to be ready for use by next fall. "Secondary effects" of the building program cover several areas around campus, with final details being completed on a variety of expansion and remodeling. —TM Photo by STEVE DAVIS

## New regulations imposed on campus Moped operators

By JOHN ALLISON  
TM Staff Writer

If you happen to be one of the many students and staff members seen traveling by "moped" this fall, you should be aware of the laws that apply to these unique vehicles.

Brad Bates, advisor for the Campus Police, stated that there has been an alarming in-

crease in accidents involving "mopeds" and that it is becoming a major problem.

If you desire to use a moped on public streets, you must carry a valid drivers license or learner's permit. Due to the fact that mopeds are motorized, they must follow all vehicle code laws. It is unlawful for a rider who holds only a permit, to carry another passenger. Licensed drivers may carry another only if there is a securely attached additional seat provided with a foot rest. Mopeds may not be operated on sidewalks, within city parks, in the county flood control channels, or on freeways.

Although registration of a moped is not required, all such vehicles manufactured after 1965 must be equipped with brakes on both wheels, a horn, muffler, and lights, all in good working order.

Bates also added that enforcement of these laws will be stepped up both by the Campus Police and the Norwalk Sheriff's traffic department.

If anyone has any questions, they may contact the campus police office located in BC-13 or phone 860-2451, Ext. 291.

## Cerritos blood drive opens; this year's goal 225 pints

With 225 pints of blood as this year's goal, the annual Cerritos College Blood Drive opens Monday, Sept. 26.

All students interested in donating blood may sign up in front of the Student Center.

Clubs and organizations on campus are competing to get the highest number of volunteers. The winning club will receive a trophy at the Fall awards banquet.

All donors automatically become a member of the Cerritos College Blood Bank. Should

they, or any member of their family ever need blood, they are entitled to it.

Commissioner of Inter Club Council, Marilyn Merritt, says that the high price of blood should serve as an incentive for students to donate blood, and urges all students to sign up.

The bloodmobile will be on campus Monday and Tuesday from 8:45 a.m. to 1:45 p.m.

Last year's drive netted 172 pints, with approximately one per cent of the student body participating.

## ASCC petitions due Friday; expect heavy campaigning

### New Auto Tech, upgrading gives campus face lift

By GEORGE SONEFF  
TM Staff Writer

Cerritos College has changed. Workers are busy not only on the new Auto Tech Center, but throughout the campus wrapping up a variety of projects started this summer.

While the multi-million dollar auto center isn't scheduled to open until the fall of 1978, many summer projects are already in use by students and faculty.

According to John C. Ribbens, director of Maintenance, Operation and Transportation, the most notable changes have come under the "Secondary Effect Remodeling" package.

A new broadcast room and an enlarged piano lab in the Burnight Center, a complete remodeling of the Child Development Center and a modernization of the Handicapped Students area — including an electrically controlled sliding door — are completed parts of the package, which Ribbens said cost about \$250,000.

The Arts and Crafts Building is sporting a new photo lab and darkrooms, art lab and graphics room — also part of the "S.E.R." project. Though the construction is being completed, these facilities are still awaiting essential equipment.

## Fall elections begin Tuesday

By TIM CARTER  
TM News Editor

Petitions are now available to any full time student who wishes to run for election to the fall Student Body Senate. They can be picked up in the Student Activities office from Student Activities Secretary Mary Monnin.

The deadline for filing is Friday, Sept. 23 at 4 p.m.

The election will be held Sept. 26 and 27. All students possessing a fall student body card are eligible to vote. Polling places will be located in the student center outside the coffee shop, by the Elbow Room, and in the Health Sciences building.

Polls will be open both days from 8:30 a.m. to 2:30 p.m. and will reopen at 6 p.m. until 9 p.m.

The only requirements for running are that the candidate be currently enrolled in 10 units and a grade point average of 2.0. A refundable publicity bond of \$5 and a non-refundable cleanup fee of \$1 are also required.

"I feel Cerritos College is probably the highest academic junior college in Southern California. One of the reasons for this is the extra curricular activities that we have to offer. One of these is student government," states ASCC president Don Collins.

"In order to maintain this high degree of excellence, all students should support student government to the maximum. Student government is a learning experience and allows the chance to represent all students on campus at large," said Collins who last semester was a student senator.

Collins adds that "running for Senate is a simple process and that if you should have any questions, complete information is available in the Student Activities Office."

Last semester 1,310 students voted on a total slate of 93 candidates.

The student senate is made up of 36 students, all of whom are elected. They meet every Wednesday at 2 p.m. in BK 112. The first meeting will take place October 4.

The results of the election will be posted by 1 p.m. Thursday, Sept. 28 in the Student Activities office.

Ten of the 36 seats will be reserved for incoming freshmen. The new senators will be seated in consecutive order, with the top vote getter getting the number one seat. The senate then elects a freshman and sophomore leader, a sergeant-at-arms, a president pro temp, and a party whip.

## Enrollment pulls fast one; goes up instead of down

By GEORGE SONEFF  
TM Staff Writer

Some 22,000 students breezed through the Cerritos computerized registration process this fall, according to T. Paul Boatner, Director of Admissions and Records.

Actual enrollment can't be calculated until the end of the third week, when registration for Directed Studies closes. Students may also enroll in T.V. classes and Work Experience programs through this Friday.

The slight increase over the 1976 enrollment of 20,025 was good news to school officials who expected a second successive year of declining enrollment.

"We haven't experienced the five per cent decline we had anticipated," said Don Siriani, Dean of Student Personnel. "However, our programs can easily accommodate this number of people."

Programs probably won't need to accommodate this number of people for the entire semester. Statistics from the office of Olive Scott, Dean of Academic Affairs, show an average withdrawal rate of about 35 per cent by the fourth week.

The fourth week is critical because state funding is based on the number of students attending at that time.

Last year's 6.2 per cent drop in enrollment

didn't present any major financial problems for the school. Siriani explained, "We didn't expect the 1975 numbers (record-breaking enrollment) to hold steady, so we organized our programs and staff accordingly. We did a good job of predicting, which alleviated problems many other districts have had financially."

This year's figures show that part-time enrollment has increased 5.2 per cent and now makes up almost three quarters of the student

(Continued on Page 2)

## Falcon clubs go on display in annual recruitment day

By RICH GOUL  
TM Assoc. Editor

Former Miss Indiana Kellee Patterson will be crowned Alpha Phi Beta fraternity's "Sweetheart," the Ski Club will show its stuff on a fifteen foot man-made "mountain," and

free hotdogs, popcorn and coke will be on hand as nearly 50 Cerritos College panhellenic, special interest, academic and service organizations take part in the annual Club Booth Days, today and Thursday, Sept. 21 and 22 from 9 a.m. to 2 p.m. in the Quad.

Patterson, whose disco "Turn On the Lights" has shot as high as eighth on the national charts, will be installed in her honorary APB post tomorrow at 11 a.m. in that club's booth. Her presence will highlight the function which also features the "Near Borderline Kentucky Bluegrass Band" from 11 a.m. to 1 p.m. today and the "Trinidad All-Steel Band" from 11-12 a.m. Thursday.

Coordinator of Student Activities Norm Price said the purpose of the event is to "familiarize new and returning students with clubs and organizations on campus and the social and service benefits that can be derived from being involved."

Organized by Inter-Club Council Commissioner-elect Marilyn Merritt, the event, according to Price, is the key source of recruitment for campus organizations. He said that the Veterans, Sky-diving, and Dorian organizations should be reactivated this semester and that new clubs, such as "Roto-Act," a Rotarian-affiliated service group, are expected to be formed.

APB publicist Ralph Hann cited the hours of preparation on the part of the groups involved, saying, "Alpha Phi Beta has put a tremendous effort into their Club Booth Day and rushing program, and we hope everyone will turn out to greet Kellee."

Following today's and tomorrow's function, rushing officially begins for many of the campuses pan-hellenic groups. Information will be available at the booths about joining any of the participating clubs.

**CLUB BOOTH PLANNERS**—Jorge Landin, Club Booth Day assistant; Marilyn Merritt, ICC Commissioner, and Bob Anderson head student planners for the major fall activity designed to help the clubs and organizations attract new members. Display booths,

refreshments, and a variety of activities are slated today and tomorrow in the Quad. Students interested in checking out prospective groups should drop by.

# News Briefs

## BELLSON BACK AT BURNIGHT

Louis Bellson, with a concert featuring at Latin combo, will appear Saturday, October 1 at 8 p.m. in the Burnight Theatre.

Tickets are now on sale at \$4 to students on a first-come, first-serve basis at the ticket booth in the student lounge.

Bellson returns by popular demand for this third concert at Cerritos

## QUEEN APPLICATIONS DUE

The deadline to submit homecoming queen applications to the Student Affairs Office is 12 noon, Friday, Sept. 26.

## NOON CONCERTS TODAY

The "Near Borderline Blue Grass Band" will be performed in the Quad area today between 11 a.m. and 1 p.m. as part of the Club Booth Day festivities.

Tomorrow the "Trinidad All Steel Band" is scheduled to play in the Quad between 11 a.m. until noon.

## ASCC SENATE PETITIONS

Petitions for ASCC senate positions are now available in the Office of the Student Activities from Mary Monnin, student activities secretary. The deadline for filing petitions is Friday, Sept. 23 at 4 p.m.

Students must be enrolled in 10 units or more and have a GPA of 2.0 or better from last semester in order to run as a candidate for the ASCC Senate.

## GRAND LAND SINGERS IN CONCERT

The internationally famous Grand Land Singers will be in concert at the Church of Jesus Christ of Latter-Day Saints in Bellflower Friday, Sept. 30 at 8 p.m.

Tickets may be purchased at Cerritos ticket booth. Adults are \$4 and children under 12 are \$1.50.

**LA PHILHARMONIC HERE**—The Los Angeles Philharmonic, conducted by Pinchas Zukerman, will perform in the Burnight Theatre Friday, Sept. 30, at 8 p.m. Admission will be \$1 with valid I.D. card and tickets are

available at the Box Office. The return engagement is being sponsored by Student Activities. Shown here with Zukerman is clarinetist Michele Zukovsky.

# Big Sunday Co-Rec night offers action fit for all

By LIZ HARRISON  
TM Features Editor

A chance to test your skill at basketball, badminton, and other sports, along with free refreshments and door prizes will be featured during Co-Rec Night Sunday, Sept. 25 from 7-10 p.m. in the gym.

Volleyball, racquet ball and ping-pong will also be offered at this popular activity, according to Norm Price, coordinator of student activities.

Price also noted there is a co-ed softball league held in conjunction with Co-Rec night. The softball games are held at different times during the semester with individual and team trophies based on a point system, awarded at the end of the semester. The teams are either comprised of club and organization members, or individuals grouped together to form their own team.

Some requests to schedule chess, checkers, card games and even Bingo for Co-Rec night have been noted said Price who stated that "We'll schedule any activity if we have enough response if we have enough people and equipment to do it."

Price continued, "There has certainly been enough response and enthusiasm in the past for Co-Rec night with anywhere from 400 to 500 people attending." In fact, he said, "Co-Rec Night is almost a victim of its own success. Take the phenomenal growth of the basketball competition as an example, sometimes as many as 20-25 teams compete!"

Another factor in Co-Rec night's success, Price feels, is the fun of receiving a door prize. Some of the prizes include Cerritos College "T" shirts, drinking mugs and calculators.

Co-Rec Nights are scheduled the last Sunday of every month exclusive of holidays. The activities are open to anyone belonging to Cerritos College.

"There were no major problems. We had fun at work and play. We're all set for the new year," said Richard Robinson, dean of student activities.

Depending on contract arrangements, Flash Cadillac is temporarily set for a noon concert in the student center on Sept. 29.

No band is scheduled for homecoming as yet, it was reported.

Ron Regan, commissioner of athletics, inquired as to why none of the fraternities, sororities or campus clubs could sponsor dances after football games.

Norm Price, Co-ordinator of Student Activities, replied that all dances throughout the football season are sponsored by student body fees.

Price further stated there is ample time for these campus organizations to make money during the spring semester.

The ASCC club insert that will appear once a month in Talon Marks was also explained by Bob Archer.

"Talon Marks is providing a service for the clubs and student government that we couldn't provide for ourselves. It's for information there wasn't space for last year," Archer stated.

Any input from clubs and student government will be welcome, he said.

The executive cabinet passed a vote to recommend calling the insert "Campus Scenes."

Regan reported the first co-rec night will be Sept. 25 from 7 to 10 p.m. with a lot of new activities planned.

Several motions were approved to employ individuals for services dealing with various sporting events.

# Executive Cabinet gets down to business at first meeting

By PHYLLIS DAVENPORT  
Assoc. News Editor

It was the routine business-as-usual when all 13 cabinet members met Monday, Sept. 12, and Student Body President Don Collins called to order the first executive cabinet meeting of the fall semester.

Collins introduced newly appointed Commissioner of Convocations and Fine Arts Mike Reed, and announced that the positions of Commissioner of Extended Day and Commissioner of Student Services are still vacant. A court justice position is also open.

Any interested full-time students with a 2.0 or above grade average are encouraged to submit a resume to Collins or ASCC Vice-President Julie Emerson at the Student Activities Office.

Some of the cabinet members were concerned with the success of the Fall Leadership Conference held at the Apple Valley Inn Resort Sept. 7, 8 and 9.

## ...Registration

(Continued from Page 1)

body. Full-time enrollment has dropped almost 10 per cent.

Females (11,170) now outnumber males (10,763) for the first time in the school's history.

The number of students attending both day and night classes has increased by over half, while the number of night students has fallen off almost 30 per cent, and day students have increased a staggering 43 per cent.

According to Boatner, Cerritos has one of the top ten enrollments in the state among single-district community colleges.

# Art gallery to feature works of Prof. Aguirre

BY VICKI SPARKS

TM Assoc. Campus Editor

The Cerritos College art gallery has established a schedule of six exhibitions to begin this month and conclude in June, 1978.

The first exhibit, entitled "Impressions of Spain," consists of drawings and watercolors by Rudolph Aguirre, Cerritos College art instructor. It will run Sept. 26 through Oct. 14.

This exhibit will depict scenes which were inspired and created from photographs and sketches Aguirre made on a recent sabbatical in Spain.

Pencil, charcoal and watercolors make up the drawings in which Aguirre "tried to capture the flavor of Spain" by showing different aspects of Spanish life from all parts of the country. Landscapes, bullfights, castles, and people will be just some of the subjects covered.

About his work, Aguirre says "I'm a realist...my work is objective, but I try to give it a romantic overview." By realist, he means he sketches or photographs a real scene, then recreates it as a watercolor or pencil drawing.

Besides the sketches and pictures, the Cerritos art instructor also returned from Spain with many memories. Among them were those of the gypsies. To the Spaniards, gypsies represent the zest of their culture, but are tolerated only as long as they stay in their place. In a way, Aguirre says, they are treated much "like little children."

He regrets the lack of sketches he has of gypsies, but publicity seems to be one thing these people want no part of, he said.

Aguirre is planning to return to Spain next summer and strongly urges anyone who has the chance to do the same. In the meantime, drop by the Art Gallery—and see Spain through the eyes of an artist.

There will be an opening reception for

"Impressions of Spain" Monday, Sept. 26 from 7 to 9 p.m. for artist and public. Gallery hours are Monday and Wednesday 11 a.m. to 9 p.m., Tuesday and Thursday 9 a.m. to noon and 4 p.m. to 9 p.m., and Friday 11 a.m. to 3 p.m.

# Groups begin rush to find new friends

By TOM GRAY  
TM Staff Writer

To give its students a more fulfilling life at school, Cerritos College has several fraternities and sororities, each one providing its members a chance to make new friends and enhance his or her social life, as well as become involved in student activities and school service. They are headquartered in the Student Activities office, adjacent to the Bookstore.

Any individual who wishes to join a fraternity, sorority, or the coed service club, Circle K, is asked to rush the organization for two weeks. During this time, he or she will meet and get to know the people involved in the particular organization.

If the person decides to become a member of a club, they must then pledge for two weeks. At this time, the pledge must learn the names of the members, the history and other information related to the group. This is the most difficult, but most important, part of becoming a member, spokesmen said.

If after pledging, the person still wants to join, they must go through a two-week probation period. When the probation ends, the new members will attend a banquet and be installed in the organization.

Anyone seeking further information on the fraternities, sororities and Circle K, should attend Club Booth Day at Cerritos, Sept. 21 and 22 in the Quad from 9 a.m. to 2 p.m.

# ...Construction

(Continued from Page 1)

providing increased visibility while conserving energy in parking lots C-1, 2, 3, 4, 5 and 6.

Flow restrictors are cutting water usage about 20 per cent on most of the shower-heads, bathroom faucets and toilets in the school. Ribbens said this project will soon be complete.

Both pools received fiberglass resurfacing and all new underground drain and supply lines.

An advanced Dust Collection System in the woodshop is letting students breathe a little easier.

"It was a very, very heavy summer of construction," said Ribbens.

While delays in anticipated completion dates on some of the projects have caused some inconvenience in a number of areas, officials said very few complaints have been received.

One observer put it this way, "We're just happy to have the expanded facilities and upgraded teaching areas. After all, this doesn't happen that often."

## STUDENTS & FACULTY

Take a Falcon out to lunch ... or any time!

Pepe's is featuring a 10% discount on all food served at Pepe's with a Cerritos College I.D. card. This is our way of showing our friendly service and good food.

Pepe's is located on Studebaker and Alondra adjacent to the college. Plenty of good food, plenty of fun and much much more!

10 Keystone Place, Paramus, N.Y. 07652

# Is it sick to love a pen?

Not if it's an extraordinary Pilot Razor Point marker pen. A fiber-tipped pen so precisely balanced, it will always feel comfortable in your hand, even after hours of writing. Its sturdy plastic point, surrounded by a unique Pilot metal "collar" writes a distinctly smooth, sharp line. In fact, it's the thinnest tipped pen you can buy. And that makes it just great for pages of notes or that one important love letter. Best of all, it's only 69c and is now available at your college book store.

So if your Pilot pen makes you lovesick, don't be ashamed to admit it. After all, it'll always be good to you.

**PILOT** fineline marker pens.  
*They'll never leave you flat.*

Pilot Corporation of America, 41-15 36th St., Long Island City, N.Y. 11101

# Falcons scare No. 1 Bakersfield in 14-10 loss

**ACTION STOPPER** — Falcon runningback Juan Vasquez (32) is grabbed at the line of scrimmage by Bakersfield defensive lineman during Cerritos' heart-breaking 14-10 loss to the national champion, Renegades Saturday night in Falcon Stadium.

## Cross country trounces Harbor

Cerritos College's cross country team defeated Los Angeles Harbor College, 25-32, last Friday (Sept. 17) at La Mirada Regional Park.

Ronald Gonzalez ran the four-mile course in 20:48, the best time of the day to give the Falcons first place, good for one point.

The top five finishers from each squad qualify for points which are assigned by the numerical order in which the runners finish. The Falcons first five positions were 1, 3, 4, 8 and 9 for a total of 25. Harbors' top five were 2, 5, 6, 7 and 12 for a total of 32 points.

Cerritos' Bob Ridley finished the race in 21:09, good for third place, Juan Hernandez was 4th at 21:17, Dan Kincaid was 8th at 21:53, and Tim Nichols was 9th at 21:59.

"Our individual times have improved over those at the Rio Hondo meet (Sept. 7) which we lost 28-30," said head coach Dave Kamanski, who is also head coach of the Falcons' track and field squad which is presently preparing for a promising spring campaign.

The Falcon distance runners will host a triangular, or double dual meet this coming Friday (Sept. 23) at their home course in La Mirada against six-time and defending state champion Grossmont College and Mount San Antonio College, which finished second in the state last year.

## Premier sprinter McTear makes Falcon track home

By STEVE EAMES  
TM Sports Editor

Sprinter Houston McTear, co-holder of the 100-yard-dash world record of 9.0 seconds, has transferred here from Santa Monica City College to take advantage of Cerritos College's "better track facilities and more suitable academic program."

"I ran here at the Muhammad Ali Invitational (in May) and I liked the facilities," said the 20-year-old McTear. "I came back here and did some research and decided that Cerritos was the best place for me because of my major, which is physical education."

"I've got my education to think about," he said. "I'm not going to run track all my life."

McTear, escorted through registration by Athletic Director Don Hall, track coach Dave Kamanski and his handlers from the Muhammad Ali Track Club, enrolled in several physical education training classes, an English class and a reading class—a total of 11 units which will make him eligible to join Cerritos' track team next spring.

## Zetas, Aphib host K-100 in softball

A joint team of the Phi Kappa Zeta sorority and the Alpha Phi Beta fraternity has challenged the K-100 radio station to a softball game on Sunday, Sept. 25 at 12 noon on the Cerritos College softball diamond.

Women's softball coach Nancy Kelly will coach Cerritos' squad which will feature her 1977 ace Barbara Reinolda as a relief pitcher. Everyone is invited to come out and watch. There will be concessions.

As an 18-year-old senior at Baker High School in Florida two years ago, McTear stunned the sports world with a record-tying 9.0 second 100-yard-dash. This remarkable feat gave him the distinction of being the United States' brightest Olympic hopeful in 1976. However, his dreams of winning a gold medal were shattered early in the U.S. try-outs by a severe leg injury.

The impoverished McTear was taken underwing last year by his present sponsors, the Ali track club. The club brought him to Southern California where an excellent community college system was at his disposal to further his education.

"The only reason he went to Santa Monica last year is because it was closer to where I lived, in Marina Del Rey," said Harold Smith, chairman of the track club. "We spent that time there to find a place that's really best for him."

McTear won a Star-studded 100-meter race at the Muhammad Ali Invitational on May 30 with a time of 10.14 seconds—the year's best on a dirt track and just off the world record of 9.9.

In coming to Cerritos College to compete in the meet, McTear found a suitable place. Representatives of the Ali track club were impressed by the condition of the track facilities and by the personnel within the athletic department.

"The people here are very good," said Smith, who now lives in Cerritos. "They're very understanding and that's what he (McTear) needs to mature. He's come a long way, especially in the last year, but he still has a way to go."

In addition to McTear, Kamanski's summer recruiting program has yielded a pair of 9.7 sprinters (100-yard-dash) from Long Beach Poly.

McTear's notoriety is expected to attract additional high-caliber athletes to Cerritos' track squad, but his presence alone will be enough to fuel the whispers already circulating about a successful track and field campaign next spring.

"Houston will add a bit of excitement to the upcoming track season," predicted Kamanski, "and his presence will attract a lot of people to our meets. But with our excellent recruitment program we will treat them to a whole team of winners rather than just one individual star."

Kamanski, a self-proclaimed "team-man," reassured TM that his coaching staff would not concentrate the majority of their efforts on McTear. However, Ray Norton, a former Olympic sprinter, will continue as McTear's personal coach in conjunction with the regular track program.

"While he was being registered," Kamanski explained further, "he let us know that what he wanted most of all was to be a part of a team."

## Defense stands tough on goal-line; Copeland scores on 95 yard return

BY STEVE EAMES  
TM Sports Editor

Tailback Mark McDowell's two-yard sweep into the end zone with 2:12 left in the game gave national champions Bakersfield a 14-10 victory over Cerritos College Saturday night in Falcon Stadium.

The Falcons looked good on the field—at times—but the impressive performances of return-artist Jim Copeland, who took a third quarter kickoff 95 yards for Cerritos' only touchdown and the opening kickoff for 49 yards, a total of 144 return yards, second-year quarterback Kevin Hamilton (12-of-18 passes for 145 yards and two interceptions), runningback Bret Schatz (65 yards on 11 carries) and the entire defensive unit were not enough to upset their highly favored opponents.

Bakersfield's offense made excellent penetration into Cerritos' territory—crossing mid-field during 8 of their 14 series—but once inside the 10 yard-line the 'Gades ran into a brick wall.

The Falcons' goal-line defense, lead by defensive linemen Rick Carusa (6-1, 190 pounds) and Dave Hernandez (6-2, 200) and the Defensive Player of the Game, linebacker Paul James (5-10, 190), held the 1976 Junior Rose Bowl champions to ten yards on 14 plays from scrimmage inside the 10.

For the Falcons, the loss was heartbreaking—one that they should have won had it not been for all the careless mistakes and costly penalties they fell victim to.

Bakersfield had the best scoring opportunity of the first half when they blocked a Cerritos punt by Richard Camarillo (5-10, 180) early in the second quarter.

Starting at the Falcon 39, Kaiser took his Renegades to a first-and-goal-to-goal at the one yard-line. A fired-up Falcon defense stood tough at the line of scrimmage as Kaiser sent the next two plays up the middle for no gain.

Work-horse tailback McDowell, who rushed for 91 yards on 27 carries, was tripped up at the line for a loss of 1. Instead of going for an easy three-point field goal on fourth-and-goal at the two, Kaiser ran around left end only to be

**TALON MARKS**  
**Sports**  
Page 3 • Sept. 21, 1977

dropped for a two-yard loss. The Renegades had been stopped cold.

Bakersfield opened up the second half, and the scoring, with a 72-yard TD drive capped by fullback Norm Williams' one-yard plunge through the line. The extra-point was good for a 7-0 lead.

Copeland's ensuing 95-yard kickoff return brought the Falcons—and their fans—to life. The 5-10, 181 pound speedster found his way through the crowd to daylight, then he did what came natural to him with a dozen Renegades on his tail...he ran like crazy.

Two minutes into the fourth quarter Cerritos turned a blocked Bakersfield punt into three points with Martin's 28 yard field goal to give the Falcons a 10-7 lead. Martin's kick followed a 60-yard drive from Cerritos' 8 during which Hamilton connected twice with his favorite target, Marc Mendez, for gains of 18 and 39 yards.

Several minutes later, Renegade defensive back Jon Adams intercepted a Kevin Hamilton pass to give the ball to Bakersfield on their own 30 yard-line.

Eleven plays and 63 yards later, Bakersfield found themselves in another first-and-goal at the Cerritos 7.

On second-and-goal at the three, tailback Roosevelt Lewis fumbled on the 2 yard-line. Cerritos scooped up the ball, and seemingly the game, but an illegal formation penalty against them returned the ball to Bakersfield.

Seconds later, McDowell took a pitch from Kaiser around left end to the corner of the end zone for the game-winning TD.

## Soccer squad splits pair in see-saw pre-season play

By LUIS CAMPOS  
TM Assoc. Sports Editor

Cerritos College's soccer team, under the direction of Coach John de Jong, split their first two pre-season matches last week.

The Falcons lost their season opener to Los Angeles Harbor College, 3-2, on Tuesday (Sept. 13) and battled to a tie with UCLA's junior varsity squad, 1-1, on Friday (Sept. 16).

The Harbor College Skyhawks took an early lead in both teams' season opener Tuesday—at the six-minute mark—on Pedro Ramos' successful corner kick.

Despite the Falcons' lack of organization on both offense and defense, Cerritos tied the game fifteen minutes later at 1-1 when midfielder Nayib Chaibun's well-directed shot sailed untouched into the Skyhawks' net.

Harbor took the lead again, 17 minutes into the second half on a free-kick—a gift from the frustrated Falcon defense—which Cerritos failed to form a wall against.

Chaibun, Cerritos' star, tied the match, 2-2, with a penalty kick but the Skyhawks came right back when Jerry Meulstee's shot found its way past goalie Victor Ulloa into the Falcon net for the final score, 3-2.

On Friday, de Jong's soccer squad travelled to UCLA where they faced the JV Bruins.

A few minor changes in the starting line-up by de Jong proved to be an improvement over the opening game's line-up. The Falcons' impressive fast-paced action gave them control of the game from the presentation. Their domain was soon reflected on the scoreboard when first-year right-winger Victor Gonzales scored his first goal of the season.

The Bruins came on strong in the second half, putting heavy pressure on the Falcon defense. The UCLA mid-fielders took control of the field to serve their forwards with plenty of passes that could have been converted into goals if they had not missed the final shots.

The Falcons were limited to counter-attacks which carried a lot of danger to the confident Bruin defense but were otherwise ineffective.

A penalty kick gave the Bruins a chance to tie the score, but the player who kicked the ball did so very poorly, sending the ball into the hands of goalie Marquez. Marquez merely deflected the shot, giving the same UCLA player another chance. His looping shot was out of the Falcon goalie's reach, tying the score, 1-1.

## Start off on the right foot!

It's the beginning of a new semester ... This time you're going to do it right. This time it's a 4.0, or maybe a 3.5. This time you'll keep up with the readings.

And the way to keep up is to buy your own textbooks. They're always there when you need them, not just when a friend or the library can loan them to you.

## Rely on your textbooks

TALON MARKS Wednesday, Sept. 21, 1977 Page 4

## To think the thought

"Ours is not to reason why" runs a long-standing cliché.

But Thornton Wilder once wrote, perhaps with the above in mind, "Most of the people in the world are fools and the rest of us are in great danger of contagion."

And so we come to why you are here—and the purpose of this college.

It would be pointless to welcome you here, or welcome you back—for congratulations are in order to you for the step that you have taken. If you did not desire to know more than you now know you wouldn't be here.

And while history has a number of well educated fools—and men who were illiterate but noble—we are shown that knowledge is as open to abuse as is power, and not a guarantee against ignorance. Knowledge cannot only be likened to power, because the truth is that it is power.

With it we are independent; without it we can easily be lied to, deceived, manipulated and exploited, but you can't do this to an intellect with the knowledge to detect the lie.

As with power, possessing more knowledge puts you in a position to be of greater service, possess more potential, both for your own benefit and that of others.

Knowledge is the purpose of this college and institutions like it, and Cerritos is one of the best in the state.

The Talon Marks staff looks forward to serving readers who have the desire to learn, and we'll do our best to report everything of interest on campus, from the admirable to the absurd.

Ours is not to reason why ... Don't you believe it!

And if there is another frog jumping contest, we'll let you know. But we won't supply you with the frog.

## Ultimate in ultimatums

It only takes a few to spoil it.

In the past, some veterans enrolled at Cerritos and other community colleges throughout the state have "misused and falsely obtained benefits" by dropping classes and neglecting to inform the Office of Veterans Affairs, and dropping out of college and continuing to draw benefits.

Federal law authorizes the Veterans Administration to assess liability against an educational institution for payments improperly made to a veteran student because of the institution's negligent or false reporting of the student's withdrawal from or termination of a course," according to a recent bulletin issued by the Chancellor's Office of the California Community Colleges.

If a veteran continues to collect benefits that he is not entitled to, the college is the party most likely to be penalized. The problem has become serious enough for the Chancellor to introduce a resolution through Senator John F.

Dunlap (D-Napa) to provide relief from the over \$2 million in liabilities assessed by the VA against the various California Community Colleges.

The resolution goes on to state: "... such liability is being imposed without recourse by the college to such due process procedures as the right of judicial appeal, the rights of discovery and cross-examination, and the right to fair and impartial hearings."

In other words, if the veteran cheats, the college pays—and heavily—with no chance to clear its own name by showing the veteran to be at fault.

The resolution requests that the President and Congress adopt a resolution forgiving claims by the VA against the California colleges and that legislation be enacted to provide judicial review and other due processes.

We believe in forgiving—provided it doesn't need forgiving the next time, and the next ...

## Conference prepares leaders for year to come

By MARTIEAL WILLER  
TM Editor-in-Chief

The purpose of the three-day conference—Richard Robinson, dean of student activities told those in attendance—"Is to learn more now so that we may act more wisely during the fall semester."

Some 125 persons including students, instructors, administrators and members of the Board of Trustees attended the 15th annual Fall Leadership Conference held Sept. 7-9 at the Apple Valley Inn Resort in Apple Valley.

Using a workshop format, the conference was designed to provide a forum for planning and formulating all of the coming activities for the fall semester.

Five workshops provided an opportunity for student input in planning for upcoming events and projects.

An administrator or instructor acted as a resource person at each workshop. For the purpose of recording ideas, a secretary was assigned at each session.

Workshop I, divided into two sections, dealt with Homecoming. A combination slide and movie presentation reviewed past homecoming activities.

A homecoming theme; queen applications and election; float construction, judging and awards; homecoming dance; half-time activities; publicity and security were some of the topics discussed.

"Fantasy" was selected as the 1977 Homecoming theme.

Workshop II sought to coordinate the activities of the Inter Club Council, review the purpose, goals and operation of the Associated Students of Cerritos College (ASCC) Student Government. It attempted to orientate new instructors to the philosophies of the student personnel by familiarizing them with programs that are available on campus to students.

Workshop III evaluated the school's current

awards system, took a good look at past activity programs and conducted a brainstorming session providing the opportunity for students and faculty alike to ask Dr. Wilford Michael, president/superintendent of Cerritos, Don Siriani, dean of student personnel and other top-level administrators questions regarding any college matter.

Topics receiving the most attention were setting aside non-smoking areas on campus, need or non-need for individual student lockers, teacher evaluation policy and amplification in the quad.

## 'CampuScene' to cover clubs

A new magazine insert called CampuScene to be published in the Talon Marks on a monthly basis will publicize club and organization activities not normally included in the campus weekly because of space limitations.

First edition of the new magazine will be Oct. 5. Deadline for information to be included is the Thursday prior to publication. All clubs and organization information for the issue must be turned into the office of Coordinator Norm Price in Student Activities by Wednesday, Sept. 28 for the CampuScene Thursday deadline.

Responsibility for determining which stories and photos have priority under the arrangement with Talon Marks for this special insert goes to Commissioner of Publicity Bob Archer, assistants Tom Gray and Marla Rowe, and adviser Price.

BOOKMAN LIEBER-MACKEY

## 'One on One' scores highest with Benson on the team

By TIM CARTER  
TM News Editor

Some may call it a blatant rip-off of "Rocky", but they would be wrong. "One on One" is exactly what it is being advertised as, "The story of a winner."

The movie centers around Henry Steele who is played sensitively by Robby Benson. Steele is the local highschool basketball star, who attracts the attention of college coach Moreland Smith. Steele is signed by Smith with the lure of a new car and an unbreakable four-year scholarship.

Steele shows up at the college, but never quite lives up to the high expectations that are expected of him. The coach asks Steele to renounce his scholarship, but he refuses. From then on, Steele's life is made miserable by the coach. But Henry continued to fight, and to hold on to his scholarship.

The climax of the movie is a crucial basketball game, and Steele's team is losing. Key players have been injured and fouled out of the game. The coach is forced to send Steele into the game with instructions that he keep away from the ball. Of course he doesn't obey the coaches orders and goes on to become the star of the nationally televised game.

Ending the movie here would have been fine, but it goes on to one final scene between the coach and Steele that will have most audiences applauding for pure joy.

Everything about this movie works. Coach

## OLD RADIO BUFF

## New library director One for the books...

By SUE PAULINO  
TM Campus Editor

Most people can't wait to get off work and leave it all behind, but Gerry Lieber-Mackey "can't go home again" — because when he leaves his work at the library, he goes home to a library.

Learning Materials Center and Instructional Media director Lieber-Mackey and his wife own about "one-half ton" of books which he says creates a bit of a problem whenever they move.

The director recently moved to California from Lake Tahoe, Nevada where he was LMC director at Lake Tahoe Community College.

But an extensive book library is not the only kind of library Lieber-Mackey comes home to. He owns some 500 cassette recordings of old-time radio programs which he says are "a fascinating, rewarding hobby."

Lieber-Mackey's interest in old time radio (OTR) began when he was a librarian in Palo Alto. Thinking of ways to draw people into the library, he stumbled across an ad about obtaining recordings of old-time radio programs.

He convinced his employer to buy a few recordings for the library, and they became an instant success. People came as far as San Francisco to sign up on waiting lists to check out the recordings. Since then many libraries now have OTR recordings available to the public.

Lieber-Mackey trades recordings with about 30 other collectors, some living as far as England and Australia. He says he is a "Jack Benny freak" and thinks Fred Allen is "the most phenomenal wit who ever lived."

Cerritos' own OTR "nut" is thinking of starting an old-time radio broadcasting club here as he had previously at Lake Tahoe where he says it was immensely popular and great fun. Lieber-Mackey would enjoy talking with anyone who shares an interest in his hobby or who is just curious about it.

He also would like to hear any suggestions anyone might have about how to help the library better service the students on campus. He says, "The library should be changing for the better. What worked 18 years ago may not work today."

Gerry Lieber-Mackey's life began in Monterey on Cannery Row when the fish canneries were still operating.

He attended San Jose State University where he received degrees in both librarianship and instructional technology.

Since then he has had some 15 years experience in both areas.

"I am totally committed to them both; they complement each other. I am here at Cerritos to pull the two areas together."

Lieber-Mackey's interest in this field is twofold. He says, "I wanted to get my fingers into many subject areas; be a sort of 'Renaissance Man.' I also enjoy helping people. I like helping them find information and seeing that they get it."

The 'renaissance' man's name is also twofold. He added his wife's maiden name "Mackey" to his own surname "Lieber" as a Christmas present to her. He was concerned that his wife was the last of her line and wanted to perpetuate her family name. Lieber-Mackey proudly states that only three people own the double surname, his wife, their eight year old son and himself.

When not recording radio programs which he says he devotes about 10-15 hours a week to, Lieber-Mackey also loves gardening. This accounts for the beautiful kangaroo ivy vine which hangs in his office.

The new LMC and instructional media center director does not leave his work behind each day. He says he does a "phenomenal amount" of reading in his library of books at home. But just how much is this "phenomenal" amount of reading Lieber-Mackey does?

"Only the shadow knows!"

## Busy organization sees after needs of handicapped

The newly revamped College Handicapped Services Center gives a variety of help to anybody who needs special assistance.

An electric door in the Handicapped Center Resource Room west of the Burnight Center and the construction of elevators in almost every building on campus to help handicapped students to go to their classes are special accomplishments of the center.

Others include the removal of architectural barriers and designation of special parking facilities.

The Handicapped program offers services ranging from wheelchair loans to specialized courses dealing with work and employment survey, psychological aspects of disability and marriage and the family, plus the physical education and speech therapy classes. The Center works closely with the Job Placement Office to get jobs for disabled students. The Center itself hires about 20 to 25 students to work in the Resource Room.

The city of Norwalk runs a transportation line called "A Dial-A-Ride" which is scheduled to serve about 30 to 40 disabled students. A doctor's letter is required to get this service. The Rapid Transit District (RTD) is scheduled to start the same type of service throughout LA County in November.

According to Robert Hughlett, program director of the Handicapped Services Center, this program is having a huge impact in California, although there is a Rehabilitation Act that regulates any school district with architectural, parking facilities, etc.

Every disabled person is able to take advantage of this program.

For more information, drop in the Handicapped Center (Resource Room) located at the west end of Burnight Center, or contact Hughlett at Ext. 338 or 337.

## Job listing being posted at Placement

Job #	Title	Rate
812	Maintenance	\$2.95
813	Mechanic	open
817	Cook	2.70/benefits
818	Delivery	2.50
819	General Maintenance	2.72
820	Liquor Clerk	3.00
825	Shipping/receiving	2.60
833	Janitor	3.00
834	Accounting Clerk	2.75
837	Production Machinist	3-3.50
838	Sales Clerk	2.50
839	Band	open
840	Teacher Aid	3.00
841	Assembly	3.00
842	General Clerk	2.50
843	Stock	2.50
844	Janitor	2.93
847	Accounting Clerks	150-180wk.
849	Customer service	3.00
857	Tutoring	3.31

These and many other jobs are listed in the Job Placement Office, located across from the Office of Student Affairs.

Due to conflicts with publication dates, some jobs listed may already be filled. However, new employment opportunities are always available for students to choose from.

## CERRITOS COLLEGE Talon Marks

Production and printing of Talon Marks is funded by the Associated Students of Cerritos College. Facilities and supervision are provided by the College. It is produced by students enrolled in the academic journalism program.
