

Board Fills New Posts

Names Tredway, Richards Trustees

Attorney Harold T. Tredway of Downey was appointed to a two-year term on the Cerritos Board of Trustees Thursday. Tredway was appointed to one of two new posts. In April, the College District voted to add two seats to the Board, enlarging it to seven members.

Downey Attorney

He is a Downey attorney and a member of the Downey Unified School District Board of Trustees, Los Angeles County Committee on School District Organization and the California Commission on School District Organization.

HAROLD TREDWAY
New Downey Trustee

Tredway has an A.B. degree from Southwestern College, LL.B. degree from Loyola University. He said there are three main areas of concern in the function of a junior college.

Three-Point Program

"First, the Board of Trustees should upgrade an already good curriculum; second, we should upgrade the professional status of the Cerritos faculty; and third, we should run the school district as economically as possible since the burden on the

DR. LEON RICHARDS
Reappointed to Board

taxpayer is already great," he stated in his campaign for a board post in April.

Hawaiian Gardens resident Leon Richards was appointed to the other new post. Richards was first appointed to the Board to fill the vacancy created by the death of Trustee Dale Donnell March 23. Donnell's term expired in April.

Richards is a retired pharmacist. He owned and operated a drug store in Artesia.

He received his degree in pharmacy from the University of Washington and later taught at the University of Montana. Richards also served as Dean of Howard Baptist College in Birmingham, Ala.

Dr. Richards is a past president of the Bloomfield elementary school board, Artesia Rotary Club and the Hawaiian Gardens Chamber of Commerce.

John A. Nordbak, a Downey architect, took office at the meeting as one of the Board members representing Downey.

(Continued on Page 2)

College Begins Expansion Phase

THEN IT IS AGREED . . . The Cerritos Board of Trustees recently began condemnation proceedings on land adjacent to the College. The college will then construct new buildings, as a part of Cerritos' expansion program. From left, are College President Dr. Jack W. Mears, newly-elected board president A. E. Sommer and former board head Dr. Curtis Paxman.

Henry Fielding's 'Tom Jones' To Play Burnight Center

The play "Tom Jones" will be presented in Burnight Center August 3 through 7, according to Theatre Arts Instructor Frank Bock.

Based on the Henry Fielding novel, the play is a three-act cutting by David Rogers. The novel was also the basis for the 1964 Academy Award motion picture by the same name.

"Although the play is not designed to be a stage plot of the movie," commented Bock, "it will contain all of the robust action which characterized the cinema presentation."

Theatre Arts student Jim Reynolds will play the title role made famous by actor Albert Finney. Pamela Leffler will share the lead, playing Jones' mischievous girl friend, Sophia Western.

"Tom Jones" brings to life and satirizes the bawdy and lusty era that marked 18th Century England, Bock said. The play is the story of a young man of questionable background who meets adventures and lives a carefree life on his way to London town.

Under the direction of Bock, the play will be presented by students enrolled in Theatre Arts at Cerritos College.

The complete cast follows: Tom Jones, Jim Reynolds; Sophia Western, Pamela Leffler; Partridge, Rey Franco; Mr. Western, Terry Nelson.

Also, Miss Western, Charlette Brunette; Squire Allworthy, Tim Hill; Bridget Allworthy, Louise Lasser; Blifil, Chuck Hanson; Honour, Nancy O'Brien; Jenny Jones (Mrs. Waters), Martha Tippin.

Deborah, Sue Falstein; Captain Blifil, Gilbert Espinoza; Thwackum, John Davis; Square, Dave Gloecker; Justice Dowling, John Sowers; Doctor, Bill Martin.

And, Highwayman, Rey Franco; Harriet Fitzpatrick, Jean

'Elves' Ready Children's Play

The Summer Children's Theatre group at Cerritos College is rapidly preparing for the production of "The Elves and the Shoemaker," a play written for children by Charlotte B. Choppening and Nora MacAlvay. It will be directed by David Jager.

The part of the shoemaker and five women's parts are still available for casting, and interested persons may try out any weekday evening in the theatre arts wing of the Burnight Center.

"The Elves and The Shoemaker" will open July 21 and play for three consecutive days at 1:30 and 3:30 p.m. Admission is free to all performances. Sets

Thompson; Fitzpatrick, Jack Turner; Mrs. Whitefield, Sharon Walton; Susan, Pat Carey; Lady Bellaston, Lella Daniel; Nancy, Kathy Kriller; and Constable, Marc Poyyak.

Kurt Weil Work Set for Concert

"Down in the Valley," a short opera by Kurt Weil, will be presented as the first concert of the summer season. The concerts will be presented July 19 through 23. No definite dates have been set at this time.

The second concert scheduled will feature the Madrigal Choir, Modern Choir, Dance Band and an instrumental and vocal ensemble. A third concert will feature the band, orchestra and choir plus an unannounced guest star. The last concert of the summer will take place at Disneyland with the best numbers from previous concerts being used.

In addition to the regular scheduled concerts the summer camp will also have a program of lectures and concerts. The title of this program is "Music at One." The featured speakers and performers include: Ralph Gari, Bud Brisbois, Paul Tanner, Stan Kenton, Mario Cajati, Frank Pooler, Eldon DeLong and Paul Gardner. The topic for their lectures are Popular Music Today, Physical Acoustics

Board Commences Land Condemnation

Condemnation proceedings were instituted by the Cerritos College Board of Trustees against 40 acres of land located at the south end of Campus.

According to College President Dr. Jack Mears, the County Counsel of the County of Los Angeles will act as attorney and institute condemnation proceedings for the college.

Mears indicated that this action is working toward the goal of acquiring this property which has been in the minds of board members for "three or four years." The land is needed for the expansion and growth of the college.

In other action, the board accepted the resignation of Dean of Student Personnel John R. Blakemore, effective June 30. Blakemore, who was on sabbatical leave during the spring semester, has accepted a position as Dean of Students of Monterey Peninsula College.

Blakemore must repay Cerritos College approximately \$8000 in back salaries which he received while on leave.

The rules and regulations concerning classified employees' vacations were changed by the board in further action. According to the new board policy, "Employees who have been employed by this district for more than five years shall be credited with one additional day of vacation for each additional full year of service in the district to a maximum of 30 days."

"This provision effective July 1, 1966. Completion of five or more full years of service by September 1 of the school year shall count as having completed the requirement as of July 1. Employees employed continuously from September 1 to July 1 shall consider that period as a full year's service for vacation purposes."

Who Will Uncle Call? Okerstrom Details Draft

If the classification on your draft card reads 2S, you cannot be drafted . . . you hope.

According to Mrs. Marguerite Okerstrom, coordinator of Local Boards 114, 115, 123 and 124, a

person's classification must be 1-A before he can be inducted.

Mrs. Okerstrom said "The 2-S classification is a student deferment. A person classified 2-S would have to be re-classified in order to be drafted. Not many students understand this."

Explaining how selective service works, Mrs. Okerstrom said that every male must register at age 18. He is then classified by the local board.

There are 18 different classifications, she said. Once classified, one's name must again appear before the three man board before he can be re-classified. According to Mrs. Okerstrom, a 2-S classification is seldom changed except in the case of a national crisis or similar emergency. How many men are drafted is determined by military requirements every three months.

Mrs. Okerstrom explained that when a 1-A male's number is reached, he is called in for a pre-physical. When his number is reached again, and if he passed the physical, he is ordered for induction.

"Because everyone is numbered by his birth day, we always take the oldest first," she concluded.

C.C. Book Store Sets New Times

The college book store will be open during the summer session Monday through Friday from 8 p.m. to 4 p.m. according to manager Gladys Balzer.

During the first two weeks, the store will be open every night from 5:30 to 9. After that it will be open in the evenings on Tuesdays and Wednesdays only.

However, the store will be open again every night during the last week of the session, August 9 through 13.

On Thursday, July 1 and Friday, July 2, the store will be closed completely for inventory.

"We hope to give complete service to every student," Mrs. Balzer said.

Dept. Selects Alumni Works For Art Show

Members of the Cerritos Art Department have chosen the work of former students, Tom Holste and Allan De Spain, for the newest art show on campus.

Holste and De Spain presently attend California State College at Fullerton.

Gallery Director Rudolph Aguirre said, "These two artists were selected because of their outstanding ability in the field of art. The retrospective showing of their work began today in the Art Gallery and will run until July 20."

"We hope to make this showing an annual event on campus. The showing brings honor to the two artists and to the college. This is the first time that we have saluted any of our former students by a special showing of their work," said Aguirre.

ALL AT ONCE NOW, KICK! — Cerritos flag twirlers, the Falconettes, are starting practice this summer for the fall football season. The girls and the Cerritos Marching Band will follow the football team on many of their road trips and will march at all the home games.

News Briefs

APPLICATIONS for the Fall Leadership Conference at Palm Desert are being accepted in the Student Affairs Office. Reservations are \$6 for AS members and \$30 for non-members. The event will be held Sept. 7 through 9.

DEADLINES for state college applicants are near. San Fernando Valley and Cal State at L.B. close on July 15 while Cal State at L.A. closes on Aug. 1. The deadlines for San Bernardino and Fullerton are Aug. 15 and 16 respectively.

Schools Become Battleground

The schools of today have become a battleground for extremists instead of a peaceful, serene atmosphere of learning and comaradery that they should be.

Rabble rousers trained to prey on the turbulence of youth fill the innocent minds of students with talk of preserving our freedom, while these instigators are themselves dedicated to the abolition of that liberty.

Youth from the beginning of time has been unsatisfied with the society his elders impose on him, but he has no way to free himself from the yoke.

When he voyages out into the sea of higher education, for the first time he has the opportunity to act independently of his superiors. Then he is confronted with the extremists who fill his head with pipe dreams of a new society, freedom to do what he likes and generally, a wanton disregard for the society of his elders.

These preachers of hate and suspicion should not be allowed to continue their subversive activities. There should be some check, some way to stop these demented persons from poisoning the minds of our impressionable youth.

The university governing boards have been inefficient to present, student government isn't the answer, so where does it lie?

If these subversive spoilers of the minds of American youth are not checked the consequences will be dire. It could be the solution does not lie in the authority to check these misguided students, but possibly the students themselves.

—Ralph Donald

Columnist Urges Club Sign-Ups

By Ralph Donald
Now is the time for all good men to join the new club on campus: it's called the R.A.R. C.L.D.G. (Russian - American - Red Chinese Literary Discussion Group.)

It's not hard to join, either — if you have your life to give to your cause. You start off by asking a friend to get you in as a pledge. If you make pledge, you have just begun to lose.

Not Accepted Yet
Next, the group decides whether they should even let you

pledge in the first place. (After all, your GPA might be too high, or you might be a teatotaler or something bad like that. After all, you don't want any oddballs in the group.)

Buy Beanie
Next, they make you buy a beanie and a cigar box. Now this is not in any way throwing a slur at your manliness or any such thing. It's merely to see whether or not you can stand up to ridicule from your intellectual underlings. Just because they make you swim in the fountain, put eggs and snails in your pocket and propose to ugly girls, don't lose hope. Remember: it's for good old R.A. R.C.L.D.G.!

Fuss Go, Don't Collect \$300
Next, comes the hell day. If you live through that, you're safe. Now you've got a 50-50 chance of being accepted (if you can do the fifty push-ups, roll an egg across the quad, play servant to a group of stuffed shirts, pledge-masters and become as demented as the rest.)

But why go through all this to be accepted into a literary discussion group? Is it the fellowship and comaradery expected that makes one want to give his life for his fraternity? Maybe it's admiration for the "grand wizard" of the club? Maybe he just jkes a good Saturday night stag party.

Join the Club!
Whatever the case, everyone be sure to sign up for the R. A. R. C. L. D. G. next September. Let's all be pledges! Let's make the whole world one big happy pledge party! We can have loads of laugh in the R. A. R. C. L. D. G.!

Anatomy Class Spawns Humor

By BARBARA BENJAMIN

What! Red and blue animal cells

The non-science major summoned his anatomy and physiology laboratory instructor to view his discovery.

The professor and fellow students gathered around the student's microscope to view the slide.

While all of this is happening in one corner of the room in the front of the room two students are snickering. It seems these two students mixed some silver nitrate in with the citrated mammalian blood the class was studying.

A serious subject such as anatomy and physiology does have its memorable occasions. Jules Crane, anatomy and physiology instructor recalls, "When I was student teaching a few years ago, I was confronted with a class of students that could not grasp: the comparison of the structure of the frog and of the human. The class was driving me to the end of my rope until I jumped upon the demonstration desk and imitated the frog's structure. I turned toward the classroom door and there stood the principal of the school and my professor from college."

According to Charles Paige, life science instructor, "When students are sure or even when they draw a blank on an examination question they seem to put down the first answer that comes to mind. Some of the answers that appear on examinations make me wonder where the student has been all semester while the material was being presented!"

During the 1965 summer session Cerritos College is offering the following science courses: Anatomy and Physiology 10, Anatomy and Physiology 30, Astronomy 1, Chemistry 11, Chemistry 2, Chemistry 10, Life Science 10, Life Science 90, Physics 2.1 and Physics 2.16.

Each college and university has its own science requirements for admission to advanced standing, but there are certain basic requirements for transfer to the upper division which are common to all or nearly all accredited colleges.

Courses in the natural and physical science departments are nearly all transferable to accredited four year colleges.

Cerritos Prepares Scripts For SCOPE TV Show

By BARBARA BENJAMIN

Members of the Cerritos faculty and students will write and prepare television scripts for the 24 shows that will feature Cerritos on the educational television program Scope.

Scope is an educational television program that is presented each weekday from 7:30 a.m. on the American Broadcasting Company network.

Stamm Coordinator
Harlan Stamm, assistant dean of academic affairs, is the coordinator of the project.

The first taping of the five shows will be on July 27. The first two shows will be dedicated directly to the technology department under the guidance of Instructor Lee Eytcheson. These two shows will be aired on August 18-19.

The program, scheduled to be televised on August 20, is produced in connection with the Community Services department and is entitled "Youth Speaks Out."

Crime Show
The August 30-31 shows will be designed to show how police science students are taught to investigate and solve a crime through crime detection technology. The Police Science Dept. last spring won state wide acclaim for their program on

Board Elects...

(Continued from Page 1)

He was elected to the post last April.

He is a former trustee of the Downey City School District and a former teacher in the Downey City school system. He is affiliated with the Downey Hospital Board, a citizen adviser to Los Angeles Trade Tech Junior College and past president of the Orange County Chapter of the American Institute of Architects.

Nordbak favors "closer liaison with school districts encompassing the Cerritos District and a greater emphasis on co-operation and unity between faculty, administration and the Board of Trustees."

A.E. Sommer of Bellflower was elected President of the Board at the meeting, succeeding Dr. Curtis Paxman. Sommer has been a Board member since Cerritos' founding in 1955.

Sommer is affiliated with the Bellflower Chamber of Commerce, YMCA, Bellflower Rotary, Bellflower PTA, Holy Redeemer Lutheran Church, Boy Scouts, Community Chest and Red Cross.

Sommer said his main interest was in "working for the completion of Cerritos' campus and the college's building program."

crime detection and this program will be aired also.

On October 19, November 9, November 30 and December 5 five additional shows will be taped at the KABC studios.

Each individual program is given one hour at the studio for taping. The scripts must be cleared by New York before production work can begin on the series.

Scope is an educational television program that has no commercials during its presentation whatsoever. At the start of each broadcast there is a brief introduction of the subject matters and the speakers.

The programs are aired in the Southern California area only. This is the first year that Cerritos has joined other surrounding junior colleges in the Scope program on KABC.

Two Purposes
"Scope has a dual purpose, it allows teachers here at Cerritos in service experience on educational television and at the same time it sells the college," states Harlan Stamm, co-ordinator of the program.

Some of the teachers who are participating in the program are Carl Betz, Fred Blomgren, Rudolph Aguirre and Guy Davis.

Teachers will be allotted \$50 for their time spent in the preparation of the various programs planned. Students participating in the program will not be paid. The station costs for each show is estimated at \$2750, according to an ABC spokesman.

Crew of Twenty

Each show has a crew of 20 technicians and staff members on hand to help with production.

In the past Cerritos' teachers have appeared on educational television channel 28, and the Guidelines series.

"The time that is spent for these television shows is very rewarding to the students and faculty members on the shows and to the future of the college. The more times that Cerritos College is brought before the public eye in all of its vast fields from sports to debate, the better it becomes known and respected in education circles," concluded Stamm.

Summer Here At Last... Leisure Shared by All

By BARBARA BENJAMIN
The summer's flower is to the summer sweet, though to itself it only live and die.

—Edward Shanks
From Edward Shanks' Sonnet 94 the flowers role in summer is detected. Flowers only destiny on the earth are to live and die just as human destiny is.

Summer is a time of fun and frolic in the Southland. With the long daylight hours people are given the extra hours in which to do things that they had put off all year.

Household work including;

painting both the interior and exterior of houses, planting and fixing the yard so that it will look beautiful for the onset of summer and even going as far as to add an extra room onto the houses done during the summer.

Summer Dinners
Some people enjoy summer because of all of the outdoor dinners and the picnics at the parks. The same food that is served year around tastes like something from a foreign land when it is served outside among the ants and flies.

Little children as well as senior citizens enjoy attending a picnic. Chicken and potato salad are American favorites at a picnic. The great deserts that are served at picnics are overlooked at home. Watermelon is a favorite for young and old.

Summertime is a time when everyone wants to be in good athletic shape. The hard working middle aged father sees himself in the mirror fat and flabby so he runs to the closet and drags out his golf club or tennis racket.

School children go to their neighborhood parks to partake in summer recreation programs that are designed to keep them fit and thin as the Russians.

Mother usually finds that she too could stand to loose some weight but she won't admit it. Mother is too modest. The private gym is filled during the summer with women of all ages trying to loose that extra spare tire.

Children and Pups
Little children and puppy dogs love summer more than anyone. During the summer little children are reunited with their pets that they have neglected all during the school year.

Actually summer is time for living because we are not designated to live for ever. The weather during the summer provides the atmosphere for the greatest moments to be shared during the course of the whole year.

Enrollment Hits 3050; Signups Begin for Fall

A record enrollment of 3050 students are attending Cerritos College summer sessions, according to Dean of Admission M. Edward Wagner.

With the addition of day classes to the summer program, the new record attendance topped the previous high set last year by 24 per cent.

"Day time classes allow us to make dual use of our facilities," stated Dean Wagner. "We can now offer a great many more classes to suit all needs," he said.

The addition of day classes has been especially helpful in the lab courses, the dean noted, which are always in great demand.

Although the registration reached a new high, it did not quite measure up to Dean Wagner's expectations. "We didn't get as many new students in the form of transfers and high school graduates as I had anticipated," he commented.

He pointed out that 1463 students, or 47 percent of the total enrollment, are continuing Cerritos students.

TENTING! TONIGHT AND THROUGH THE SUMMER are play-gers at Orange County's unique theater-in-the-round in Anaheim. Melodyland offers John Raitt in the Rodgers and Hammerstein musical, "Oklahoma" as the first show in its summer series.

PLACES TO GO, THINGS TO DO

'Oklahoma' Plays Melodyland

Rodgers and Hammerstein's great musical "Oklahoma" will be featured for two weeks at Melodyland Theater, beginning July 6. The production is the first in Melodyland's 1965 Summer Series. John Raitt will be starred as Curly, with Laurie, Curley's sweetheart, played by Eileen Christy.

"Robert Frost: Promises to Keep," a play developed from poems of Frost, opens July 7 in the auditorium of the Humanities Building on the UCLA campus. Philip Abbot, who developed the drama play the principal role. The play will be produced by a theater group sponsored by the UCLA Extension Division.

Henry Mancini will appear at the Greek theatre for seven days, July 12-18. Featured with him will be The Young Americans, many-talented youth chorus group. Tickets may be purchased through mutual agencies.

Symphonies Under the Stars, a summer regular will feature varied musical groups at the Hollywood Bowl. Concerts will be held Tuesdays and Thursdays, July 1-Sept. 7.

The Los Angeles "Times" International Track Meet will be held July 10, 11 at the Los Angeles Coliseum. Tickets will be available at the gate.
