

By B. MICHEL MILBANK
TM Editor-in-Chief

The Cerritos College Board of Trustees, following a special March 5 session that approved a pay hike for administrators and faculty, is still in the midst of contract negotiations with the California School Employees Association (CSEA), Chapter 141.

College President Dr. Wilford Michael addressed the Trustees in an executive session that lasted less than ten minutes, and that did not include CSEA representative John Steele or Cerritos College's Director of Employer Relations, Dr. Frank Ramirez.

In commenting on the present state of the contract negotiations, Steele said, "They (the Board) pro-

BOARD OF TRUSTEES

Classified contract details undecided

vided options that we want to take a close look at before we proceed. So the ball is in our court right now — they're waiting to hear from us."

Steele, who represents the 250 members of the bargaining unit, stated that the main item that CSEA is looking at now is a benefit package which is tied into salary.

"There is a lot of information — it's very important that our people understand and evaluate the District's proposal before we decide."

Presently, the classified employees are working without a contract although, according to Steele,

the District has "been good about working under basic guidelines of a contract even though one isn't in effect."

Despite the contract deadlock, Steele was optimistically looking at April 9 as a ratification date.

In other Board action, Olive Scott — Vice President of Instructional Services — reported that Cerritos College was leading the state in student retention. The reported college-wide rate was at 84 percent for Fall 1983, and at 79 percent last spring.

These figures reflect a drop rate

of only 16 percent compared to the 50 percent state-wide average.

It was also announced that Professor of Mathematics Kenneth Lindgren, who is also the college's water polo coach, leave of absence to coach the USA National Water Polo Team in preparation for the 1984 Olympics.

Professor Lindgren will depart the college on March 26 for team competition in France, Germany and Sweden. The USA team will also participate in competitions in Italy and Hungary this June.

The Board extended their best wishes to Lindgren along with the approval of his furlough.

In the March 5 special meeting the Board approved salary hikes for the first time in three years for

Lindgren leave approved — USA Water Polo coach to leave for Europe.

teachers, administrators and confidential employees.

Contracts for Cerritos College's top four administrators were extended through June 30, 1986, and the salary hike was also made retroactive to Jan. 1.

The four administrators affected were: President/Superintendent Dr. Wilford Michael, VP of Instructional Services and Asst. Superintendent Olive Scott, VP of Business Services and Asst. Superintendent Walter Magnuson, and Director of Employee-Employer Relations Frank Ramirez.

Following the approval of the raise, Board member Dale Hardeman of Downey thanked the staff for "their patience during the three year period."

Big Ed's kicks off Friday

By JENNIFER KNOX
TM Assoc. News Editor

It's Friday night.

An antique limousine pulls up; you walk down a red carpet as the chauffeur opens your door.

After a short, but pleasant ride, you step out of the limo, never having to come in contact with a door handle, onto another red carpet, which leads you into the classiest nightclub around.

Once inside, you're surrounded by well-dressed people, dancing to live jazz on an enormous dance floor.

Exotic refreshments, vivid decor and a Las Vegas style casino are among your surroundings.

And it's all for charity.

Does all of this sound like a modified version of Cinderella?

Guess again.

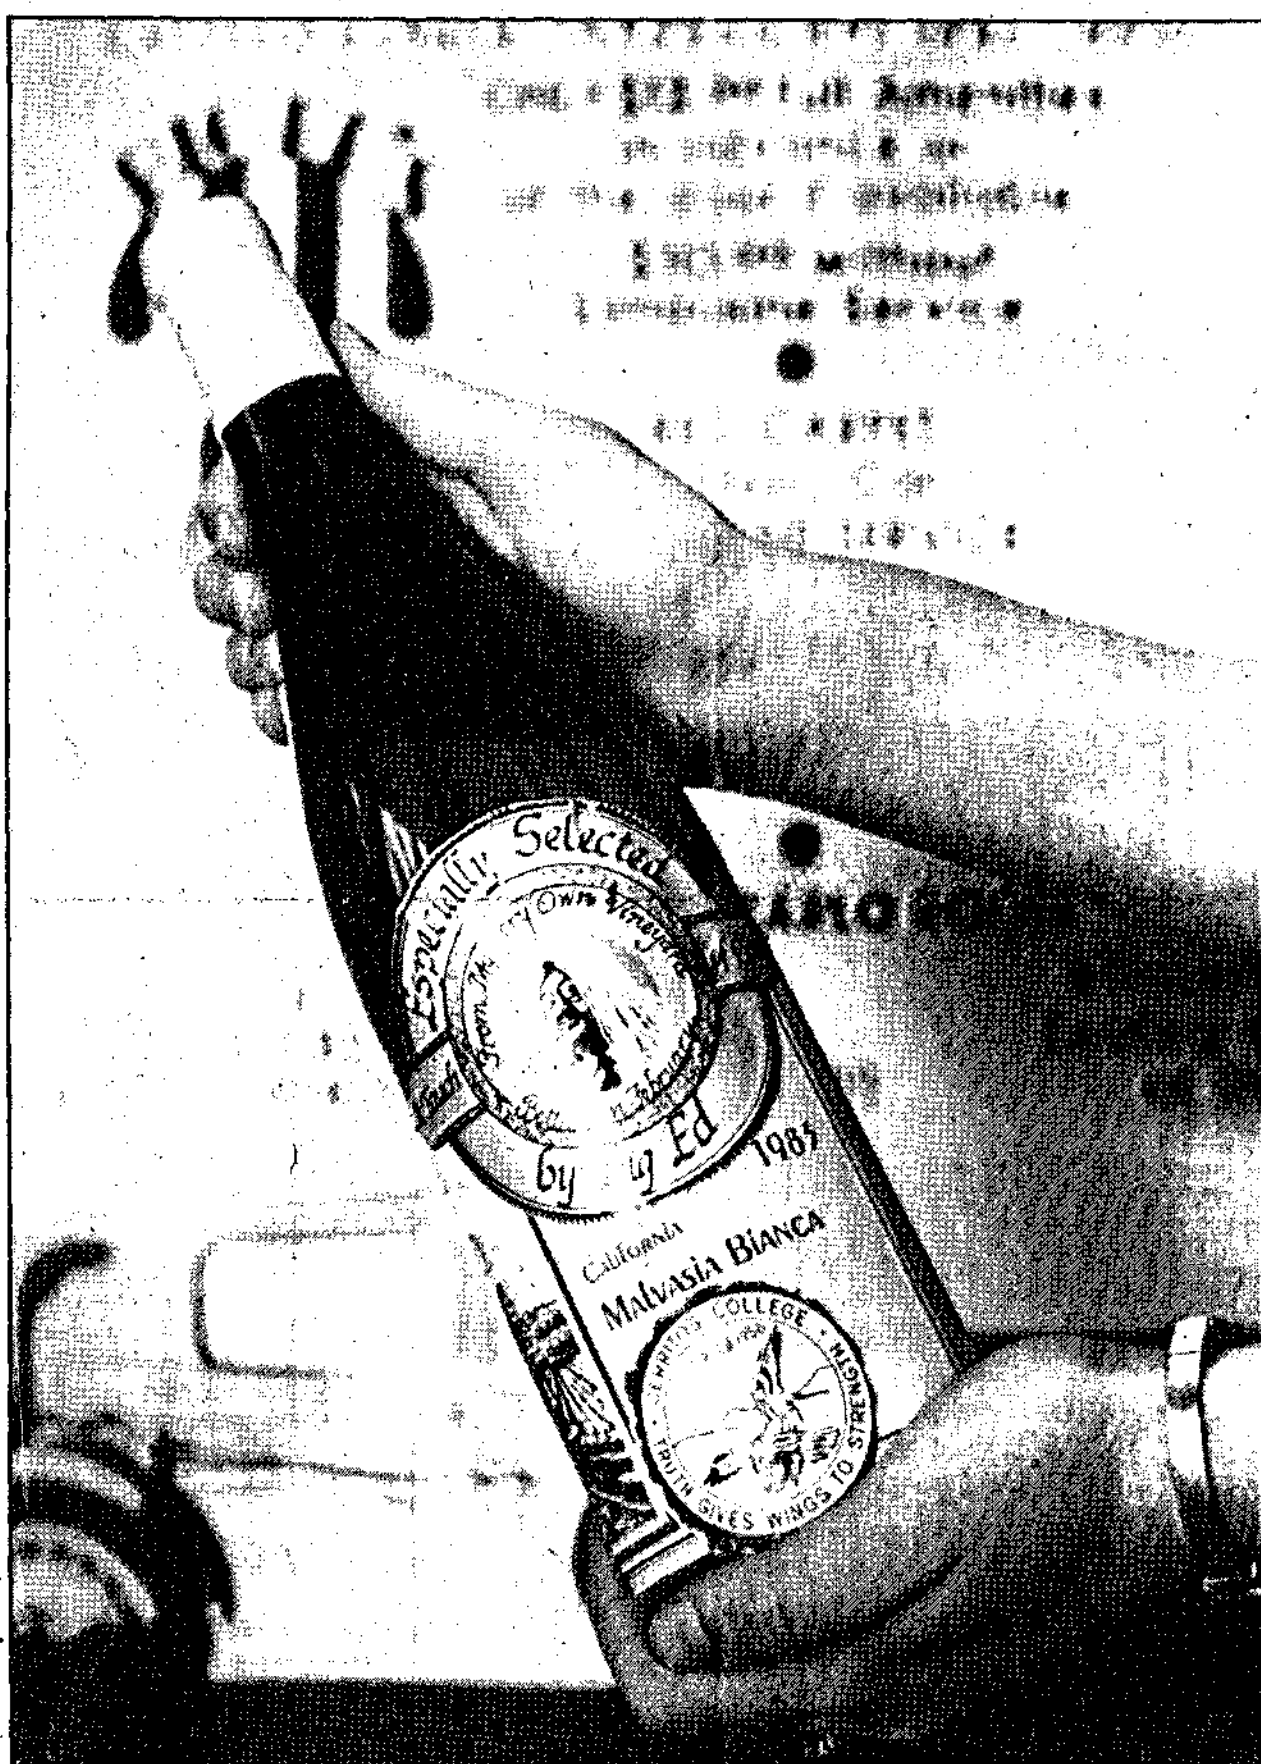

The ASCC and Circle K will present Big Ed's "A Touch of Class III" Friday, March 16, in the Student Center.

The featured limousine ride will include over 13 antique classic cars, together worth over a million dollars. Donated by various car collectors, some of the cars included are a 1930 Lincoln and a 1932 Auburn.

Entertainment will include jazz music from members of the Tonight Show Band and two live floor shows. Gene Bell, who was scheduled to perform, cancelled out due to other pressing engagements. Other talent has been arranged.

Full waiter service will be available to each table, chosen at the time of ticket purchase.

All waiters, waitresses and other Big Ed "employees" will be comprised of campus staff. Cerritos College President and Superintendent, Dr. Wilford Michael, Vice President of Business Services Walt Magnuson, Dean of Student Services and Coun-

ED'S RED — Big Ed's "wine/sparkling cider," along with over a million dollars worth of antique limos, exotic hors d'oeuvres and a Las Vegas style casino will be featured at Big Ed's A Touch of Class III, Friday, 9 p.m.

ASCC SENATE

Senators to resolve tutoring issue today; debate expected

By TERRY SPENCER
TM Staff Writer

A bill to reinstate the tutoring program, a reconsideration of a \$40,000 outlay to the Business Services Office and the adoption of the Cerritos College Student Conduct Policy headline what is expected to be a long and heated Student Senate agenda today at 2 p.m.

The tutoring bill was first introduced at last week's meeting, but was tabled after intense questioning of the bill's sponsor Brian Holland, centering on the feasibility of the ASCC accepting financial responsibility for the program without official notice from the Board of Trustees that the Board intends to resume paying for the program next year.

Sources close to the Board indicate that tutoring is included in the 1984-85 budget due to the increase in funding from the state.

The district allocated \$40,000 last year for the tutoring program, but was one of the items cut during the budget crisis.

Tutoring of Extended Opportunity Programs and Services students (non-traditional students with an income of less than \$10,000 per year for a family of four) was continued however, and the tutoring structure was not dismantled.

\$10,000 is the amount budgeted in the senate legislation, the savings coming from the use of volunteer tutors in addition to those that would be on the payroll.

Those that would be eligible for the program would be those students that are receiving a D or an F in a class, and have been recommended for tutoring by their instructor. They would receive up to ten hours of free tutoring.

According to Holland, the greatest percentage of students who take advantage of the program come from the Math, Science and Engineering Departments, with smaller percentages coming from Humanities and Social Science.

The \$40,000 outlay to the Business Services Office was approved by the Senate last term, and was to pay for the bookkeeping that was done for the ASCC for their accounts, including Cosmetology, JCC accounts, and the bookstore.

The outlay was approved at the final senate meeting of last semester, but was amended to say that if the college received additional funding from the state, Business Services would refund the money to the ASCC.

The cause of the reconsideration concerns the way in which the administration brought the bill before the previous senate.

"They basically railroaded it through," said Holland. "They have had the plan since last August, but they waited until the last meeting so that we wouldn't be able to take a close look at the bill before voting on it."

Holland also questioned the method of cost accounting used, saying that the method used was not a true reflection of what the actual amount the handling of ASCC costs the college.

The Cerritos College Student Conduct policy would lay out the offenses for which a student could be punished and the procedure for trying the student on that charge.

Offenses range from physically attacking a teacher or student to smoking in an unauthorized area.

Summer school intents; students can file now

By DINA H.L. JAO
TM Staff Writer

The first and only six-week summer session for 1984 will officially begin on July 2 and end Aug. 10.

Cerritos College has staged two summer sessions in the past. The change is the first of many in light of a new early academic calendar adopted by the Cerritos College Board of Trustees and administration at the Board meeting on February 27.

Those planning to attend the summer term should file an intent to register between Mar. 12 and June 12 in the Admissions and Records office.

Registration will begin on June 25.

Classes will be conducted during day and evening hours. A complete schedule of classes to be offered will be available free of charge in both the Cerritos College Bookstore and Admission and Records Office beginning Apr. 16.

The new student fee imposed by the state will not be in effect and there will be no materials fee during this summer term. However, there will be a \$5 parking fee and a \$2 student body card fee which includes accident insurance and a 10% discount on tex-

'Hoopsters' shoot for state

By BRYAN MADRID
TM Managing Editor

For the second consecutive year the Falcon basketball team will travel to Fresno to participate in the State Championships. The defending state champs drew fourth seed this year and will begin defense of their title against fifth seeded San Francisco at 9 a.m. tomorrow in the tournament's first game.

Last year the Birds entered the tournament as the number one seed with a record of 32-3. This season

the team's 25-6 record gave them a number four position going into the tourney.

Head coach Jack Bogdanovich feels if his team can get by the third game, Cerritos may surprise a few people and repeat as State Champions.

"We've practiced well all week, the team's in good physical condition, and right now I feel we're capable of beating anyone in the state," said Bogdanovich.

It will be only the second time in

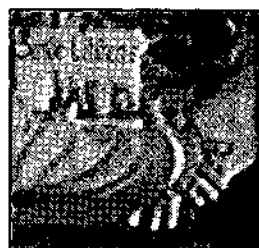

18 years anyone has repeated as champions if Cerritos can pull out the deuce this week.

According to Bogdanovich, the Falcons have a major advantage in short four-day tournaments. "We play a lot of players. And in the short format I think that gives us the upper hand, especially in the third and fourth games. We definitely get stronger as the tournament grows longer."

Hair style rival set

By CLAUDIA PIRAS
TM Assoc. Features Editor

The Annual Hair Design Competition sponsored by the Cerritos College Cosmetology Department will be held Wednesday, March 21, in the Student Center from 6 to 8:00 p.m. Admission is free to the public.

Students enrolled in courses will compete for trophies and awards in four categories of competition: "Daytime," "Artistic," "Haircutting," and "Fantasy Styling."

Unique and out of the norm hairstyles will be featured as six winners are chosen in each category.

"We are very proud of our students," explains Jeanne Johnson, assistant professor of Cosmetology. "These hairstyles should be some of the greatest student hair designs in Southern California. I hope the public comes to see this annual event," she adds.

Briefs

STUDENT SERVICE NIGHT

The Associated Students of Cerritos College is sponsoring a student service night to be held March 20, at 7:30 until 9 p.m. located near the Liberal Arts Elbow Room.

Organizations such as the Veteran's Club, Bilingual Office, Woman's Center, Financial Aid, E.O.P.S., Job Placement, Counseling, Student Government and the Handicapped Students Program will be present. The groups will be present to explain services available to qualified students.

Students are encouraged to attend.

For further information, contact Phil Houseman or Elaine Cubas at the Student Center, Ext. 471.

-Joe Gibbs

PHI KAPPA ZETA REUNION

Phi Kappa Zeta sorority has announced that its 20th year reunion for actives and alumni is slated for July of this year.

Club President Kathy Chavez said, "From all appearances, this will be the social event of the year."

Interested alumni should contact Chavez at 925-8161 or Michelle Stevens, chairwoman of alumni communications, at 698-1803 in the evenings.

Anyone with information regarding the whereabouts of any Phi Kappa Zeta alumni is urged to call or write to Phi Kappa Zeta in care of the Student Activities office.

-Joe Gibbs

X-RAY MOBILE

X-Ray services are being offered by the California Surveys-Chest X-Ray Mobile unit on the Cerritos College Campus, Wednesday March 14.

The X-Ray Mobile will be available for the general public and a service charge of \$5 will be required for the service.

The unit will be located in the main quad area between 1:30 and 4 p.m., and 6:30 to 7 p.m.

-Mark Todd

TUTORS NEEDED

Tutors to work with elementary, junior high and high school students in the subjects of algebra, math, reading, geometry, English and Spanish are now needed. The job requirement is a 3.0 GPA in the area you wish to tutor and it pays from \$5 to \$7 per hour.

To apply, please bring a copy of your transcripts with you to the Job Placement Office.

-Connie Sager

POETRY CONTEST

International Publications will sponsor their annual Spring National College Poetry Contest which is open to all college and university students desiring to have their poetry anthologized.

Cash prizes will go to the top five poems: \$100 first place, \$25 third place, \$15 fourth place and \$10 for fifth place.

Entries must be original and unpublished. Foreign language poems are welcome. There is an initial one dollar registration fee, and a fee of fifty cents for each additional poem. All entries must be postmarked not later than March 31, 1984.

For further information, contact Dr. Val M. Churillo at (213) 755-1814.

Women achievers lauded for service

By MARIA RIVERA
TM Staff Writer

Nineteen women were honored by the Cerritos College Center for Today's Women for outstanding service to their communities on March 8. The program was held to commemorate Women's Achievement Week that was recognized March 5-10.

Jean Michael, wife of college President and Superintendent Dr. Wilford Michael, was the Mistress of Ceremonies.

"It was our desire to acknowledge and honor women of the present so that other women could learn directly from them," said Michael.

Honored as outstanding citizens of their respective communities were Alice Allen, past president and 32 year member of the Norwalk Woman's Club; June Bates, member of the Senior Citizen's Club of Artesia; Ellen Carver, member of the Artesia/Cerritos Woman's Club; Barbara Cooper, lawyer and member of Soroptimist International of Artesia/Cerritos; Carol Crawford, president and owner of two successful John Robert Powers schools and member of the Artesia/Cerritos Soroptimists; Barbara Dickson, chairman of the

Friends of the Cerritos Library Committee; Louise Hastings, member of the Democratic Women's Club of Bellflower; Dawn C. Henry, president of S-H-E Insurance Services, Inc. and member of the Downey Soroptimists; Dr. Lillian Lindgren, member of the Bellflower Soroptimists; Jeanette Moore, president of the La Mirada BPW Club; Mary Lou Nunez, member of the Norwalk Soroptimists; Marguerite Phares, District President of the Los Cerritos Women's Club District; Velma Ploessel, president of the Downey AAUW; Celia Spitzer, past president of the La Palma/Cerritos AAUW; Mary Tunison,

president of EOECA, Los Angeles; Margaret Vineyard, member of the Hawaiian Gardens' City Council; Jan Warner, past president of the Cerritos Art Association; Josephine Wiser, member of the Downey Woman's Club; and Diane Xitco, president of the ABC Unified School District.

According to Women's Center Coordinator Vera Eckles, approximately 30-40 community organizations were contacted to submit names of outstanding woman achievers.

This was the first luncheon sponsored by the Cerritos College Center for Today's Women to honor

8.5% INCREASE

Salary freeze lifted

By GERARD MOYA
TM Campus Editor

An "across the board" 8.5 percent pay increase for teachers, administrators, managers and confidential staff was approved after a three year freeze on salaries was lifted.

Deductions from the 8.5 figure were made for each employee group because of rising fringe benefit package premiums over the past year.

Teachers will receive an 8.0% increase, administrators and managers 7.8% and 7.6% for confidentials, all retroactive to January 1, 1984.

Negotiations were put on hold for nearly three years because of major reductions in state funding along with Governor George Deukmejian's removal of \$96.5 million from community colleges in 1983-84, reducing state apportionment for Cerritos by \$1.28 million.

In January, Deukmejian restored the \$96.5 million and Cerritos College was granted an additional \$196,000 in equity funds, thus opening up talks to

negotiate monies for the long awaited salary raises.

The Board also voted to discontinue the position of Coordinator of Community Services currently held by Dr. Don Karvelis.

The administration recommended the abolishment of the position since the adult education offerings were removed from the Community Services area of responsibility.

Dr. Karvelis spoke before the Board explaining his part in planning, scheduling, contracting and management and expressed concern about who was going to take on the duties once his position was abolished effective June 30, 1984.

Board member Harold Tredway of Downey suggested that the matter be brought back to the board containing a total plan for the creation of a new classified position.

College President Dr. Wilford Michael told the board he would bring the matter back at the March 26, 1984 regular meeting.

Cosmo seeks 15 parking spots

SENATE / From Page 1

Penalties include expulsion, suspension from school and/or the ASCC, or an official reprimand.

In other senate business, action is expected on a bill that would award 15 parking spaces to the Cosmetology Department.

According to Lylette Cubas, who is a representative for Cosmetology in the senate, the imposition of the parking fee in February 1983 is the main

reason that business for Cosmetology has dropped by 8%.

"The people who come to us are doing us a favor," said Cubas, "because we are not professionals. By making a hassle out of coming to us, they just go elsewhere."

Two other bills that would appoint Shirley Tanedo as Commissioner of Finance and Budget, and Julie Smisson to the Supreme Court will also be considered.

Women, men open track with big wins

By GERARD MOYA
TM Campus Editor

Shelia Frye led the Lady Falcons to a 70-54 victory over visiting Golden West Friday.

This is the second straight time the women's track team won a dual meet. They squeezed out Citrus 83-20 the previous week.

Frye won the long jump at 17'6 1/2" and the 100 meters at 12.5 in the Golden West meet. Denise Gonzalez dashed through the tape in the 200 meters at 26.3 and the 400 meter at 59.9. Both Frye and Gonzalez ran a leg in the winning 400 meter relay at 49.4, along with Carol Dye and Tami Ortiz.

Debra Bludso won a double victory, hurdling a 15.6 in the high hurdles and a 85.0 in the intermediate hurdles.

In the field, Diane Barragnon threw the winning javelin 113'5" for her best throw of the season.

Stephanie Baker won her specialty, pushing the shot 40'2 1/2" for first place. At the dual meet against Citrus, Baker whirled the discus 93'3" to win the event.

Middle distance runner Katrina Kwiecien won her race with a 4:55.9 time in the 1500 meter. Gonzalez won the 800 meter with a time of 2:28.8.

Vicky Garcia, winning the 3000

meter run at 11:19.5, had the track to herself as Citrus runners quickly fell behind. She again had the track to herself against Golden West until the last lap to place second.

Men's track

Sprinter Keith McCoy and triple jumper Andre Cobb led the Falcon men's track team over Golden West with a 96-46 score.

Keith dashed though the 100 meters at 10.5 and the 200 meters at 21.5.

Andre Cobb, jumping his favorite event, won the triple jump at 48'2 1/4". He also rose to the occasion with a 22'2 1/4" in the long jump. Both Cobb and McCoy also ran on the winning

400 meter relay team.

It was a double win for Don Champion in the 1500 meters with a time of 4:13.7 and a 2:03.2 time for the 800 meters.

Anthony McNeil won the 400 meters at 50.2, while teammate Robert Grego ran the intermediate hurdles in 56.1 for a first place victory.

Distance runner Ralph Martinez kept the lead all the way in the 5000 meter run with a time of 16:12.6.

In the pole vault, George O'Gorman placed second with his best this season of 14'0".

Both teams will be competing Friday as they host Fullerton and Santa Ana in a double dual meet in the Cerritos College Stadium.

Women's tennis hosts Cypress

By MONA MENDOZA
TM Staff Writer

Despite having only two returning players, Coach Tom Spence has an optimistic outlook about this year's women's tennis team, which started league play yesterday. They host Cypress tomorrow at 2 p.m.

They ended the pre-season action Thursday with a 7-2 loss to El Camino to wind up with a 2-3 record.

The girls took first two seasons ago and finished second last year.

According to Spence, most of the girls this year have had little or no experience in playing conference tennis.

The Falcon roster includes: Gladys Chavez, Yolanda Walltower, Josephine Estrada, Alicia Hernandez, Melba Hubbard, Karen Singleton, Debbie Tristano, Rachelle Cross, Joann Shimomura, and Loly Gordovez.

Chavez is serving as this year's team captain.

"The team is new and inexperienced. This is a building year for us," said Spence.

Softball at Golden West

By JOHN VAN GASTON
TM Assoc. Sports Editor

The women's softball team opens league play today at Golden West sporting a 12-4-1 record, including the Worth Community College Tournament Championship at Cypress.

The Falcons dominated the tourney, outscoring their opponents 22-5 in four games. The duo of Dee Clair and Laura Palmer each pitched two complete games, with the latter giving up three hits while striking out 18. She did not give up an earned run in the tourney.

Left fielder, Mary Martin was named the tournament's Most Valuable Player. She led the team with one home run and five RBI's. Her home run was a three-run blast in the 5th that put the game out of reach in their first game, a 6-1 win over Chaffey college.

Along with Clair and Palmer, four other Falcons named to the all-tournament team were Darla Badger, catcher, Rachel Pantoha (2B), Grace DeLeon (3B), and Martin.

The next game was a 10-2 rout over Citrus. Sophomore first baseman Nancy Parmley was the hitting star in

that game. She ripped a two-run triple in the bottom of the first that put Cerritos on top 3-2 for good. Laura Palmer pitched a one-hitter and struck out 10 that day.

The third game against Cypress was a 5-2 Falcon victory. This brought on the final game, also against Cypress.

The game was scoreless the first three innings until Grace DeLeon raced home for the game's only run on a Cypress error. Palmer gave up only two hits while striking out eight.

Her final strikeout came with two outs in the bottom of the seventh with the tying run on third base.

The Falcons did not have much time to celebrate, because they had to host Moorpark in a double header the next day.

They were physically and emotionally drained while dropping the first game 4-3. They had a chance to win the game, but stranded the tying run on third after scoring three in the bottom of the seventh.

They came back the next game behind the strong pitching of Palmer. The sophomore pitched her second straight shut-out in two days, while allowing only two hits and striking out six.

The team suffered a setback when freshman second baseman Pantoha severely sprained her wrist while tagging out a runner at second. She was leading the team in hitting at the time with a .560 batting average. Pantoha will be out for about a week or more.

The Falcon bats were silenced in the first game of a double header at Ventura. Had it not been for outfielder Elaine Gannon, the Falcons would have had a no-hitter thrown against them.

Their bats woke back up in the second game, collecting eight hits, led by Dee Clair's three singles, winning 3-1.

Through 17 games, the team ERA is an astonishing 1.06. Palmer has an unbelievable 0.90 ERA, while Clair is just as outstanding at 1.19.

Offensively, the team is led by Pantoha's .560 batting average. She also leads the team with 28 hits and 20 runs.

Martin leads the team with 14 RBI's and is third on the team with a .362 batting average. She also has three doubles and a home run.

Birds start strong, 9-0

By MICHAEL HEINRICH
TM Sports Editor

With a well-balanced line-up and a strong pitching staff, the undefeated Falcon baseball team has won its first four SCC contests, including a recent 11-3 pounding of Cypress Saturday.

Not only has Cerritos won their first four league games, but they also carried a 9-0 record into yesterday's game with Orange Coast.

Santa Ana, who is also 4-0, will be the next Falcon opponent tomorrow at 2:30 on the Don's home field.

"The team is doing all the little things," said Coach Gordie Douglas. "They are moving the runner around, making the defensive plays and the pitchers have responded well in tough situations."

Against Cypress, first baseman Ron Ewart got the Falcons off on the right foot with a three-run home run in the first and drove in five runs for the day.

Centerfielder Kevin Bootay, who is hitting at a .429 clip, continued his hot hitting with a 4 for 5 performance at the plate.

Leftfielder Kenny Williams scored three runs and went 2 for 3.

Winning pitcher Dave Berry went a strong six innings and gave up three runs. Dean Yamashita and Dave Serrano served the game for Berry with strong relief performances in the final three innings.

Along with Bootay, second baseman Mike Benjamin and third baseman Craig Worthington are leading the Falcons offensively with batting averages well over the .400 mark.

The Falcons started out league play with a 5-0 shutout over Golden West, which saw a gem of a pitching

performance by lefthander Dion Beck.

Beck gave up only two hits. The first one was controversial and the second one didn't come until two outs in the bottom of the ninth.

With a 4-0 record overall and a 2.25 ERA, Beck is the key to the Cerritos pitching staff.

In the other two league games, the Falcons out-slugged Mt. SAC 9-5 and shut down top rated Fullerton 6-2.

Both games displayed timely hitting and outstanding defensive plays.

"Our players are playing very good defensively with shortstop Ever Magallanes doing a super job. He made some key plays in the Fullerton game," commented Douglas.

Yesterday, the Falcons faced a tough 3-1 Orange Coast team with lefty Chris Garrett on the mound. The final score was unavailable at press time.

Garrett hasn't pitched more than six or seven innings in any game, but has 2.84 ERA and 2-0 record.

"Yamashita is the first one to come out of the pen if Garrett can't finish," said Douglas.

At Santa Ana tomorrow, Cerritos will face a hot team that has a 4-0 record in league.

"Santa Ana has been hitting the ball real well and has good pitching," responded Douglas.

Here are the SCC standings through the first four games:

Cerritos	4-0
Santa Ana	4-0
Orange Coast	3-1
Golden West	3-1
Mt. SAC	1-3
Fullerton	1-3
Compton	0-4
Cypress	0-4

Lady cagers perform here Friday night

By BRYAN MADRID
TM Managing Editor

After taking second in the tough Fullerton Tournament, the women's basketball team opened up conference play with convincing victories over Compton and Mt. SAC, with scores of 57-21 and 86-69, respectively.

This week, the Lady Birds can show the conference they're a team to contend with when they travel to Fullerton tonight to play the defending league champs, the team Cerritos finished runner-up to in the Fullerton Tourney. The Falcons then come home Friday night to play a rough and physical Orange Coast. Both games begin at 7:30.

"This week will be a big test for us. I think we can beat Fullerton, but I've got to get the team believing it. This will be the first time we've had a chance to prepare for Fullerton. We've only played them in tournament this year and it's hard to prepare for one team in a weekend series," said coach Karen Peterson.

Cerritos has never beaten the Hornets since Peterson has been coaching here (five seasons, three as assistant and two as head coach) and she "can't remember if we've ever beaten them."

Peterson is looking forward for her team to run the fast-break as often as possible. "We ran all right against Mt. SAC, but not as much as I would have liked."

Against SAC, the Birds were led by Linda Moores 14 points and 20 rebounds, and 17 second half points

by Merrie Everett, who played much of the game in foul trouble.

Sheri Martin set a new school assist record with 14.

Cerritos will need help from their all freshman bench if they plan on being in the race.

"All the starters are sophomores and my bench is all freshmen. There is a big experience factor in the year difference, but I'm pretty pleased with my bench so far this year — it's (bench) just going to have to do the job," Peterson explained.

"So far the season's going good," she added.

Orange Coast and Fullerton are two top teams in the conference. If the Birds can get by this week with no more than one loss, they'll be in good shape; otherwise, it will be an up-hill battle from then on.

Men's tennis faces strong Mt. SAC

By JOHN VAN GASTON
TM Assoc. Sports Editor

The men's tennis team opened league yesterday here against Orange Coast. A 2-3 pre-season record may not be much to boast about, but the Falcon's finished with a 9-0 blitz over Clairmont College JV's.

Coach Ray Pascoe is relying heavily on his No. 1 doubles team of Bob Mayson and Eric Suh. Pascoe said he is especially pleased with the play of Suh and expects the sophomore to continue his strong performances.

He feels the team has the potential to hold its own with the top of the SCC.

Generally considered the team to beat in the SCC is Mt. SAC. The Falcons travel to Mt. SAC March 20.

Golfers improving

After steadily improving for two weeks, the Cerritos golf team faltered as San Diego handed them their seventh consecutive pre-season loss Friday.

Mesa had an extremely low team round at 369 to top Cerritos' 417.

"We'd been steadily improving, but we sure didn't this match, said Coach Montero.

The Falcons open conference play tomorrow when they host Fullerton and Orange Coast at Rio Hondo Country Club. Tee time is 12 noon.

Ellie Itkoff goes for it.

Back-to-back title bids

BASKETBALL / From Page 1

In the four-day single-elimination tourney, teams must play every day (barring a loss, in which case they are eliminated) for a possible four games in four days.

"If we can get to the fourth game, I think the advantage has to go to us."

The South drew the early games in the tournament, but that's something the Birds aren't going to complain about. They get more rest than any of their opponents throughout the championships.

The Falcons lost their last regular season game and it's wondered if that hurt the team's attitude going into the play-offs since they've had two weeks to think about it.

Bogdanovich says otherwise, "I think that loss may have helped us as far as 'the game' goes, it's allowed us to really work hard and get ready. But I think it may have hurt us seed-wise, we probably could have been in a different bracket, but it doesn't really matter — at this time of the year there aren't any easy ones (teams or victories)."

Bogdanovich feels it's a tribute to the team that they've gotten this far. It's hard enough for a team to repeat as conference champions, let alone as State Champions.

Then again, 32-3 and 25-6 proves that last year wasn't a fluke. And a record of 59-9 in two years speaks for itself.

TWO-YEAR SCHOLARSHIPS AVAILABLE

The Navy will pay for your Tuition, Books, and Fees

during your Junior and Senior Years at

College, plus \$100.00 a month Subsistence.

To Qualify for One of Our Special 2-Year NROTC

Scholarship Programs

you must:

• Be a U.S. Citizen

• Be under 25 years of age at Graduation

• Have a 2.5 overall GPA

• Have 1 year of Calculus by end of your Sophomore year with C or better

Editorial

Forget me not

What does it take to get publicity?
And recognition?
Why is it that junior college athletics are seemingly buried in oblivion?

For the second year in a row, the Falcon basketball team is — for example — heading for the state playoffs.

No big deal?

Is it the level of competition?

Half the four-year colleges in the country play from two to five freshmen and sophomores — the same as the "junior" college level.

It is grossly unfair for athletes who are that good to get little or no recognition.

Many of these athletes go on to become quality players at "higher level" colleges. Some eventually become professionals.

Because junior colleges are "lower level" colleges does not mean the coaches, players, and the teams as a whole are of "lower" quality.

The poor media coverage Jaycees get compared to the four-year schools is bad enough, but high schools get more coverage than the two year colleges.

Is it because no one cares about a level of play in what might be called the "twilight zone" between high schools and "upper level" colleges?

These athletes opt for the junior college route for a variety of credible reasons.

Junior college athletes are not a bunch of high school rejects and others who were not good enough or academic enough for four-year schools.

Not everyone can afford to go to a four-year school and with so many high schools around, some excellent athletes are not selected for scholarships.

It's not fair that athletes who go to community colleges should not be recognized.

With this kind of thinking, many of the great talents in the professional world of sports, would have never been recognized and/or appreciated.

In the case of basketball and football, an athlete almost has to go to college to get to the pros.

Cerritos has excelled in football and basketball this year. It is due time that they get proper recognition.

The football team just missed being #1 in the nation.

The basketball team is shooting for a second straight state championship.

Cause for recognition?

You got it.

It's a draw...

The procedure that is now used to determine the order in which names will appear on the ballot in ASCC Senate elections has groups paying more attention to where they'll be placed on the ballot than to telling the voters where they stand on the issues.

Under the current ASCC election code, no mention is made of how the order of candidates will be determined.

The de facto method that is now used is that the candidates' names are placed on the ballot in the order in which they turn in their nominating petitions.

The order in which the candidates are listed would seem to be of small consequence to those running, as compared to other concerns that a candidate normally has.

But, the fight for positions is often more spirited than the election itself.

The LDSSA makes a supreme effort to garner the 1-10 slots on the list, while at each election 10 athletes often wait until just before the deadline to turn in their nominating petitions, in order to have the last 10 spots.

The advantage of being listed first or last may seem nebulous, but somewhere along the line somebody at the state level must have found a similar problem because they passed Code 10217.

EC 10217 states that in all state, county, city, and district elections, ballot positions will be determined by lot in a system too complicated for exact duplication here at Cerritos, but could easily be modified for use in our own elections.

We recommend that a procedure be adopted whereby after all of the candidates' petitions have been submitted, a drawing be held where the first name out of the hat will go at the top of the list, and so on down with the last name picked going at the bottom of the ticket.

An adoption of such a system would remove any question that surrounds the current procedure while placing the emphasis in the election back where it belongs — on the campaign rather than on where the candidate's name is on the ballot.

We certainly don't want to discourage the traditional participation of groups and "blocs", but we would like to make sure that the individual "independent" gets a fair shake of the hat.

ADMINISTRATION OF JUSTICE:

Myriad opportunities waiting for men, women

By DINA H. L. JAO
TM Staff Writer

You can't help but notice those recruitment letters from different police agencies posted on the bulletin board as you walk by the Administration of Justice Department office.

It shows good employment opportunities for students going into the field of Criminal Justice, Law Enforcement or other related fields like Probation, Court Reporting, Legal Aid and Law Offices.

This is the fourth in a series of articles exploring today's job market. It is not intended to be all-inclusive, but will help the individual understand certain trends and aspects of the career field discussed.

So far, there have been several on-campus visits set up by the Job Placement Office, from the California Highway Patrol, San Jose Police Department, L.A. County Sheriff's Department and LAPD. These agencies send recruitment teams out regularly to provide information, to answer questions and to encourage students to apply to those particular departments. According to the Job Placement Office and Richard McGrath, Chairman of the Administration of Justice Department, they've gotten good turn-outs.

There are good chances for both men and women, here.

Cerritos College offers Certificates of Achievement in three areas of Administration of Justice: Law Enforcement, Correction and Security.

The 15-unit core package of the departmental requirements include: Intro to Administration of Justice, Concepts of Criminal Law, Criminal Procedures, Criminal Evidence and Community Relations.

Requirements for the Law Enforcement track are: Substantive Law, Patrol Procedures, Criminal Investigation, General Intro to Psychology and Introductory Sociology for a total of 15 units.

Required courses for Security are: Intro to Security, Business and Retail, Private Security, Industrial Security, General Intro to Psychology and Introductory Sociology for a total of 15 units.

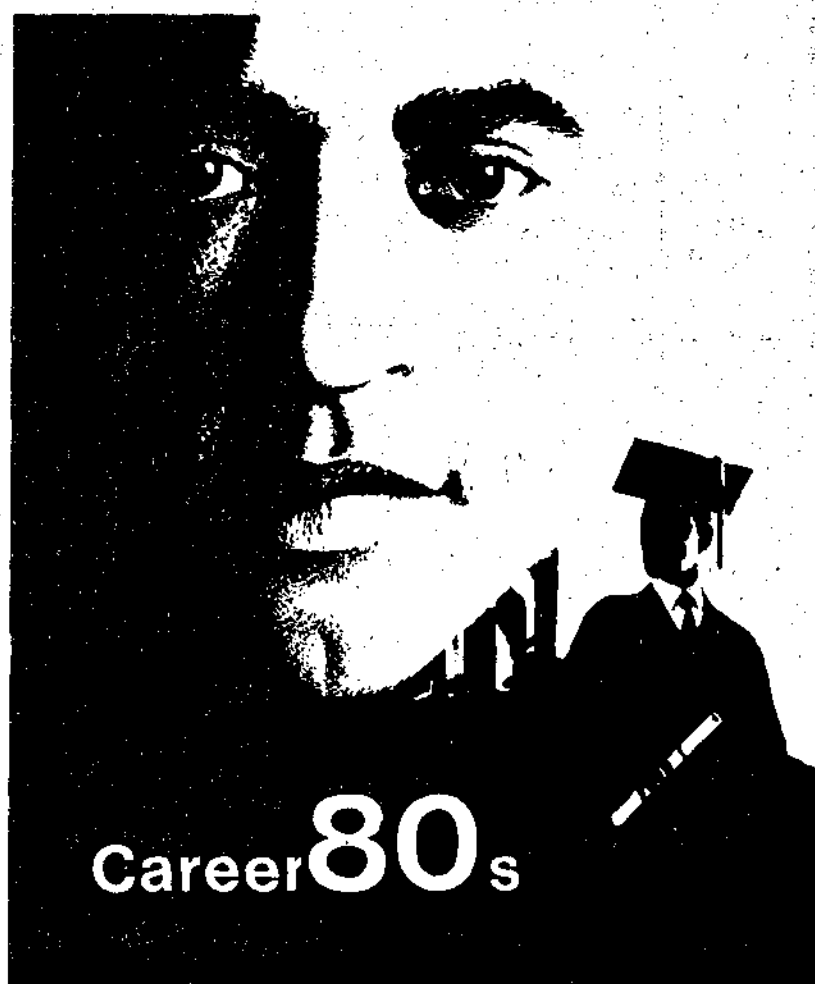

Courses required for Correction are: Intro to Correction, Correctional Institutions, General Intro to Psychology, Introductory Sociology and three elective units for a 15-unit total requirement.

Electives are: Report Writing Procedures, Crime and Delinquency, First Aid (required for all peace officers), Arrest Search and Seizure, Firearms, Defense Tactics, Narcotics and Vice Control, Juvenile Procedures Traffic Control, Accident Investigation and Beginning Typing is recommended.

'Police work is a type of career that a lot of women haven't considered in the past.'

To complete a minimum of 33 units includes: 1) the core package, 2) AJ courses in one of the three tracks and 3) an additional three units to be selected from the elective courses or from an optional track.

"AA degree is almost a necessity to go into a police agency," said McGrath. He continued, "For prom-

otions within the police agency, to go above the first supervisor level, and to go above sergeant, you probably have to have a BA degree. Lieutenant or above, you have to have a BA. To go higher than that, you probably have to get a Law degree or a Masters degree in Public Administration."

McGrath further stated that about half of the students go to work in the police departments after graduating from Cerritos, the other half transfer to state colleges. He said that a good 80 percent of our graduates, particularly those who go on for a BA degree, would be employed in some criminal justice field.

The topic of interest now rising in the field of Law Enforcement is that more jobs are becoming available for women.

"Some departments are giving tests specifically for women right now," said McGrath.

One girl majoring in Administration of Justice said, "They encourage women to come and they have more testing forms for academics and they have more frequent testings."

He indicated that it's a type of career that a lot of women haven't considered in the past, because it has been traditionally a male field. But in the last 10-15 years, it's been recognized that women can do typical police work. More and more women are becoming interested in it and are getting involved in police work.

"Women are becoming aware of what police work is like and they realize that you don't have to be 6'4" and 250 pounds in order to be successful in police work," concluded McGrath.

The viewpoint is confirmed by the Job Placement Office where a spokesperson said that some agencies were particularly interested in women applicants.

GOLDEN DUCK: Donald still quackin' 'em up

'Touch of Class' ducats

ED'S / From Page 1

Proceeds will benefit the Jr. Blind and the Cerritos College Foundation. Last year's "A Touch of Class II" raised approximately \$3,000, for the selling Dr. Fran Newman and "Big" Ed Bloomfield himself will be among the help at "A Touch of Class III." Over 70 faculty members are scheduled to work.

It will take two days and over 50 people to decorate the Student Center. Volunteers would be appreciated. Anyone who would like to help should be at the Student Center, Thursday March 14, at 1 p.m.

ABC-TV (Channel 7), along with Falcon TV and several car magazines will cover this year's event.

Footage produced by Instructional Media Services appeared on national television last year via the March of Dimes Telethon.

Tickets are still available, \$12 with a limo ride, \$10 without, at the Student Activities Office. Tickets and all other purchases at Big Ed's will be tax deductible.

Coat and tie dress is suggested for men. Women should dress accordingly.

Happy Birthday, Donald Duck.

With colorful daily parades, personal appearances, and a host of surprises, Disneyland and Walt Disney will celebrate one of their most famous and popular characters, Donald Duck's 50th birthday. The two kingdoms will begin their festivities in mid-May.

Universally acclaimed, Donald Duck has become one of film's most popular citizens with fans in 76 countries, readers who follow his daily comic strip in 100 foreign newspapers, friends who read his comic books published in 47 nations and television families who watch him in 29 countries.

Donald's first mention was actually in the book, *The Adventures*

of Mickey Mouse, where Donald was introduced as a friend of Mickey.

The web-footed wonder was actually born on June 9, 1934, the date of release of Walt Disney's Silly Symphony, *The Wise Little Hen*, in which Donald made his motion picture debut.

Donald Duck's success story began in the early 1930's when Walt Disney hired Clarence Nash, a modest man from Oklahoma, to do animal sounds. Nash performed an imitation of a baby goat, which he presented as a little girl attempting to recite *Mary Had a Little Lamb*. Walt Disney declared at the time "That's our talking duck!" And from that date forward, Donald's distinctive voice has been performed by Clarence "Ducky" Nash.

During the parades, on hand will be Donald's first love, Daisy Duck, and his three nephews Huey, Dewey, and Louie. Also, Clarence Nash will be on hand at Disneyland and Walt Disney for many of their special festivities.

Songs from Donald's features films, including, *The Three Caballeros*, *Buenos Dias Amigos* and *Melody Time* will be incorporated into the special parades and shows that are planned.

A brand new musical composition, *Happy, Happy Birthday Donald* will ring throughout the two parks to tunelessly celebrate the 50th birthday of the world's most famous duck.

So, happy birthday Donald.

Everybody's Irish on St. Paddy's wearin' o' th' green day

By SARAH HILL,
JENNIFER KNOX
and CLAUDIA PIRAS

I'm not Irish, so why should I celebrate St. Patrick's day?

I'm not Catholic.

I'm not Protestant.

Worst of all, I look horrible in green. Most of the people I know look horrible in green.

And why would anyone want to

drink green beer?

How did green become the official color of the Irish?

Was this Patrick guy a leprechaun? Or was that just his favorite color?

We really don't know much about this guy. After all, nobody knows where or when he was born. There's even some doubt that March 17 was his death date.

But it is known that he wasn't Irish.

The French, the Scots and the Welsh claim him.

When he was sixteen, he was kidnapped by the Gaels (Irish) and taken to Ireland to be sold as a slave. After six years, he escaped to France but returned to Ireland to convert the Irish to Christianity.

He allegedly used a trefoil (clover) to illustrate the three parts of the Doctrine of Trinity — you know, the Father, the Son and the Holy Ghost.

Maybe that's where the green comes in.

It seems that some history books can't agree.

Too bad clover isn't navy blue or scarlet red.

Hey, but I'm no party pooper. I suppose I'll drink a little "green" beer on March 17. I'll probably even wear green.

Only to keep from getting pinched, of course.
