## CERRITOS COLLEGE

VOL. XV NO. 1

11110 E. Alondra Blvd. Norwalk, California

Monday, August 16, 1971

**NEW LINES-** Road construction along Alondra Blvd. will cause traffic problems for students and teachers this fall. Completion of new gas and power lines is not expected for some months.

### More Space Per Student

## Rules Provide Ample Parking

"When Noah sailed the water blue,  
He had his troubles same as you.  
For forty days he drove his ark  
Before he found a place to park!"

Cerritos College probably offers more parking spaces per student than any other college in Southern California. There has never been a day or night when all parking spaces on this campus have all been filled. Parking spaces are not always available just outside your classroom but there are parking spaces on the campus!

We always have traffic and parking problems during the first week of a new semester. This year there will be even more congestion due to the Alondra street construction. Plan to arrive early to avoid the confusion.

There is a 10 mph speed limit on school property and all vehicles shall come to a complete stop before leaving school property. Become aware and follow marks indicating traffic patterns.

Learn our color code before parking. Parking in yellow areas shall be for permit holders and/or loading as indicated. Parking in green areas shall be for guests limited to length of time indicated. There shall be no parking in areas painted red, in handball court drives and/or in areas posted "No Parking". All vehicles must park in a "head in" position and no operator of a vehicle should stop, park or leaving any vehicle in any manner so as to obstruct the normal flow of traffic.

Traffic and parking regulations are given to students at the time of registration. Please become aware of the college rules. Our parking lots are

## Administrative Jobs Filled by Trustees

Two administrative positions at Cerritos College were filled by the board of trustees.

The board named Cecil Roberts as head librarian and Selden Cummings as chairman of the humanities division.

Roberts will fill the head librarian's position which has been held on an acting basis for two years by Sidney Thompson who will remain on the library staff. Cummings has been acting chairman of the humanities division since the mid-year resignation of Mrs. Julie Venitsky, who asked to teach on a part-time basis.

The new head librarian is now director of library services at Gavilan College in Gilroy. Prior to that position he was city librarian in Springfield, Ore., head of the reference library department at California State College Fullerton, head librarian at Orange Coast College and at Imperial Valley College and a librarian at Washington State University.

Roberts has his bachelor's degree in political science and the master's degree in history from the University of Iowa and another master's, in library science, from the University of Illinois. He has done additional work at Southern Methodist University in Dallas and in Australia. He is a veteran of five years of military service in Asia.

Cummings, the new chairman of the humanities division, will head one of the college's largest areas of instruction. The humanities division includes the four departments of English, foreign languages, philosophy and speech.

Cummings joined the Cerritos staff in 1965 as an English instructor. For the two years prior to his temporary appointment as division chairman, Cummings headed the English department.

A graduate of UCLA where he received his bachelor's degree in English, Cummings earned his master's at California State College Los Angeles.

He is a former teacher at Sierra High School and El Rancho High School.

patrolled by cars from the Norwalk Sheriff Station and citations are issued for violation.

Students with a physical disability may be issued special parking permits. These special permits are issued in the Business Office.

Students should not park in the shopping center across the street while attending classes. Cars will be towed away the student must pay the expense of towing.

## Falconettes Hold Tryouts

Women interested in becoming members of the Cerritos College 1971-72 Falconette Drill Team still have a chance to make the team. Practices are held daily from 3:00 to 5:00 p.m. plus Tuesday evenings from 7:00 to 9:00 p.m.

No previous experience is necessary; as all flag twirling, dance and marching techniques will be taught. Tryouts will be held on Tuesday, Sept. 21 at 4:00 p.m. for new women.

Very little expense is involved, as uniforms and flags are furnished. Each member purchases her own boots.

One unit of physical education activity credit is given, as all members of the team register for ticket number 141, HPER 60. Any woman who thinks she may be interested should register for this class immediately - then, if for some reason she does not make the team, a change may be made later.

A new idea will be instituted this fall - a squad of six of the best Falconettes will perform on the track during the football games in addition to the half-time show with the band. Bonnie Bonyea, in her second year as captain, is quite excited about this experiment, and feels that it will give greater prestige to the team.

See Miss Joan Schultz, office J, in the Physical Education Building for further information.

### New Post

## President's Secretary To Teach Full Time

Most people look forward to taking a vacation. Millie Orr isn't one of those persons—at least not this year.

When she begins her vacation Aug. 6 she also will end something of an era at Cerritos College.

She's happy about it in one way, sad about it in another. The happiness shines through when she realizes that she'll enjoy being a full time instructor at Cerritos starting in September. The sadness penetrates when she realizes that she's got to write a letter of resignation as secretary to the college president.

"The decision to teach or not to teach wasn't half as hard as it is thinking about having to write that letter of resignation," Miss Orr said the other day in an interview.

A number of other people at the community college have mixed feelings about her new teaching job, too. Not that anyone doesn't think she'll be an excellent instructor, it's just that everyone has difficulty thinking about Miss Orr being secretary to anyone but the president.

There's no good reason for that kind of thinking. No one but Millie Orr has ever been secretary to any Cerritos College president. In fact, she was the first non-academic employee hired by the Board of Trustees. That was in October of 1955 just after the college district had been established by voters but before classes got underway.

It was natural that she would be the first secretary to the first president. The first president was Dr. Ralph Burnight, now president emeritus. Dr. Burnight at that time was superintendent of what

## Mathematics Instructor Dies at 52

Funeral services were conducted Wednesday (July 14) for a Cerritos College Instructor who developed a unique approach to teaching mathematics.

He was Edwin Leland Carlson of La Mirada who died Monday (July 12) after a short illness. He was 52.

Services were at St. Andrew Lutheran Church, Whittier.

In recent years Mr. Carlson had specialized in developing and refining a mathematics course in which college students could learn at their own pace, using as aids some of the individual tape recorders and other equipment in the college's new Learning Materials Center.

After he became convinced that not everyone should be made to learn math at the same speed as everyone else, he developed his own method of teaching and tape recorded much of the material when he found it unavailable commercially for his students.

Prior to joining the Cerritos faculty six years ago, Mr. Carlson taught at La Mirada High School from 1963 to 1965. He was a high school teacher in Colorado from 1957 to 1963.

He held the bachelor's degree from State Teachers College in Valley City, N.D., and the master's degree from Colorado State College. He had done additional graduate work at California State College Fullerton.

Born Sept. 15, 1918, in Rhine, N.D., Mr. Carlson was a member of St. Andrew Lutheran Church and of numerous professional organizations.

Survivors include his wife; five children, David, Donna, Danny, Deann and Deborah; one sister, Mrs. Janet Snyder of North Dakota; and one brother, Dean Carlson of Riverside.

then was the Excelsior Union High School District. And Miss Orr was his secretary.

She has remained as secretary during the terms of Dr. Jack Mears, the second president, and of Dr. Siegfried C. Ringwald, the third and current president.

Her carpeted office and walnut furniture in the Administration Building are a far cry from the first presidential office, when the 135-acre Cerritos College campus still largely was a dairy farm.

The president's first office was in a former home on Alondra Boulevard. Later, when the present Liberal Arts Building was constructed, it was housed in that unit. In 1963 the Administration Building was completed, and Miss Orr helped her boss move into the first real office the college president ever had.

There've been a number of other changes, too. One of the more significant changes Miss Orr has noted in the last 15 years has been the trend for more and more persons to "go to the top" in an effort to solve whatever problems they have.

"And my boss always seems to find time to see everyone who wants to see him," she said.

One of Miss Orr's responsibilities as the president's secretary is to take notes and keep minutes of meetings of the board of trustees. She takes down everything that's said in her stenotype machine, the same kind of unit court reporters use.

Using the machine she can record at a speed exceeding 200 words a minute everything that's said at a board

### Increased Assistance

## Aid Program Could Reach \$300,000

Since World War II our nation has moved toward the social goal that higher education should be open to all. Over 60% of high school graduates are going on to college. There has been a shift upward in the number of students attending public institutions of higher education. Students in public institutions have increased 158% and those in private institutions 51%.

Community colleges reflect not only a redirection of effort to reach those who might otherwise not go to college—and with that a greater emphasis on vocational and occupational training—but also an effort to lower the ancillary costs of education.

With the great increase of students of all economic levels seeking a higher education, there has been a great growth in student financial assistance programs. Growth and development of federal, state and local programs has been extremely apparent in the last five years.

Cerritos College has moved from approximately a \$10,000 student aid program three years ago to an expected \$300,000 student aid program for 1971-72. Much of this increase comes from a new commitment of the college to participate in and provide the services to students afforded by the federal and state student aid programs. Staff dedicated in developing procedures and programs to benefit the student with financial problems are continually seeking new sources of funds. Students are serving on the Bread Hunt Committee to raise funds to assist fellow students. Community

organizations are lending their support through the expansion of our scholarship program.

Major federal programs fit generally into four categories at Cerritos:

(1) Categorical aid programs for particular classes of students: e.g., Health Professions and Law Enforcement Education.

(2) Student voucher programs; i.e., aid given directly to the student for him to spend where he will. They are programs of educational benefits for veterans and for dependents of social security beneficiaries.

(3) Manpower Training Programs administered by the Department of Labor.

(4) Aid programs which are institutionally based; e.g., Educational Opportunity Grants, Work-Study, National Defense Student Loans and guaranteed student loans.

State programs at Cerritos fit generally into three categories:

(1) Categorical aid programs for particular class of students; e.g., Psychiatric Technician and Nursing.

(2) Student voucher program; i.e., aid given to student directly through Vocational Rehabilitation and College Opportunity Grants.

(3) Aid through the Extended Opportunities Program grants and services which are institutionally based. Local programs of Cerritos in financial aid to students are:

(1) Scholarships, gifts and Grants Program  
(2) Tutorial Services  
(3) Campus Employment

## Book Store Ready For Fall Onslaught

September is almost here again, and now the maddening process of distraction begins. There are many joys of standing in lines and frustration and disappointments of finding closed classes and rearranging class schedules. Registration can be a very trying day and the student bookstore would like to help make the day a little easier.

As soon as you are registered and have all of your classes, you can beat the rush and long lines by purchasing your books early. This year there are more used textbooks available than ever before. These used texts are usually the first to run out of stock. Take advantage of the lower prices and purchase your books now.

For your convenience there is a new system for finding the book you need. As you walk into the student store, there will be subjects and corresponding numbers posted on the back wall of the store. You then look for that number

along the top of the shelves and the textbook you are looking for will be in the immediate vicinity of that number. For instance, *Calculus*, *Psychology*, *Music*, etc. If there are any problems in finding a book or any supplies, ask any of the store employees and they will be glad to assist you.

Most textbooks can be bought before school starts, provided you have your classes assured. But because of the numerous different textbooks required in various English, Speech, Psychology, History, and Political Science classes it is recommended that you attend the first day of class before purchasing your textbooks for these classes. This will save you an extra trip to the bookstore to return the wrong book and purchase the right one.

When returning a textbook for refund, you must show the receipt for the purchase of that textbook. Otherwise your money will not be refunded. Save your receipt!

## President's Welcome

On behalf of the Associated Students, I would like to welcome you back to Cerritos College. To those of you who are new on campus, I extend a special greeting.

Two years from now you will be leaving us. What you will take with you, what you will show for your two years depends on the effort exerted and habits formed now. Those of you who come only for what will be given to you will leave with very little, compared to those who take all they can. It is the student who becomes involved with his environment, explores what is new, participates in what is surrounding him that is rich in his two years. This is the type of student I hope you will place yourself.

There is no reason to leave empty-handed. New ideas are abundant due to our fine faculty and dedicated administration. New friends and good times are easily found in the clubs and activities that happen around you. Take what you want. I urge you to participate in making this a most successful and productive year, both for you and for Cerritos College.

If you have any questions or problems, artises, feel free to stop by my office in the Student Affairs Building and I'll do all I can to help. Good luck in all you do.

Mike Algood  
ASCC President

### (4) Short Term Loan Program

### (5) Job Placement Services

Many students need financial aid or their college careers will be severely hampered or will not begin. A grant or "financial aid package" is not considered a handout but one of the building blocks to success for someone who is in need and is willing to work hard with it. If a student is sincere about desiring a higher education and is in financial need, they should talk with the Financial Aid Officer or the Coordinator of Financial Assistance. Both are located in the Office of Student Affairs.

## Annual Howdy Hop Planned For Sept. 17

Friday, September 17 ASCC will host its traditional Howdy Hop Dance for all students both old and new. Admission by ASCC card only. No guests are permitted at the Howdy Hop. The dance is scheduled 8 p.m. to 12 midnight in the Student Center. Opposed to last year's event this year's dance will feature two top bands, the Freedom and Looney Tunes, both popular bands and well known in the area.

Alpha Phi Beta Fraternity will serve as host for this event and many other old students will be on hand to greet the new Cerritos students. This is the best opportunity of the year to meet new friends, both male and female. According to Gerry Walter, Commissioner of Activities, this will be the beginning of the many dances planned for this year.

DR. CURTIS PAXMAN

## Dr. Paxman New Board President

Dr. Curtis Paxman, a Norwalk physician, has been elected president of the Cerritos College Board of Trustees.

His election came Tuesday night when the seven-member college governing board conducted its annual reorganization. Dr. Paxman served last year as vice-president of the board. Leslie Nottingham of Artesia was president last year.

Other new officers are Mrs. Katie Lauscher of La Mirada, vice-president, and A.F. Sommer of Bellflower, secretary.

The Tuesday meeting, the first of the fiscal year, also marked the start of new four-year terms of office for Mrs. Lauscher, Nottingham, Dr. Paxman and Harold Tredway of Downey. All four were winners in a district-wide election last April.

Dr. Paxman, the newly elected president, has been a board member since 1959, shortly after the college district was established, and twice has served as head of the board. In 1961-62 he was president of the Cerritos Area Trustees Association.

A physician in Norwalk since 1940, Dr. Paxman is a former president of the Norwalk Kiwanis Club and has served on the board of the First Methodist Church, Norwalk Chamber of Commerce and the Southeast Park and Recreation District.

Dr. Paxman holds the bachelor of arts degree and the bachelor of science in medicine from the University of North Dakota and the medical doctor's degree from Temple University in Philadelphia.

Before earning his medical degrees, Dr. Paxman was a high school teacher and school superintendent in North Dakota, where he was born.

He and Mrs. Paxman have three children and five grandchildren.

**FINANCIAL ASSISTANCE COORDINATOR-** Mr. Keith Adams explains procedure for obtaining financial assistance to interested student. Applications should be submitted as soon as possible.

## Loans Available To Cerritos Students

Think you can't afford a college education? This isn't so any longer. If you are willing to invest in yourself there is a loan program to fit your needs. Cerritos College has available to students the Federally Insured Student Loan, National Defense Student Loan, and the Law Enforcement Educational Loan. These loan funds are established by the Federal Government in cooperation with the college. The purpose of the loan programs is to assure that no student is denied the opportunity for a higher education because of financial need.

The Federally Insured Student Loan program is open to all students registered at the college. The college provides information and applications for the loan, and helps the student complete the application. Seven commercial banks in the area participate in the program. After processing the application, the student may take the application to the bank of his choice; however, the bank has the final decision on whether or not to approve the loan.

The Federally Insured Student Loan is a 7 per cent interest loan and no repayment is made on the loan until nine months after the student leaves school. Students may borrow up to \$1,500 per year under this loan program.

This year Cerritos College begins its initial year in the National Defense Student Loan program. Funds for this loan are made available by Federal and district monies. The National Defense Student Loan is similar to the Federally

Insured Loan. However, the interest rate is only 3 per cent per year and part of the loan can be canceled for service time, or if the borrower teaches after graduation from college.

To be eligible for this loan the student's family income must be \$10,000 or less. The student must also be carrying 12 units or more and be in good standing with the college (2.00 GPA or better). The maximum that can be borrowed is \$500 per semester or \$500 for the school year. Because of the funds available, first semester freshmen students will not be eligible for this loan.

Students enrolled in 12 transferable units with a police science major may apply for the Law Enforcement Education Loan. Students intending to become law enforcement officers, or planning to work in related fields, as well as police officers taking courses, are eligible for the loan. Students may apply for direct educational costs or, if the student can show need, he can receive educational costs plus receiving financial assistance.

Through the efforts of Cerritos College, local organizations and interested individuals, a short term loan fund has been established to aid students in temporary financial difficulties. This is an interest free loan and repayment is due thirty days after the loan is approved. These funds are limited and only students with ability to repay in the specified time may receive loans.

Information on all loan and financial aid programs can be obtained in the Student Affairs Office which is located in the Student Center Building.

## Letters To The Student Body

What is college like? I've been asked that question so many times. Believe it or not, there is no real answer. No one can explain to you how it will be. All anyone will be able to do is tell how they felt about coming to Cerritos.

You will find that there are so many different types of people. Everyone is here for a purpose. The main reason is to get an education. So many of you don't realize that you can't do well in school unless you enjoy school.

As an incoming freshman I was determined to study and get the best grades ever. But by just going to my classes, going to work and then going home made life monotonous. Doing what I did you can't meet anyone or even know about the school you're attending. So my second year at Cerritos I thought I would see what Cerritos was really like. I didn't know about any of the clubs or organizations on campus, but you get this feeling that if you asked someone you can find out.

Being a songleader was always a dream of mine. I found out when they had try-outs and what I had to do. Well, I was scared half to death but I made it! That was the beginning of my college experiences.

Sometimes I found I was getting too active and that my class work was becoming second to my mind again. That's when a visit in the library would seem more important than a visit in the student center.

It's something how you can be what you want and that no one really puts you down for it. You meet so many people with the same interests and other people with completely opposite points of view. But it's up to you to become "somebody", the person you want to be.

When I was asked to write this article

I thought I didn't know what to say. But when you leave here you leave with the knowledge from the class rooms and the many extra curricular experiences to help you better adjust to the outside world. I would never had dreamed that my plans would have changed so much from my original goal but here I am — with a good job I can really enjoy and about to get MARRIED.

— Linda Otsuka

To the Students of A.S.C.C.:

I would like to take this opportunity to especially invite you, as a new student to Cerritos College, to our Fall Leadership Conference which will be held September 8, 9, 10, 1971. This will be an experience you will never forget.

The Leadership Conference consists of workshops to inform students of what goes on in Student Government, Club Activities, Rallies, Special College Projects and Homecoming. This Conference is designed to acquaint you with the student programs of the college, and to get you involved as a student. Issues that affect every student on our campus will be discussed during the conference. There will also be time for swimming, tennis, volleyball, dancing, skits, a movie, and just plain old loafing.

We will be staying at the fabulous Erawan Garden Hotel in Indian Wells. We will be there for three days and two nights. During this period we hope to accomplish many things.

If you are interested in becoming involved in the activities of the ASCC please contact Vice-President Dick Otsuka in the Student Affairs Office. If he is not in please contact Miss Dozier.

Dick Otsuka

ASCC Vice President

## For Qualified Students Many Scholarships Available

Many civic and community service organizations and individuals place scholarships at Cerritos College for students in financial need. Many scholarships have their unique requirements and are designated to assist certain students with particular educational goals, special majors of study, residents of certain communities, etc.

Students interested in obtaining a scholarship should read the scholarship lists that are posted with every division chairman, in the counseling office, and in the Office of Student Affairs. From time to time there will be articles in the school newspaper regarding special scholarships that are available. Most scholarships are given to students after they have successfully completed some college work; however there are a few available for incoming freshmen.

Women's Club of Downey offers a \$50 scholarship for a former student of Downey or Warren High Schools who has financial need, a grade point average of 2.0 or better and will be continuing at Cerritos College.

There is a \$50 scholarship available to a male or female student majoring in English literature. This scholarship is provided by the Norwalk Women's Club.

American Legion Post 359 awards a \$50 scholarship to two different students each year. They must be residents of the college district, possess scholastic and leadership qualities and be active participants in student government.

A scholarship in the amount of \$50 is available to a male or female Gahr High School graduate with a minimum grade point average of 2.0. This scholarship is provided by the Norwalk College Estate Homeowners.

Norwalk Lionettes (in memory of Virginia Ronca) provides a \$50 scholarship to a female resident of Norwalk.

Medical assistance students of the Cerritos area with a C-plus grade point average and under 21 years of age may apply for a \$100 scholarship provided by the Southeast Medical Assistants Association. There are two scholarships available for this fall semester.

There is a professional nursing scholarship available for a nursing major with a 2.0 grade point average. The amount of the scholarship varies but the recipient must have the recommendation of the Nursing Department.

Whittier Kiwanis 605 Football game held at Cerritos College in July of 1971 provided Cerritos College with \$1000 to be used for scholarships for students in financial need.

Scholarships provided by Mr. and Mrs. Don Bullock, Mr. Leon Benwell and ARA Services vary in their amounts and are given to students with average grades who have financial need. These scholarships usually cover the costs of books and supplies.

Cerritos College C.S.E.A. provides scholarships to male or female full-time students who have completed at least one semester of 12 or more units with a minimum grade point average of 2.5. The amounts of the scholarships vary.

The Cerritos College Faculty Association provides three \$100 scholarships to high school graduates to be used for their educational costs while at Cerritos College. Also, three Cerritos faculty members have set up their own scholarships in the areas of Health Occupations, Metallurgy and Cosmetology.

A new scholarship and a very unusual one enters our scholarship picture this year. Miss Bonar of the Dakota Kennels will provide a \$50 scholarship. This scholarship is in the form of a contest. Students are to submit a drawing or

painting of a St. Bernard dog. The drawing may be in any media of the student's choice with a minimum size of 8 1/2" X 11". Drawings will be judged by Miss Bonar and an art instructor. The winner's drawing will become the property of the Dakota Kennels.

Delvers Gem and Mineral Society offers a scholarship to an earth science major with a minimum grade point average of 2.0. This scholarship is available to sophomore graduating or transferring students of Cerritos who plan to continue their education. A \$100 scholarship is awarded \$50 per semester.

Other scholarships that will be available later during the year are Associated Women Students; Alpha Gamma Sigma (Honor Society); Phi Rho Psi (Speech Squad); Bellflower Lions; Women's Auxiliary to the Los Angeles County Medical Association (Nursing major); American Association of University Women; Lakewood Artist Guild; Prosthetics and Orthotics; cosmetology scholarships provided by Barrette Hairstyles and Park Beauty Supply. The California Congress of Parents and Teachers will also provide a nursing scholarship in February to a student nurse who has outstanding achievement for the fall semester.

These are only a few of the scholarships available through the Office of Student Affairs. The scholarship list showing available scholarships indicate a more complete picture of the scholarship program.

Some organizations select their own scholarship recipients and then have their funds put in trust for them through the scholarship program at Cerritos. It is a pleasure at this time to acknowledge those organizations that have awarded funds to be used by Cerritos College students: ABC Council P.F.A., Artesia Kiwanis, Baseball Commissioner, California Guild for Deaf, Norwalk High School, Head Custodian Organization, Artesia H.S. Senior Class; Women's Club of Bellflower, Lakewood Pan American, La Raza Union, Philoptothus Society of St. Sophia Cathedral, Mexican American Scholarship Association, Norwalk Art Association, Mexican H.S. P.F.A., Norwalk Rotary, Tissue Foundation, Los Angeles Times.

(Continued on Page 5)

**AID AVAILABLE-** Miss Amy Dozier, Dean of Women, assists student in preparation of financial assistance form. Many types of aid are available for the needy student.

## State To Provide Funds For Extended Opportunity Program

This year Cerritos College will again participate in the Extended Opportunities Program and Services project funded by the State of California. The purpose of the Extended Opportunities Program is to aid students who are economically disadvantaged. The program provides for counseling, tutoring, the opportunity to pursue developmental classes in preparation for a full time college schedule, and financial aid in the form of grants which help meet the cost of college expenses.

To be eligible for the Extended Opportunities Program a student must meet the following criteria:

1. In need of financial assistance in order to pursue a course of study at the college.
2. A citizen or permanent resident of the United States.
3. A legal resident of the Cerritos Community College District.
4. Enrolled in a minimum of 12 units unless it is determined by the college that the student is in need of remedial or developmental courses.

This year Cerritos will receive \$20,000 for the Extended Opportunities Program. Last year Cerritos received \$20,000. All of these monies were distributed to students who were in financial need. The grants ranged from \$100 to \$400 depending upon the need of the individual. During the school year 1970-71 seventy-two (72) students were assisted through the EOP program.

Because of the amount of money available the maximum EOP grant for the 1971-1972 school year will be \$500.

The grants are intended to cover the educational costs incurred by students at Cerritos College. Educational costs at Cerritos include books, supplies, fees, transportation, plus other incidental expenses.

Students wishing to apply for EOP or any of the other financial aid programs should go to the Student Affairs Office and pick up a financial aid application. Members of the financial aid staff will be available from 9:00 a.m. to 5:00 p.m. each day during registration period to answer any questions concerning financial assistance programs.

**BETWEEN CALLS-** Three of the four telephone switchboard operators at Cerritos College pause between calls to be photographed. Seated, from left, are Nancilee Lopez and Dorothy Wilson. Standing is switchboard supervisor Eleanor Alva.

### Always Busy

## Operators Provide Many Answers

A funny thing happened on the way to the swimming pool the other day.

A young boy, probably about 10 or 11, decided to phone before riding his bike to the public pool for a swim.

And since the public pool for thousands of youngsters in this area is the huge swimming pool at Cerritos College, the young lad phoned the college with what to him must have been a very simple question.

"Do you have a warm bathing suit in the pool?"

Such a question might have flustered the average telephone switchboard operator, but it hardly caused a smile among the trio of operators on duty during the day at Cerritos College.

All three knew what the boy meant. He wasn't thinking about sunny dipping. He was talking about those stylish-to-the-young cat in blue jeans, which aren't allowed in some public swimming pools.

Actually, the telephone operators at the college get a kick out of such calls during the summer—it breaks up an otherwise hectic day so filled with phone calls that none of them ever has had a

chance to count how many calls they handle in an average day.

Busiest time of the year is at registration time. That's when all 20 lines into the two-position switchboard are likely to be busy all at once and, seemingly, all day and into the night.

"I know we must miss a lot of calls during registration," says switchboard supervisor Eleanor Alva, "but we do the best we can."

Most of the calls come in so fast that two operators are busy full time just answering and connecting calls. Another operator is on standby during the day to fill in at coffee and lunch breaks. A fourth operator is on duty from 5 to 10 p.m. daily.

In addition to answering thousands of calls, the operators help to place a number of calls. More than half of the 299 phone extensions now in use on the campus are restricted lines. That means that the operator must plug in an outside line for the person using one of those restricted phones. The phones in most administrative offices are not restricted so that the person using them can get an

outside line without going through the operator.

But that's not all they do. The operators staff the information booth in the Administration Building where they answer scores of questions day and night. And their semicircular office serves as the lost-and-found headquarters for that part of the campus.

And then there's the matter of mail. The switchboard adjoins the mail room, and one of the operators is in charge of the incoming and outgoing mail.

That's no small task. The college postage meter eats up approximately \$1,000 per month in postage. Some months the stamp bill is higher. When grade cards went out the other day, for example, the postage meter consumed \$1,282.64 in postage in one fell swoop.

Miss Alva, the switchboard supervisor, has been on the job since 1958—just a few years after the college was established. She's only the second person ever to be responsible for the switchboard and, yes, she knows as much about what goes on at the campus as anyone—probably more.

### • TALON MARKS •

Edited by Al Wheeler

Photography by George Gorman

Art by Tom Haygood

This special summer issue of Talon Marks is printed and published by the Associated Students. It is produced by the Student Affairs Office with the cooperation of the Curriculum Department.

The first regular issue of Talon Marks will appear the first Friday of the fall semester. This issue will be produced by the students enrolled in the journalism program at Cerritos College.

Students wishing to express their views are welcome to submit letters to the Editor to Talon Marks and Grants. Any reproduction of this paper's content should be written permission to the Student Affairs Office.

## College Offers Placement For Full, Part Time Students

Need a job to help cover the expenses of attending college? Take a few minutes to stop at the Job Placement Office.

Cerritos College, in cooperation with local businessmen, offers a wide variety of part-time campus jobs for students attending Cerritos. Some of the jobs require particular skills and knowledge; however, there are many jobs that can be filled by freshmen or other students who have no work experience or vocational training.

Most of the jobs available to students offer employment during the afternoon and evening hours, and many jobs have flexible working hours which can be adjusted to fit a student's school schedule.

In addition to providing job referrals, the Job Placement Office provides services for graduating students and for persons who have graduated from Cerritos College. Some of the other activities of Job Placement Office personnel include:

1. Keeping an up dated file on career employment opportunities and full time jobs in the local area.
2. Send graduate resumes to many

employers in the community to keep them informed of graduates who have the skills for employment in their company or business.

3. Planning and conducting an annual Career Information Day on the Cerritos campus. This provides the students with the opportunity to talk directly with business and industrial personnel representatives.

The Cerritos Student Job Placement Office is located in the college Administration Building, room AD 8. The office is open Monday through Friday from 8 a.m. to 12 noon and from 1 p.m. to 4:30 p.m. In a usual way, students should call the Job Placement Office with interview requests after office hours; however, it is necessary to arrange an appointment with Mrs. Carol J. Job Placement Interviewer.

To apply for employment the student should go to the placement office and fill out the necessary papers. If the student meets the employers' requirements he will be given a referral card to take to the employment interview. The student will be given only one employment referral at a time, but will be referred to employers as many times as needed to secure employment.

**LIVE MODEL**—Use of live model aids students in the life drawing classes. Students learn human form and how to draw using chalk, crayon, charcoal and oil.

### Calendar

## Cerritos Art Gallery Features Varied Shows

**Mexican American Show - September 20 through October 10**

This first show will exhibit the art work of eight to ten selected Mexican American artists of the Southern California area. The purpose is to focus upon this group of artists.

**Cerritos Invitational - October 18 through November 7**

This will be the Seventh Annual Invitational show. This is an exhibit of the work of two artists selected by a committee of the art department faculty from a list of the most outstanding professional artists in the Southern California area. The final choice is based upon the importance of the men and the value of the contribution the work will make to the school and the community. The two artists selected in 1969-1970 were Keith Crown (watercolor) and Sergei Bongart (oil). The artists exhibited in 1970-1971 were Jean and Arthur Ames from Claremont.

The two artists to be selected for 1971-1972 will be from the graphic art-commercial art area. They will be successful professional designers noted for the quality of their commercial work. We have never focused upon this aspect of art and judge that our students and community would find this very interesting.

**Cerritos Open - November 15 through December 19**

This will be the sixth year this show has been presented. This is an all media show open to any artist in California. In past shows many of the top artists of the area have competed for the honor of being in the show and for the prize money that is offered by the co-sponsors, the Fine Arts Associates. Last year there were 355 entries. Three professional judges selected 86 for acceptance and exhibition in the show.

**TINA CAN ALLEY**—Breadhunt Committee member helps with used cans that are sold to help students with financial problems.

## Breadhunt Committee Helps Students in Financial Need

Did you ever get the feeling that no one cares about other people? This isn't true at Cerritos College. There are several groups on campus who do a great deal to help others overcome their college problems. One of the newest groups is the Breadhunt Committee. This committee is made up of several students who are interested in helping fellow students who are having financial difficulty.

The committee, formed last year under the leadership of the Associated Students of Cerritos College, planned and carried out a variety of fund raising activities that provided money for short term loans, small grants, and provided matching funds for the Educational Opportunity Grants Program.

During the coming year the committee will attempt to expand its activities. Heading the committee will be Bob C. DeBaca, newly appointed Commissioner of Financial Aid. Bob's plans for this year include: open dances,

rummage sales, expanding the GAP project (recycling of glass, paper and aluminum), a carnival, Sizeable Effort project, various contests, plus other activities agreed on by the student committee.

Last year's committee was formed during the summer and did not get rolling until mid-way through the school year. Even with the slow start, the committee earned \$3,200 to help students in financial need.

Do you care about your fellow students? If so Bob C. DeBaca and his committee need your help. Even if you can spare only a few hours you can help with one of the projects.

If you are interested in serving on the Financial Aid Committee, or just interested in helping out you can get information in the Student Affairs Office, or by leaving a message for Bob C. DeBaca in the Bread Hunt mail box in the rear area of the Student Affairs Office.

## Films of Exotic Countries Presented in Lecture Series

**Persian Panorama - October 7, 1971 - Nicol Smith - BC 17** Nicol Smith's interest in exploration is not that of the archaeology or the historian. He is interested chiefly in people. Most of his programs are essentially stories about people. The empire of Persia has a rich and glorious history. Since 1935, this kingdom has been known by the modern name of Iran. You will see the magnificent mosques, the crown jewels and splendid horsemen astride their wild Arabian horses.

**Pulse of Portugal - November 4, 1971 - Jonathan Hager - Student Center** Mr. Hager is a Graduate of the University of Missouri School of Journalism. His travels have taken him from Iceland to the Sahara and through more than 30 countries on four continents. His films are a joint effort with his wife, a former British journalist. The "Pulse of Portugal" ranges from meeting the Portuguese to the midnight mass of 750,000 pilgrims pray for the peace of the world.

**Our Ultrasonic Age - December 2, 1971 - John M. Goddard - BC 17** A graduate of the University of Southern California, majoring in anthropology and psychology, John Goddard uses every

experience to expand his field of learning. Keenly observing all he encounters. In Our Ultrasonic Age, John Goddard details the most exciting developments in the field of modern aviation. It portrays classified information about America's fastest and most advanced supersonic planes, including fighters, bombers, and experimental aircraft.

**Hong Kong - January 13, 1972 - Willis Butler - BC 17** Willis Butler is a product of Chicago's North Shore suburbs and of Northwestern University's famous school of speech. His talents have led him into radio and television, university lecturing, public relations, and motion picture photography. Hong Kong, "the Berlin of Asia", is one of the most unusual and exciting places in the world. Willis Butler's colorful "Hong Kong", with its exotic atmosphere of East and West, brings an entertaining and information-packed story of one of the world's most beautiful, strategic and baffling places in the contemporary world.

**Sicily and Sardinia - February 24, 1972 - Bettina Shaw - BC 17** Bettina Shaw was born in Upton, Massachusetts, and reared in Boston. Her first career was in music, studying piano and voice. This film, Sicily and Sardinia, covers the cities of Palermo, Cagliari, Catania, Taormina, and Syracuse, the "greatest of Greek cities". This is the land of archaeology, castles, caves and grottoes, folklore and as yet comparatively untouched by tourists.

**Norse Adventure - April 27, 1972 - Hjordis Parker - BC 17** Hjordis Kittel Parker was born in Oslo, Norway. She became an American citizen and studied languages and journalism at the Universities of California and Washington. Mrs. Parker is a specialist in the Scandinavian countries. Norse Adventure is an adventurous history of Norway from the Ice Age through the Viking Period and up to the present time. Each major sequence begins with a historical introduction and develops into Norwegian life today, showing the influence of the strong Viking spirit through all phases of the nation's history.

**Indonesia '72 - May 18, 1972 - John Goddard - BC 17** John Goddard has visited more than 101 of the world's 133 countries logging more than one million land, sea, and air miles. In Indonesia '72 Goddard explores Djakarta, the sprawling, modern capital of Indonesia, to the Village cockfight, Bali, probably the world's most fascinating island, with its magnificent temples and the splendor of cremation ceremonies are unsurpassed. Balinese village life features Kris Dancers, the Monkey Dance, and Temple Cock Fights.

Admission is free to full-time Associated Students of Cerritos College.

## New Courses for Social Science Department

Three courses will be offered for the first time next fall by the social science division of Cerritos College.

They are an introductory course in social work, an African history class and one called introduction to education.

All three will be offered in the fall semester starting Sept. 13.

The social work course, to be taught by Clint Campbell will give students an introduction to the activities of social workers and allow them to work with private and public social agencies in cooperation with the Volunteers in Action (VIA) program sponsored by the Office of Community Services.

Stanley Jennings will teach the African history course, which will trace the history of the so-called Dark Continent from its beginnings to the present, with emphasis on events of the last century following the European invasion.

Dr. Donald Singer, chairman of the social science division, will teach the new course on education. It will cover the three levels of education—primary, secondary and higher education—and the history of education and examine the teaching profession and its salary and working conditions. It is not just for potential teachers; it is open to anyone interested in education in general. Dr. Singer said.

Registration for the tuition-free classes will begin Aug. 16. All three of these new courses are scheduled during daytime hours.

Information about registration is available from the Admissions Office of the Administration Building, 11110 Alondra Blvd., Norwalk. The phone is 860-2451, Extension 212.

## Registration At First Meeting

## Community Education

Registration for all Community Education classes will be held during the first class meeting. No tuition fee is charged for residents of the Cerritos College District. Additional information about each of the classes may be obtained from the Office of Community Services.

**Career Preparation for Office Occupations:** Sept. 13-Oct. 12, 2:40 p.m. BE-12 & 13, MTWTh - 18 sessions.

**Multi-Clerical Skills:** Sept. 13-Oct. 12, 3:7 p.m., BE-13 & 15, MTWTh - 18 sessions.

**Key Punch Training:** Sept. 14, Nov. 2, 4:5 p.m., SS-115, TTh - 16 sessions.

**Small Business Administration I:** Sept. 16-Nov. 11, 7:20 p.m., SS-316, Thursdays 9 sessions.

**Machine Shop for the Amateur Craftsman:** Sept. 25-Nov. 20, 8:12 noon, ME-3, Saturdays - 9 sessions.

**Pre-Business Workshop:** Sept. 21, 10 a.m.-4 p.m., Board Room, Thursday - one day session.

**Elements of Counseling Relationships I:** Sept. 22-Dec. 8, 7:10 p.m. and 9 a.m. - 12 noon, SS-316, Wednesdays - two sections of twelve sessions each.

**Personal Investments:** October 8-22, 7:10 p.m., SS-316, Fridays 3 sessions.

**Reality Choices for Women:** Sept. 22, Oct. 27, 9 a.m. - 12 noon, SS-316, Tuesdays - 6 sessions.

**Elements of Counseling Relationships II:** Sept. 23-Dec. 16, 7:10 p.m. and 9 a.m. - 12 noon, AC-54, Thursdays - two sections of twelve sessions each.

## Soup to Nuts On Menu At Elbow Room

### "SNACK SHOPPE"

Hours of operation are from 7:30 a.m. to 9:00 p.m., Mondays through Thursdays. From 7:30 a.m. to 2:30 p.m. on Fridays.

Location: Next to the bookstore in the Student Center Building.

Serving: A large variety of snack bar items both hot and cold. A self-serve line operation for your convenience and satisfaction.

### "HOF BRAU"

Hours of operation are from 10:00 a.m. to 1:30 p.m., Mondays through Fridays.

Location: In the Student Center.

Serving: Broiled and grilled items, custom made sandwiches and a daily hot entree "soup to nuts". Specializing in complete meals for less than a dollar. Our custom made sandwiches include baron of beef, baked ham, breast of turkey, pastrami and corned beef and other mouth watering meats served to order—a gourmet's delight.

### "THE ELBOW ROOM"

Hours of operation are from 7:30 a.m. to 1:30 p.m. and 5:00 to 9:00 p.m. Mondays through Thursdays. From 7:30 to 1:30 p.m. on Fridays.

Location: On the Northwest end of the Liberal Arts Building, room number 5.

Serving: A large variety of snack bar items at reasonable prices. Beverages, sandwiches, salads, pastries, ice cream, and specialty items are the order of the day.

In addition there are a number of vending machines located throughout the campus for convenience items such as beverages, candy, cigarettes, ice cream, fresh fruit, etc. These machines are located in the Liberal Arts Building; Student Center; Snack Shoppe; Physical Science Building; Men's P.E.; Women's P.E.; Metal Shop; and Cosmetology.

## Attention 'Older' Students

Youth is not a time of life—it is a state of mind. It is not a matter of red cheeks, red lips, and supple knees. It is a temper of the well, a quality of the imagination, a vigor of the emotions; it is a freshness of the deep springs of life. Youth means a temperamental predominance of courage over timidity, of the appetite for adventure over a life of ease. This often exists in a man of 50 or more, than in a boy of 20. Nobody grows old merely living a number of years; people grow old by deserting their ideals.

May those words of Samuel Ullman be encouragement to the "older" Cerritos students. You are not alone in your pursuit of higher education. Predictions indicate that if you are 21 years of age or older you will be in the majority. 23% of our students are 21-24 years, 35% are between the ages of 25-49 years, and yes there are 3% 50 years of older.

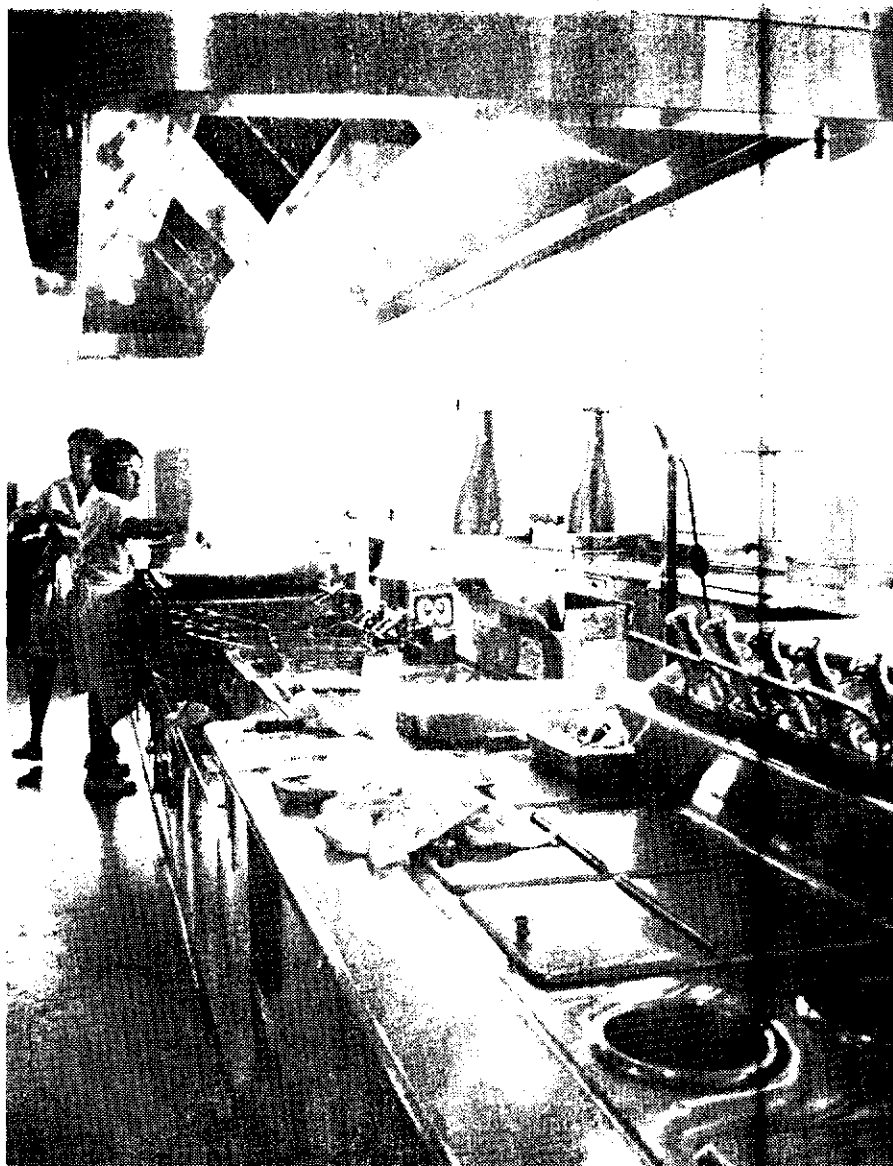

Education comes in many forms and students come in many packages of all ages.

## Social Security Benefits

Social Security cash benefits may be paid monthly for furthering the education of dependent, unmarried students whose parents have become eligible for Social Security benefits. Students eligible should go to the Social Security office and request approval for education benefits. Most of our students will go to the Social Security Administration Office, 229 E. Philadelphia, in Whittier. There are also offices in Huntington Park and Long Beach. Either the parents or the student may file. Applicants must be between 18 and 22 years of age and the dependent of a parent who receives Social Security disability or retirement benefits or who is deceased. The amount of the aid received depends upon family income. Payments range from \$25 to \$126 per month.

Cerritos College cooperates with the Social Security Administration in completing their forms SSA 1372A, certification that the student is in attendance on a full-time basis at our college; and, form SSA 1542, notifying the Social Security Administration if a student should withdraw, change to part-time status, be suspended or expelled or fail to continue in attendance at the beginning of a new semester.

If you have any questions regarding this program, please contact the Social Security benefits clerk in the Cerritos College Office of Admissions in the administration building.

**READY FOR RUSH**—Members and staff of Food Services get ready for the masses of students who will fill the student center this fall.

## Club Program Set To Meet Campus Needs

The club program at Cerritos is in ever growing phase of student life. This past year saw several new clubs enter the campus scene. The club programs are a reflection of each year's student needs. As the students become involved each year, these choices take quite different directions. Regardless of what is done each year, there is always a great deal of activity within each club. According to Mr. John McLean, Coordinator of Activities, at the present time there are 51 active clubs on campus involving approximately 1500 students. Each club concerns itself with a special area of interest. The clubs are divided into four commissions.

The Curricular Commission includes those clubs whose purpose centers around an academic interest. Last year's Curricular Club of the Year Award was won by the Beta Beta Beta business club.

The Panhellenic Commission includes the social fraternities and sororities. Their primary purpose includes social

activities, although they are usually one of the most active groups with service projects. Lambda Phi Sigma received the Panhellenic Club of the Year Award last year.

The Service Commission includes those clubs whose primary purpose is to serve the interests of the total school program and community. The Service Club of the Year Award was won by the Circle K club last year.

The fourth Commission is the Special Interest. These include religious, political and avocational clubs. Last year's special interest Club of the Year Award was won by the Vets Club.

The Club programs seek to meet the needs of all students on campus. If a student feels that there are no clubs on campus which meet his needs he may stop by the Office of Student Affairs and discuss the possibility of forming a new club. All students are advised to look into the many clubs on campus and join one which they feel will be most beneficial to them.

## Law Enforcement Program Aims At Recruiting Potential Officers

The Law Enforcement Education Program is intended to upgrade the general caliber of police, correction and court officers in local, State and Federal levels, and to encourage students to seek law enforcement careers. Grants and loans are available under this program.

The grant program is restricted to pre-service law enforcement officers of local, state and Federal units of government. Grants issued shall be used only to cover the cost of books or mandatory fees required for classes. The cost of supplies cannot be reimbursed from grant funds. These grant funds are awarded to in-service law enforcement officers without regard to financial need assessment tests. Officers may enroll in part time or full-time study in courses. The courses in which a grant recipient enrolls must be creditable toward a Certificate Associate or Baccalaureate degree, even though the student is not seeking a degree at the time. Curriculum for grant recipients need not include courses designed expressly for law enforcement officers. A wide range of academic offerings can contribute to the educational enrichment of criminal justice personnel and thus it is appropriate for in-service students to enroll for a variety of courses in various fields in arts and sciences. A grant recipient may enroll for any courses which his agency head may certify as related to law enforcement or suitable for personnel employed in law enforcement. Each student must obtain a letter of recommendation from his agency head, certifying that the courses for which he seeks enrollment are suitable. The officer must also certify that the student is a full-time employee of the agency and that LEEP funds awarded the employee will not supplant public funds which previously have been available to him for educational costs. This grant must be repaid only if the student does not satisfy the two year employment requirement in the service of his employing law enforcement agency.

The Law Enforcement Education Program loan program entitles passers two attractions for borrowers. First, a need analysis test for direct educational costs is required, and 2) cancellation of the rate of 25% of total indebtedness plus interest is allowed for each complete year of full-time service as a law enforcement officer following the cessation of student status. An applicant must be a full-time student and intends to pursue full-time employment in a publicly funded local, State or Federal law enforcement agency upon completion of his studies. A student who qualifies is entitled to a loan in the amount sufficient to cover the cost of his direct educational expenses such as required fees, books, supplies and

transportation. A needs assessment test is required of loan applicants if they seek funds to cover those required for direct educational costs. A preservice student desiring a loan must verify his intent to enter the criminal justice system and his employability in the system by obtaining a letter from a criminal justice agency stating that if the student passes all the necessary tests and otherwise meets the qualifications for employment, the agency would consider the student eligible for employment.

The Law Enforcement Education Program has had some major changes for the school year 1971-72, according to Miss Dozier, Financial Aid Officer. She suggests that all officers requesting grants for books and required class fees submit their receipts of book purchases when submitting their application.

Applications are available to students upon completion of their registration. All pre-service majors and officers in the field of criminal justice may contact the Office of Student Affairs for further information.

## Community Services Programs Serve Students, Residents

The Office of Community Service presents programs of interest to both the Cerritos student and residents of the community. Many outstanding programs have been scheduled during this school year. All the events are free to full-time members of the Associated Students of Cerritos College. Special bulletins and posters will announce the programs and events throughout the year. If you desire further information pertaining to each event you are invited to stop by the Community Services Office located in the Administration Building.

The lecture series will begin October 20th with Dr. Murry Banks' talk "What To Do Until The Psychiatrist Comes." This is probably the second most frequently given talk in the world. Dr. Banks is an Adjunct Professor of Psychology at Northwood Institute in Michigan. He has published six books and seven LP's.

On November 18th Mrs. Treasa Durr's topic will be "Consumer Education Verses Protection." Mrs. Durr believes that the consumer must be educated both the rich, middle class, and the poor. She is a co-host with Regis Phillips of Tempo on KHTV, a two hour talk interview show.

Mr. Paul Jacobs will speak on "No Peace in the Middle East" on March 16, 1972. Mr. Jacobs is a writer and social critic who has been a consultant for the Center for the Study of Democratic Institutions.

March 23rd will bring Mrs. Elizabeth Gaudin, an environmentalist both in her work and in her volunteer activities. Mrs. Gaudin, an acoustical engineer with prior experience in system analysis and acoustics. She also does research and consulting in aircraft transportation and community noise problems and in architectural and legal control of noise. Her topic is "Noise in the Urban Environment: Its Causes, Effects and Some Suggested Course."

"Why Parents and Children Don't Understand Each Other" will be the

topic for Bruno Bettelheim on April 13. Dr. Bettelheim is a professor of Psychology and Psychiatry at the University of Chicago. He is director of the Orthogenic school, the University's residential treatment center for severely emotionally disturbed children.

These five outstanding speakers can add much to your knowledge while at Cerritos College.

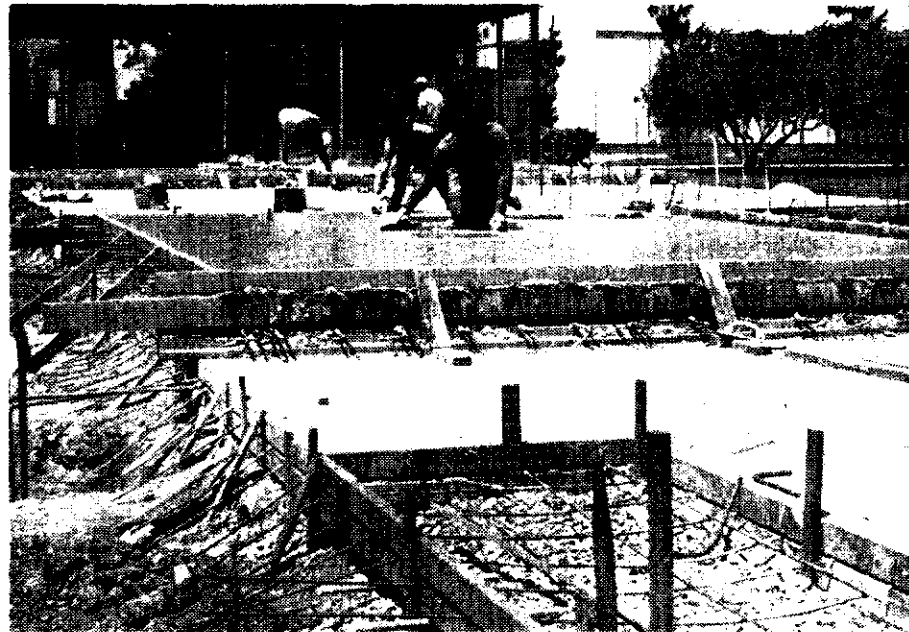

The Office of Community Service will also present the Folklorico Chorus de Mexico, May 1, 1972. The vocal group, Los Paupers, is a new and original adventure in music, which consists of artists who are versatile, and inspired by the mastery of Mexican composers. The artists are first tenor Jorge Perea, second tenor, Enrique Perea; baritone, Javier Perea and Amado Hernandez, and bass; Raymundo Romero. The director is Luciano Maya.

Each year there is a Faculty Lecture series presentation. This year three outstanding Cerritos teachers will present lectures on communication problems confronting education and rock art in Southern California.

"Touch Me - The Need for Contact in Communication" will be presented by Robert A. Dayton December 8. He will discuss the problem of taboos against touch in American society and an explanation of the need for touch in the healthy development of the individual.

Dr. Donald Singer on January 9 will present a historical analysis of problems confronting higher education: comparisons and contrasts with today. His lecture is entitled "Problems in Higher Education: A Backward Glance."

Mr. Frank Book, February 16th, will present a slide lecture on Petroglyphs. His topic will be "The Signs That Men Were Here" promoted by the motivating factor that rockwriting is the only vestige of prehistory that was a deliberate attempt at communication. He has been appalled by the erosion from the earth of his link to the past.

**MORE MUSCLE**—Construction of a weight room is going on right under way as part of an expanding Physical Education Department.

## Expanded Work-Study Program Provides Student Employment

The Federal Government and Cerritos College make funds available for the College Work Study (CWS) and Educational Opportunity Grant (EOG) programs.

College Work Study is designed to expand part-time employment for students, particularly those from low income families who need earnings from employment in order to attend college. If a student's family income is from state aid, social security, or if the family income is below \$7,500 the student should submit an application for consideration.

This year \$50,337 has been designated for use in the work study program at Cerritos. Eligible students will be given the opportunity to work from 10 to 15 hours per week in various areas of the campus. Earnings range from \$200 to \$1,900 per year depending upon the need of the individual. Efforts are also made to place eligible students in areas related to their college major or in areas where the student has a particular interest.

The Educational Opportunity Grant Program is designed to aid students with

exceptional financial difficulties who need funds to enter and to remain in college. To be eligible for the Educational Opportunity Program the student must submit evidence that he is financially disadvantaged and that the financial difficulty is not of temporary nature. In order to receive an Educational Opportunity Grant the student must also obtain matching funds either from the College Work Study Program, National Defense Student Loan Program, or from other funds controlled by the institution.

Any student wishing information on the programs described above should come to the Office of Student Affairs and see Miss Dozier, Financial Aid Officer, or Mr. Adams, Coordinator of Financial Assistance.

Funds for the programs described above are still available and applications are now being accepted. Students interested in being considered for these programs should submit their application now in order to be considered before school begins in September.

## Falcon Band Starts Pre-Season Drills

The Cerritos College Falcon Marching Band will begin its pre-season drills on Tuesday night, September 7th from 6 to 10 p.m. in BC 53. Rehearsals will continue September 7-11th, 6 to 10 p.m., with a social get acquainted party following the practice on Saturday, September 11th.

This year the Cerritos Falcon Band will present four home game shows. Spectacular shows include the Spectacular High School Band Night Show, involving ten or more outstanding high school bands as well as the Cerritos Band.

Those interested in belonging to the Cerritos Falcon Band should contact the Music office for further information as soon as possible.

The Cerritos Band will be led by two drum majors this fall, sophomore Jeff Volkman and freshman Craig Westerlin.

Featured twirlers will include Jeannette Fredericks, Pam Richardson and Skip Chappell. Other members of the majorettes squad include: Valerie Murray and Cathy Barger; include Valerie Murray and Cathy Barger.

Attention! The Cerritos Falcon Band needs eight attractive female banner carriers to front the Cerritos Band in its pre-game and half-time pageantry this fall. Girls will have to be attractive, know their left foot from their right and be willing to work hard with the Cerritos Band in practice. One unit of credit is available if needed.

The Cerritos Neophonic Orchestra at Southern California will hold auditions for membership in this nationally-famous group on Sunday September 12th at 2:00 p.m. in the Cerritos Band room (BC 53). Students interested should have had a reasonable amount of experience in high school or college jazz ensembles, and should be an above average player.

Cerritos offers a wide range of activities and training for those interested in music. Beginning classes in piano, guitar, and voice as well as advanced ensembles, both vocal and instrumental allow anyone, regardless of their background and experience, an opportunity to express themselves in music. See your counselor and/or catalog for further details.

## Veterans Must Register For GI Benefits

Here we go again—ready to start another year and hopefully a successful year for everyone.

If you are planning to use your benefits for the first time, be sure you stop at the Veterans station during your registration process. Because of the influx of veterans in Southern California, it normally takes the V A two (2) months to process any applications. Therefore, it will be until the end of December or early January before you will begin to receive benefits. After the first payment is received your checks will come regularly between the third and tenth of each month. So be prepared!

For those of you who are returning to Cerritos after a good summer vacation, there are a few facts you should know.

First, there will also be a delay in your checks. It will take us the entire month of October to complete our certifying. Therefore, you should receive your first check about the middle of November.

There are a few things all vets can do to help us with the paperwork. YOU MUST fill out our white information card and return it before you complete your registration. Take your yellow attendance forms to your instructors beginning September 20 and return them to the Veterans desk on September 24, or any time thereafter. Both of these forms can be obtained at station 4 during your registration. If you have any questions be sure to ask—it may eliminate any future problems.

A minimum of 12 units is required for your full time benefits. For a single man \$175 is full time, \$205 for a married vet, and \$230 with a wife and child. A breakdown on other benefits is also available at station 4.

Surviving dependents, of a veteran who has died of a service connected disability, are eligible to receive the educational benefits of the father and should also stop at the Veterans desk during registration.

After school starts the Veteran desk is located in the Counseling office. There will be someone there all day from 8 a.m. to 9 p.m. Mrs. Martin is there during the day from 8:430 Monday through Friday; Mrs. Collins is there in the evenings from 4-9 Monday through Thursday.

We might also mention the Cerritos College has a Vets Club. They meet on the 2nd and 4th Tuesday at 11 a.m. Veterans will find unity, social and service projects of interest through this club.

## Club Day Sept. 21

On September 21, from 10 to 12 o'clock in the Quad, we will have Club Booth Day. Each semester the number and quality of the booths increases. Each club on campus will be setting up displays and handing out literature regarding the club. The purpose of Club Booth Day is to familiarize the students with the many different clubs and activities available to them. There will be different and elaborate displays for all students to see. Plan now to visit the various booths and perhaps join a club of your choice.

There will also be a booth of the Homecoming Committee. Students wishing to serve on the many Homecoming committees are invited to visit the booth and sign up at that time.

Student Government will have its own booth this year. Associated Student officers from Cabinet, Senate, and Court will be present to discuss the Cerritos College Student Government program with interested students.

## Be Aware Of Student Affairs

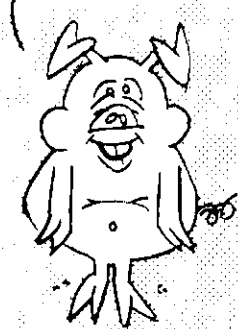

On September 8, 9, and 10, approximately 120 Cerritos College students and staff will attend the Fall Leadership Conference in Palm Desert. The Conference is designation to organize and complete plans for the annual programs and activities as well as to explore new events relating to the current concerns of you, the student.

The Conference is open to new as well as continuing students. We need representation from student government, campus organizations including song and yell, falconettes, band, choir and students at large.

Workshops and discussion groups are designed for active participation by the student and staff member. After long hours of workshop and discussions planned recreation will be available. Those attending this conference can plan on hard, meaningful work and ample time for relaxation. Recreation activities will include swimming, dancing, game night and skit night. A sample of the type of workshop and discussion groups will be student government, inter-club council, financial aids, evaluation (3-E), awards, special interest groups and homecoming.

Cerritos College students interested in this conference or any of the activities and programs should stop by the Office of Student Affairs for complete information.

## Pre-Game Bar-B-Que Sept. 18

Football season returns to the Cerritos campus on Sept. 18 when the Falcons play host to the mighty Renegades of Bakersfield. Students can make the scene and be in on the action by attending the pre-game Bar-B-Que which will be held at the baseball field from 4:30 p.m. to 6:30 p.m. Tickets at \$5.00 each for full-time ASCC card holders, can be purchased from the Student Center box office. General admission will be \$1.25.

This hamburger feed normally attracts around 1500 fans and students of both colleges. Jack Wheaton and his band will be on hand to give a preview of the music you will be hearing at all of the games.

## Scholarships

(Continued from Page 2)

ABC Unified C.S.E.A.; Bob Marshall Memorial; Artesia H.S. Art Club; SCRIBES; El Camino H.S. Faculty Association; Whittier Jr. High School P.T.A.; Woodman of the World; Norwalk Kiwanis; Los Cerritos District CFWC; Jr.; Whittier Kiwanis; Artesia Kiwanis; Artesia Kiwanis; Lakewood Women's Club Art Scholarship; Whittier Hospital Auxiliary; Studebaker Hospital Auxiliary; Norwalk B.P.W. Club; La Palma Women's Club; Artesia High School P.T.A.; Artesia High School Faculty Club; Bellflower Education Association; Aid Association for Lutherans; LULAC; MAPA; La Mirada B.P.W.; Soroptimist Club of Bellflower; Cramia Teachers Association of American; Kilbride Award (Roosevelt Adult School); Downey Kiwanis; American Indian Scholarship; U.S. Figure Skating Association; Pacific Lodge Boys Home; Los Latinos; Gahr H.S. UNASCO and the Future of the Gahr H.S.

## Falcons Meet Bakersfield September 18

Cerritos students will have an opportunity, on Sept. 18th, to see two of the best teams in junior college football renew a rivalry that started in a Potato Bowl game in 1969. The Renegades won that game in a wide open offensive battle 50-28. Since then the two colleges have met seven times with Cerritos winning 4 and losing 3. The Renegades have been the perennial champs of the Metropolitan conference and each year have had the misfortune of losing to Fullerton in the state playoffs.

This year's contest will see two coaches, Jerry Collis of Bakersfield and Ernie Johnson of Cerritos, that are strong defensive strategists with teams that will rely on the running game to control the ball.

Bakersfield, with a lot of returning sophoms from last year's Metro champs, has always been a big team with a good fullback to spearhead the running attack.

Cerritos, under new head coach Johnson, will have a few veterans, but will be relying mostly on the talents of a crop of outstanding freshmen.

**MORE TO COME:** Cerritos students will have the opportunity to see fast paced football action when the Falcons host Bakersfield in the season opener Sept. 18.

# Iron Man Trophy Evades Cerritos Despite Good Year

Although Cerritos College failed for the first time in three years to win the conference Iron Man trophy, Falcon athletes upheld the college's perennial winning tradition during 1970-71.

During the year Cerritos teams compiled a combined record of 104 victories against 58 losses and four ties, a winning percentage of 62.7. Although that means the Falcons prevailed in nearly two of three athletic contests held throughout the year, the winning percentage was slightly under that compiled during the 14 years in which the college has been fielding athletic teams. The 14-year combined mark is 64.5 per cent. That includes 1,392 wins, 754 losses and 11 ties.

The 1970-71 Iron Man trophy of the South Coast Conference went to Fullerton Junior College, which had 101½ points to 99½ earned by Cerritos. The trophy is awarded annually to the college in the South Coast Conference which compiles the most outstanding record in all sports in which conference members compete.

Despite loss of the trophy, the Falcons could boast of South Coast conference titles in wrestling, basketball and water polo, followed by a state championship in wrestling and a second-in-state finish in basketball.

In 14 years of Western States, Metropolitan and South Coast Conference activity, Falcon teams have recorded 19 conference titles and five state championships.

Wally Kozak's Cerritos baseball teams and Hal Stammek's wrestling squads have each captured five conference titles. In addition, the Falcons have won two state titles in basketball and one in wrestling.

Both the men's basketball and water polo programs have produced three state champions and in 1970 the Falcons won the state basketball title while the water polo squad worked off with state honors in 1967.

Cerritos also has one football, one track and one cross country title to its credit.

In 1970-71 Cerritos won more than 70 per cent of its contests in four separate sports.

The state champion wrestlers led the way with a 10-1-2 record for an 81.3 per cent victory total. Not far behind was Pat Tyne's conference champion water polo squad with a 21-5 mark for an 80.5 per cent record.

Jim Killingsworth's basketball squad had an even 4-4 record with a 24-6 record. The basketball team had 24 victories in 34 games for 70.6 per cent.

Also enjoying winning seasons were the track squad (5-3 for 62.5 per cent) and the cross country team (4-3 for 57.1 per cent).

In its 14-year history Cerritos has a winning record in eight of the 11 sports in which the Falcons participate.

Wrestling leads the field with victories at 85.7 per cent of its contests. Falcon baseball teams have won 80.2 per cent of the time, and water polo teams have won 72.5 per cent of their games.

Also with winning records are football (79.9), basketball (68.4), track (67.0), cross country (61.4) and swimming (52.9).

The Cerritos Bench, the community booster organization for Cerritos College sports, will open its fall activities by breaking a couple of traditions.

The Bench will change its meeting night from Tuesdays to Wednesdays during football season. At the meetings members have an opportunity to see films of the past week's game, visit with coaches and hear scouting reports of the coming week's contest.

Another tradition fell when Bench members voted to invite their wives to all meetings. In previous years a ladies night program was held once a season, but this year the women will have a

ladies night at every meeting.

The Bench is currently in a membership drive headed by Dai Hall of Downey.

Other chairmen selected by the Bench include Gene Overby, who heads the barbecue committee, and J. R. Unruh, who will chair the best battle committee.

Cerritos College football fans who show up at the traditional 8 p.m. game this season will find they have missed the first quarter.

The South Coast Conference has decided to play its 1971 games beginning at 7:30. The move is designed to end the games earlier to get football fans home or to other weekend activities at a reasonable hour, according to Don Hall, director of athletics and recreation.

The 1971 football schedule for Cerritos under new head coach Ernie Johnson is as follows:

Sept. 18 Bakersfield at Cerritos  
Sept. 25 Long Beach City at Long Beach  
Oct. 16 San Diego City at Cerritos  
Oct. 23 Mt. San Antonio at Mt. SAC  
Oct. 30 San Diego Mesa at San Diego  
Nov. 6 Orange Coast at Cerritos  
Nov. 13 Santa Ana at Santa Ana  
Nov. 20 Fullerton at Cerritos

### 1971 CROSS COUNTRY SCHEDULE

DATE	DAY	TIME	OPPONENT	PLACE
Sept. 18	Sat.	10:00 a.m.	LB State Invitational	Long Beach
Sept. 24	Fri.	3:30 p.m.	Rio Hondo	Lake Egge
*Oct. 8	Fri.	3:30 p.m.	SAN DIEGO CITY	CERRITOS

## Returning Athletes Face New Coaches

Cerritos athletes, returning to the campus this fall, will have an opportunity to play under a number of new coaches.

Ernie Johnson, a man who has taken 11 consecutive high school football teams to the CIF playoffs, will be at the reins of the Falcon football team. Johnson brings a record of 116 wins, 33 losses, and five ties to Cerritos. Most of the record was compiled at El Rancho High School where coach Johnson watched his teams win nine championships and 10 trips to the playoffs. In these 10 CIF playoff trips the team made the finals 5 times winning twice and battling to a famous draw with St. Paul on a third occasion.

Coach Johnson is a firm believer in team play and high moral. He has often said that football should be fun and that he never wants a player to leave a practice or a game unhappy. A strong fundamentalist, with the emphasis placed on the defense has been the trademark of a Johnson coached team. His belief that offense is played by talented players but defense can be played by desperate men has been proven by the results of teams he has coached.

Wayne Harris, and Lefty Pendleton, veteran coaches, and Marv Grim who will be in his second year at Cerritos will be assisting coach Johnson.

Coach Jim Killingsworth has departed the Cerritos Hardwoods for a head coaching position at Idaho State. Coach Killingsworth established Cerritos as a real basketball power as he won three championships and one state title in his seven years as head coach. Coach Bob Foerster, Killingsworth's assistant, has been selected to continue this winning record. Coach Foerster came to Cerritos from Bellflower High School where his teams won two league titles and went to the CIF playoffs five times. He is the third Killingsworth assistant to be named as a head coach having been preceded by Bob Dye (Santa Monica) and Bob Bland (Rio Hondo). Foerster handled the defense in his two years as an assistant and saw his efforts pay off

as the Falcons led Southern California in number of points per game allowed.

Assisting Foerster will be Jack Bogdanovich, one of Southern California's outstanding high school varsity coaches.

The Foerster-Bogdanovich coaching combination will be nothing new. Bogdanovich was Foerster's assistant at Bellflower High School and succeeded him when Foerster was named as assistant coach at Cerritos.

He says his two greatest thrills since becoming a coach were in the 1970-71 season. The first was for his team to topple previously unbeaten West Covina High School in a double overtime thriller. The second was to be selected to coach the South AAA all-star team which played at the Los Angeles Sports Arena on July 14.

Bogdanovich began his athletic career as a member of the San Pedro Boys Club, where he played basketball and baseball. In high school he was captain of both the basketball and baseball teams and was named to the All-Los Angeles City basketball team during his senior year.

He received his bachelor's and master's degrees from California State College Long Beach, where he lettered in both of his chosen sports for three years.

In 1964 he was a student teacher with a coaching assignment at Bellflower High in charge of the "C" basketball squad. His first fulltime teaching position was at Artesia High School, where he coached the basketball "B" team and the freshman baseball team, also teaching health and science.

He returned to Bellflower High School in 1966 to coach the "B" football and junior varsity tennis teams. He coached junior varsity baseball the last three years; six of those nine teams won championships, including all of the baseball teams with a total record of 60 wins and 15 losses.

Last year the Bellflower basketball team had a 24-8 won-lost season record, winning the league championship with an 8-2 mark.

## Gridironers Look Foward To Tough Competition

It'll be on with the old and with the new for the Cerritos College football team during its 1971 campaign.

The Falcons will play six games with still relatively new South Coast Conference members, and long-time Cerritos fans will get the treat of seeing three traditional foes in pre conference action.

What's more, many eyes will be on Ernie Johnson, one of the state's outstanding high school football coaches who will be in his first year as head coach at Cerritos.

Cerritos will open its season by hosting Bakersfield Sept. 18. The Falcons then go to Long Beach and East Los Angeles in the next two weeks. All three of the non conference opponents are former yearly foes of Cerritos when the Falcons were in the Metropolitan Conference.

South Coast Conference activity will begin Oct. 16 when the Falcons host San Diego City College. Cerritos will also meet Orange Coast and two-time defending Fullerton in home conference games.

Cerritos and Bakersfield staged some of the most dramatic games in the history of the Metropolitan Conference, including a Cerritos victory in the last seven seconds and a Renegade triumph in the final minute when the two teams were ranked 1-2 in the state.

The Falcons and Gades have not met for two years since Cerritos left Metro to join South Coast, which will be opening its third season this year.

Then it's on to Long Beach, where the Falcons will continue an athletic rivalry in which the two powerhouses have battled up and down the state in virtually every sport. When Cerritos and Long Beach City College meet, you can throw away the point spread, because they have proved so many times that anything goes.

On Oct. 2 the Falcons will visit another old friend, East Los Angeles, although Cerritos isn't expecting the

Huskies to be as friendly as they once were.

When both were members of the Metropolitan Conference, East Los Angeles was never able to pin a defeat on the Falcons. Shortly after Cerritos left Metro, however, East Los Angeles put together the finest football team in the college's history.

Cerritos then enters conference activity, hosting San Diego City College, with the Knights seeking revenge for last season's dramatic Cerritos win at San Diego.

The Falcons are then on the road again for two more weeks, visiting Mt. San Antonio and then San Diego Mesa, where the Falcons' championship hopes were shattered in the closing seconds two years ago.

Last season Cerritos topped Mesa in similar fashion at Cerritos, as the two colleges quickly established a tradition of playing heart-stoppers when they meet.

The Falcons host Orange Coast Nov. 6 and then visit Santa Ana Nov. 13, before hosting Fullerton in the conference finale Nov. 20.

Both Orange Coast College and Santa Ana posted hard-fought victories over Cerritos last season, but Fullerton administered the toughest loss the Falcons have suffered since joining the conference.

All but counted out of the game, the Falcons rallied to take a 17-0 halftime lead against a team which finished second in the state after winning its second straight conference title.

But the rugged Hornets struggled back for a 21-17 victory, their second in a row over Cerritos.

Cerritos athletic director Don Hall has issued another reminder to Falcon football fans that all Cerritos games will begin at 7:30 p.m. this year, 30 minutes ahead of the traditional starting time.

The South Coast Conference voted this season to move up the starting times to get fans home or to other weekend activities at an earlier hour.

### 1971 FOOTBALL SCHEDULE

DATE	OPPONENT	PLACE
Sept. 18	BAKERSFIELD	CERRITOS
Sept. 24	Long Beach	Long Beach
Oct. 2	East L. A.	East L. A.
*Oct. 16	SAN DIEGO CITY	CERRITOS
