Wednesday, January 15, 1975

## News items

### Cafe closed

The cafeteria and snack bar will be closed for finals, January 21 through Jan. 28. The snack bar will re-open Jan. 30 and the cafeteria will resume service Feb. 3, the day instruction begins.

### Ceramic display

The Seventh Ceramic Annual is on display through Jan. 24 at the college Art Gallery.

Two hundred pieces were entered, and 48 received recognition. Six Cerritos artists, Victor Citrin, David Furman, George Geyer, Steven Karatzas, Herb Rabbin, and Joe Soldate received \$100 each.

The gallery is open from 11 a.m. to 3 p.m. and 6 p.m. to 9 p.m. Monday through Thursday, and 11 a.m. to 2 p.m. on Friday.

### Bianco wins

Jill Bianco, Cerritos photography student, has been named first place winner of the City of Cerritos' photography contest in the over-18 category.

Bianco entered a character study of an old westerner from part of an assignment for her class at Cerritos taught by Donald Desfor.

The winning photograph is on display at the Pat Nixon Home and Museum at 12364 South Street, Norwalk.

### Prof. is author

Cerritos assistant professor Wolf R. DeLyre was recently informed that Prentice-Hall will distribute his new text for dental assistants and hygienists this month.

DeLyre authored "Essentials of Dental Radiography for Dental Assistants and Hygienists, a basic text accompanied by a structured workbook.

### Job openings

Two positions—custodian and watchman—are open to all interested persons.

Both positions are temporary and will terminate on June 30, 1975, unless additional federal funds are received.

Applicants must have been unemployed or underemployed for the past 30 days and must reside in the City of Cerritos.

Custodian hours are 10 p.m. to 6:30 a.m., and watchman hours are weekends and as needed (40-hour week).

Employees will receive \$647-\$789 plus benefits monthly.

Submit applications to Dan O'Rourke, personnel assistant, by Jan. 17.

### 'Inside Passage'

"Inside Passage and the Aleutian Islands" is the title of the last film in the Panorama International series scheduled to be shown tomorrow at 8 p.m. in the Burnight Theatre.

The film documents Don Cooper's 3000 mile excursion through the famed inside passage into the Pribil Islands off Alaska.

Student admission is 50 cents, and adult admission is one dollar.

### Joe Pass and Trio

The Company Trio, along with world renowned guitarist Joe Pass, will perform in a jazz concert Friday, Jan. 17 at 8 p.m. in the Burnight Center.

Admission is \$2 for students and \$2.50 for adults.

### Registration to begin for spring semester

Registration for the 600 different courses offered at Cerritos will begin Tuesday, Jan. 21, in the Administration Building. Registration will be by appointment only.

A record high enrollment of 20,100 is expected for the 1975 Spring semester, according to Cerritos College Dean of Admissions and Records M. Edward Wagner.

This figure represents a five per cent increase over the 1974 total, and approximately 1,000 more students than during the 1974 Fall semester.

Included in the college program this year will be three television courses. Cerritos has the second largest television-student enrollment in the state behind Bakersfield College.

The newest television course offering is "The Ascent of Man" class which began Jan. 7 on KCET, Channel 28.

Also offered via the television will be "Law for the 70's" and "Yoga with Madeline" which begin in February over KABC, Channel 7.

Regular courses begin Feb. 3.

For further information and appointment requests contact the Office of Admissions and Records at 860-2451, Ext. 212.

WHOOOTS THIS? — Staring rather caustically at passing students is this friendly campus owl who is frequently spotted in a contemplative perch in a tree on the south side of the campus between the health occupations building and the maintenance office area. The feathery

phenom wisely keeps his distance and remains noticeably aloof as he observes the passing parade of those who seek but a small measure of the traditional wisdom with which such birds are supposedly blessed — without ever having to crack a book, no less.

## Ad hoc group ponders student rights proposals

Ad Hoc meetings have been held almost every week for the past semester only to the knowledge of a few students and administrators. Ad Hoc concerns the whole campus' present and future, strangely enough, affecting every student.

Ad Hoc in this instance translated means student rights, a committee of students including the student body president, a senate member, a member of the campus press, Dr. Michael, president, three administrative and three faculty members.

The committee discussed and examined students rights and responsibilities on and off campus, in the classroom and freedom of student publications.

The committee had adopted from a standard form of student rights suggested by the American Association of University Professors and from various other college's rights for students.

As of right now, the student rights are taken from the Cerritos student handbook and faculty handbook, but new rights have been proposed by condensing from the standard student rights, and a few additions to suit Cerritos' specific needs and situations.

Some excerpts from the proposed rights are "Students performance should be evaluated solely on an academic basis not on opinions or conduct unrelated to academic standards."

"Administrative staff and faculty members should respect confidential information about students such as student views, beliefs, and political associations, which is acquired in the course of their work. Transcripts of academic records should contain only information about

academic status."

These are two statements in the proposal that were agreed on and sent out to different groups on campus. The faculty and student senate will look at it and when the Ad Hoc committee meets again later in January remarks can be made and it can be decided to put these (Continued on Page 3)

## Admissions dean Wagner retires

15 years at service;  
accomplished his goal

By TOM TAIT

TM Editor-in-Chief

M. Edward Wagner, dean of admissions and records, has announced his retirement after 15 years of service at Cerritos College.

The 61 year old Wagner is only the second person to hold the job as Dean of Admission for Cerritos. Wagner came to Cerritos in 1959 when the college was only a fraction of what it is today.

There were only 2,059 students registered in the Spring semester of 1959. Wagner estimates that over 24,000 total students will be registered to attend the spring semester.

"When I came to Cerritos, I had a goal to reach a registration of 20,000 students. We did that in the second nine-week session last semester. I told Dr. Michael it was time for me to retire having accomplished my goal," said Wagner.

Under Wagner's direction many innovations in registration have been started at Cerritos. Appointment cards, the class ticket board, preferential registration for continuing students, assistance for special high school students and a comprehensive office procedure manual are among the many changes Wagner helped bring to the college.

"Every semester there are changes that must be made to meet the changing needs of the students. The changes that have been made in my 15 years as dean of admissions and records are not necessarily my ideas, but are those which proved successful at other institutions and had to be tempered to fit the needs of Cerritos College," Wagner said.

Aside from being active in the Pacific Association of Collegiate Registrars and Admissions, Wagner has spent much of his life involved in athletics.

"I feel very fortunate that through athletics I received my education," said Wagner, a three year All-America fullback from the University of Colorado.

Wagner plans to continue his participation in athletic endeavors after his retirement Jan. 17, 1975. He is currently serving in his 15th year as the commissioner of the Western States Conference, and in the fifth year as the commissioner of the California Collegiate Athletic Association.

"I plan to hang on to my commissionerships and I plan to devote more time to them as well as stretch my energies to include myself as a participant in other athletic bodies," he said.

Wagner is considered by the Football Officials Association as a Dean of Officials. He has refereed for over 25 years in the Pacific Athletic Conference (Pac 8) including such prestigious games as three Rose Bowls, five (Continued on Page 3)

## Eleven to run in March 4th Board election

Eleven candidates have filed to run for the four seats open on the Cerritos College Board of Trustees.

All four incumbents along with seven other candidates met the filing deadline of Jan. 3 in order to run for the election March 4.

Voters will have their choice of Lou Banas Jr. of Norwalk, R. Joseph Decker of Downey, Hadley "Bud" Morrison of Downey, Katie Nordbak of La Mirada, Leslie Nottingham of Artesia, Curtis Paxman of Norwalk, Richard Richonpe of La Mirada, Claude Robinson of Downey, Harold Tredway of Downey, George Valenzuela of Lakewood and Dean Watson of Downey.

Nordbak, Tredway, Paxman and Nottingham are the incumbents up for re-election.

Nordbak, the current board president has served since 1970. Tredway has served since 1965 while Paxman has been a board member since 1968.

Nottingham has served the longest, having been on the board since 1965.

Board elections in the past have been primarily known for their lack of issues and minimal campaigning. For the majority of candidates, this election appears to be no different.

Most will put up a few signs and speak to local service clubs within their particular city, but few will adopt the campaign tactics utilized in elections for higher offices.

The term of a board member runs for four years, but the position is without pay. Successful candidates will be seated in April.

If there are any issues to speak of, longevity will probably be it. Banas has run twice in the past losing once by only 60 votes. He made great issue with the length of time that Paxman and Nottingham have served.

Incumbents may have more difficulty in their quest for re-election this year because of the recent campaign reform laws. Under the new statute candidates will be listed in alphabetical order and incumbents will not be listed as such. In the past, incumbents were listed at the top of the ballot and the other candidates followed.

The college's board consists of seven members with Louise Hastings and Charles Harris of Bellflower and Jan Harris of Downey elected two years ago.

M. EDWARD WAGNER

## Reflections of a Cerritos semester

By RAUL ACEDO

TM Staff Writer

Monday will signal the beginning of finals week. It will also mark the beginning of the end of the Fall 1974 semester.

To many students it will be remembered as a semester in which we either passed our classes or didn't. A faint memory of a quiet 3 month span in which nothing of great importance took place.

Possible. However with a little hindsight, some foresight and a lot of insight a student may want to re-evaluate. Under the surface of what appears to be a sea of sluggish stagnation may in fact run the currents of quiet transition.

Cerritos is a growing campus. A passing glance at the so called "south 40" will disclose the huge shell of the soon-to-be-completed 3-story, \$2 1/2 million Paramedical Building.

Upon completion the structure will provide 30,000 square feet of assignable space and

hundreds of new students with excellent facilities next fall, where this fall there was an empty lot.

In late September 54 students bid for Senate seats, but 96-percent of the student body succumbed to the ever present human feeling of apathy. Was this a mere preview of the view of politics taken by many California voters in a later state election?

On October 22 an accreditation team arrived and began three days of evaluating the goals, programs and personnel at Cerritos.

On October 24 the 14 member team called Cerritos "great, impressive and outstanding", and departed not scheduled to return until the mid 1980's. With the departure of the Accreditation Team, Cerritos students were once again assured that credits earned here would be honored at other schools.

Amy Dozier, Wayne "Tank" Harris, Dave

Norman, and Marie McGann died during the latter part of 1974. Their passing directly or indirectly affected the education of thousands of students this year and in years to follow.

The Fall of 1974 offered interested Cerritos students lectures by four world famous authorities on diet and nutrition. Listeners heard Dr. Robert C. Atkins accuse the American Cancer Society of withholding a cancer cure and the Food and Drug Administration and other governmental agencies of plotting against the public.

Veterans received a substantial increase in their benefits, as a means of coping with inflation. Handicapped students obtained ramps in the Lecture Hall, kick plates on glass doors, and a new elevator. Becky Hernandez received the homecoming crown and hundreds received parking tickets and warnings.

**JEWELRY MAKERS** — Jewelry making class members learning the fine art are from upper left clockwise, Karen Hazen buffing belt buckle, Jerry Neely setting stones on bracelet, Robin Moses filing a bracelet while Margarite Ochoa looks on, and instructor Joe Girtner carving out design for Sandy Linde.

—TM photos by Lenore Hayes

## Scholarships

Six Cerritos students have been nominated as semi-finalists for grants to be used at four-year institutions when they transfer from Cerritos.

David Avila, Rose Mary Hernandez and Daniel Teran of Bellflower; Sandra Rubio, Artesia; Ruben Sholander, Norwalk, and Henry Tristan of Lakewood were all named to compete for the awards.

The scholarship competition is designed to aid minority students who are completing a transfer program at a community college. They must maintain a minimum grade point average of 2.5 on a scale of four.

National winners will be named later this month.

## Concert Sunday

The Cerritos College Wind and Jazz ensembles will present a joint concert on January 19, at 3 p.m., in the Burnight Center.

The concert, under the direction of Scott Henderson, will feature works by Howard Hanson, Von Weber, Richard Rogers, Kabelevsky and Duke Ellington.

The program will also feature the world premiere of a new Brass Quintet number by composer, conductor, and faculty member, Philip Westin.

Compositions to be performed by the Wind Ensemble will include selections from the Man of La Mancha, Oberon, the Comedians Gallop, and the Merry Mount Suite. The Jazz Ensemble will be playing arrangements performed by such groups as Woody Herman, Count Basie, and the Mothers of Invention.

Admission prices are \$1.00 for adults and \$.50 for students with proceeds going towards the Music Scholarship Fund. For further information contact: Cerritos College at extension 342.

## Receives award

James L. Masters, 1973 graduate of Cerritos College and sophomore man of the year and dean's list honoree, received the Honor Cadet award at the Los Angeles Sheriff's Academy Class No. 169 graduation last month.

Masters, of Norwalk, shared the glory with a woman—Bridget A. McGowan, of Long Beach. The two new deputies tied on grades, performance, maturity, and personality trait scores.

## 'Lion In Winter'

"The Lion in Winter," a film which recreates the pomp, pageantry, and pride of 12th century England during the reign of King Henry II, will be shown Wednesday, Jan. 22 at 8 p.m. in the Burnight Theatre.

A three-Academy Award winner, the film stars Peter O'Toole and Katharine Hepburn. Admission is free.

# Jobs to GPA— little relationship

By PAUL BRADLEY  
TM Staff Writer

Job seeking Cerritos graduates may be in for quite a let down when they finally learn that the age-old adage "Good grades get good jobs," isn't always true.

## Applications for B. of A. awards

Applications for the Bank of America Community College awards which range from \$150 to \$2000 are now available in the office of Don Siriani, Dean of Student Personnel.

The four general fields of Business, Science-Engineering, Social Science-Humanities, and Technical-Vocational cover all majors.

Requirements include a 12-unit load and a total of 36 to 70 units. Majors must coincide with the chosen field. Contestant's overall grade point average must be 3.0. Active participation in extra curricular activities is also required.

One finalist from each field will be chosen to go on to the Area Selection Events on April 2. Each Cerritos finalist receives \$150 whether or not they continue to the Final Selection Events, April 25.

Each finalist receives \$250. Special awards from \$500 to \$2,000 will be presented for first, second, and third place winners.

Applications and further information may be obtained at Don Siriani's office. Deadline for entries is Feb. 21. Notifications of winners in each event will be mailed.

As a matter of fact, according to a recent Talon Marks survey of several employment agencies, the grade point average (GPA) proverb is little more than myth in today's job market.

Each of the agencies interviewed were in accord on one major point, most employers seeking college and university graduates for full-time service aren't the least bit interested in the GPA.

In a similar survey (this one of employers) taken by students at San Jose State University (SJSU) it was discovered that they (the employers) place far more importance on attitude, work experience, personality, and extra-curricular activities than on an applicant's GPA.

That survey also revealed that "all of the employers interviewed agreed that a person with a C (2.0) GPA, who had proved he could get along with people by working at a part-time job, would have a much better chance of being hired than a student with an A (3.6-4.0) GPA who had no work experience.

One other important quality not mentioned in the SJSU survey was attendance. Linda Lewis, a counselor at the Mitchell Employment Agency (8615 Florence Ave., Downey), said that many prospective employers look for dependability in their personnel.

Still another quality unmentioned was potential. Potential, "which includes a willingness to work and learn," is also important to employers according to Mrs. K. Adair, a counselor for Flo Bailey Employment Agency Inc. (8557 E. Florence Ave., Downey).

Throughout the interviews in both surveys, no source suggested in any way that a GPA was an important quality to most employers.

# Spring lecture series features Furness, Heller and Bird

The 1975 spring semester lecture series at Cerritos College features a slate of three diversified personalities.

Betty Furness, the first speaker of the series is a member of the Board of Directors of Consumers Union. She will speak on "A Consumer's Bill of Rights" Tuesday, Feb. 18 in the Student Center at 8:00.

Furness was also named Woman of Achievement by the Anti-Defamation League of New York and is one of the 100 women honored with an Accomplishment award by Harper's Bazaar magazine.

Walter Heller, a member of the Economics Faculty, will cover the topic "Peace, Prosperity and Price Stability" on March 18, 1975. Heller's background includes government

service from 1942 to 1969 which included serving as chairman of the President's Council of Economic Advisors and a consultant to the Executive office of the President.

The last speaker of the series is Caroline Bird, the famed author of the book "Everything a Woman Needs to Know to Get Paid What She's Worth."

Bird's lecture will stem from this subject on April 24, 1975. Her talks on economic problems and opportunities of women have gained wide recognition throughout the nation. She is also the author of numerous articles related to the status of women today.

For more information on any of these lectures contact the Community Services division at the college.

# Helpful advice for age old rite: exam cramming

By Karen Altman  
TM Staff Writer

As hard as we try to ignore it, the final exam season is creeping up on us. Students who have happily let their textbooks collect an inch of dust over the semester suddenly start spending long hours into the night participating in that age-old rite: cramming for exams.

Cramming does more harm than good, however, according to Dr. Charles Cabeen, psychology instructor. "Cramming is inefficient," stated Cabeen. "Distributed study is much, much better. Yet it is better to cram than to not study at all."

The hardest part of studying is getting started, Cabeen said. "Get started right away," he said. "Once you get started it's not difficult to continue. Definitely don't wait until the last night!"

Here are a few hints for confirmed crammers:

(1) Don't waste time with excessive underlining. Highlight key names, dates, facts, etc. Make margin notes and star instructor-stressed areas.

(2) Don't skip reading chapter titles and subtitles to save time. Reading them the night before an exam will help tie the loose ends together and bolster your memory capacity.

(3) Maintain a regular meal schedule, and close the books during mealtime. Cokes and cookies won't keep your energy up during long study sessions.

(4) Vary your study periods and areas. Take short breaks during sessions (approximately ten minutes per study hour). But then get right back to work. Change your study area occasionally; starting at the same four walls gets very monotonous.

(5) Choose study-mates carefully if you dislike studying alone. Make it clear to your friends that you intend to study, not socialize.

(6) Keep your study area well-illuminated and well-organized. Don't study under one bright light in an otherwise dark room; you will fatigue quickly.

(7) GET ENOUGH SLEEP. You will accomplish more if you're well-rested. If you really can't spare the time to get a full night's rest, then *Glamour* magazine's "Procrastinator's Guide to Exam Cramming" recommends that you take your temperature every four hours for a few days to determine when it's at its 24-hour low. For most people who are night sleepers, that period occurs during the wee hours of the morning.

At that time you can grab your deepest, most restorative rest. Take a three-hour nap, since sleep cycles repeat every 90 minutes. That way you won't have to grab the alarm in the middle of a dream.

(8) "The Procrastinator's Guide" recommends massaging your forehead, temples, and the area around your eyes with a light circular motion to relieve headaches and eyestrain. Or apply pressure to two points between your eyebrows just above your nose

for one minute; your head will feel "marvelously clear and light."

Dr. Cabeen offered a few hints for the exam-taking student: "Utilize the fatalistic attitude. Think, 'I've studied all the material and I'll just relax and let it come out.' Avoid reviewing material immediately before an exam, or talking about the material. Just relax. That way you won't freeze up and draw a blank."

Cabeen added that students should be sure to read the test material over completely before starting; in an essay exam, begin with the easiest question; skip material that you seem to be getting hung-up on; and be sure to allot your time carefully.

When taking an objective (multiple choice and true or false) test, Cabeen added, remember that your first impression is usually the best. "If you change your answers, you'll lose more than you gain," he cautioned.

For hard-core cases, Cabeen recommends hypnosis, which he utilizes in his private practice as a psychologist in Santa Ana.

"I plant a post-hypnotic suggestion that the person will feel relaxed and confident and will have a sharp recall of the material. This isn't giving the person anything he doesn't already have. It certainly isn't cheating."

## Campus

Wednesday, January 15, 1975

## Josh McDowell to talk Feb. 6

By ROBIN NEWGENT  
TM News Editor

Josh is coming to Cerritos College!

Josh McDowell, 35 will be coming to speak on "Christianity: Hoax or History" on Thursday night Feb. 6 at 8 p.m.

Sponsored by the Campus Crusade for Christ Club here, McDowell is a traveling speaker for Campus Crusade for Christ International, and has spoken to 450 campuses in 42 countries.

He has written a best selling book "Evidence That Demands a Verdict."

At a recent lecture at UCLA McDowell said, "I have come to the conclusion that the resurrection of Jesus Christ is either one of the most wicked, vicious, heartless hoaxes ever foisted upon the minds of men or it is the most fantastic fact of history."

"A change in the social and economic system of society is not enough to bring about peace in our world. Envy, greed, racism, and hatred will be present in the basic nature of man. What we need is a power that can change man's basic nature."

A native of Union City, Michigan, McDowell graduated from Wheaton College cum laude and from Talbot Theological Seminary magna cum laude. He holds degrees in economic theory, languages, and history and is a member of two national honor societies.

He has been the recipient of numerous speaking awards including the Lyman Strass Speaker of the Year award which he received in 1965.

"McDowell views the college campus as the greatest single potential source for making a change on our world," crusade spokesman say.

Admission is free to the lecture which will begin in the gymnasium at 8 p.m.

## Ad hoc ...

(Continued from Page 1)

regulations into use if the Board of Trustees approves them.

"We have picked out and stressed the main things we can live with," said Dr. Michael.

If they are acceptable and the committee and Board agrees, a procedure committee will be set up for resolving student problems. An example of this is if there is a conflict over a grade between an instructor and student, the student will not be discriminated because they are a student.

The next meeting will decide what actions to take in relation to these. Copies of the current student rights and regulations can be made available to students who are interested. Contact Talon Marks ext. 374. Comments and suggestions will be appreciated.

## Dance classes

Two dance classes will be offered for the spring semester as part of the Health, Physical Education, and Recreation department (HPER).

HPER 42.1, Beginning Social Dance, will meet at Mayfair Park, 5720 Clark, Lakewood, after the first meeting in the gym. Students will receive 0.5 units.

The second new dance class is HPER 42.5, Introduction to Dance Cultures of the World. It will be taught at the Bloomfield Park Recreation Room, 21420 Pioneer, Lakewood after the first meeting. Students will earn 1 unit of credit.

Karen Codman of UCLA will teach the courses, and transportation will be provided if it is a problem.

(Continued on Page 3)

## Wagner ...

East-West All-Star games, seven Junior Rose Bowl games, a Sun Bowl game and four Poinsetta Bowls. He has also officiated PAC 8 basketball for 15 years.

Although Wagner is retired from officiating, he serves as the Instructional Chairman of the Football Officials Association.

Beside his numerous athletic achievements and assignments, Wagner has completed 30 years of service in the Community College Education System, 24 of which were in the administration. His first assignment in the Community College System was in 1946 at Long Beach City College.

During his 15 years at Cerritos Wagner has had the opportunity to watch the college grow from a campus with only a field house and a football stadium.

"I've seen many changes and I have watched a lot of administrators come and go. I am the oldest administrator in terms of years and experience and one thing that stands out in my mind is the strengthening of curriculum and the position of importance Cerritos now holds in the community," said Wagner.

Wagner foresees the possibility of computer registration in the future, but somehow he gives the impression that he believes the old way is the best way.

"Ours is a more personal registration; you might lose that with the use of a computer, but this is the computer age isn't it?" he said.

Wagner has been a resident of California for 29 years in the city of Long Beach.

"I have led an active life and I am not going to play dead now."

"You can't really retire when you've led such an active life," he said. "I'll probably do what Jerry West said he would do when he retired."

He said he'd only play golf on days ending in "y." And I plan to have my handicap down from seven to four by the summer."

## VITA program

Volunteer Income Tax Assistance (VITA) is offering an opportunity for students interested in assisting low income individuals in the community in preparing their income tax returns.

The Office of Community Services is providing a class to teach necessary skills. The next class is Saturday, Jan. 23 from 9 a.m. to 5 p.m. An additional class will be offered Jan. 25.

The class is free to all members of the community and the student body. However, persons interested in taking the class should have some background in accounting or math.

At the completion of the class, volunteers will donate 30 hours of service with their tax preparation at various centers that will be set up within the community.

A member of the IRS will be available as a resource.

Upon completion of service, volunteers will receive certificates of commendation for community service from the Cerritos Office of Community Services and the Vita Program.

Contact Ted Spriggs, Community Services Coordinator, at 860-2451, Extension 217.

## Fall awards banquet

The Fall Awards Banquet will be held Friday, Jan. 17 at 7 p.m. in the Student Center. Today is the deadline to purchase tickets, which are \$2.75 for students.

A Transcendental Meditation lecture will be held today and tomorrow at 11 a.m. and 7:30 p.m. in the Board Room of the Administration Building.

EDUCATED APES? — These three apes, acting like refugees from some distant planet, were on hand over the weekend at Cerritos College Education Days at the Los Cerritos

Mall. All divisions and departments of the college had displays, exhibitions, and booths for public information purposes and to encourage people to enroll in classes of interest.

The masked representatives are from the Community Service department's children's theatre productions.

## Students respond to problems of unemployment and inflation

By PAT MARTEL  
TM Staff Writer

The fight to WIN may be WON. However, how long the battle will continue is unknown. In times of economic crisis, the first thing to be affected is the job market. Indeed, unemployment has been at an all time high.

How are the students of Cerritos College coping with inflation and unemployment? Quite well, under the circumstances, according to Madge Coto, director of the Job Placement Office.

"Students are very concerned about the present economic situation," says Coto. "We're getting more job applicants than ever, about 40 a day."

One of those applicants, 20 year old Sandy, cited inflation as her reason for seeking a better paying job.

"It costs more to buy things like food than it ever did before. I've found myself sacrificing things like cookies, potato chips, and cokes. I'm a lot more aware of prices and buying when things have been reduced," says Sandy.

Students seeking job opportunities in order to survive the economic crunch may find assistance through the Job Placement Office.

Coto pointed out that "most of the jobs available pay between \$2 and \$3 an hour. There are some that pay more and some a little less."

"Among the jobs available," says Coto, "are office jobs, technical ones such as drafting,

security jobs, restaurant hostesses and waitresses, and lab jobs."

"Most students," she said, "are more choosy about jobs because of the tight money situation. Also, because of the price of gasoline they won't go out of the area to work."

One student, Larry, was surprised to see the varied opportunities available after checking the job placement bulletin board located outside the office.

"I never realized," said Larry, "that they offer such a variety of jobs, all which pay better than average. I've been looking for a better paying job and I think I may have found the one for me."

According to Larry, inflation is really taking its toll on his pocket book. "Before, I could pay my rent, make a car payment, buy groceries and still have some mad money left over. Now, I barely make ends meet and even so I don't eat the way I used to."

Many students, finding the economic situation overpowering, have begun moving back home to save money.

Donna, a sophomore at Cerritos, is among this group.

## New semester films schedule

"The Last Detail" heads the list of five films composing the spring film series. Showing Feb. 11 at 7 p.m. and at 9 p.m., "The Last Detail" stars Jack Nicholson, who plays an "arrogant but sensitive sailor." The story involves two veteran sailors who escort a young recruit to the brig.

A five-academy Award winner is the second film in the series "The Sound of Music," starring Julie Andrews and Christopher Plummer, will be shown Feb. 25 at 6:30 p.m. and 9:30 p.m.

"Catch 22" is the next film, scheduled March 5 at 7 p.m. and 9:15 p.m. An adventure story of World War II, the movie is an "anti-war satire cloaked in the veil of comic exercises." Alan Arkin stars.

"Serpico" is the spell-binding tale of an "honest undercover policeman who says 'no' to corruption and vice as a member of the New York City Police Force." Al Pacino is Serpico, who finds that being an honest cop can get you seriously hurt and possibly killed. Slated March 18, the film runs at 7 p.m. and 9:15 p.m.

Completing the list of films for the spring semester is the wild box-office success "American Graffiti," slated April 22 at 7 p.m. and 9 p.m. Starring Ronny Howard, Richard Dreyfus, and Paul LeMat, the film asks, "Where were you in '62?"

Admission to all five of these films is free to registered students of the Associated Student Body of Cerritos College.

## ATHEISTS AND AGNOSTICS!

If faith in the supernatural offends your reason, discover the space-age theology of Realism. Send a self-addressed, stamped envelope to The Society of Fellowship, 4575 Melrose Avenue, Los Angeles, California 90029.

Tonight is the scheduled opening for the Cerritos College theatre production of Thornton Wilder's classic, "Our Town". The play is set in the period at the turn of the century and director Dan Rosenblatt said that his actors have been doing much research on their

## Pass ...

(Continued from Page 1)

work regularly at all, he says, it would be playing concerts.

"I'd like to play four of them a week," said Pass emphatically.

In his Cerritos concert, Pass will follow the Company Trio with a session of solo guitar. Then he'll join the Trio doing some basic chord work and general ad-libbing.

Pass will play both the acoustical and the electrical guitar ("with light amplification," he says) at his Cerritos gig.

He prefers the trio work, basically because it gives him a better chance to be himself while playing.

"I mean, when you're playing with 18 guys in a big band, you have a tendency to get lost, dig? I like playing all the music, it's much more fun," said the virtuoso.

And Pass has had the experience of playing both in the big band and the smaller combos. He's played in the Duke Ellington, Count Basie, Gerald Wilson and Oliver Nelson big bands, and has played in the smaller groups such as the George Shearing Quintet.

Growing up in the be-bop era, Pass lists Dizzy Gillespie, Charlie Parker and Stan Getz as having major influences on his career.

He dug the two most influential jazz guitarists of all time, Django Reinhardt and Charlie Christian, but says that instruments such as the trumpet, saxophone and piano have affected his style more.

And as the times change in jazz, Pass has respected the new movement in guitar (i.e., John McLaughlin, Larry Coryell, John Abercrombie etc.) but he nevertheless clings to his individuality.

As guitar players, he recognizes the talents of the McLaughlins, et al.

"I think these guys are very good," said Pass. "They know what they're doing, but there are a great many guitar players these days who don't know what they're doing."

"If you ask a McLaughlin or a Coryell to sit down and play without the gimmicks, they could sit down and play. They understand what they are playing."

"In my case, though, I feel that you have to play what you are, who you are. You should learn from changes, not just copy them."

When Pass speaks of "gimmicks," he's basically referring to the Frank Zappa invention of the 1960's, the wah-wah pedal.

"There is a way to use it," says Pass. "It shouldn't be considered an instrument, just a tool. You can't play just the wah-wah pedal, and when a guy tries to play the wah-wah pedal, only that guy is shuck."

"Right now, jazz is going through a period where everybody is looking for a new kind of sound. There's a lot of free playing, a search for a new direction."

"The only guys who can achieve it are guys like McLaughlin, Coryell and the late John Celtrane. They have a foundation to work from, but there are a great deal of people who have no foundation and are going for sheer volume. Complete freedom. Play what you feel."

"In most cases, these guys are not playing anything."

Then there's the case of guitar virtuoso Joe Pass. He plays what he feels. He has complete freedom. And then again, he's got talent.

## United Crusade successful in donation goal

The Cerritos College fund raising drive for the United Crusade has come to a successful conclusion, meeting its donation goal, according to Norman Price, coordinator of Student Activities.

A grand total of \$3,079.09 was gathered from all sources and activities.

The certificated employee's donated a total of \$2,543.50 with the Business Department contributing the most of the various departments, with a total of \$516.00. The Classified employees contributed \$333.00.

Of the clubs on campus, the L.V.N. club collected the most monies from the student body, a total of \$43.32. The total donations from the student body, including a \$25 gift from the ICC, was \$186.96.

The Humanitarian Award, a perpetual award given to students for activities directly assisting the United Crusade, will be awarded to Sigma Phi at the Fall Awards Banquet.

Sigma Phi collected \$210 from the citizens of the city of Cerritos, the largest sum of the \$609.58 club total for the day.

This year's goal and collections were 12 per cent above those of last year.

## Tonight is opening for new play "Our Town"

Tonight is the scheduled opening for the Cerritos College theatre production of Thornton Wilder's classic, "Our Town". The play is set in the period at the turn of the century and director Dan Rosenblatt said that his actors have been doing much research on their

own to establish characters and regional accents.

Dan Rosenblatt, a UCLA graduate, has been directing theatrical productions on the Cerritos campus for two years. He directed last spring's successful production, "Storybook Theatre".

Starring in the cast are Julie Peterson, Danny De La Paz, Brian Ames, Judy Carter, Jesse Garnee, Patricia Karch, James Mann, Marcia Canfield, Peter Meyers, Dennis Chavez and Brad Stone.

Also in the production are: Ray Hewitt, Marilee Bridgeman, Jeff Cloud, Joanna Connor, Terrill Ewing and George Smbula.

"Our Town" opens tonight and runs nightly at 8:00 p.m. in the Burnight Center Theatre 31, through January 19.

Tickets are .75 with ASCC card or \$1.50 for general admission and are available in the student ticket office or at the door.

## CERRITOS COLLEGE BOOKSTORE

# Conference hoop season continues tonight

## Falcons open with victory over Mesa

By BILL SCHANIEL  
TM Staff Writer

Most junior college basketball teams in California are happy they are not competing in the South Coast Conference this season. With such powerhouses as Santa Ana, Mt. San Antonio, Orange Coast and Fullerton, the SCC could be the toughest conference in the state.

The Cerritos Falcons have the misfortune of being in the same conference as these teams and therefore preparation for conference games are of great magnitude.

Tonight at Orange Coast College in Costa Mesa the Falcons meet Orange Coast in the second conference game of the season for both teams. Orange Coast was severely beaten last Saturday by Santa Ana but remember that Santa Ana is the defending SCC champion and if favored to once again win the SCC title.

"We will try to run against Orange Coast while they'll try to slow down the tempo," said assistant Coach Jack Bogdanovich who feels Orange Coast's strength lies in the huge front line which contains a 7-0 forward.

"Santa Ana will be tough to beat but we can't think of Santa Ana because Mt. SAC is also very talented. We'll take it one game at a time. We have to because the conference is so tough," said head coach Bob Foerster.

The Falcons are coming off of a 79-67 SCC opening win over San Diego Mesa. Center Willie Howard tossed in 30 points and grabbed 13 rebounds while play-making guard Tim Fruhwirth scored 16 points to help pace Cerritos.

Bogdanovich emphasized the importance of Fruhwirth's performance. "If Tim is playing well, the rest of the team seems to follow him," Bogdanovich feels the 6'2" soft-spoken Fruhwirth is the team leader.

Against Mesa, Steve Lane scored 11 points while Joe Damm helped out on the boards with seven rebounds. Willie Howard, the Falcons top rebounder said that if he can get more help on the boards the Falcon cause would be improved greatly. Damm is the man who can do it especially with his ability to score on offensive rebounds.

Cerritos shot 40 percent from the floor against Mesa while hitting 70 percent at the free throw stripe. Foerster believes the Falcons must shoot 50 percent from the field to really have a chance at beating teams in SCC.

"Our defense did a job in the first half because we were a physical basketball team, something we lacked in the pre-season," said Bogdanovich. The halftime score was 29-16 Falcons.

In the second half Mesa tried to catch up with a fast tempo pace and a barrage of shots were put up by both teams. With all of this the Falcons had only eight turnovers.

Following a disappointing 5-11 pre-season, Bogdanovich, a defensive specialist, put the Falcons under many defensive drills in order to prepare the team for tough conference action.

"Aggressiveness is what the team lacked on defense" said Bogdanovich. One drill called the "hamburger drill" seemed to bring out the needed aggressiveness that was lacked.

The idea of the drill is to keep your opponent from receiving a pass in good position near the basket. After about five minutes of action there were two cases in which tempers flared and suddenly the drill seemed to resemble a sandlot tackle football game.

However, it paid off against San Diego Mesa as the Falcons defense grabbed, shoved, and muscled for loose balls, rebounds, and position.

Cerritos rounded out pre-season action Jan. 7 by losing 93-66 to Bakersfield as Cerritos shot only 32 percent from the field. L.A. Pierce dealt the Falcons a 63-58 loss on Jan. 4 as Darrill Lane scored 18 and Joe Damm added 14 to lead Falcon scorers. Willie Howard was benched in the contest because of his absence from a team workout.

During the Christmas holidays, Cerritos participated in the Santa Monica Tournament and finished at one win and two losses. The Falcons lost 82-68 to West Los Angeles as Willie Howard scored 20 points and had 7 rebounds.

Next, the Falcons met Los Angeles Valley and won 73-68 as Joe Damm paved the way with 16 points. Willie Howard scored 12 points and grabbed 7 rebounds.

Playing their third game in the tourney, Cerritos lost to Ventura despite a great individual effort by Willie Howard who scored 21 points and pulled down an amazing 19 rebounds. Howard's performance gave him the tournament scoring and rebounding titles.

On December 18-21, the Falcons played San Joaquin Delta in the opener of the Modesto Tourney and lost 78-77 as Willie Howard tallied 22 points for Cerritos. Merced finished Cerritos and Modesto by winning a squeaker 80-77.

But this was all pre-season and the Falcons have one victory already tucked away. The Falcons are also playing better basketball and it figures that if they can maintain an effective running game, play tough physical defense, avoid turnovers and mental mistakes, and stick to their designated plays, they will be very competitive in the SCC and may shock a few pessimists.

But Foerster stresses his team must take each game one at a time while maintaining a good attitude and desire to play.

Orange Coast will be a major test for the Falcons.

## The opener

The Cerritos basketball team won its opening conference game of the season last Friday night, pulling away from San Diego Mesa to post a 69-57 victory. It was a much needed victory for the Falcons, as the intensity in Coach Bob Foerster's face (upper left) shows.

Steve Wilson (number 44 with the towel draped around his neck) looks on while the assistant coach, Jack Bogdanovich (checkered coat throws in his two-cents worth.

In upper right photo, guard Tim Fruhwirth hangs in mid-air on his way for an easy layup around a San Diego Mesa player. Fruhwirth has been the standout backcourt man for the Falcons this year, and according to coach Bogdanovich, the team usually performs according to Fruhwirth's performance. Fruhwirth scored 16 points in the victory over Mesa.

At bottom left, forward Joe Damm's perspiration-soaked face is intent while listening to instruction's in the team's huddle. Damm is one of the Falcons' top offensive rebounders and must continue to do just that if the Falcons are to go anywhere this year in the South Coast Conference race.

Cerritos' next game is tonight vs. Orange Coast College in Costa Mesa.

## Defending state champ

# Salcido described as 'brightest prospect'

"With the help of the Lord and a lot of hard work" is how 128-pound wrestler Mike Salcido credits his success at Cerritos.

And success he has had.

In his freshman year Salcido posted a remarkable 37-1 won loss record, capturing the state championship title at his weight.

His only loss of the season came from Manual Yabara of Bakersfield, who Mike beat twice earlier and went on to defeat again in the state finals.

Salcido also captured the South Coast Conference title, the Southern California Regional title, was voted his teams Most Valuable Wrestler by teammates, and was ul-

timately voted as being Cerritos' Freshman Athlete of the Year.

Described as being "perhaps the Falcons' brightest prospect for the 1974-75 season," Salcido started the season at 137-pounds where he tallied a 1-1 record before going back to his familiar 128-pound post.

Salcido's loss at 137-pounds was to Jim Zeller in Cerritos' close 17-18 loss to El Camino. Zeller was a CIF champion from Redondo Beach High School last year.

After going back down to 128-pounds Salcido remained undefeated with an 11-0 mark going into the Cal Poly Tournament last weekend.

Keeping a perfect score all the way to the

finals, Salcido took a loss in his last match to place second in the tourney and reduce his record to 15-1.

The winner of that match was Yokum of Grossmont. Yokum placed third in the state last year behind Salcido.

"I really like to wrestle tournaments more than dual matches, and Salcido, "I don't know why. I guess it's just because you feel like you've accomplished more."

Salcido began his wrestling career at Artesia High School.

"One day over at Haskell Jr. High this group came over from Artesia (High School) and put on a wrestling demonstration. I thought it was

really interesting, the kinds of things they did and the uniforms they wore. So when I went there (Artesia)," Salcido went on, "I decided to try out for the team."

"I mean, I knew I was too small to play football or basketball. I only weighed 106-pounds as a freshman."

In the summer before his sophomore year Salcido attended the Cerritos College wrestling clinic where he first met Hal Simonek, the coach at Cerritos.

"I'd never seen a coach like him before," remembered Salcido. "He treats everyone like a champion, no matter what their ability. He's

(Continued on Page 5)

## Women's team sports OK'd by school board

A recommended four new women's team sport activities were approved recently by the Cerritos College Board of Trustees.

Included in the program will be participation in basketball, softball, volleyball and field hockey.

The new physical education activities were designed to provide activity for players above the beginning level. They were recommended last November by the Curriculum Committee.

The courses, to be offered in both the Fall and the Spring Semesters, will offer one unit of community college credit.

Each class will participate in intercollegiate competition and will provide students the fundamental skills of the individual sports.

### Vander Sluis chosen

Sophomore offensive guard Ron Vander Sluis was voted to the JC Football All-American team recently.

He paced the Cerritos offensive line that gave quarter-back Duane Matthews enough time to complete 60 per cent of his passes.

Vander Sluis is a graduate of Gahr High School and is a physical education major.

### New classes offered

Advanced judo and intermediate snow skiing will be offered in the Spring semester after receiving recent approval from the Board of Trustees.

The advanced judo course will place an emphasis on throwing, grappling, combination techniques and advanced maneuvers and strategy. Occasional interschool tournaments will be encouraged.

Besides being designed to teach the student intermediate skiing knowledge, three one-day local ski trips will be included in the package, plus two-day weekend trip.

(Continued on Page 9)

WRASSLIN' FOR JESUS — Cerritos' ultra-successful 128-pound wrestler, Mike Salcido, does it again, pinning an opponent in above photo. He attributes a large part of his success

to his Christian faith. Salcido is the defending California champion in his weight division, and is 15-1 in dual competition.

**GETTING READY** — Two athletes are shown participating in last year's badminton action, and with the coming of the spring semester, they'll be at it again. Badminton is offered as an intercollegiate team sport, but is also presented in the Rhea Gram intramural

package. Other intramural sports, to be offered beginning Feb. 13, will be track and field, tennis, softball, bowling, swimming, racquetball, handball and volleyball. Added to the PE curriculum will also be judo and snow skiing classes.

# Intramurals to expand for Spring Semester

By DEBBIE BOLTON  
TM Managing Editor

The intramural sports program, after completing a successful semester, will continue next semester with hopes that student turnouts will increase.

Intramural teams will begin forming the second week of February and last through the spring semester. The program will start with men's softball. Most of the sports are scheduled for 11 a.m. Tuesday and Thursday.

Two meets in track and swimming will be newcomers to the program. Individual series such as tennis, table tennis, and badminton are being offered.

In this situation, students can meet on their own to decide what time would be convenient for both of them to play in a sport, meet, and then record their scores to be turned in to qualify for awards.

Some of the sports being offered are badminton and volleyball (which will be held at the same time in the gym), karate, track and field events, swimming, and social dancing. Racquet and handball will again begin in a round-robin fashion.

A social dance continuation at 11 on Tuesday and Thursday is being offered, teaching advanced steps and routines. The class will be conducted on a beginning to advanced level, depending on student interest and development.

Rhea Gram, in charge of intramurals, requests students to drop suggestions by her office in the PE building if they would like to start a sport that is not offered. This way if enough people interested in forming a team join, it will be included with the other activities.

The Friday night volleyball leagues will be running more often and under expanding hours.

It will be run by students who help run the league and work with team members by recording wins and leading the leagues in organization, in co-ordination with the staff.

A three-person basketball team will try to be worked out. These teams consist of two guys and one girl. Gram plans to work closely with the clubs on campus to form the teams.

Bowling will be re-organizing Feb. 10 and is open to any member of the student body. Students interested must report to Clark Center at 3 p.m. on Monday Feb. 10. Another aspect for advanced bowlers is the Satellite Intercollegiate Travel Bowling League.

Prerequisites are the student has to be registered in a bowling class or on the intramural league carrying at least eight units.

The intercollegiate league is looking and in need of women bowlers with an average of 135 or better. At present, the satellite team is tied for first place, according to Connie Miner, coach of the bowling leagues. If students are interested in knowing more about the league, they should contact Miner in Office D of the PE building.

No credits are given for intramurals, but it is fun for athletes of all aptitudes, according to Gram. All facilities will be used in intramurals.

If students would like to sign up for the intramural sports program, show up Tuesday Feb. 11 at 11 a.m. in the gym. If more information is needed, contact Rhea Gram in the physical education building.

Women's competitive sports this semester have been active and competing. Gram is hoping women's sports become more closely connected with mens athletics, status and money-wise.

There are more women in co-ed sports and womens sports totaling 13 competitive womens teams. They are running this many with three full time women coaches in the program. The rest is run by part time coaches of full time doubling up.

In comparison to men's sports, only eight competitive teams play with 17 full time coaches.

Co-ed sports offered next semester are bowling, volleyball, archery and badminton.

The archery team will be sponsoring the Nationals next semester. Badminton has a good chance of taking first place in the Southern California Community College Intercollegiate Athletic Association (SCCCIAC), according to Gram.

Womens sports offered next semester are softball (new in the league). Women interested teams will be formed from members registered for HPER 63.4, volleyball. (Those interested should register for HPER 63.5) varsity and junior varsity teams will be selected, track and field and tennis.

Intercollegiate teams which include all of the above, co-ed and womens sports are teams that travel to college and statewide tournaments and host home games at Cerritos.

Problems women sports have faced that are now being taken care of are more support money for uniforms and equipment, strives for more coaching time and even distribution for prime gym time and travel money.

"Administration and staff have been understanding and are trying to improve by co-operating and listening. The men's athletic staff has been helpful to the department by coaching and organizing," said Gram.

1975 has been named International Women's Year. The department is hoping to make this a progressive year for women in sports.

## Commercials run wild in Super Bowl IX

By ANDY FURILLO  
TM Sports Editor

Quick now, what was the most impressive statistic in Sunday's Super Bowl game?

Was it: a) Franco Harris' record-setting rushing mark of 158 yards; b) the Steelers' team rushing, total of 244 yards; or c) Minnesota's miniscule mark of only 17 yards on the ground?

The answer is: d) none of the above. The most staggering statistic in this year's Super Bowl was the one run up by the advertisers, who boggled your minds and mine during the presentation of the game.

Advertisers went to the air 54 times on the day, or more than Fran Tarkenton and Terry Bradshaw combined.

The barrage started shortly after Dandy Don Meredith appeared in his graduation cap, unsuccessfully picking the Vikings to win by 12 points, and it ended when Franco Harris thrust his index finger into the air to let the world know that he and the Pittsburgh Steelers were Number One.

Average time per commercial was 26.2 seconds, which came out to a grand total of 23 minutes and 35 seconds of air time.

This would have been enough for an extra quarter of play, with time left over for a good overtime. Minnesota could have used it.

It got so bad that when the referee gave the respective benches the two-minute warning, viewers must have thought it meant to prepare for two minutes of commercials.

There were lots of stars on the day, but the Advertiser of the Game award went to Chrysler, Inc. This company is currently taking it on the chin during our economic slump, and after watching its insulting commercials, we can see why.

I mean, who's going to buy a product that Joe Garagiola is pumping? That man lacks credibility.

He was shown plugging Chrysler products using a circus format, funny hats and all. Garagiola belongs in the center ring.

While Garagiola was bad, the worst commercials of the day had to be the two New York Life Insurance jobs, in which these frail little fellows have life insurance agents blocking out their money problems while they juke their way to financial security.

Most people watching the game would like to have seen these bimboes try to crack the Pittsburgh Steeler Front Four, without any blocking.

Loser of the day was NBC's Charlie Jones, our sideline correspondent. He was supposed to give the eager viewing audience some valuable inside information as to what was going on in the game.

Instead, he was stuck in temperatures in the low 40's plugging upcoming NBC sports attractions, such as hockey, golf and tennis.

It could have just as easily been done from the warm announcers booth, and Jones will probably see his AFTRA agent this week about it.

Why NBC was pushing these other sports into our faces in the first place while the big banana of them all, the Super Bowl, was in progress will remain a mystery.

Peter Puck can wait, and in the meantime, it wouldn't be a bad idea if somebody would freeze him. A simple icing would do.

NBC did seven other spots for various NBC-produced shows, including two for the Smother Brothers.

Four beer commercials (advertising three different brews) were broadcast. All were ridiculous, such as the one at elucidated that "any time is Miller time."

But while snow skiing?

Then there was the beer commercial that opened with a herd of buffalos running directly towards the camera. It is doubtful that a case of Schlitz was awaiting them. Besides, whoever heard of a drunken buffalo?

A meaningful commercial was offered by Goodyear, which told us about the recent grinding of grooves into airport runways and freeways to prevent tire slippage during wet weather.

Somebody should have sliced some of those grooves into the Tulane Stadium AstroTurf during the Super Bowl to keep the football players on their feet.

If not this, then the respective teams should have been outfitted with grooved shoes to prevent "hydroplaning."

Seems like every time a player made a sharp cut, he fell down. Isn't AstroTurf supposed to provide better footing?

Another commercial highlight was Jim Simpson doing ads for RCA. Lucky for us, he was doing these rather than announcing the football game.

Lowlights of the day included a McDonald's commercial (which could give us a break today by producing better television commercials), and a spot for Great Western Savings (a bank that boasts of assets of over \$4.5 billion, yet can't come up with enough money to produce an intelligent advertisement).

Not to be forgotten was the Master padlock ad, where the product stands up to a blast from a high-powered rifle. Hopefully, next up will be the guy who thought this one up.

If they're going to show commercials in the first place, why can't they bring back the Alka-Seltzer commercial in which the guy's stomach comes out to argue with him about his food intake?

In the meantime, we're stuck. Maybe next year the Super Bowl will return to Los Angeles, so we can go watch the game live in the Coliseum instead of being force-fed shoddy advertisements.

## Wrestlers to face Santa Ana on Friday in conference opener

By PAUL BRADLEY  
TM Staff Writer

South Coast Conference competition will open this Friday night when the Falcon wrestling squad meets the Orange Coast Pirates.

"It will be a very good match," commented Cerritos coach Haj Simonek. "It will be the first time this year that we've had our full line up."

Simonek referred to the fact that four of the team's most promising wrestlers have been out with injuries, one since the beginning of the season and the others gradually.

Pat Divine went out early in the season with a knee operation concerning a cartilage. Mark Baker was forced to retire from the team shortly with a fractured ankle. Steve Hart had to drop out because of a dislocated shoulder. And Tony Fuertsch left early in December with two sprained ankles.

Despite having been injury ridden during the early part of the season, the Falcons still managed to place favorably in some major tournaments of the year.

One, just last weekend, was the two-day Cal Poly Tournament. Cerritos placed seventh out of 35 competing colleges.

Two other South Coast schools, Santa Ana and Fullerton, took fifth and fourth respectively.

Five Falcon wrestlers were credited by coach Simonek for having outstanding performances at the tournament. Spencer Call, 142, took a fourth; Foster Harrison, heavyweight, also placed fourth; Ed Kempema, 190; Mike Salcido, 128, wound up with a second; and Paul Thompson at 134 took a second.

Thompson was also credited as being the Falcons first injury in '73, as he had to drop out of the tournament with a badly sprained ankle.

Other tournaments included the Bakersfield 6-Way and the Orange Coast 4-Way.

### Salcido ...

(Continued from page 4.)

a great coach and a great human being.

"He and Jim West (Simonek's assistant coach) are a great team."

In his sophomore year at Artesia, Mike went undefeated and captured the league title at his weight.

He then moved to Washington where he attended Mt. Tahoma High School. While there he totaled a record of 38-5-1, 28 of those 38 wins by pins, and placed fourth in the state his senior year.

Being so impressed with Simonek and his coaching abilities, he decided to come back to Southern California and "get some good experience under a good coach."

So far Mike has received offers from Idaho State, Idaho University and Arizona State, all of which are prominent names in college wrestling (particularly Arizona).

At present Salcido's major is in art, covering every thing from painting to sculptor (his main interest), with a minor in physical education.

Once out of college he would like to teach and coach.

But until he does get out of college, he'll be striving toward bettering his skills in art and in wrestling through "hard work and prayer."

**IT FEELS SO-O-O GOOD!** — The expression on Willie Howard's face as he comes off the court last Saturday night tells the story for him and the Cerritos basketball team. Howard scored 30 points and grabbed 13 rebounds in leading the Falcons to a 69-57 victory over San Diego Mesa. Cerritos' 8-8 center has been doing it all for the team this year, averaging 18 points a game and snaring most of the rebounds. Bob Foerster, coach of the basketball team, says Howard will only improve as he gains more experience. Howard is only a freshman.

— TM photo by Dan Cabe

### Briefs ...

JV's finish 3rd

(Continued from page 4.)

The Cerritos junior varsity women's basketball team closed out a successful 1974 season by taking third place in the Southern California Community College Tournament with a 56-15 victory over L.A. City.

Scoring for Cerritos were Barb Russell, 13 points, Marcia Lemmon 12, Belvia Arnold 11, Tracy Davis 8, Eileen Cook and Jeanie Vander Maarl 4 points apiece, and Melinda Crimson and Debbie Duncan each added 2.

It was the defense, however, that turned the trick for Cerritos in holding LACC to only 15 points.

Cerritos also controlled the boards at both ends of the court.

The jayvee team was eliminated from the championship in the tournament by dropping a previous game to Pasadena.

Kincaid state's best

Cerritos College baseball coach Wally Kincaid was voted Coach of the Year for the second straight season by the California Community College Baseball Coaches Association during balloting that was conducted last Fall. Kincaid won the honor off of his team's

second consecutive state Championship season last spring.

The Cerritos baseball coach since the college first fielded a team back in 1958, Kincaid has compiled a 520 and 117 record as coach of the baseball team.

During the two championship seasons, Cerritos has gone 73-8 under Kincaid.

Kincaid has also coached the team to four state championships, four Southern California Championships, a Northern California title, 11 conference titles and numerous tournament championships.

He averages 31 wins a year and has coached 128 All-Conference players and 10 All-Americans.

Kincaid had a perfect 40-0 season in 1966 and a 40-1 record in 1970. Cerritos has had winning streaks of 45 and 38 games under Kincaid's tutelage.

The 1975 baseball season will open on Feb. 13, and Kincaid will be shooting for his third straight championship season.

Finishing a distant second to Kincaid in this year's voting were Joe Hicks of Long Beach City College, and Butch Hughes of Merced. Hughes was a star player under Kincaid at Cerritos College in the early 60's.

## Student Rights Proposal

### CERRITOS COLLEGE STATEMENT OF STUDENT RIGHTS AND RESPONSIBILITIES PREAMBLE

The community college exists for the transmission of knowledge, the pursuit of truth, the development of students, and the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the academic community students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth.

Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus, and in the larger community. Students should exercise their freedom with responsibility as not to endanger the rights of others.

Cerritos College should be open to all qualified students regardless of race, creed, national origin or sex.

### CLASSROOM RIGHTS AND RESPONSIBILITIES

The professor in the classroom and in conference should encourage free discussion, inquiry, and expression. Student performance should be evaluated solely on academic basis, not on opinions or conduct unrelated to academic standards. Students should be free to take reasoned exception to the data or views offered in any course of study and to reserve judgment about matters of opinion. Procedures will be established to enable the student to petition or appeal when he or she believes the course is not being presented as described in the catalog course outline. The student shall also have the opportunity of appeal when he feels his academic evaluation was not justly computed. Students are responsible for learning the content of any course of study for which they are enrolled and for maintaining standards of academic performance established for each course in which they are enrolled.

Administrative staff and faculty members should respect confidential information about students such as student views, beliefs, and political associations, which is acquired in the course of their work. Transcripts of academic records should contain only information about academic status.

### ON THE CAMPUS RIGHTS AND RESPONSIBILITIES

Students should be free to examine and discuss all questions of interest to them and express opinions publicly and privately. They should be free to organize and join associations to promote their common interests. The membership, policies, and actions of a student organization will be determined by vote of only those persons who hold bona fide membership in the college organization. Campus advisors may advise organizations in the exercise of their rights and responsibilities.

Student organizations may be required to submit a statement of purpose, criteria for membership, rules of procedures, a current list of officers and the advisor shall certify the list of verified members. Campus organizations should be open to all students without respect to race, creed, or national origin who meet the criteria for membership.

Students and student organizations should be free to support causes by orderly means which do not disrupt the regular and essential operation of the college. Student organizations shall have the right to invite and to hear any person of their own choosing. Guest speakers invited by students or student organizations should be subjected only to those procedures required by the college to insure that there is orderly scheduling of facilities and adequate preparation for the event, and that the occasion is conducted in a manner appropriate to an academic community. Control of campus facilities should not be used as a censorship device. It should be made clear to the academic community and the larger community that the public expressions of students, student organizations, and guest speakers speak only for themselves.

As constituents of the academic community, students should be free, individually and collectively, to express their views on issues of institutional policy and on matters of general interest to the student body.

### STUDENT PUBLICATIONS

Student publications and the student press perform the traditional roles of informing, entertaining and influencing. They are both instructional and informational, and as such should meet the highest academic and professional standards in serving the broad college community.

Administrative and academic authorities, in consultation with students and advisors, have the responsibility to define and clarify the role of student publications, the standards to be used in their evaluation, and the limitations on external control of their operation.

They must also assure that both academic freedom and editorial freedom are protected and exercised so that the integrity of the student publications program and the free press will not be compromised.

It is incumbent upon student editors and managers to act according to the highest ethics of responsible journalism. This corollary responsibility includes careful adherence to the laws of libel and good taste, and such considerations as the avoidance of indecency, undocumented allegations, attacks on personal integrity, and the techniques of harassment and innuendo.

Safeguards to assure freedom of the student press with responsibility should include freedom from censorship or arbitrary control of the press, and protection of editors and managers from arbitrary attack, suspension, or removal because of disapproval of editorial policy or content by any external influence.

### IN THE LARGER COMMUNITY

College students are both citizens and members of the academic community. As citizens, students should enjoy the same freedom of speech, peaceful assembly, and right of petition that other citizens enjoy. As citizens they should be subject to civil law as others and may incur penalties prescribed by civil authorities when violating these laws. Only where the college's interests as an academic community are distinct and clearly involved should the special authority of the college be asserted.

### DISCIPLINARY PROCEEDING

In all disciplinary actions the student should be informed of the nature of the charges against him, that he be given a fair opportunity to refute them, that the institution not be arbitrary in its actions, and that there be provision for appeal of a decision.

## Talon Marks

Production and printing of Talon Marks is funded by the Associated Students of Cerritos College. Facilities and supervision are provided by the College. It is produced by students enrolled in the academic journalism program.

Talon Marks is published weekly except during holidays, examinations and vacations by the Department of Journalism and Student Publications, C. Thomas Nelson, chairman. Offices are located in Arts and Crafts 34, Cerritos College, 1110 Alondra Blvd., Norwalk, CA 90650. Dr. Wilford Michael, president.

Telephone (213) 860-2451, Ext. 374, 384. Advertising rates will be sent on request. Talon Marks reserves the right to refuse any advertising or editorial matter in accordance with student publication and academic policy.

FALL SEMESTER, 1974

## Final Examination Schedule

ALL EXAMS SHALL BE GIVEN ON DAY AND HOUR SHOWN ON SCHEDULE

LOCATION: Examinations will be conducted in the same room used for the regular class meetings. (Exception: physical education activity classes will be scheduled in the Gymnasium.)

DAY CLASSES' DATES: Final examinations for all day classes (7 a.m. to 4:30 p.m.) will be held according to this schedule. On the chart below find the appropriate square which identifies the day and time for your class during the regular semester. From this you can determine the date and the two-hour time block for your final exam.

EXTENDED DAY CLASSES' DATES: (4:30 p.m. and after) will have a two-hour session for final examinations as indicated on this schedule and will start at regularly scheduled class time. No extended-day classes or examinations will be scheduled for January 28 or 29.

EXCEPTIONS: Classes meeting for one hour at 6 MWF will meet \*5-7 T  
Classes meeting for one hour at 6 TTh will meet \*5-7 T  
Classes meeting 5:30-7 MWF will meet \*5-7 T  
Classes meeting 5:30-7 TTh will meet \*5-7 T  
Classes meeting 6-7:30 TTh will meet \*6-8 T

LAST DAY OR EVENING FOR CLASSES IS MONDAY, JANUARY 20, 1974

SATURDAY CLASSES: Saturday classes will hold a two-hour final examination on Saturday, Jan. 25, beginning at the regular class starting time.

Date	JAN 21 T	JAN 22 W	JAN 23 Th	JAN 24 F	JAN 27 M	JAN 28 T	JAN 29 W

### EXTENDED-DAY FINALS

JAN 21 T	JAN 22 W	JAN 23 Th	JAN 24 F	JAN 27 M		
TUES-TH TUES ONLY	WED ONLY	TH ONLY	FRI ONLY WED-FRI	MON ONLY MON-WED MTWTh		

### SPECIAL SITUATIONS

- Classes which regularly meet for a double period one day and a single period another day (e.g. 8-10 T; 9 Th) will take the final examination scheduled for that hour on which the class meets both days—in the above example at 9 TTh.
- Classes scheduled in a bloc on a single day (e.g. 9-12 T or 12-4 F) will take the final examination scheduled for the first hour on which the class meets (for example, 9 T for the 9-12 T block and 12 F for the 12-4 F class).
- Classes starting on the half hour will follow the exam schedule for the next even hour (e.g. classes scheduled for 9:30-11 will follow the exam scheduled for the 10:00 hour).
- Rancho Los Amigos classes will conduct final exams on Wednesday, January 29 during the normal class hours.
- Students taking the TV courses will be notified by mail of the time, date and location for the final.
- Students who, because of personal illness, are unable to take examinations as scheduled must make individual arrangements with the instructors involved.

## Editor-in-Chief looks back and reflects on the past semester

By TOM TAIT  
Editor-in-Chief

This issue marks the final edition of the Talon Marks for the 1974-75 Fall semester. Students are studying for their final examinations, making plans for the upcoming semester—and perhaps reflecting on events of the past 18 weeks.

Talon Marks, as well as Cerritos College, has had a fairly successful and productive half year. We have attempted to cover the campus in a comprehensive way, giving space to all newsworthy events and individuals.

We are not without our shortcomings. There have been several instances when Talon Marks overlooked an important happening, and others that we did not cover in adequate detail.

In the long run, however, I believe the Talon Marks staff has done an admirable job in reporting to the campus those events the college was most interested in and affected by. I would like to take this opportunity to thank the TM staff for the long—and many times unrewarding—hours they have spent in helping me produce what I consider a first class, professional quality newspaper that was both informative and reflective in regards to the Cerritos College campus.

This past semester was one of surprisingly few controversies, something that has long been a trademark of past newspaper staffs. We have attempted to change the image of the TM from one of an irresponsible cause fighter to that of a professional publication interested in

reporting the facts and discovering the truth.

We are not without our causes, but Talon Marks has learned that you don't have to start a war to win a battle.

I have heard the Talon Marks criticized for its "shallowness and boring content," but what the critics do not seem to realize is that a newspaper is not a newsmaker.

We are only the reflectors of the newsmakers.

If there have not been interesting or flamboyant stories, the simple reason is because the college campus has not experienced the controversies of the past—certainly not because TM was unwilling to cover them.

Contrary to popular belief, Talon Marks is in no way censored or controlled by the administration or student government.

It is true that the TM receives funds and equipment from both parties but when it comes to deciding what goes to print and what does not, it is purely a decision of the editorial board in consultation with the advisor who is by law and ethic responsible for what the Talon Marks has to say on Wednesday morning.

The most surprising experience I had was the lack of letters to the editor we received. Judging from previous semesters, I had the idealistic belief that this generation of college students was one truly interested in their own welfare and that of others. But when I count the six letters received and the amazing difference in voting returns between ASCC and Homecoming elections, I can only express a bit of shock and disappointment in my fellow students.

Administrators at Cerritos have conveyed to me a real and honest interest in the welfare of the students here, but the reaction from students I have viewed is one of total indifference.

Talon Marks will continue to publish weekly next semester with a new Editor-in-Chief and some different members on its staff. I wish them the best of luck, and hope that they will continue to improve the tradition of quality professional coverage for the ever-changing Cerritos College campus.

## EARTHBLOOD

### New cancer threat

By AL BENTON  
TM Staff Writer

Spray your way to skin cancer, but at least you'll smell good. The man-made chemicals used as propellants in aerosol sprays will lead to a serious increase in the incidence of sun-induced skin cancer.

Researchers at the University of California-Irvine, Harvard University, the University of Michigan and the National Center for Atmospheric Research all have found that these chemicals, called fluorocarbons, such as Freon, remain in the atmosphere without dispersing and deplete the Ozone layer.

You say you thought Ozone was just smog? That's true. Ozone in high concentrations in the lower atmosphere is not natural and is dangerous to human health.

High in the atmosphere is a layer of naturally occurring Ozone that acts as a protective shield against excess ultra-violet radiation. It is this radiation from the sun that, in some cases, can cause skin cancer.

The depletion, or thinning, of this layer by as little as one per cent would allow enough additional ultra-violet radiation to reach the surface to cause an estimated 10,000 new cases of skin cancer, according to the researchers.

It is estimated that by the end of this century the Ozone layer will be depleted by as much as 25 per cent if we continue to use aerosols at the present rate.

There are other consequences directly related to Ozone depletion. Ozone not only shields out radiation but it also acts as a heat generating layer, capturing and transmitting solar energy.

The Ozone layer also acts as a heat loss barrier. Thus if the Ozone is depleted less heat would be generated and more heat would escape, making the surface colder and directly affecting climate and winds.

The answer to this problem is to phase out

and ban the use of fluorocarbon propelled aerosol sprays within the next three to five years.

What then? We have all become semi-dependent upon aerosols. Do we do without? Not necessarily.

There is a new product being developed that solves the fluorocarbon problem and could also be of economic benefit to the consumer.

These new products are spray cans that have the product packaged inside a little bag which is then placed inside the spray can. The can is then pressurized with an inert, or passive, gas such as Nitrogen, which amounts to 78 per cent of the atmospheric gasses.

The gas does not escape when you spray. When you spray, you spray all products rather than product and propellant.

You get more for your money. So we really can have convenience, environment and consumerism too, all in one package. All that it takes is a little thought.

PITCH IN!
