(See Page 4)

FRIDAY, OCTOBER 10, 1969

Students Must Make Official Withdrawals

The Admissions Office is concerned about students receiving WF grades. It would like to remind students of the proper procedure for dropping a class or ending studies at Cerritos.

A student may withdraw from a class by either of two methods. First, a student may initiate an official withdrawal at any time until the last four weeks of the semester, Jan. 9, and receive an automatic WF grade.

Or the instructor may initiate a student withdrawal by completing a Student Drop Card and sending it to the Admissions Office. The instructor has the privilege of indicating either a WF (failing) or a WP (pass) grade. An instructor may drop a student for excessive absences or inadequate performance, attitude or skills.

The change of program or withdrawal from college is not official until it is validated by the Admissions and Records Office. Unofficial withdrawals warrant a WF grade on permanent records.

Modern Problems Seminar Planned

In an effort to provide information on contemporary problems of modern society, the Office of Community Services at Cerritos will provide a free six-session seminar on contemporary social and moral issues.

The seminar series will be conducted by philosophy instructor Edward H. Bloomfield, from the Humanities Division at the college. It will be held each Wednesday from 7:30 to 9:30 p.m. beginning Oct. 15 in the Student Center.

"The Population Explosion and Related Issues" will be the first topic discussed by Mr. Ray Williams, biology department from Rio Hondo Junior College, Whittier. Other topics will be: "The High Cost of Loving: The Problem of Illegitimacy" by Mrs. Katherine Nielsen, executive director, Florence Crittenton Home, L.A. on Oct. 22; "Narcotics: Pills, Pot and Permissiveness, The Uses and Abuses of Narcotics" by Mr. Gilbert Abelar and Mr. Enos Lovato, dept. of community services, L.A. County Narcotics Information Service on Oct. 29; "Want In The Midst of Plenty: Contemporary Urban Poverty" by Mr. Norm Weiss, L.A. County Dept. of Community Services on Nov. 5; "Half a Million Teenagers: The Problem of Veneral Disease" by Mrs. Thelma Herold, public health educator, L.A. County Health Dept., Whittier-Bellflower Health District on Nov. 12 and "The Yawning Gap: A Look At The Generation" by a panel of students headed by Mr. Wendell Hanks, humanities department and Mr. Edward Bloomfield, philosophy department on Nov. 19.

21 Vie for Frosh Senate Seats

Freshmen senatorial elections were held Tuesday and Wednesday at the Student Center, as 21 candidates ran to fill the 12 vacant seats in the Senate.

Candidates were: Steve Kilnurray, independent; Jack Brewer, independent; Eddie Faulkner, independent; Jerry Ford, independent; Richard Minnick, independent; Terry Roche, independent; George A. Phyl, independent; Juan Cepeda, Circle K; Garry Cope, LDS; and Don Skreggs, Circle K.

Also listed as candidates were: Larry Wright, Young Americans for Freedom; Ken Nunno, Vets Club; Mark Klein, Omnibus; Dale Thomas, Omnibus; James Wilson, Vets Club; Butch Dodson, Vets Club; Richard Lambert, Vets Club; and Colleen Redmond, Omnibus.

LATE RESULTS

SENATE ELECTION

Ken Nunno
John C. Herdia
James Wilson
Butch Dodson
Richard Lambert
Jack Brewer
Ed Falkner
Steve Kilnurray
Terry Roche
Richard Minnick
Jerry Ford

Tie for 12th place will force a runoff in next Wednesday's Senate meeting between these three:

Don Skreggs
Larry Wright
Colleen Redmond

SMOKY BARBEQUE—Members of the Cerritos Bench Club and ASCC members cook hamburgers for last week's barbecue. Workers served over 1000 people at the annual affair the preceded the Rio Hondo football game.

Formation of Court Wins Favor; Senate Passes More Appointees

By GUY SCANDLEN

Action was taken on six major Senate bills and one was postponed in Wednesday's meeting. SB 637: that Larry Ekberg be appointed to the Senate was passed (19-0-1); and SB 638: that Verna Sams be appointed to the Court was passed (21-0-0).

SB 639, introduced by Senator Marquez, dealing with a revamping of the bulletin board system, was passed after some discussion of the expenses involved. The bill recommends installation of a bulletin board in the technology area and "that the two present bulletin boards in the Coffee Shop and L.A-5 be revamped to the present standards of the Job Placement bulletin board." The bill also contains suggestions for efficient updating methods.

On Oct. 1 it was recommended that Sen. Marquez gather unofficial estimates and present them to the Senate. This week it was stated that these estimates would be included in the bill results. The expense of replacing older bulletin boards with elaborate ones such as the Job Placement board was questioned. The bill was passed (19-0-2).

Forms Court

SB 660 was introduced by Sen. Doll under new business. This bill proposes the establishment of "an inferior judicial tribunal," the members of which would be chosen "by lottery drawing of the ICC representatives of all active clubs and organizations in good standing."

The tribunal would be comprised of nine members and the duration of each member's term would be one year. The action would be "regulated and controlled by the Judicial Code, Section VIII of the ASCC Student Government Manual."

Doll explained the urgency of the bill, stating it was necessary in order to give the ICC a choice of definite actions in regulating "recalcitrant" clubs. Sen. Jobin questioned this saying that the term "disciplinary action" needed to be defined specifically.

It was noted, though, that such strict definitions might tempt clubs to push their freedoms too far. Jobin stressed the need for guidelines. ASCC Vice President Jim Howard said that it wasn't the Senate's duty to set up the guidelines; such action fell within the jurisdiction of

the Court. Sen. Butler suggested that stipulations had been implied by last year's actions concerning the Omnibus Society.

Question Raised

There was some question as to whether such a court would merely be doubling the already stated functions of the ICC. Another opinion suggested that this would take the disciplinary function out of ICC hands, letting the court handle it instead.

Marquez closed the discussion by stating that with the passing of this ICC would be required to set up its own by-laws and constitution. The bill was passed (12-6-3).

The two other bills passed were SB 661 proposing delegates to be sent to the Area III Conference at Cypress College and SB 662 proposing the students to go to the CJCSGA at San Diego.

There were recommendations from the floor that the grill in the Coffee Shop area be fixed and that something be done about the dogs on the campus (this was said to be an administrative function).

Jobin wished to register a complaint

against the adviser of the Cerritos paper, Talon Marks.

Jobin said that in keeping with Talon Marks Contingency 2.94 (8) he wished the Senate to summon the adviser, William T. Lucas, to give a reason for the suppression of his column in the current edition. The ensuing discussion questioned the jurisdiction of the Senate to do this in as much as the material had not appeared in print.

It was suggested that since the publication of Talon Marks was a class this was an academic matter. It was further suggested that the complaint be registered through the "proper channels" (ie: the Publications Board).

In the Oct. 1 meeting of the Senate, Senate adviser Richard Robinson, dean of men, told of a luncheon meeting planned for Oct. 29 to which Senate members are invited to meet the Accreditation Committee. ASCC President Ron Erickson urged members to attend.

Omitted from the Sept. 26 edition was that Bill West was appointed to the Court (SB 641: 14-1-0) in the Senate meeting of Sept. 17.

Carpenter To Initiate Community Lectures

Starting the six-speaker lecture series sponsored by Community Services will be Commander Scott Carpenter, one of the seven original astronauts. The lecture will be held Thursday at 8 p.m. in the Student Center.

Tickets are now on sale at the Student Center Box Office. Visitors will be admitted for \$1.50 and students for 75 cents. Series tickets for adults are \$5 and for students \$2.50.

Along with being one of the pioneers who placed man on the moon, Commander Carpenter may soon discover great wonder on our own planet—beneath the seas.

In addition to all of his activities in the NASA space program, Carpenter has been an explorer for the "Man in the Sea" program for the U.S. Navy. Greater understanding of the earth's oceans and undersea world has been

brought about by his exploring efforts in the Sea Lab Project.

Included in Carpenter's lecture on his activities in the NASA space program and his undersea world experience with the Navy will be films on the "Mercury

Scott Carpenter
... Astronaut Speaks

Ride" and the "Sea Lab." This will undoubtedly add much interest to the evening.

In the future other lecturers will be: Russell Kirk, Nov. 6; John Carradine, Dec. 4; Hal Roth, Feb. 19; Ansel Adams, March 12; and Ray Bradbury, April 15.

This lecture series is part of the college's continuing program to provide informative and cultural events for citizens of the college community. Each lecture should prove worth while to every individual, and everyone is urged to attend.

Homecoming Banquet Set for Ambassador

A primary election this week reduced the number of queen candidates from fourteen to seven. Voting will be held next Tuesday and Wednesday with the results being announced at the Homecoming dinner dance at the Ambassador Hotel Oct. 17. The dinner and dance are formal.

Reservations for the Coronation Ball are now being made in the office of student affairs from 8 a.m. until 9 p.m., Monday through Thursday. Tickets are priced at \$4 for full time students, \$6.50 part time and \$9 for non-students. A student body card AND a drivers license must be presented in person to purchase tickets at the student rates. You may select your dinner entree at the time you purchase your tickets.

Dinner will be served at 8 p.m. and will be followed by dancing. The main excitement of the evening will be the coronation of the 1969-70 homecoming queen. Further entertainment will be provided by Barbara McNair and Skiles and Henderson at the Coconut Grove. Tickets for this show can be purchased at the same time as the others for \$3.

Last weeks election saw 1241 voters turn out to vote for the five girls of their choice. The winners were CeCe Berenda from Lambda Alpha Epsilon, Sue Blew from Sigma Phi, Debbie Egger from Circle K, Linda La Valle from the Falcons, Randi Montgomery from the Newman Club, Marilyn Smearechek from the Vets Club and Laurie Sopp sponsored by the football team.

All this week activities will be held

featuring the girls in the homecoming court. Tomorrow at 11 a.m. the Veterans club will be sponsoring a gimmick car rally. Cost of entry into the car rally is \$2 per car. Help is also needed to help with the obstacle course race. Further information can be found in the homecoming calendar and News Briefs found on this page.

Homecoming Calendar

Senate Names Reps To CJCSGA Meeting

In action Wednesday the ASCC Senate approved the list of delegates to the upcoming Area III CJCSGA State Student Government Conference. The conference, to be held Oct. 17 and 18 at Cypress College, is a meeting of the 12 junior colleges in the area.

The purpose of the conference is to enhance communication, both of problems and solutions, between the junior colleges involved. Colleges in Area III are Cerritos, Cypress, Compton, Fullerton, Golden West, Long Beach (BTD), Long Beach (LAC), Mt. San Antonio, Orange Coast, Rio Hondo, Santa Ana and Saddleback, the newest addition to the conference.

Representing Cerritos at the conference will be Carole Lipper, Don Butler, Jim Rohan, Joe Doll, Dick Flewelling, Bob Payne, Jim Howard, Sam Marquez, Karen Guistina, Abe Moya, Steve Berardino and Mary Unruh.

Action at the conference will consist of workshops and two general sessions at which recommendations will be voted on. The recommendations passed at the conference will be sent on as business to be

handled at the state student government conference to be held later this semester.

At the state conference representatives of nearly every junior college in the state will convene to deliberate on proposals which, if passed, will then be sent on to the lobbyist in Sacramento employed by the CJCSGA. The lobbyist campaigns for recommendations from the state junior colleges.

The parent organization for the California Junior College Student Government Assn., the CJCA, held a meeting last month. One of the most important aspects of that meeting was the establishing of the right for student body presidents to be voting members of the CJCA. Heretofore only one board member, faculty person, administrative person have been voting members of the gathering. Such action is one of the many positive steps toward better communication between students and college administrators.

Although there have been problems in the organization of the student government body in the past years, their is considerable optimism for the future of these gatherings.

News Briefs

GIMMICK CAR RALLY IS PLANNED FOR TOMORROW by Dave Keichum and Jerry Lingren and will begin at 11 a.m. in front of the gym. The Vets are now selling tickets in front of the Student Center for \$2 per car. The money will be used for trophies, which will be personally presented by the 69 Homecoming Court at the end of the three-hour itinerary. The queen candidates will also be at the check points and will assist with the gimmicks. Don't forget a pencil and clipboard. Tickets will be sold Saturday for \$2.50.

THIRTY STUDENTS ARE NEEDED TO SQUIRT SQUIRTGUNS, throw water balloons and throw shaving cream pies. The Homecoming Obstacle Course Race will be held Tuesday at 11 a.m. in the Quad. Those interested meet at 8435 Imperial, Apt. 102, Downey at 7 p.m. Sunday. Bring a friend. For directions call 861-6178.

DON'T FORGET THE ANNUAL BLUE HAWAII DANCE tonight from 8 p.m. until midnight in the Student Center. Tickets may be purchased at the door for \$1 per person. The purpose of the dance is to raise funds to help send Phi Beta Lambda members to the annual state conference and convention. For further information contact Susan McLane or leave a note in the PBL box in the Student Affairs Office.

WALTER CULPEPPER, ATTORNEY AT LAW, WILL BE ON CAMPUS AS THE OMNIBUS speaker to be first in a series. It will be held on Tuesday, Oct. 21 at 11 a.m. in Burnight Center Theater. Culpepper's topic will be "Homosexuality and the Law." The talk will be free to all students and staff members. "CLASSROOM HAPPENINGS" AND THE "EDUCATIONAL SYSTEM" will be a few of the topics discussed in an unstructured classroom to be held Tuesday at 3 p.m. in SS-207 sponsored by the speech department. There will be various instructors on hand for the discussion. Any student interested is welcome. For further information contact the speech dept. or Wendell Hanks, humanities, ext. 287.

LAST CHANCE TO SEE THE "BRUGGERS COLLECTION" IN THE current exhibit in the Art Gallery today. This collection features over 60 selected works of art—oil paintings, watercolors, drawings, sculpture and ceramics—that have been acquired by the Brugger family over the past 40 years. Gallery hours are from noon until 4:30 p.m.

Blue Hawaii Dance Held Tonight in SC

Grass skirts will be in order for the Annual Blue Hawaii Dance held tonight at 8 p.m. until midnight in the Student Center sponsored by Phi Beta Lambda.

The activities will include door prizes, free leis and free refreshments for all. Dancing to the music of the "Anahera" should make the evening very enjoyable for those who like to dance.

The purpose of the dance is a "Raise a Fund Project" to help send Phi Beta Lambda members to the Annual State Conference and Convention. For further information contact Susan McLane or leave a note in the Phi Beta Lambda Box in the Student Affairs Office.

Game Directions

Directions on how to travel to Mt. SAC from Cerritos College are as follows: Take the San Gabriel River Freeway north to the Pomona Freeway. Turn east on the Pomona Freeway and travel to the end of the freeway. Turn right two blocks and then turn left onto Fifth Street. Continue on Fifth through Rowland Heights to Old Brea Canyon Road. Turn left and go under the freeway construction underpass and continue north to Valley Blvd. Turn right on Valley for one block to Grand Ave. Turn left onto Grand and continue north to the SAC college.

The stadium is on the right hand side, and the address is 1100 N. Grand Ave., Walnut.

UP AGAINST THE WALL

Senate Rejects Girl
On Basis of Her Sex

By RUSS JOBIN

I just got back from the most depressing ASCC Senate meeting I have ever attended. I'm not sure whether I should cry or vomit. It seems as though one never becomes immune to useless acts of harm by one human being toward another. I have seen a lot of unnecessary decisions based on narrow-mindedness rendered on this campus, but none was more unkind and unjustified than the vote taken Oct. 1 on Dianne Sirota's appointment to the ASCC Senate.

If you are unfamiliar with the procedure involved in an appointment to the Senate, you should know that ample time is allowed for the Senate to look into the background of appointees before it is necessary to render a decision. If the senators had taken the time, they would have found that Dianne graduated ninth in her high school class and won a scholarship.

Leans to Right
Her political philosophy leans to the right, and she fanatically believes in this system. (That is, she did.) Her desire to be in the Senate was based on a need to become actively involved and sincerely interested in student government.

Before the vote is taken, any senator may ask as many questions as he believes necessary to make a just decision. None of the individuals who voted against Dianne asked a single question of her. Not one of them. It wasn't necessary. The facts are never necessary in a prejudiced decision. You see, Dianne is the secretary of Omnibus.

No Prejudice
However, if you asked some of the senators the reason for their decision, they will tell you their vote was not one involving prejudice. They voted against Dianne simply because she was a girl, and girls do not make good senators. I know to some of you this might be traumatic, but that is still a prejudiced decision, and the emotional effects are just the same.

If you have never experienced prejudice, then you have a hell of a feeling waiting inside for you. It is hard to describe. The wound runs deep within you, and the pain seems to linger because the action is totally unjustified. I can tell you one thing for sure, you'll never forget it.

Someday, you sleeping giant, you'll awaken and they'll be no more. How long, Cerritos, how long!

'Thank You, TM'

Dear Editor:

On behalf of the Veterans Club, I would like to thank you for your consideration extended to us in publishing Karen Giustina as our September Sweetheart. And our club notes which appeared in "Club Corner." My compliments to your reporter on an excellent article written on Karen. Again thanks from the Vets.

Don Mac Adam,
Vets Club Publicity

TM 'Escapade'?

Dear Editor:

The first contingency for Talon Marks was put into the Government Organization Codes Manual because common sense was not being followed by the Executive Editor during the spring semester 1969. It had become an opinion paper of the Executive Editor and not a student newspaper that was to report ASCC events and activities. Student government has the right to ask for facts and truth in their newspaper when they are investing over \$11,000 per year

for its publication. Fellow students, this \$11,000 is all paid by each of you.

The second contingency is quite self-explanatory. Like any other instructor of Cerritos, the journalism teacher is responsible to the Board of Trustees (NOTHING NEW). Students also have the right to ask this instructor why their money is being spent so foolishly.

The purpose of not leaving the final say up to the journalism students is because of their inexperience. Students are there to learn journalism, not to dictate it.

The liberal portion of Talon Marks was put into contingency number four in order to keep all personal opinion on the "Opinion Page" or "Letters to the Editor." This was put in to protect the students from just hearing the personal opinions of the Talon Marks staff. Last spring Talon Marks had a very impressive boy for its Executive Editor, who was unable to detect the difference between opinion and news.

Through the combined efforts of some 12,000 students, we afloat over \$11,000 to the journalism department so that we may have a medium for campus activities. Also, that journalism students may have practical application in their field

of study. However, if this department wants full control of the total sum of \$11,000, I would feel it my duty and yours to protest this outlandish escapade of a few people.

Samuel Marquez
83777

Different Tunes

Dear Editor:

There is a problem on this campus (?) that has perpetually been ignored by the powers that be in the Office of Student Affairs, and we feel that there has been a great misrepresentation.

The problem is the music played in the Student Center and the Coffee Shop is, in our opinion, unrepresentative to the taste of a great percentage of the students of Cerritos.

We feel that in addition to the type of music now being played in the Coffee Shop and Student Center there should be equal time given to other types of popular music, such as folk and rock, more suited to the age and taste of the majority of students at Cerritos.

Many times in the past this problem has been presented to the Office of Student Affairs, from which the music is broadcast, but they have been extremely uncooperative.

If you hold the same opinion, make it known to an ASCC senator or express your opinion directly at the Office of Student Affairs.

Raleigh Webster 77450
Dale Carver 82381

Mourn VN Dead

Dear Editor:

Oct. 15 is national moratorium day. Students all over the nation are using this day to mourn for the 45,000 GIs who have died in Vietnam. I feel that Cerritos should be involved in this action. Already some students on campus are using last Wednesday to next Wednesday as a period of week-long mourning by wearing black armbands. The mourning will end on the 15th with a peaceful boycott of classes on the center lawn in the Quad.

The total effect of the peaceful demonstration on the campuses of more than 1,000 colleges and universities throughout the nation is to show the President of the U.S. that the war is unpopular with the majority of the students and not the minority.

Wearing a black armband signifies that one as an individual is concerned with 45,000 deaths of men our ages and feel that the war should be ended. Take a stand Cerritos. Are 45,000 more men going to have to die?

Dan Staso

Downey HOPE Walk
Scheduled for Nov. 22

A Downey HOPE Walk will be held Saturday, Nov. 22 as thousands of students literally take to the streets of Downey to benefit America's medical mercy ship SS HOPE and its program around the world.

Patterned on similar walks held throughout the nation, the individual student will be marching with his classmates for sponsors who have agreed to make a contribution in some ratio to the total distance walked.

More information will be released in coming weeks, but any student in the Cerritos College District interested in learning further of the HOPE Walk may call the headquarters at 869-2550, or visit the office at 8323 E. Firestone Blvd., Downey. Calls or visits should be between 3-6 p.m. Monday through Thursday and on Saturday.

Stage Band To Make
Video Debut Today

The first day Stage Band will appear on Bob Dorn's Tempo television show today at 2 p.m. This is to advertise the "Yes-In!" on Sunday at 2 p.m. in the Hollywood Bowl.

This program is one that grew out of a program held in the Orange Bowl in Miami, Florida last spring as part of an attempt by the majority of today's young people to correct the growing hostility between the generations. The Bowl show will be hosted by Bob Hope, and it will include the Les Brown Band, Sammy Davis, Jr., and the Collegiate Neophonic which is now making its home here. Conducting the Neophonic on some of its numbers will be Jack Wheaton.

The day Stage Band will be busy this year with many of their "Jazz at Noon" concerts in the Student Center. Another important event for the group will be playing for the Homecoming Dance ceremonies at the Ambassador Hotel on Friday, October 17.

Counselor Woes

Dear Editor:

This past summer, during my first semester here at Cerritos, instructors continually told me that if I had any problems to see a counselor and he would help me. A few days ago I had the opportunity to receive this so-called help.

The problem was that I had an 8 a.m. swimming class. After about four classes, I found that I had continual colds and did not feel well enough to stay up past 8 p.m.

The logical conclusion, it would seem, would be to change to a later swimming class. There was none. One automatically sees that the next step would be to change to a different physical education class. This is not how the understanding (?) counselor viewed it.

The counselor questioned me about whether or not I minded getting my hair wet. He overlooked the fact that I first tried to change swim classes.

I was then given my alternatives: First, I could change the class IF I got an MD's signature, in which case I would have to pay \$10.20 (if you are paying rent, you know that losing that much money would put you on a starvation diet for the next three months—this would also be detrimental to one's health).

Second, drop the class and eight more units—all of which are classes I want and need.

Third, keep the swimming class and the cold.

At this time, I wish to thank the counseling department for all courtesies rendered.

Cathy Dowlen

CAMPUS CUTIES... Terry Haygood

Cosmetology Dept.
Announces Contest

The college cosmetology department will soon begin practice sessions for its annual Hairstyling Contest scheduled for Nov. 18 in the Student Center.

Models are being sought by the contest entrants. Any woman with hair suitable for styling, or willing to have her hair cut to a styling length, is welcome as a model.

Practice sessions will be conducted Tuesday and Thursday afternoons. Prospective models are urged to call the cosmetology department, 380-2451, extension 277, for further information.

Prospective models should also understand that some of the student stylists may desire to bleach, color or tint their finished coiffure.

The cosmetology department also provides patron services on Mondays, Wednesdays and Fridays. These services are available to the public. Appointments may be made by contacting the receptionist at extension 277.

Conservatory
Set To Instruct
Popular Music

The popular Music Conservatory at Cerritos will be offered again this year, according to director Don Erjavec. The program will get under way tomorrow and continue through May 28.

"The Conservatory is designed to provide small class instruction to music students within the college district from grades six to 14," he said. "The class will be divided into elementary, intermediate and advanced segments on like instruments."

Any student who lives within the college district and is enrolled in grades six to 14 is eligible to apply for the Conservatory. There is a \$5 registration fee per semester. Participants are also expected to provide their own instrument in good playing condition and the necessary materials and music.

Classes will be offered in the late afternoons and Saturdays, according to Erjavec.

"We believe that this year more than ever, the Conservatory can provide necessary assistance to those students who want to learn and play musical instruments," Erjavec said.

The Music Conservatory is a community service of Cerritos. It will include instruction in strings, woodwinds, brass, piano, guitar, percussion, improvisation and composition techniques. For an exact schedule and advance registration, contact the Office of Community Services, 860-2451, extension 217.

AWS Paper Drive
Begins Next Week

The Associated Women Students of Cerritos will hold their annual paper drive beginning Monday. The one-week drive which ends Saturday, Oct. 18 is a fund-raising drive to provide scholarships for women students.

Community assistance is sought in this drive, according to Dean of Women Amy Dozier. The TM "Club Corner" this week also details how clubs are entered in competition in the drive.

A special collection bin will be placed at the northeast side of the Burnight Center. Papers may be placed in the bin during the one-week drive.

"If anyone is not able to deliver papers to the college," Miss Dozier said, "please contact the Office of Student Affairs and a member of AWS will pick up papers from your home."

All proceeds go into the scholarship fund.

Entertainment Roundup

Films and Wine Festival Are Weekend Happenings

By SUZANNE NICASSIO

Well, you've put it off for as long as you can. Tomorrow is D-Day—are you going to the Space Convention at Desert Rock or the Desert Fair and Turtle Races at Ridgecrest? If neither of these prospects stirs you, we hope you can find a prospect or two below.

Unitarian Society of Whittier

The Unitarian Society of Whittier is sponsoring a two-part probe into the criminal mind in the form of a film, "The Tilted Folies," and a Sunday morning dialogue on the subject "Prison and Hospital: Who Trains Criminals?" The film, a prize-winning expose of a prison hospital for the criminally insane in Massachusetts, shows tonight and tomorrow at 8:30 p.m. at 720 S. Bright St. in Whittier. The dialogue, conducted by State Hospital, takes place at 10:30 a.m. at the same address.

Guasti Wine and Grape Festival

The Guasti Wine Festival will open on Monday the 13th (what a day for a wine festival!) with the Blessing of the Grapes ceremonies at 11:30 a.m. at the old San Segundo d'Asi Church in Guasti. Immediately following is an afternoon of

picknicking, wine tasting, dancing and general merriment at the Brookside Vineyards.

Anyone who's seen old Silvana Magnano movies knows the sort of hilarity to expect. But one can always hope for an old-fashioned Roman-style orgy (in mid-afternoon?).

Long Beach Museum of Art

For the more sedately inclined there is a free concert at 8:15 p.m. at the Long Beach Museum of Art Thursday. The Di Tullio Trio, consisting of a cellist, a flutist and pianist, will perform chamber music in an intimate museum setting.

Mark Taper Forum

And for the rich, the Center Theater Group's New Theater for Now program concludes its third season tonight through Sunday with an omnibus collection of 14 "staccato, contemporary plays" by Feiffer and others and two new one-act plays. Check with the Forum for scheduling at 628-5781.

Discovery of the Week Dept.

A self-effacing young art and architecture student with a musical bent named Nick Cornwell, alias Nick O'Loeoon, has taken over Shakey's Pizza

Parlor in Anaheim with the most fantastic system of Rube Goldberg instruments you are likely to see.

The treble of his piano is wired to a highly effective system of bottles. Growing out of the piano are bass drums, cymbals, milk cans and flags—all of which combine to produce what has to be one of the most energetic music performances ever seen locally.

This, however, is only the beginning. Growing almost organically out of the wall is an immense wooden construction (words fail) which houses the marimba and glockenspiel band—also the drum section, which rolls out of the main housing on miniature train tracks. And the light show screen, which opens up like a Cyclopean eye. And the projection unit housed, naturally enough, in an immense metal fish tail containing, also naturally enough, live gold fish.

Space forbids enlarging upon the projected trumpet section, the large transparent grasshopper that holds the computer and doubles on cymbals, or the rare ooga-ooga bird perched on the adjoining wall. By all means see it for yourself at 2815 W. Lincoln Ave. And bring your old Levis; they are need to line the glockenspiel.

Manuel DeLeon
Art Instructor

'Man on the Go' Describes CC Art Instructor

One of the busier faculty members on campus is Manuel DeLeon, art instructor. In addition to his position in the art department, he is serving as an art show judge, providing a demonstration lecture, and exhibiting his own paintings.

During the next several months DeLeon will act as a judge for the Bellflower Art Assn. He will judge an exhibition which will open Nov. 1 at Mayne Thompson Park.

DeLeon is working on a 28-session in-service training class for teachers of the Tustin School District. His responsibilities as an art consultant to the district include writing course descriptions for each course, hiring qualified personnel to conduct the classes, and teaching some himself. Participants in the class—designed for teachers from kindergarten through eighth grade—will receive two units of college credit through a Pepperdine College extension program.

Wednesday he provided a demonstration lecture for the East Whittier Women's Improvement Club. His presentation included slide illustrations and actual demonstrations on drawing and painting techniques.

In addition to his full calendar, DeLeon will also have three watercolor paintings entered in a special October exhibit of seascape paintings at the Clyde Zukh Gallery in Costa Mesa.

ODDS & ENDS

Homecoming Eyed By Pigskin Fanatic

By BOB HARDIN

Feature Editor

So far it's been a good year for football fans at Cerritos, as the Falcon Eleven has gone undefeated in two pre-season games. As for the action in the Homecoming Queen League, the race for the coveted crown has been fast and hard-hitting, with the field being narrowed from 14 to seven going into the second week.

The first quarter was a defensive struggle, as girls were being tackled all over the field by the clubs to fill their Queen Candidate rosters. One group made two tackles during the first quarter, getting two candidates on the ball.

Tough Ground Game

After a defensive-dominated first quarter, second quarter action saw the candidates establishing their ground game. Again and again, with the aid of leaflets and posters, they broke through the defensive line of the voter with end sweeps to the strong right side, plunges up the middle and short gains to the weak left side. On a third and a "one-half of the space to use" situation, one club used a "commissioner sneak" to gain banner yardage—first and 14.

The third quarter of play started with a bang when clubs initiated their aerial attack. A turnout of 1,241 voters witnessed a see-saw battle as the candidates brought out heavy artillery—

sign waving and thousands of more leaflets. The more experienced veterans of the game used a multiple offense—free coffee and coke.

Closing Minutes

The last quarter started Monday night when all 14 candidates put it all together, both ground and air attacks, for a final drive to get on the scoreboard.

Some used the on-side kick by sticking their own name on the other candidates' posters. Their defense were calling audibles at the line of scrimmage, putting leaflets in bathrooms, phone booths and candy machines. Candidates were given a chance to run with the ball to see if their fancy footwork and deceptive moves could lure the support of the voters.

When the clock ran out, the candidates went to their lockers with the score 7 won—7 lost.

Still in Contention

Those who are still in contention for the Super Bowl are: CeCe Berenda, splitend from LAE; Sue Blew, quarterback out of Sigma Phi; Debbie Egger, tightend from Circle K; Linda LaValle, Falconettes wingback; Randi Montgomery, tailback out of Newman Club; Marilyn Smearecheck, owner of the Vets Club concession stand; and Laura Sopp, captain of the football team.

Game time for the Homecoming Queen League Finals is Oct. 14-15. Tickets are available at the polls.

SLEEP WALKING—Douglas Wessel, philosophy instructor, looks as though he is in a trance, but he is discussing the Buddhist religion with a student.

Students Here Found More Realistic--Wessel

By GUY SCANDLEN

"Students in Southern California," says Douglas F. Wessel, philosophy instructor, "are more sophisticated philosophically than students in the Midwest." The fact that truth cannot be packaged for easy philosophical grasping doesn't bother them, he says.

Students here are fascinated by existentialism. "Its pessimism doesn't bother them," he says. "Southern California students are much more versed in things. They have had much more varied experiences than midwestern students. They are much more familiar with Oriental philosophies and with dialectical materialism. They tend to be more realistic."

Wessel is able to speak from experience, for his exposure to midwestern students came early in his teaching career. After teaching at Waterloo University in Ontario, Canada, he taught at Wisconsin State University in Superior, Wis. Subsequently, he taught at Bismark Junior College in Bismark, N. D. and prior to Cerritos at Arizona Western College in Yuma.

New York Born

Born in Schenectady, N. Y., he received his Bachelor of Arts from Upsala College in East Orange, N. J. in 1950. In 1953 he earned his Bachelor of Divinity degree from Philadelphia Seminary at the University of Pennsylvania, and in 1962 he received his Master of Arts in philosophy from Chapman College in Orange.

His master's thesis was "Kierkegaardian Existentialism." Says Wessel, "There are elements of the existentialist movement to which I feel akin, particularly the freedom of responsibility to which the movement adheres." He feels there is an honesty in existentialistic pessimism, especially in the premise that truth isn't necessarily revealed in the laws of logic. He feels close to the primary emphasis that man should be "coupled with society." He doesn't care for the atheism of existentialism, however.

At Cerritos Wessel teaches Introduction to Philosophy and Comparative Re-

ligions. He, with Mr. Bloomfield, is a co-adviser of the Philosophy Club and hopes that it will become more active this year.

He finds students here "drawn to Plato." Wessel speculates that students may find Plato more literary in writing style, and they tend to understand him most easily.

"Bertram Russell speaks to their needs, for he is interested in social problems. Russell is rebelling against authority, and students feel akin to this," he commented.

Wessel and his wife love the climate of California, the clear air of the beach and the activities. "There is always something for the family to do." Wife Mary Ann teaches in the Westminster Elementary School District. They have two daughters, Marja, 7½, and Sarah, 5.

"I love to teach," says Wessel. "I love the give and take of the classroom situation. I come to life best with the ideas in the classroom."

Although other schools have offered administrative positions, he has turned them down. "The difference of the salary doesn't make up for the challenge of the classroom." Of this college he says: "I feel happy at Cerritos; I find absolute satisfaction in my teaching."

New Club Aim Is Public Work

Students for Progress through Education is an organization made for the community and the students of Cerritos. But what has the club done and what are its future plans?

During the spring semester of '69 Students for Progress was organized and established as a club. One of its activities was to go into the "poverty pockets" of the Cerritos District. Members went from house to house telling people about the benefits of higher education and the process of getting into a college.

ASTME Open To All Majors In Engineering

The Cerritos College student chapter of the American Society of Tool and Manufacturing Engineers attracted considerable attention with their club booth on the campus. Neal Sampietro, of the Stripit Co., was at the booth with a display of numerical control tapes and read-out equipment.

His firm has just donated a complete numerically-controlled hole-punching unit to Cerritos' numerical control department.

The student chapter of the ASTME is sponsored by Long Beach Chapter 84 of the parent organization. Membership in the organization is open to students majoring in drafting and design technology, engineering, or who are in some way interested in the field of tool and manufacturing engineering.

Communications Is Trademark Of Cerritos Forensics Department

By CHRIS TORRES

In all careers where people are involved, everyone will be called upon to carry on conversation and to communicate. Within the Cerritos speech department there are 12 different speech courses offered.

They include: the fundamentals of speech; public speaking; voice and diction; oral interpretation; forensic workshop; parliamentary procedure; argumentation and discussion I, II; speech clinic; oral English, as a second language.

Through these courses knowledge, confidence and integrity can be achieved.

Next semester a communication requirement will be filled by a new speech class to be offered entitled Basic Speech.

Opportunity To Speak

"The purpose of the speech class is to provide the student with additional opportunities to speak," says William Lewis, head of the department.

Skills necessary for effective speech development can be obtained with the above classes. In the voice and diction class or the speech clinic, taught by Charlotte Wagner, work is done on a one-to-one basis. Classes are designed for anyone with any type of a speech impediment. One is a nine-week course for one-half unit.

"There aren't over six other junior colleges in the state with such services available," informed Lewis.

The first tournament scheduled for the speech squad will be Friday and Saturday at UCLA. Approximately 30 students can attend. Oral interpretation, persuasive speaking and debate will be a part of this tournament. One of the biggest tournaments for the department will be the State Tournament to be held at CSC Hayward in March. Within the last six years Cerritos has won four of these state tournaments.

At the National Tournament, to be held in May at the University of Michigan, Cerritos will be represented by approximately 14 students. At last year's national tournament Cerritos debaters

Pat Schwerdtfeger and Bill Larson took first place. Judy England won woman's oral interpretation. The speech squad, as a whole, came in second.

"We intend to do just as well this year," stated Wendell Hanks, in charge of forensics. This is a team of students within the speech department who participate in the tournaments.

In describing the chances of a student to get on the forensic squad, Hanks says, "We build a boat to house the people. We have lots of lumber, and workers. All we need are the hands to get us out of port. Then maybe we can sail on to the nationals."

Students who become involved in

speech can later go on to law, speech therapy, radio, consultation and teaching work. "It is a good platform for any career where contact with the public is frequent, and obviously that is almost all careers," says Lewis.

Speech Squad Open

"Anyone who wants to be on the squad just has to come in and they're in," says Lewis. "It is one field where nothing is the same—the people, setting and content always vary. If students like variety, then speech is their bag."

"Expression of thought can only be done through speaking. Effective speech is the only way to achieve effective communication," he concluded.

LOST FOR WORDS—Preparing for the Southwest Collegiate Tournament at UCLA this weekend are Joe Russo; instructor William Lewis; Cathy Franks; instructors Charlotte Wagner, Wendell Hanks and Ron Tabor; Pam Watling and Larry Lords. Looking on is TM reporter Chris Torres (upper left).

CLUB CORNER

Club Competition Seen For AWS Paper Drive

By ARE MOYA

Club Editor

The Associated Women Students will have a paper drive starting Monday and running to Saturday. This will be on a competitive basis for all on-campus clubs, but any Cerritos student may donate papers.

The papers will be stored in a bin on the northeast side of Burnight Center. Competition will run from 7:30 a.m. Monday through Friday and 9:11 a.m. on Saturday morning. Any papers contributed after these times will not

be valid for the competition. All proceeds for this month's drive will go into an AWS scholarship fund.

THETA PHI

The last chance to rush Theta Phi is tomorrow and Sunday. Saturday will be the annual Fall Date Rush Party and Sunday is the Mother and Daughter Tea from 2-4 p.m. Pledging will start next week and will last for two weeks.

ALPHA TAU

Alpha Tau (Architectural Tech) will have a meeting Tuesday at 11 a.m. Alpha Tau will discuss the new membership and future plans for professional architects to speak. The objective of Alpha Tau is to acquaint the individual with all of the opportunities in the various fields of architecture.

All interested students are welcome to join Alpha Tau. Dues are \$2 per semester, payable anytime. For further information contact Mr. Dagermangy or Rich Palas in TE-7.

ALPHA GAMMA SIGMA

Alpha Gamma Sigma would like to invite you to become a member of the Omicron chapter of the California Junior college honor society.

The first meeting of the semester will be held in LH-1 at 11 a.m. on Thursday. This meeting will include official registration. Registration cards are available in the Social Science Faculty, Rm. 20, or in the Liberal Arts Faculty Office, I.A.H. Please have this card filled out and the \$1 registration fee ready to be turned in at the door at the first meeting.

The purpose of AGS is to recognize and promote scholarship on campus and in the community. Only registered members are entitled to the benefits of this organization, which include a notation on your college transcript each semester you qualify and register. Dr. Bundy, vice president of instruction, will be at the meeting to talk to the organization. For further information contact Ricarda Walther at Ext. 203.

ELECTRONICS CLUB

The Electronics Club will have its first meeting Tuesday at 11 a.m. in RE-12. The purpose of the club is to promote interest to students in the specialized areas of electronics.

Some of the activities are learning Morse Code, amateur radio operation and developing or encouraging special projects. Anyone at the college with a special interest is invited to attend.

OMNIBUS

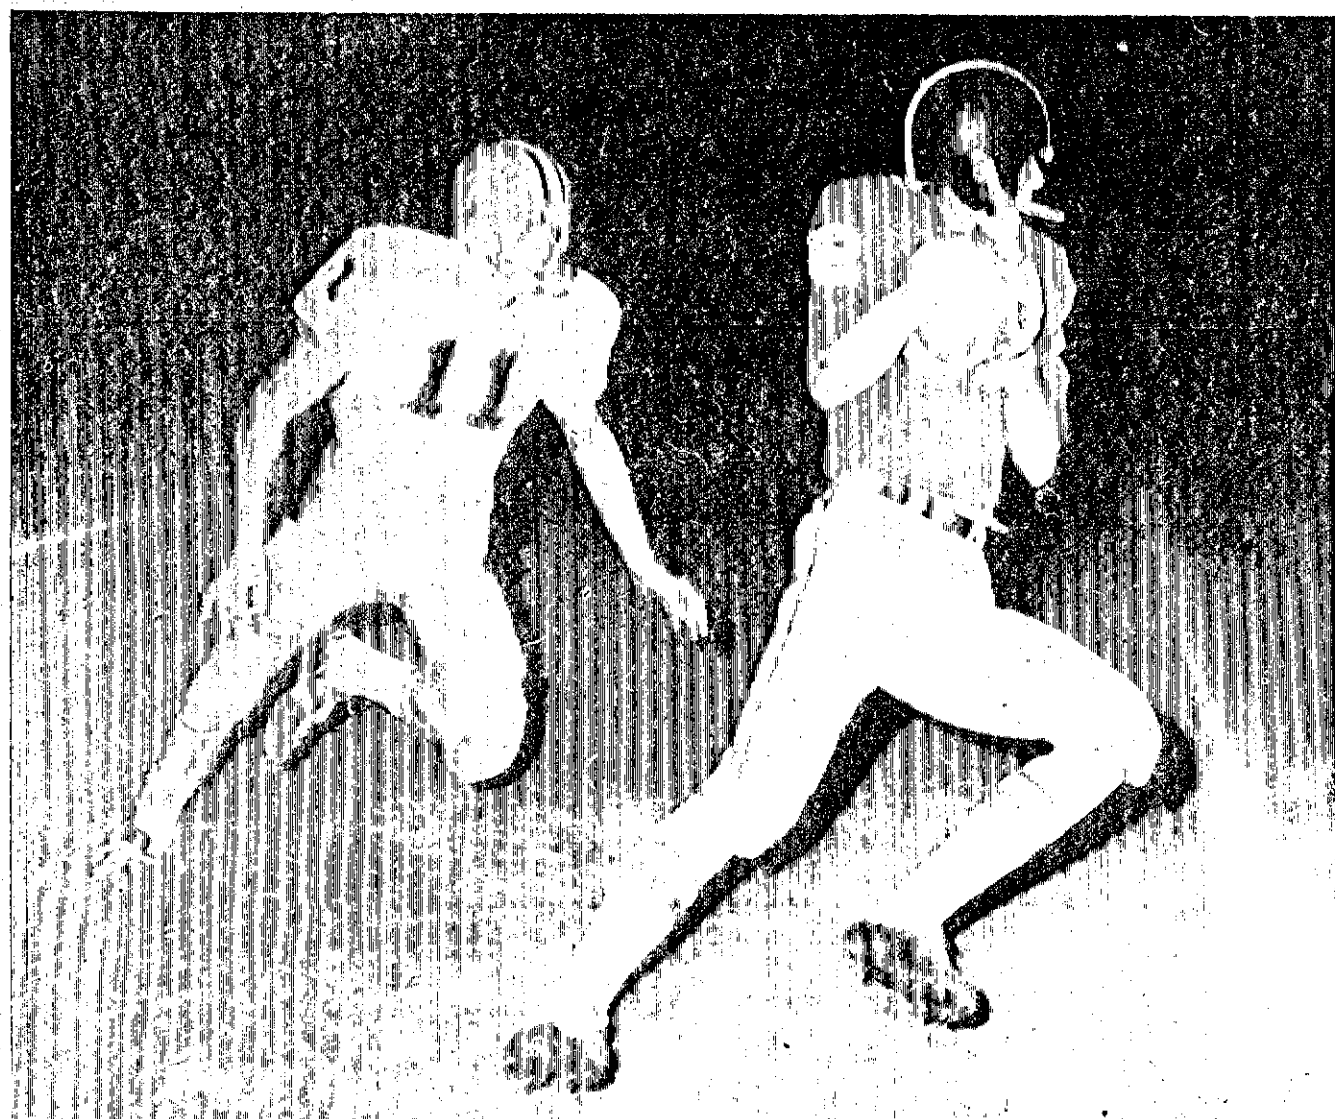

Omnibus Society will have its second meeting Tuesday at 11 a.m. in SS-313. The club will discuss the first speaker and future events and committee meetings. All interested students are welcome to join. There is no club fee or pledging.

TMS

Tuesday the newly-formed Cerritos chapter of the Transcendental Meditation Society will meet in BC-53 at 11 a.m. Everyone is welcome.

Transcendental meditation is the philosophic movement which, according to recent publications, has gained wide acceptance on college campuses in the country. It has been brought to Cerritos by Scotty Brown, a sophomore, and faculty sponsor Jack Wheaton of instrumental music.

Falcons Rally in Second Half Win, 37-26

FLANKER BAIN BRICK grabs this twenty yard aerial strike from QB Mike Ernst in last week's victory over Rio Hondo. Brick was selected as this week's TM Player of the week.

Cerritos bombed the Roadrunners with a final score of 37-26.

Baca and Castorina Score Twice But Defense Gives Up 425 Yards

Rio Hondo put all its marbles together and threw every formation it had at the Falcons. The Roadrunners came to play ball and forged into a 20-16 halftime lead. But Cerritos woke up in the second half to pull out a 37-26 victory.

The Falcon defense set up the first four touchdowns with three fumble recoveries and an interception.

Cerritos fumbled the first time it had the ball and suffered an interception on the second series of downs. Rio Hondo took over on its own 19-yard line. On the first play Dave Campbell threw QB Greg Lee for a seven-yard loss. Linebacker John Montoya recovered a fumble on the next play to give Cerritos a first down on the RH 13. Mike Ernst then pitched out to speedy Joe Baca for 13 yards and the score. Rai Wersching's kick was wide to the left.

CERRITOS 6, RIO HONDO 0
Rio Hondo's next drive was rudely interrupted as Gary Smuts intercepted a Lee pass at the 44 of Cerritos. Ernst then marched the Falcons to another score. He ran Baca and Ken Hamilton into the line for 16 yards and passed to Bain Brick and John Morrison for 37 more. Paul Castorina rammed his way over from the one for his first six points of the year. The P.A.T. was good.

CERRITOS 13, RIO HONDO 0
But the Roadrunners did not roll over and play dead as they bounced back to score 14 points in less than three minutes. After Gulotti gained 14 yards in two carries, Lee threw a 61-yard bomb to his former high school mate Tony Molino. Lee was an all-league defensive back from St. Paul while Molino was the leading receiver for the CIF champs. The P.A.T. was good.

CERRITOS 13, RIO HONDO 7
Jim Lawson picked off an errant pass from Mike Ernst to give the Roadrunners a first down at their own 16-yard line. Five plays later the Lee to Molino combination clicked again for 57 yards and another TD. The kick was good, and Rio Hondo lead 14-13.

CERRITOS 13, RIO HONDO 14
Joe Bochaneck recovered a fumble on the Roadrunners 20 to set up the next Falcon score. Wersching split the

uprights from 23 yards out to give the lead back to Cerritos.

CERRITOS 16, RIO HONDO 14
Rio Hondo took the kickoff and marched 73 yards for six. Fullback Charlie Martinez, another ex-St. Paul star, picked up 32 yards on four carries. Lee ran for 10 and passed 16 yards to Ken Mathews (All CIF end from El Rancho) and 17 to Molino. Martinez scored from one yard out to put the Roadrunners on top once more.

CERRITOS 16, RIO HONDO 20
Mike Ballantyne recovered his third fumble of the year on the first play of the second half. Three downs later it was Baca again for 28 this time and six points. Wersching's kick was good.

CERRITOS 23, RIO HONDO 20
The two teams exchanged punts for the next 10 minutes until the Falcons took over at the RH 48. Castorina capped the drive by scoring from the two-yard line. Wersching's kick was good.

CERRITOS 30, RIO HONDO 20
Cerritos ended its scoring early in the final period of play. Ernst threw 20 yards to Brick for a first down on the 10-yard line. Ernst then found Hamilton alone in the end zone and rifled a strike for the touchdown. The kick was good.

CERRITOS 37, RIO HONDO 20
The Falcons began another drive that ended on the RH eight-yard line. During the drive Ernst hit Brick three times for 49 yards and Hamilton once for seven.

Rio Hondo came back on the arm of Lee to score in the closing moments of the game. Martinez got credit for his second touchdown from two yards out. The P.A.T. failed.

CERRITOS 37, RIO HONDO 26
Ernst completed 14 of 24 passes for 193 yards. But this performance was marred by three interceptions. Nine of these passes were grabbed by Brick for 123 yards. Brick also proved he could run with the ball as he dazzled the crowd with some fancy footwork.

Baca had another fine game as he picked up 99 yards on 26 carries; and two touchdowns. Hamilton gained 24 yards on six carries and caught two passes for 26 more. Castorina gained 22 yards on six carries and two touchdowns.

The offensive line performed well again this week with special credit going to tackle Dave Hansen. The defense did not appear to be prepared for the Roadrunners, as it surrendered 425 yards including 253 via the air. The Falcons go against Mt. SAC Saturday.

Bain Brick Chosen Player of Week

Bain Brick has been chosen this week's Player of the Week for his outstanding play in last week's 37-26 win over Rio Hondo.

Brick grabbed nine passes for 123 yards as he celebrated his best night in the blue and white of Cerritos. He used his 6'3" height superbly as he haunted the Roadrunner secondary all night.

He achieved prep stardom at Mayfair High School. In his senior year he was named CIF 3A "Player of the Year," "Back of the Year" in the Suburban League, and made the All-area team. He was chosen All Suburban League two years in succession.

"I think we did a pretty good job against Rio Hondo. Our running game is starting to come along great. As soon as we get the running game moving, our passing game will move," says Brick.

Brick has now grabbed 13 passes for 173 yards in the first two games. If he can keep up his present pace, he will shatter his existing Cerritos season passing records. But these are secondary to Bain, who has his eyes set on being a

member of the South Coast Conference champions.

"Our team should do well in the new conference this year. There are some pretty tough teams in this league, but I think we can beat them."

The TM sports staff offers its congratulations to Bain Brick and wishes him well in his future endeavors.

Falcons Smoke OCC For Third in a Row

Ruben Chappins and Mike Bernal staged another whirlwind performance last Friday in leading the Falcon cross-country team to its third straight win. The harriers kept their unbeaten record intact as they breezed past Orange Coast 15-44. The blitzkrieg against the Pirates put the Falcons on top of the South Coast Conference as action enters the fourth week.

It was a clean sweep for the Dave Kamanski super-machine as the Falcons captured the first five and six of the first seven places. Once again leading the way were Chappins and Bernal, who presented a carbon copy of their duel two weeks ago. Chappins turned on the after-burners as he steamed through the final mile in 4:42. His overall time was 20:33, while Bernal was only two seconds off the pace in 20:35. Third was John McNeice in 21:32 and fourth Johnie Mendez in 21:55. Rounding out the Cerritos scoring parade was Mark Hain, who was in at 22:04. Not far back in seventh place was Roy Nilsson in 22:08.

The tight grouping of the Cerritos runners pleased coach Kamanski. "This is very important in large meets," he said, "and I hope we can continue to stay this closely knit."

Poloists Take Third In SC Invitational

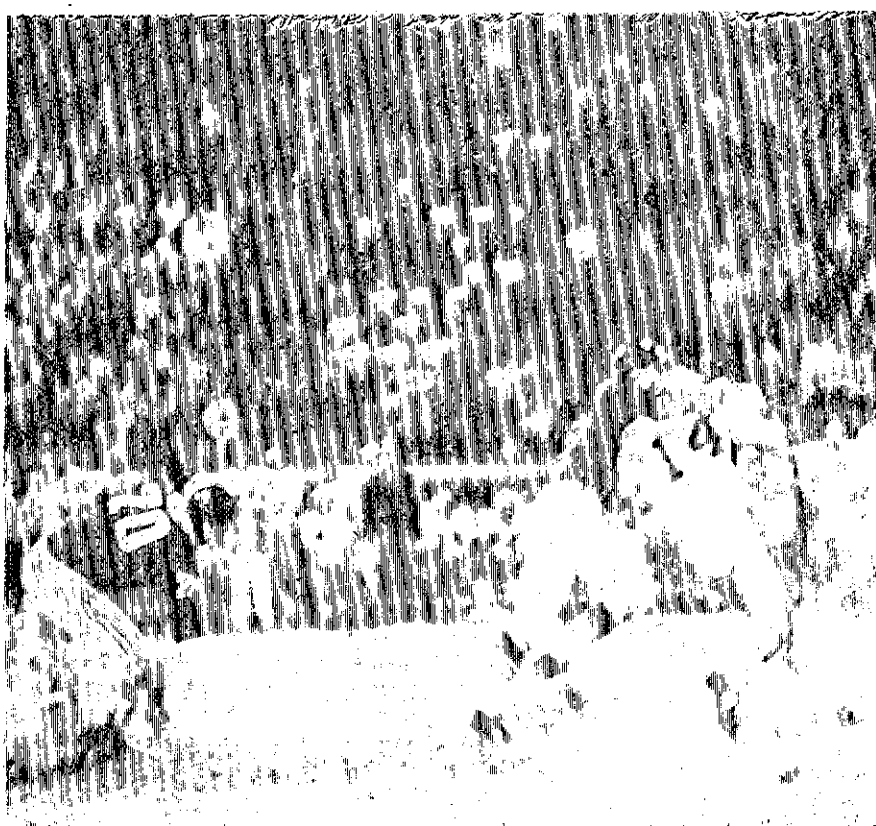

Following the 5-4 defeat by Golden West, Cerritos entered the invitational and ran into trouble against a rugged Fullerton squad and foul-conscious officials.

In their 5-5 loss to Fullerton in the first round of the tournament the Falcons were hampered by numerous fouls which were eventually converted into scores by Fullerton. With over 20 fouls called against Cerritos in the match, the Falcons wound up losing several of their first-string players on fouls.

In their second game of the tournament the Cerritos squad came alive. Led by the scoring of John Rees, the Falcons crushed Orange Coast 11-4.

HEADING FOR HOME AND VICTORY—Ruben Chappins speeds past teammate Mike Bernal in anchoring the Falcons sweeping cross country victory over the Orange Coast Pirates last Friday. Chappins' time was 20:33, with Bernal a close second in 20:35.

BLITZING LINEBACKER Bill Hinds throws Rio Hondo's Greg Lee for 9-yard loss in the early moments of Saturday's game.

BILL HECHT

Bruising Line Play Key to Wins

After the Falcons' two top-sided victories it's hard to single out one element as being the decisive factor. But one important aspect of these wins has been the outstanding line play. With all the long runs and receptions attracting most of the attention, there is a tendency to overlook the vital contributions of the linemen.

This year Cerritos is fortunate to have a hard-hitting offensive line which is mobile enough to allow a diversified offense, one that can blow the defense out of the bridgehead it may have established to stop a running play and quick enough to reassemble on a screen pass or sweep.

Best Tackles
With Ken Hansen and Kevin Johnson at tackles, the Falcons could have the best set of tackles in the league. Holding down the guard spots are sophomores Dennis Moore and Rai Wersching. Both are quick and agile for big men. It is their speed in leading the interference that has sprung Joe Baca and Steve Sutton loose on their patented end sweeps. Mark Hemphill anchors the center of the line with a consistent performance each week.

If there is one area which would have to be considered a bit more outstanding than the rest, it would have to be the defensive line. There is no sure-fire method of calculating their effectiveness. The only statistic kept is tackles and assists, but this not fool-proof. The top defensive linemen will rarely have an astronomical amount of tackles.

Most coaches scout well enough in advance to calculate their opponent's weaknesses and strengths. Therefore, if one defensive lineman is considered stronger, more plays will be run at the is the score itself. In most cases if the weaker man. The best possible measure team won; then the line did a good job. When you get right down to the nitty-gritty, line play is what football is all about.

The Falcon defensive line is aggressive and alert. Blowing into the opponent's backfield from the right side are Steve Fryer and Joe Bochaneck. Both had outstanding games against

LBCC and Rio Hondo, although Fryer sat out the second half against the Roadrunners nursing an injured knee.

Comprising the left side of the line are Dave Campbell and Mike Ballantyne. Campbell and Ballantyne destroyed their men in the Rio Hondo game, with Ballantyne roaming around in the Roadrunner backfield as if he belonged there. Every once in a while he would yell, "timber," as Campbell or Fryer would cream a would be blocker.

Definite Patterns
With the season barely underway, definite patterns have been established in the Falcons' first two wins. A crushing offensive line and an equally effective defensive line have paved the way for decisive victories over LBCC and Rio Hondo. There's a long way to go until Nov. 22 when the Falcons finish the season, and anything can happen. But the line play in these first two games can't be overlooked.
