## Students contract meningitis

By KIMBERLY BEAUDRY TM Editor-in-Chief

At least two cases of aseptic spinal meningitis, a potentially fatal disease, have been discovered in the Music Department, according to school nurse Shirley Jankowski.

"The Health Department knows about it and there's no cause for alarm at this point," reported Jankowski.

She says the disease is airborne and is transferred through "droplet infection" such as sneezing and coughing, or direct contact with an infected person.

Jankowski denies circulating rumors that there is an "outbreak" of the illness on the campus. "When you say the word 'meningitis' people get really concerned," she commented.

There are two divisions of spinal meningitis - aseptic and meningococcal. Jankowski stressed that the two affected students contracted aseptic meningitis, which is "usually not fatal" as opposed to the meningococcal variety of the disease which is much more deadly and debilitating.

Meningitis is an inflamation of the membranes covering the brain and the spinal cord. The aseptic form is characterized by headaches, stiff neck, and back pain.

Jankowski warns that a person could exhibit these same symptons, but only be suffering a bout with the

A diagnosis of meningitis is confirmed by inserting a needle into the spinal column to withdraw fluid. The (Continued on Page 3)

## Float regulations

COLLEGES FINANCES SUFFERING

## Parking fee on the way

By ANTHONY M. YALLUM TM Staff Writer

It seems that parking fees are fast becoming a reality and could be implemented as soon as next semester.

The proposed parking fee, estimated to generate a revenue of \$214,000 would be used to accomodate the cost of parking lot maintenance and security.

In the past maintenance and security costs have been covered by the college's reserve funds.

"All the reserves are gone," said Student Body Vice President Stacy Ellig. "Cerritos College is broke."

The Faculty Senate sent a proposed recommendation to the Student Senate that called for a \$12 flat rate parking fee per semester, and \$6 for the summer school session.

Included in the recommendation was a suggestion that no parking fees be charged to faculty and staff members.

The recommendations were presented to the Student Senate only as a feedback source that, at best, could possibly influence the final decisions of the Faculty Senate and the college administration.

Twenty-three senators voted for a fee that would set one rate for full-time students, and another for parttimers.

Eighteen student senators voted against the proposal that staff be excluded from sharing expenses. As one senator put it, "We're all in the

TM Staff Writer Floats, Foerster, and "Friends" were the primary topics of discussion at Thursday's Inter Club Council (ICC) meeting. The half-hour session, presided by ICC Commissioner Pam Ervin-Esquibel, was fast-paced but

Guidelines were laid down to the ICC representatives concerning the construction of Homecoming floats. Student Activities Coordinator Phil Houseman informed the group that students who are not members of any organization could contact the Student Activities office and be assigned to help on floats.

Activities will be open Monday through Friday until 9 p.m. during Homecoming week. Float passes will be issued daily, and Houseman extended an "open invitation" to all those who desire to help.

The Foerster Fund "coffee can"

Ray Esquibel, Commissioner of Extended Day - an organization to help integrate night students into college affairs - stated that food would be provided each evening to those working on the floats.

(Continued on Page 5)

## Student pledging continues

By GAYLE K. STALEY TM Campus Editor

Pledging, a tradition here at Cerritos College the past 20 years, concludes this weekend,

To become a member of a fraternity or sorority, an individual must go through three phases.

The first is called "rushing". This is attending different social gatherings enabling students to get to know the members so that they may choose which fraternity or sorority best suits their needs and interests.

Pledging, the most difficult, is second and Neophyte is third.

During the Neophyte period, hopefuls participate in various fundraisers and activities proving to members that they are worthy of, and

willing to work for the organization. Pledging is two to three weeks of intense study of the organization that one chooses to pledge. The techniques vary from group to group, depending on the traditions and secrets of each

sorority and fraternity. The pledges of Lambda Phi Sigma, a sorority sisterhood through friendship, can be recognized for the (Continued on Page 2)

## Controversial claims checked by Siriani

By BILL ROBERTSON TM News Editor

Although the Publicity Code has been called unconstitutional in recent years Don Siriani, Dean of Instructional Support Services, has "no concern' with such claims.

"The college has the right to restrict placement of publicity and the manner in which it is placed, as well as how it is written," stated Siriani.

Last year the Code was called unconstitutional by the Committee in Solidarity with the People of El Salvador (CISPES) and the Movimento Estudiantil Chicanos de Azatlan (MEChA) when they charged Louie Martiner, then Com-

missioner of Publicity, with unfair censorship and personal bias.

The problem began when Martinet refused to register publicity that CIS-PES and the then defunct Persian Club were planning to use to promote a meeting and photo display that they had scheduled.

Martinet claimed, "The posters contained undocumented accusations and the drawing on one was not only offensive, but might cause a confrontation between students with opposing opinions."

Martinet cited section 6.39 of the Code which he felt supported his decision and reads: The Commissioner (Continued on Page 2)

## Faculty to survey AS Senate on fees

By C. CORI LOPEZ

TM Managing Editor Possible fees and new sources of

income for the 1982-83 school year were the major topics discussed at last week's Faculty Senate meeting. A proposed \$12 parking fee recen-

tly submitted by the Cerritos College Board of Trustees, was the primary target of discussion as senate members stressed their views.

Business instructor Tom Whitlock called for "a survey of students'

attitudes on the proposed fee. "How do the students feel about it?" he commented, "we've heard from everyone else but the students."

Connie Jacobsen, student senate liasion, then added, "If a student is assured a parking space, I don't think they'd care how much it cost."

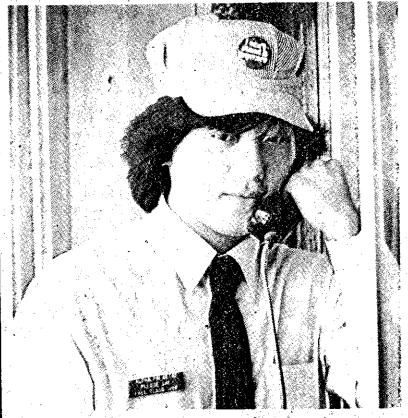

If instated, the parking "toll"

would not exceed \$20 per semester, or \$40 per regular school year. All such tolls collected would be deposited in the general fund of the district and only expended for parking services or purposes of reducing the costs to students and faculty using public transportation to and from the college.

The threat of a decrease in enrollment, should a parking fee be imposed. was also discussed among Faculty senate members, but the general feeling among members was that the possibility of such a decrease was unlikely.

Said one member, "Cerritos College students are already spoiled," he continued, "my kids both attended UCLA and were forced to park offcampus and then take a bus to the university itself."

Another spokesman added, "The (Continued on Page 2)

## ASCC committees need good students

By KAREN LAMPE TM Staff Writer

Have any opinions you want heard? Now's your chance.

Pebbles Obregon

Cerritos College students with a GPA of 2.0 or better, and an interest in representing the student body, have an opportunity to be a member of institutional committees and be a part of the decision making process.

"We're looking for approximately 30 good students to serve on the institutional committees to represent the students of Cerritos," stated ASCC President Lance Clawson. "It gives the student a chance to voice their opinions and feelings on what. would be overall good for the students and Cerritos College."

The 14 committees vary from school beautification to student dismissal. Each is made up of one or two students and a faculty member.

"The students hold about 10% of the voting power," said Clawson, "It. also gives the faculty members incite. into the students wants and needs. The students receive experience that may be helpful in their career field," added Clawson. "We're looking for dependable people with a good head on their shoulders to serve on the yearly

Most of the committees meet monthly and the student receives all the necessary material to become familiar with the particular division they are involved in.

Any interested student may contact Lance Clawson in Student Activities.

## Pledging near end

(Continued from Page 1)

bells they wear around campus.

Phi Kappa Zeta pledges wear white blouses with a black skirt and purple (the sorority color) garters, while Philia pledges also wear white blouses but a blue skirt.

Alpha Phi Beta, a fraternity, require their pledges to wear "steamers," also known as engineer Pledges of Gamma Rho Delta are

known for their black Derby hats and neck ties.

Pledges at a junior college have chosen the organization they are pledging. At a university the organization chooses which individual they wish to pledge.

Although there is some brainwork involved, fraternities focus mainly on physical endurance. Sororities focus mainly on mental endurance with very little physical activities required.

The purpose of the various pledging activities and rituals is to introduce the individuals into an environment of closeness in a very short period of

This does not mean that after pledging everyone will completely adapt, but pledging sets the groundwork for a complete and lifelong relationship with the other individuals who successfully completed pledging.

Although the number of pledges sometimes gets as high as 15 or 20, an average pledge class starts out with about 10 pledges and ends up with seven or eight.

Sigma Phi, the oldest fraternity on campus, has come up with a concept to hopefullly discourage students from dropping classes during pledging.

Everyone wishing to pledge them is an associate member so that they may be introduced to Sigma Phi and attend their functions, but their obligations are not as many as that of a pledge or actual member.

According to Pledgemaster Mike Warren, by knowing what will happen this semester and what will be expected of prospective pledges, they can schedule their classes next semester around pledging. They are also aware of how time-consuming pledging is, and they feel they won't lose any pledges because Sigm Phi does not put up any fronts. Pledges find out first hand what the fraternity is about.

During pledging, female pledges are not permitted to speak with or have any type of contact with guys. Likewise, male pledges cannot have any contacts with females.

## Info on Publicity Code

(Continued from Page 1)

may refuse to register publicity which is libelous, slanderous, or promotes any activity that would disrupt the college from completing its stated objectives.

Both clubs then began a campaign among members of the ICC to rewrite the Publicity Code "to their satisfac-

"Clubs have called the Code unconstitutional for years and it is usually after they don't get their way for one reason or another," revealed Siriani. "Clubs feel their rights have been violated when we don't let them do as they please when they please and how they please so they try to do something about it," added Siriani.

Another section of the Code has come under fire in recent years because clubs felt it gave the student who is Commissioner too much

The questionable section is 6.12 which reads: Anything not explicitly dealt with in the Publicity Code shall be left to the discretion of the Commissioner with the approval of the ASCC President and the Office of Student Activities.

Present Commissioner of Publicity, Willie Noboa, mentioned, "Another student and several administrators must approve any decision I make under this provision of the Code so that my power is limited in such matters."

"The Code is examined every year and modified if needed," remarked Siriani, adding, "The Code is ammended as frequently as new areas become available for posting or if gross abuses of the code warrant a change."

'The code has worked fine for the 25 years that I have been here," recalled Siriani, "and I am sure it will continue to work for years to come."

#### Rape prevention class offered this Saturday

By MARGARET CANTELON TM Staff Writer

A Rape Prevention Workshop, cosponsored by the Women's Center and Community Services, is being offered Saturday, Oct. 23, from 9:30 -11:30 a.m. in the Boardroom.

Rape prevention specialist Gregg Scott, a Karate instructor at Cerritos, will discuss whether a victim should fight or submit, and where rapes usually occur.

According to Vera Eckles in the Women's Center, FBI statistics show that one woman in six in the United States will probably be assaulted in her lifetime. In Los Angeles county the figure is one in three.

Rape is second only to murder in the four most violent crimes committed in America.

Scott's lecture will include ideas on possible rapists' profiles, prevention, psychology, physical defense, weapons analysis, and post rape procedures and precautions.

An experienced lecturer on rape prevention, Scott says he presents a low-keyed approach encouraging questions regarding alternative actions

The workshop has been arranged to inform women on campus about the facts of rape. It is open all ages for a pre-registration fee of \$5.

For more information contact Community Services or the Women's

## Child's conservatory: Youth learn music

**By AGNES HERBOLD** TM Staff Writer

Imagine a pre-school child playing

the violin. It's possible if the youngster is enrolled in Cerritos College's Child-

ren's Music Conservatory. The Conservatory, part of the Music Odyssey program, is Coordinator Lucille Allevato's pride and joy. She is especially excited about the pre-school violin students.

Allevato explains that the young students are in the Suzuki violin class and that a special way of violin instruction is used.

This method differs from the traditional one in that in the nine week course, parents only are instructed for the first five weeks. The final four weeks both child and parent participate.

Allevato says this becomes a shared learning experience for the parent and the child.

She says she feels that it is important for the child to first become familiar with the workings of the violin, and then, with the aid of their parents, move on to note playing.

Allevato stated that it is "something new and exciting" and a "unique experience for all involved."

Under the direction of Allevato, the Conservatory also teaches children from kindergarten through eighth grade.

The elementary students have a choice of nine instruments, including piano, violin, flute, drum, clarinet, saxaphone, trumpet, trombone, and the guitar.

The children are taught the basic

performing skills of the instrument of their choice. This instruction includes note reading, rhythm, and music

This fall will mark the third semester of the venture which Allevato hopes will mushroom into a Cerritos College Youth Orchestra and Choir.

She said her aim is to be able to see the Conservatory branch out to high school level, and thereby reach more music minded students.

With Allevato, music is a way of life and she eagerly wants to share it with the young.

#### Faculty

(Continued from Page 1) budget cuts have affected everyone, there's no reason why Cerritos

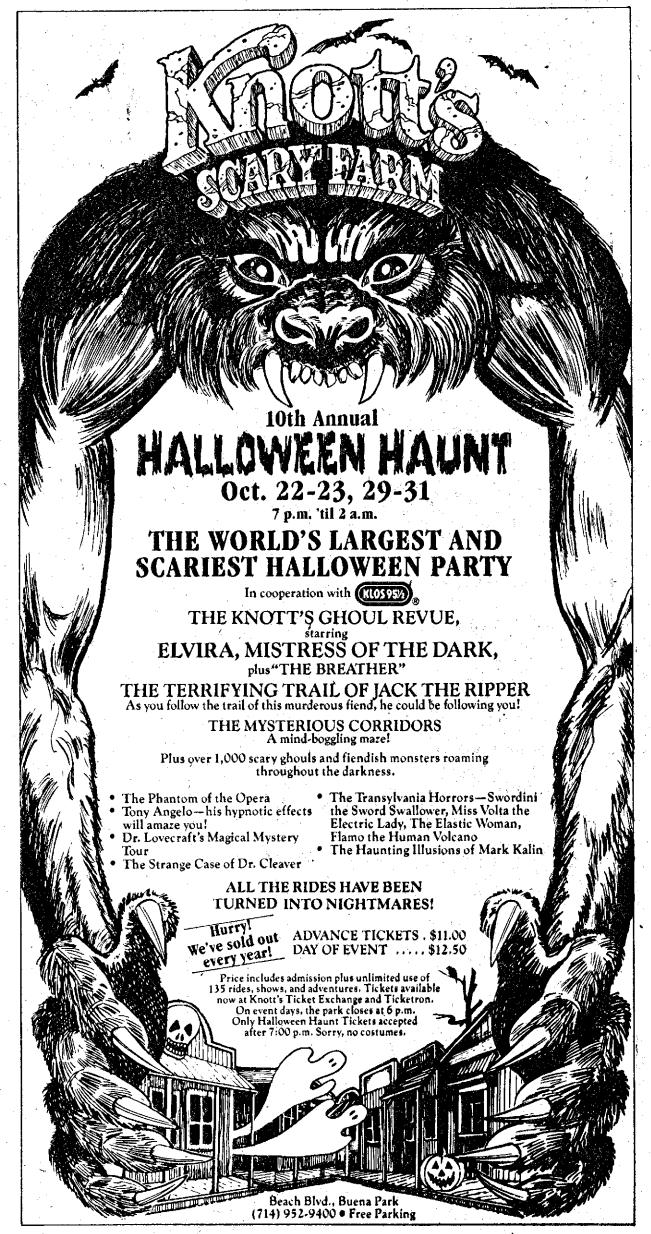

College students couldn't help out a Yet another item reviewed by

Faculty senate members as a possible new source of income is a proposed late application fee. Where a \$2 fee would be charged for any application for admission or re-admission filed after the specified closing dated.

Senate member Rudolph Aguirre expressed negative feeling towards such a fee. "We may be cutting our own throats charging a \$2 fee," he said.

"Many times people can't help but enroll late, and a fee might turn those possible applicants away," he finished, "a lot of classes would be dropped that might have otherwise been kept on."

Many of the other Faculty senate members agreed.

#### Music

(Continued from Page 1)

Williams, conducted by Scott Henderson.'

The ensemble is composed of 50 to 60 members with a variety of musical expertise. Along with the regular students are eight faculty members who are section leader advisors and several retired music teachers who bring outside experience. Henderson said this helps to solidify the group and contributes to the overall professional sound.

The ensemble will be performing in the Community College Wind Music Festival to be held at the College of the Sequoias in San Francisco. Last year 12 Cerritos students out of several hundred entrants were members of the honor band at the festival. One of the Cerritos clarinetists was selected as concert master.

Many members of the wind ensemble are also members of the Cerritos Pep Band and Jazz

To commemorate the honors received last year, an album was cut containing some of the live performances of the ensemble. Included in the selections are compositions by Holst, Stauss, Williams, Barber, Jager, and Hanson, with a flute solo by Sherrie Glenn. The album is completed with two Cerritos Fight Songs.

The musicianship of the ensemble is clearly brought out on the album in tones, dynamics, moods, and precise technical abilities. The selections played are difficult, and all the acquired music skills are used.

It has also been used as a successful recruiting tool to send to the high schools as an example of the abilities.

These albums featuring the wind ensemble will be available in the bookstore for those interested in fine classical music.

Tickets for the upcoming concert are \$2 for adults and \$1 for students

## Fees in the near furture

Professor Scott Henderson, upper center, directs

evening's concert in the Student Center. Group recently

Ensemble

would have to be compensated by cutting programs.

"Cerritos College has been getting a free lunch for 25 years," says Associate Dean of Student Activities Dick Robinson. "Now they're are just going to have to start paying."

Some senators who historically have said that they oppose fees for junior colleges, made a 180 degree turn this year due to the fact that there are no available funds.

Since legislators are not imposing new taxes, fees seem to be Cerritos' only other alternative.

In addition to the parking fees,

considered for new sources of

These fees include a late application charge of \$2, a \$5 towel fee for P.E. classes, a .50¢ class schedule fee for any request after one, and an increase of the catalogue fee from \$1.25 to \$2.

The Faculty Senate estimates that approximately 70% of the 22,000 expected to enroll for the Fall and Spring semesters, will purchase parking permits generating an income of about \$184,800.

An approximate \$30,000 could be generated from the summer students, which makes a total of \$214,800. parking lot maintenance.

## there are at least four other items being

## High schoolers go to college here

By MYRA L. MOORE

TM Asst. Features Editor The Veysey program represents a

cooperative venture between a community college and its neighboring

Under the terms of this program, a limited number of high school juniors and seniors may take college courses to supplement the educational program designed for them by high school counselors.

Since its inception in 1969, the program has been used by high school counselors to acheive four major purposes - advanced academic work, vocational-technical career courses. "bridging the gap" and exploring interest areas.

Counselors encourage high school students to take academic courses at the community colleges because certain high schools may not offer specialized courses.

Ninth and twelth grade Beliflower High School counselor Dr. Trudy Clark says, "I like the program very much. I don't recall ever hearing any negative remarks from students."

"I don't know what we'd do without it," states, Helen Beykirch, part-time counselor at both Bellflower High and Cerritos College.

In the program, the graduated high school student enters college having already completed some courses, which gives him a head start in his college major, or in completing general education requirements.

High school students may take either the introductory courses in a vocational-technical area or the advanced course after high school has been completed.

This allows the student to enter courses he otherwise may not have been able to take or to obtain advanced knowledge beyond the scope of the high school vocational program. By taking a course or two at the

college the student can become familiar with college procedures. while still having his primary affiliaiton at the high school, The net result is reducing the

"shock" of the freshman year in college, according to high school counselors.

In other cases, the result is a student's attending college when he otherwise might not have done so.

Finally, some counselors say they use the program as a device to help students explore various major or

occupational possibilities. Through this program, a student may be able to awaken new interests or confirm old goals.

This could save a semester of effort and even help to eliminate dropping out of classes once a student has entered college.

Participating high schools can authorize any 11th or 12th grade student, who may profit from the experience, to enroll at surrounding

community colleges. Normally a student is limited to two classes or six units, whichever is

Clark says, "Many students enjoy the summer theatre program, and other fine arts offerings. It is personally very valuable.

The student body fee is waived for Veysey students, but they are expected to assume the same cost of text books and materials as regular college students.

Casey Rankin of the Cerritos College Student Activities Office states, "Veysey students may purchase a sticker for their student body card to enable them to attend the many college activities."

Those high school students wishing to take an english or college level math class must take a placement test prior to registration.

A special registration day and time is set aside each semester for the Veysey registrations.

There are over 400 Veysey students on the Cerritos campus this semester.

Counselors say that most students do contínue on at the colleges after graduating from high school.

### 'Outbreak'

(Continued from Page 1) fluid is then analyzed.

If detected early, recovery is usually complete. Side effects such as weakness, muscle spasm, insomnia and personality changes may linger on up to one year.

Marie Mickelbart of the Music Department says the two afflicted students, who were boyfriend and girlfriend, "were complaining about not feeling well for two or three weeks", before being hospitalized. Both are now recovered and are back on campus.

Although students often exchange instruments in their music classes, Mickelbart says each individual owns his or her own mouthpiece. "All the instruments are cleaned thoroughly " she confirmed. "And we are using alcohol pads to wipe down the telephone receivers."

Although Jankowski agreed that "prevention is in good hygiene," she stated that if the saliva of an infected person slipped down into the instrument, other students could possibly contract the disease despite using individual mouthpieces.

Jankowski says she hopes rumors of an "outbreak" will clear up and everyone will start feeling more

"We had a little scare," she admitted. "One student's parents called in concerned."

Mickelbart says there was "never at all a threat of death" in the case of the two music students, and to her knowledge no other students have come down with the disease.

"Thank God that's it," she said relieved.

## Homecoming week

(Continued from Page 1)

Wendell Hanks and McGrath will act as Masters of Ceremony,

Activities are also planned for tommorrow and Friday, A Dunk Booth will be set up in the quad at 11 a.m. Thursday, and anyone with \$1 will have three chances to sink the future Queen.

On Friday there will be a pep rally at noon in the Student Center.

Homecoming Day begins with float judging in the Stadium at 10 a.m., to be followed by a judges luncheon in the Student Center at noon. Float trophies will be announced at the luncheon and floats will parade during pre-game activities set for 6 p.m. The Homecoming game against

Grossmont will begin at 7:30 p.m. with the Queen receiving her title during half-time.

Admission to the game and the Homecoming Dance, featuring the rock group Eclipse, is free to students with the proper I.D.

Because Homecoming is meant to be more than just fun, money collected for the events is usually marked for scholarships and financial aid.

This year, however, all proceeds are set for a proposed trust fund for ailing basketball coach Bob Foerster.

There is no way of predicting which candidate will be crowned Queen. How well a candidate does depends on how much campaigning is done, it is said. If this year's elections go anything like the past two years, Cynthia Bejar of the Filipino Club stands a good chance - the Filipino Club candidate has been crowned Queen for the past two years.

According to Houseman, whoever is named Queen will be reigning 'just' for Homecoming,

"Homecoming is meant to encourage alumni to visit their former college," Houseman said, "it is also a way of hopefully inspiring school

FREE-FOR-ALL - The Falcons scored 17 points in the final 1:35 of the first half by forcing two consecutive

fumbles on kick off returns as they toppled Orange . Coast in their league opener 41-19.

## Birds crush Orange CC; Homecoming Saturday

By ANTHONY M. YALLUM IM Staff Writer

The Falcons opened league play last week with a fury by crushing Orange Coast 41-19, but will the 2-3 Birds be able to extend their 1-0 league mark against Grossmont in Saturday's Homecoming game?

"Homecoming is always an incentive," said head coach Frank Mazzotta about the upcoming game with Grossmont. "They're a real big team with a big back, but we need to win-we need to get a little roll going...we need success."

Although the Falcons were able to move the ball almost at will Saturday, they ended the first quarter giving the impression that they might be in for a long night as they fell behind 10-0.

But a dramatic turn of events was in the making when in the

second quarter the Falcon offense exploded for 34 points.

Just 11 seconds into the second quarter, Falcon running back, Jackie Johnson, squirted in from the oneyard line to put Cerritos on the score

On Cerritos' second possession. of the quarter, Corwin tossed a 34yard pass to Pat Compton that brought the ball to the one-yard line. This time it was Tony Kemp who bolted over to put the Falcons in front 14-10. On the evening Kemp carried 12 times for 70 yards, and collected two touchdowns.

On the ensuing kick-off, the Pirates were unable to obtain a first down, and were forced to punt.

Again Corwin went to work in the air, marching the ball to the OC 17-yard line. But with a second and nine. Corwin took a hard hit that

game, 16-14.

sent him from the game temporarily.

On Orange Coast's next possession, quarterback Clay Tucker attempted a middle screen, but Cerritos defensive lineman Guy Teafatiller reached out a paw and snatched the ball for an interception at the OC 39 vard line.

Two pass plays later, a scrambling Corwin found Tony Kemp in the corner of the end zone to make the score 24-10.

On the next kick-off return, John Burke fumbled the ball on the runback for the Pirates, and the ball was recovered by Cerritos at the OC 16 yard line.

"This was the first time in four games that we got the breaks for a change," said Coach Mazzotta, "I believe you can make your own luck, and that's just what we did."

Again Corwin went to the air. and two plays later Bill Fickinger corraled a pass in the end zone from seven yards out, pushing the Falcon lead to a substantial 31-10.

Again on the ensuing kick-off return, in what seemed like an instant replay of the kick-off before, the Pirates fumbled away the ball on the run back.

From the 13 yard line, Corwin was unable to capitalize by throwing three incomplete passes. Livingston came in and booted a routine 29yard field goal that padded Cerritos' lead to 34-10 going into the half.

"In the first four games, we were experimenting with a lot of different offenses, and defenses, but we decided to go back to the basics especially with a young team like ourselves, and I think that it worked out for the best," explained Mazz-

To open the second half, Cerritos kicked to OC and the Falcon defense had the burden of thwarting any comeback drives by the Pirates that could possibly shift momentum

their way. With a third and ten at their own 43, Tucker drilled a pass to an open receiver for an apparent reception and first down, until a vicious stick by Falcon defensive back Rick Rabune jarred the ball loose before the receiver controlled the ball long enough to be judged as a completion. OC was forced to punt.

The Falcons wasted little time as the offense marched 80 yards for a touchdown that was highlighted by a 37 yard sprint by Kemp and a 12yard lob from Corwin to wide receiver Jeff Welch for the score and a commanding 41-10 lead.

Not wanting to run the risk of having Corwin injured, Mazzotta had Douglas finish out the game. Besides, "we wanted Mike to get some playing time," Mazzotta said.

Corwin left the game completing 17 of 29 passes for 270 yards, and three touchdown passes-all in two and a half quarters of play.

The aggressive Falcon defense held the Pirates to one touchdown in the fourth quarter to finish the game with a 41-19 victory.

"I think we caught the football a little better than we have been,' exclaimed Mazzotta, "it's fun to

. Even though the Falcons looked impressive against Orange Coast, Mazzotta feels that the team has yet to mature to its full potential.

"I think that the nice thing about it is we can still do better. I mean, I'd be a little scared if I thought that this was as good as we could get.

#### WOMEN'S VOLLEYBALL REMAINS UNDEFEATED

## Falcons extend string to 3-0 by spiking Fullerton

By NINA BURCHERI TM Sports Writer

In the Wednesday match against Fullerton, the Cerritos Women's volleyball team won their third straight South Coast Conference match to remain undefeated in the league.

Cerritos plays their next SCC match against Santa Ana tonight at 7:00 in the gym.

After doing very well in the all day Santa Monica tournament, Cerritos forged ahead to play Fullerton. Although the games were close, the Fullerton match was not. Cerritos made it a clean sweep by taking the first three games 15-12, 16-14, 15-

"Fullerton put up a good block against us and we made several hitting

X-COUNTRY

errors to make every game close," said Jeanine Prindle, Cerritos' volleyball

Each game could have gone in any direction with every point scored. Cerritos took the first game with only a three point spread. The second game was also a little "too close for comfort" as Cerritos fought for a slim win of 16-14. The third and deciding game gave the Falcons a little more room to breath, with a score of 15-10.

The Falcons weakest point in the match was their hitting. Prindle replied, "A combination of Fullerton playing well and several Falcon errors, expecially hitting, made the games close."

A significant area in the match was the Cerritos' overall passing. Also the playing to ability of Evelyn Kim

'Kept us in the match, with her setting defense, and hitting," said Prindle. Another important factor in the match was the skilled blocking controlled by Pam Winokur.

With another match under their belts, Cerritos' overall season record elevates to 8-0. In the fifth game with the teams

Cerritos made a dramatic comeback from 6-2 to pass Golden West and win the game 15-10, giving Cerritos the

neck-and-neck at two games apeice,

"Laura Lopez came off the bench to provide a spark with great passing and defense to help regain the lead

very quickly," said Prindle. Evelyn Kim played an outstanding

match with terrific setting and defense. Controlling the net with their brilliant hitting and blocking were middle blockers Mandy McMahan and Pam Winokur, Sheila Eiden and Nancy Welliver's "consistant outside hitting and defense" were an important force in the match, as were captain Mary Lary and Dyan Leonard with their "great backcourt quickness" said

In other league action the Falcons were too much for Cypress allowing them only nine points in a 15-7, 15-1, 15-1 victory.

Cerritos' first conference match was in a tough 3-2 victory over highly ranked Golden West.

"Golden West is a tough competitor," said Prindle about the league

## Falcons lose in game of fouls, fall to last with six games to go

#### By BILL ROBERTSON TM News Editor

Following a 2-0 loss to Santa Ana Friday, the Falcon soccer team must re-group and then regain their confidence to stand an outside chance in the South Coast Conference this

Officials lost control of the game which included over 40 fouls, seven yellow cards(cautions) and one red card(ejection).

In other action last week, Cerritos played to a 3-3 tie at Orange Coast, letting the victory get away by allowing a last minute goal by the Pirates. In the game, Cerritos goal keeper, Jeff Buma made several dramatic saves including a stop he made on a penalty kick.

"A win at Santa Ana would have put us in a second place tie, only one game behind the leaders," stated coach Mike Shimpock.

The loss dropped Cerritos to a 0-3-I record and into last place with only six games left in league play.

Although the Falcons can't be counted out of the running it would take a lot of good luck and great breaks, both of which the Falcons have been short of so far this season, and possibly a small miracle to put them back in contention.

"We've been plagued with bad luck all season," disclosed Shimpock, "our misfortunes followed us into Santa Ana.

Cerritos played well in the first half controlling the pace of the game and out-shooting Santa Ana, but were In the second half, three incidents

brought the Birds down which allowed Santa Ana's offense to take the game in Hand. First of all, Cerritos began to argue

with each other. "The players showed a definite lack of discipline falling apart on the field," accused Shimpock.

Next, the Falcons were robbed of a goal on an excellent save by Santa Ana goal keeper Frank Arriola. Three Cerritos forwards leveled hard shots on goal with the final shot being deflected over the crossbar.

Finally, forward Steve Silva was ejected from the game on a questionable call by the referee. The red card forced the Birds to play short one forward with only ten men on the field, which put a strain on the Falcon offense.

Team confusion was ultimately the cause of the Falcon defeat allowing Santa Ana's offense to go to work scoring two quick goals late in the game: The first goal came about when the

Cerritos goal area was flooded with players from both teams and in the confusion the ball just rolled into the net putting Santa Ana up 1-0.

A low hard shot that took a bad bounce was the cause of the game's final goal. Cerritos goal keeper Jeff Buma seemed to be in position to make the save, but the ball bounced sharply off of his hands and into the goal.

#### Lady Birds capture league title By KAREN daSILVA TM Sports Editor With everything all tied up going into the final league meet of the season Friday, it looked like it was going to be an exciting race to the finish between Orange Coast, Mt.

SAC, and Cerritos' cross-country The women runners were all undefeated at 5-0 and racing for the dual-meet championship on Orange Coast's home course in Newport's Back Bay. The men were locked in a

three way tie for second at 4-1. But in a surprise move by the defending league and state champions for both the men and the women, Orange Coast pulled their top six runners in each category and virtually forfeited any chance of reclaiming their

championship title. Undaunted by Orange Coast's strategy, the Falcon women went on to easily sweep the Pirates' second squad 15-42 and in their closest meet of the year the lady Birds defeated Mt. SAC 26-30 to finish the league season undefeated at 7-0 and claimed the dual-meet title for the first time at

The Cerritos men, however, lost to both Mt. SAC and Orange Coast, 39-21 and 36-23 respectively, but finished their season at 4-3 for their best standing in many years.

In defending their strategy for pulling their top runners, Orange Coast said they were running in a tougher meet Saturday at an invitational in

Falcon coaches Dave Kamanski and Hal Simonek questioned the Pirate philosophy when two of the top women runners in the state, Falcon Penny Miller and Mt. SAC's Mwinga Soto, and two of the top teams, Cerritos and Mt. SAC, were competing in Friday's race. But they said, "We'll take the championship."

In the final mile of a 4.15 course, top Falcon runner Tim McIntosh came from behind to place third overall out of a field of 42. McIntosh's time was 23:33.

Stan Madrid was close behind to finish second for the Birds at 23:42.

#### Peter Gabriel 'secures' solo album on new label

By RUSS SMITH TM Staff Writer

Peter Gabriel seems to do his best to stay out of the limelight. When he' was with Genesis he frequently would wear costumes and on all four of his solo albums his face is in some state

Perhaps that is why he has always offered rather moody music that was difficult to get into until the listener had heard his album three or four

There is also a minor breakthrough on this album; and that is very simple. Although none of his previous albums had titles, this album is entitled Security. Security may be what Gabriel finally feels. The album has been a long time coming — taking 19 months to be released.

To fully understand Gabriel one must be aware that all four of his solo albums have been on different labels. By Gabriel's decision, he signs only one album contracts. Gabriel also is working with his fourth producer.

The album is like a trip through the human psyche, and the way the music

is layered it seems to reach a different level of conscience. Security lulls one into total involvement and seemingly wraps you around it's finger.

During one of the better moments from Lay Your Hands on Me, Gabriel quips "I'm living way beyond my ways and means, living in the zone of in-betweens."

Probably one of the least played songs on this album just may be the best song on the album Wallflower is almost a follow-up to Biko which was about a political prisioner. Wallflower is almost painfully over done, but the lyrics are the main point "You many disappear, You're not forgotten here, and I will say to you, I will do what I can do."

If you find gripping intense music your cup of tea you should check out 1980's Peter Gabriel III because while Security is a great album, side two of Gabriel III is a masterpiece.

There are numrous ties between Gabriel and Bruce Springsteen, but the main difference is that Gabriel seems to put even more emotion in to

## What's entertainment? it's what you pay for it

By JULIE GALLEGO TM Features Editor

People say I'm easily entertained because I can stare for hours out of a window or because I like to bounce around when I get new tennis shoes.

But if I were really easy to entertain, I wouldn't think that TV does what babies do to their thumbs.

I guess entertainment is in the eyes of the beholder, but in my eyes staring at the sky has TV beat by a mile. Why?

Well you've heard it all before; programming for the very immature. inane story lines, and one-dimensional characters. It's all so old that even "Ripley's Believe It or Not" has nothing new to offer.

a But it seems to me that television is not the only entertainment medium that has fallen short.

As books go, the biggest sellers are half-inch thick romance novels by psuedonymed authors who have only to write according to an outline in order to rake in the big bucks. I'm not saying that's easy, but I'm not saying it's literature either.

usually light, mostly geared to the 8 to 16 year old age range, and made with a promotional campaign in mind.

E. T.-mania has swept the country and crossed over to the ridiculous. Everwhere I go there's that sad-eyed alien with Lee Majors' body staring at me from a T-shirt, store window or car bumper.

The movie was cute, enchanting, even well made, but worth all the money and attention being spent on it? I think not.

What about plays, operas, ballets (yes, they exist outside of public television) and concerts? Tickets are too expensive and too precious to be worth my while. Maybe I'm cheap but as much as I like Bruce Springsteen, away. \$200 a ticket is just more than this student's budget can handle.

I suppose it's like they say "you get what you pay for," and at \$5 for a movie (thank goodness for afternoon matinees and ASCC movies) and upward of \$10 for a hard-cover book it 1982 season, featured Fleetwood looks like we'll pay anything for a good

I think I'll just start shopping

### Vandalism costs

Some vandals came to the Cerritos campus on Sunday, Oct. 10, and proceeded to up-root several Bird of Paradise plants, knock over trash cans, then toss most of the contents into the Reflection Pond in front of the Student Center.

They knocked down the fountain ring, breaking two legs supporting the ring," reported Tom Berry, assistant director in charge of grounds maintenance. "Water flows through this ring, forming the

Berry said they threw the Talon Marks newspaper rack and several trashcan lids into the pond.

"The float level control cover was torn off and tossed into the pond," said Berry.

This mechanism controls the level of water in the pond.

Vandalism has been a problem to all school campuses, from elementary to college level, far too many years.

The act of vandalism is malicious, vicious, and totally without rhyme or reason. It is the wanton distruction of public property.

It is beyond the comprehension of most people why anyone would derive any pleasure from this sort of activity.

Besides filling a few trash cans, the debris may have clogged the plumbing of the pond and has necessitated the replanting of the bushes, not to mention the cost of replacing and repairing these items.

Also, the wages of our gardners and maintenance crews to do what should be unnessary labors must be added to these costs.

Cerritos College has one of the most beautiful and well kept campuses around. Our crews work constantly and diligently to maintain

The pond has been drained and is in the cleaning and repair

It is hoped that the pond will be working again by this Friday for the Homecoming weekend.

"Vandalism doesn't happen too often at Cerritos. Only about two or three times a year," Berry says.

Security reports that there are no known witnesses to this act. Of course, the most important point of all is that the act of vandalism is illegal.

## The price of glory

What if they had a coronation and no one came?

Being in the "spotlight" has it's disadvantages as well as its obvious

Such an honor as representing a club or fraternity in this year's Homecoming should not be taken lightly.

A homecoming queen candidate should participate in such customs and activities as the talent show Monday.

It simply should be mandatory-barring only the unavoidable. The five candidates who did participate, put their whole candidacy on the line. Two did not show.

It is grossly unfair to the other candidates, the campaigners, and the voters who placed their faith in a lady only to have that candidate' refuse to show for scheduled activities.

Non-participation in these widely publicized activities should result in some form of penalty, if not disqualification.

The girls know up front what's expected of them as banner carriers of their sponsor. If they cannot-or will not-play the homecoming game by the rules they should stay out of the running.

Usually if a person cannot fulfill the obligations, they step aside for Making certain concessions or even small sacrifices to attend pro-

grammed activities is essentially "the price of glory."

By LESLIE HOLT TM Staff Writer

After 25 years, Jack Feeney still likes teaching, students, classical music. Mozart, and the Viola. He remains dedicated and says, "I'll stay

here as long as I can." Since 1956, Feeney has contributed to the maturation of Cerritos College. He reminisces of when this campus was a cow pasture and the classes were held at Artesia High.

Now for the third time, Feeney is serving as Chairman of the Music Department.

"Because of my on again - off again position as Department head, I remind myself of Bob Lemmon of the New York Yankees. Oh, but the reasons are different, I've never been fired."

Through the years, the positive responses from students have kept Feeney motivated. He insists that they are, for the most part, courteous and good people. Best known as the teacher of Music Appreciation, Feeney particularly enjoys seeing students develop an appreciation for classical music,

"Some students are surprised when they attend their first symphonic concert, and see 2000 people there," Feeney said. "They know that not all of them could have come only to fulfill a class obligation.`

He has witnessed students with little previous knowledge of the classics become fanatically hooked.

When Feeney was five years old, he was introduced to the violin. This led to his graduation from Pomona College in Music History and Perfor-

#### IN TRANSITION New faces New praises

By AGNES HERBOLD and BARBARA EKNOIAN

You don't just arrive at college you make a transition.

And, like with kindergarten, a new job, a move across country, you adjust.

The "new kids on the Cerritos campus block" are taking it in fact-oflife stride.

Cindy Gray, a recent Norwalk High School graduate, hopes to get accepted into the nursing program. On Cerritos so far, she said, "I like

it. It's a lot different than high school.' A funny thing happened to her on the way out of the Bookstore. When

Cindy had to step through the security check after purchasing her books, she turned to her friend and said, "If this thing is going to malfunction, it will go off right now.

No sooner said, an alarm rang. Her bags had to be checked, and she had to dig into her purse for her receipt. Apparently, the cashier had forgotten to desensitize the books.

"I really thought it was funny, the security people were very nice about

it, 'she said, At Norwalk High, Cindy was class secretary, but during Club Booth Days, she hesitated to join any clubs. Since she is carrying 13 units, she decided, "I need to adjust first."

> 'You can do what you want here. You get out what you put in.'

Newcomer Jim Wylie is a person who knows how to adjust. He attended two schools in one year. Jim left Seattle to finish his senior year as a 1982 Artesia grad, and this fall he came to

Wylie, 18, is majoring in art with a leaning towards psychology. He is

carrying 17 units. His only complaint about school is that "I didn't like the beginning...registration and stuff." Some of his classes were full and he had to

"The campus is easy to get around, a lot of room, people are friendly and more casual. And," Wylie added, "the teachers want to help you.

Especially when you're new." He offered, "You can do what you want here. You get out what you put

Livio DiLeo, a transfer student all

the way from Jersey City State was spotted studying a campus map trying to find the library. "This campus is enormous," he

said. "Aside from the fact that every building looks like the Burlington Warehouse. I'm having a hard time figuring out where I'm going." Majoring in music, Livio is a

drummer and he says he feels the friendliest people he has met are in the Music Department. "All you have to say is GM Seventh (G Major Seventh) and everyone talks to you," he said assuredly, The Music Department is much

smaller than the one he attended in Jersey City, he said. "I like the teachers, Erjavec and Porter. They're the best teachers I've had in a long time." He called them as good as the teachers he had at State, which he claims "is known for its arts."

"Even the Financial Aid Office treats you nice," he said matter-offactly, "compared to Jersey where it's like walking through the jungle."

#### 'I love Cerritos. I feel like the college belongs to me.

Livio continued, "Everyone is nice to me so far. All in all I think it's a good school and everything is laid back. I think I'm going to like it."

Angie Powell, a re-entry student said of Cerritos, "I love it. I feel like it belongs to me."

Angie voiced no complaints, and said she especially admires the friendly young adults here.

She came back to get her "feet wet" and "get used to college Angie is taking Study Skills and

vows that she will get organized. As for goals, she just wants "to stick with it and not give up." Angie said she appreciates all the

learning opportunities the school offers such as the reading lab, tutoring, career planning and for the help she

received at the Women's Center. Cerritos newcomers are just naturally "movin on down the
