis, swimming, golf and gymnastics.

Net Duo Battles to State Tourney

The Cerritos doubles team of Dennis Babb and Rich Farmer have qualified for the state tennis finals, to be held at American River Junior College in Sacramento.

Babb and Farmer qualified during the Southern California tournament held at Compton. The Falcon duo defeated the team of Barthling-Lind of Santa Ana in the opening round and

topped Bernstein-Jannotta of L.A. Valley in the second round.

Although they lost in the quarter-finals to Marcin-Inthout of Pasadena, by reaching the quarter-finals they automatically qualified for the state tournament, said tennis coach Ray Pascoe.
